A DESTRUCTIVE CONFLAGRATION AT FRANKFORD — A WOOLLEN MILL ENTIRELY DE-STROYLD—LOSS ABOUT \$150,000 — Between twelve and one o'clock this morning one of the most de-structive confiagrations that has occurred in Frank-ford for years took place at Garsed's wootlen mills, situated on Powder Mill lane, near Adams stroet, insituated on Fowder Mill lave, near Adams street, involving the total destruction of the mills an i a large quantity of finished and unfinished material. Some account of the fire may be found upon our third page. The following particulars are now added:—
The mill buildings were now stories in height—the two lower ones being built of stone, and the three upper ones of wood. The main building was 110 feet in length and 40 feet in width. Adjoining the main building on the rear was a one-story stone building, 110 feet in length by 30 feet in depth. This was used as the picker room, engine room, and drywas used as the picker room, engine room, and dry-ing room, and the other buildings were used for weaving and other purposes. Fae flames were first discovered in the oil room connected with the picker room, and, very soon after the fire broke out, the flames run to the outside staticase, and with terrible rapidity spread up the staircase and at once fired the interior of the building, and in the short space of

two hours the mils were a mass of ruins.

The upper rooms were filed with finished goods, and on the first floor were a great number of warps, which were mestly saved. The engine and machinery were considerably injured, but it is thought not irreparably so. Two Turbine wheels, which constitute the motive power of the mills are thought to be uninjured. By 8 o'clock the fire was extinguished, and when it was at its height it constituted a grand and mousing sight.

stituted a grand and imposing sight.

A number of hose companies and two or three steamers from Philadelphia were on the ground, and rendered all possible assistance and the Fellowship Engine, of Germantowa, Jaiso came over to the scene of conflagration. There were over 200 men, women, and boys employed at the mills, who are all thrown out of work by the fire. Mr. Garsed's toss will reach \$120,000, on which there is an insurance of \$12,500. The mill was owned by Mr. Israel Foster, whose loss will reach \$25,000, on which there is an insurance of \$10,000.

SPLENDID PRIZES FOR BASE BALL CLUBS—The attractions at the great Fair for the benefit of the fund for the founding of a home for aged and infirm members of the Methodist Episcopal Church of the Phitadelphia Conference, now being held at Concert Hall, are materially increased by the exhibition there of the magnificent set of Base Ball implements, to be awarded as prizes to the two base ball clubs receiving the highest number of votes from the pairons of the Vair. The prizes—two in number—are the most magnificent affairs of the kind ever gotten up in this city. The first prize is a highly finished rosewood bat and ball, superbly mounted in gold, the plate on the bat representing a base bail field, with a game in progress. The handle of the bat is ornamented with a handsome topaz.

The second prize consists of a ball righly and SPLENDID PRIZES FOR BASE BALL

WISSAHICKON OIL WELL .- For the last week the newspaper press of this city has contained accounts of the attempt at discovering oil on the banks of Wissahickon creek. It is said two wells are in the process of being sunk, one having already reached the depth of nearly three hundred feet. Both wells were commenced at the same time, but owing to a break in the machinery only one has been sunk to any depth. The machinery is now in full

They will commence pumping from one well by the beginning of next month. Oil has not yet been dis-covered, but there is now every indication of its rapid appearance. The company who have the rapid appearance. The company who have the matter in charge have great expectations, and seem confident. They complain of being a good deal an-noyed by visitors, there being hundreds out there

But this cannot be helped. The idea of boring for oil right in the city of Philadelphia is too novel a thing to let sip without seeing. There are so many who have been investing in oil and losing, whose cyrically to see a well in operation will be so great that they will leave no opportunity slip to see the

mode of of eration.

FIGHT BETWEEN AFRICANS AND CELTS .-Thomas Doyle, Terence Glansey, Daniel Bigham, and John Hoye, compose a quartette of Irishmen. A night or two since the party went to Centre street, Germantown, and proceeded to pitch in ad libitum among a number of colored residents of that vicinity. The colored population not liking such liberties, resisted and the consequence was a general sogimmage, in the course of which the Celis came out second best, their African opponents proving entirely too much for them A sort of running fight took piace, in which stones were neely used, windows smashed, heads punched, and a knock down argument generally indulged in. Two of the Irishmen were con-siderably injured, and the police arrested the entire party and took them before Alderman Phomas, who held each one in \$1500 bail.

With regard to the contemplated change in the quantity, or in the menstruum itself, in the preparation of fluid extracts, I would take occasion to say that in medic ne the health of the patient is the great object to be gaived.

The cost of material is something, but when put

into the scale with human health and often human life, it is hardly worthy of consideration at all. My Buchu (Helmbold's) will continue to be made as formerly, and if it cannot be maintaised at present prices, they will have to be advanced to meet the advance in the price of material. Chief Committee of Arrangements Colonel Charles Albright moved to amend the programme so that the delegation of firemen, to act as a Guard of Honor to the Soldiers. Orphans, should be superseded be a sufficient number of officers attending, to be detailed from

all Districts of the State.

Colon-1 Lyle supported the action of the Committee of Arrangements, stating that the firemen had had a noble record in regard to voluntary aid extended to our volunteers, and that he understood that only firemen who had served in the field, would be detailed as the Guard of Honor. Guard of Honor. General Tyndale believed the proper position

of soldiers and officers were to guard the flags; and that the firemen should be detailed as the most worthy to guard the ambulances in which they had transported so many thousands of their brave fathers, husbands, and brothers. The amendment was withdrawn. Generals Brooke, Davis, Cou ter, Albright, and Selfridge were appointed a committee to prepare a

list of officers to be invited. The report of the Sub-Committee of Arrangements was then adopted.

A resolution of thanks to the Pennsylvania Centrained other railroad companies for their free rtansportation of the Color Boarers and Guards was

Anornen Lor or Mornons.—The Elm City brought up from New York 465 Mormons and Mormonesses, on their way to Utah, by the Vermont Central and Grand Trunk Railway. They came under the care of "Brother Miles," a special agent, who formed the train in England for the land of golden promise, on the other side of the Rocky Mountains. The majority of them are Welch and English, with the scattering of here and there a Hollander to make up a variety. The sexes are about equally divided, and are mostly young people of hale and hearty consti-tutions, whose countenances look the nesture of tutions, whose countenances look the picture of health. We are informed by the agent that there are now over 2000 Mormons on the way from the coast of Germany to the Rocky Mountains, and that all the frams are expected to reach falt Lake City before October, - New Haven Register.

Another Express Robbery.—On Friday morning, about 3 o'clock, the United States Express Messenger's safe on the mail train east from Kansas City, was robbed of \$15,000, between Lee's Summit and Pleasant Hill. The circumstances of the robbery, so far as they are known, were as follows:-After the train leaves Kansas City the messengers usually sleep until they arrive at Warrensburg. The thiet, it is supposed, entered the car from the side door, managing in some way to abstract the key from the pocket of the messenger, opened the safe and carried off its entire con ents, amounting to \$15,000. When the train arrived at Picasant Hill the robbery was discovered.
