desirous of walking avoced to Baltimore, we

of Virginia. You the Baltimore and Ohio Ball-can mewugh historic fields for many miles. dist place of interest is the Relay House. Then Sykesville and Ellicott's Mills will attract the attention of all who love magnificantly grand scenery. At Fredericktown we will be in the war historic region-the home of Bar bara Freitchie and other patriots whose memory will live forever. The limpid Monocacy river is near at hand, and gathers its strength from the mountains near by. Further on we can see the famed South Mountain, where a week may be spent pleasantly and profitably. The battle-fields of Gettysburg, Antietam, and Sharpsburg are of easy access. Travelling on to the Upper Potomac, we have a view of Maryland Heights, Falling Waters, Har per's Ferry, Jeiferson's Rock, Winchester, and the inxuriant valley of the Shenandoah. Fo the

north will be found the Camberland mountains, and other places of note, in Pennsylvania and Maryland. Passing on to Wheeling, we have a

panorama of splendid views, and taking steam" boat at that place, we move up the Kanawha river, the valley of which abounds with beautiful scenery. In this region will be found the fields upon which the first battles of the war

were fought.

Another Fatal Case in New York-Vigor-ons Inspection by the Sanitary Authoraties, Etc.

rifies, Etc. The fact that cholers is inrking about the city, among the crowded tenement-houses and in rear yards, cannot be gaussaid. The unwise and the indiscreet are the victums just now, and the localities where filth, an impure atmo-sphere, and the const-house population most around, as might have been expected, are those the disease selects for its haunts. The cases that have occurred have been thus far promptly reported to the Board of Health, who have used the best dismicctants known to science wherever they have been able to find any traces of the disease, or any causes that would be heely to aid in producing an epidemic. They do not hope, under existing circumstances, to save the lives of patients, although they turnish physicians whenever they may be needed, with-out interfering with regular practitioners; but they expect, by taking charge of the premites where the disease manifests itself, the privies into which the dejections have been thrown, and the clothing and bedding that may have been solled by the patient, and by thoroughly cleansing and purifying them, to arrest the aread of the inlection.

spread of the infection. They deluge these places with prophylactics, covering the yards with lime, fumigating dwell-ings with chlorine, and mundating water-closets with a saturated solution of sulphate of fron. with a saturated solution of sulphate of iron. Besides this, their inspectors visit every house in the vicinity where cholera is known to have occurred, take the names of those who are suf-fering from diarrhou, and, in cases where it is deemed necessary, give such prescriptions as ex-perience has shown to be best for the purpose of preventing the continuance of the disease. The following has been recommended by some dirtinguished physicians, and may be used, if a doctor cannot be immediately obtained, in seri-ous cases of diarrhous. Tincture of Opium, Tincture of Campbor, Tincture of Capsicum, of each 1 dram; Culorotorm, half a dram; mix and take half a teaspoonful after every evacuation. This will, in most instances, cure a darrhoa, but it does not follow that it will cure cholera. The typhoid symptoms which the disease leaves behind it in the system must have other treat-ment; but much has been gained when these characteristics have been overcome. By the use of the above remedy, until a patient can be seen by a physician, a recovery may occur which would be hopeless if the disease were permitted to go unchecked into a a full or even partial collarse. collapse.

FATAL CASE OF CHOLERA IN CHERRY STREET.

face, turned over, remarking that "she was tired and sleepy." Mr. Moseley went on reading, and in a few moments a Mirs. Blood, who lives across the hall in the same block, came in with a white waist which Mrs. Moseley had asked her to "do up" for her as she was washing, and seeing Mr. Moseley, told him that there was Mrs. Moseley's waist, and Mr. Moseley replied that she was asleep, he guessed, but that he would wake her, and stepped to the lowing and litted the hand-kerchiet from her face, and immediately saw that something was the matter with her, as her eyes were open and turned back. The fatal case of cholera reported to the Board of Health was that of Patrick Shea, an Irsh emigrant, who came to this city by the stcamship *Liverpool* about four weeks ago, and since his arrival has been living with his daughter at No. 51 Cherry street. He was in but at 5 o'clock the next morning was found tottering to the yard, and said that was the seventh time he had been up within an hour or two. At 10 o'clock of Wednesday he was seen by Dr. McGinn, who reported that he then pre-sented the aspects of a patient in cholera. Collapse gradually supervised, with husky voice and a succession of fluids from the surface until

and a succession of fluids from the surface until 3 P. M., when he was in full collapse. He re-mained in this condition about six hours, and died at 9 o'clock in the evening. During the night the precautions against in-fection from the evacuations were carried out to an extent that would scarcely be necessary in ordinary localities. All the quick lime, chlo-ride of lime and copperas that could be procured at the late hour were used about the premises. The clothing and bedding that had been soiled were immediately saturated with chlorinated soda, and orders were given to boil them for an hour as soon as practicable in water permeated soda, and orders were given to boil them for an hour as soon as practicable in water permeated with permanganate of potash. Fifteen barrels of quick-lime and an equal amount of the cheap coal tar and gypsum powders were distributed in the yards and guiters of the five blocks of which No. 51 Cherry street is the centre. Yesterday morning six inspectors went to work early to procure the names and ages of the sick in the district we have named, the malure of any diarrhees that may be found, how long it may have been in progress, the number of per-

say have been in progress, the number of per-sons in each family, and the number of tamilies in each house, with a full detail of all their sani-lary wants. This is, perhaps, one of the most crowded and filthy districts in the city, and the case that died there Wednesday night one of the e Wedn iay night one of the most virulent that has yet taken place. A gen-tleman who saw the case and who has seen cholera in every form, says that "Cholera of this kind would kill 500 persons in ten days, in the Fourth or Seventh Ward, if the disease should assume an epidemic form." The precau-tions the Health authorities have taken we have no doubt will arrest the disease, but the habits of the population in the neighborhood are such that induce them to fear the worst, though in the words of the homely saying, they hope the best.

so tired of life I cannot be happy myself nor make others around me. I shall take fifty-five cents worth of morphine (5:15 P. M.)" "Mrs. MARY MOSELEY.

killed myself with my eyes open, and in the full enjoyment of my senses, and will also prove what I have always said—that I am not arraid to die. I want you to send my mother all my clothes, and remember 'tis my dying request that you shall always help her as long as you have anything left to divide; give her what you would have given me had I hved. "I should have done this long since, but for her—it has been my constant study for the past year. Do not mourn for me I love you both, and do not wish to make you trouble, but I am so tired of life I cannot be happy myself nor

"P. S.-Keep me swe or three nights certain. Spread my blue vell over my face, not a sheet. It is twenty minutes of six, and I took it five miautes ago. Good-by, darling. Don't forget to help mother.

"LATER.

"I am not sorry nor frightened the least, though I know I am dying. Do what you think best with my rings and trinkets. Remember, I always loved you. Love to friends." This explained the illness of Mrs. Moseley, and

Doctors Searle and Mercer were also called, but the large dose and length of time it had been the large dose and length of time it had been taken, prevented all efforts to overcome the effects of the poison, and she died at about 11 o'clock last night. Mrs. Moseley was aged about twenty-two or three years, and has been married nearly three years.

She was a woman of excellent qualities, and during yesterday she was engaged in soliciting subscriptions to aid a poor woman in purchasing a sewing-machine, and collected six dollars, which she handed to the woman for whom it was intended. She washed and dressed herself with scrupulous care before taking the fatal potion, and from circumstances must have written the first part of the letter prior to taking the poison, as the two latter portions of the letter were written very poorly, showing that she was under the influence of the drug. Mrs. Moseley was a spiritualist, and believed that she could be present with her hundand in spirit as well as in body, and this may have been one of the inducements which led to the sad act.

WANTED TO DIE BECAUSE SHE COULDN'T GO TO A BALL

A Mrs. Zerringer, who lives on West street, Indianapolis, attempted self-destruction on Friday afternoon, by taking opium. She was man ried to her present husband some months ago, and it has been a favorite plan with her, when-ever the course of her domestic life did not run smooth, to threaten self-destruction. On the day above mentioned she desired to go to a ball, to which her husband quietly remonstrated, urging that he could ill afford to incur the attendant expense.

The rash woman concluded that if she couldn't go to the ball she would, with all couvenient haste, go straight out of the world. Putting on her bonnet, she went to a drug store and called or opium, of which she purchased sixty grains. She took the entire quanti y in four doses-the last about one o'clock on Saturday morning. Of course, she was soon completely under the influence of the Lethean draught. She was in a comatose state the greater part of Saturday, but at night the prognosis was more favorable, and it was expected she would recover.

The United States Steamer "Wyoming" Strikes a Rock. From the Providence Journal, 12th.

From the Providence Joursal, 12th." Mr. James A. Smith, Paymaster's Clerk on the United Statessteamer Wyoming, writes from Foo Chow, March 22, an account of an accident, which befal the vessel on the 17th, in going up the river towards that city. A danse fog had prevailed in the morning, and the vessel was borne from her course by a current. She struck a large rock, and began to leak rapidly. When she arrived at Foo Chow it was found that the hole was ten feet below the water line, amid-ships on the port side. It was 20 feet long and three feet wide. Eight knees were crushed. It was expected that it would take three weeks to repair the vessel.

-A frame building, which Mr. Reuben Bowles and Mr. Fuelds, of Murfreesboro, Tenn , had pur-chased from the Government, fell upon them while they were engaged in tearing it down. Mr. Bowles was killed, and Mr. Fields had a leg fractured by the accident.

THE CHOLERA AT QUARANTINE.

While the disease is thus making inroads upon the population of the city, it seems to be abaling its Moience, in some degree, at Quarantme. The r port of Dr. D. H. Bissell, Depuig Health Officer, under date of June 14, announces "no deaths." Three new cases have been admitte to the Hospital-ship Falcon, namely:-Edward Swensen, aged 14, of Sweden; Jacob Ruhen, aged 19, of Prussia; and Hermann Gasser, aged 10, of Austria. There are now 48 persons in the hospital under treatment.-New York Tribune.

MISCELLANEOUS ITEMS.

-The New Haven Merchants' Exchange was -The New Haven Merchants' Exchange was opened on Monday with an address from the President, Hon. Morris Tyler, followed by James Brewster, ex-Governor Duiton, Simeon Bald-win, Esq., President of the New York Merchants' Exchange; Governor Hawley, Hon. David Gal-lup, Speaker of the House, and other gentlemen. The Exchange numbers 275 members, comprising all the leading merchants all the leading merchants.

-A "colored" millionaire, announced as the Duc de Bouten qui Perce, is in Paris. He is the wealthiest of the ex-Emperor Soulouque's abony courtlers. His fortune is stated to be seven mil ions; and a splendidly decorated and furnished hotel has been prepared for him in the Avenue de l'Imperatrile.

-Now that the strawberry season has come, it might be useful to know that in Sicily it is the custom to crush the strawberries with white powdered sugar, and to squeeze the juice of an orange or two over them. This makes a most fragrant and agreeable compound, superior to strawberries and cream.

-Colonel Peterson Thweatt, late Comptroller-General of Georgia, has been appointed by Governor Jenkius to distribute the corn recently purchased at St. Louis for the destitute of each county in the State. It is ascertained that there are forty thousand persons in Georgia in need of such relief.

-A party of twenty-four gentlemen in Cald-well county, North Carolina, have just returned from a great squirrel hunt. Half of the number exhibited one thousand three hundred scalps, and the other exhibited nineteen hundred and the other exhibited nineteen hundred and sixty-six. The largest number killed by one man was eight hundred and twenty seven.

-Andrew Johnson, Jr., nephew of the President, has been removed from the office of agent of the Penitentiary at Nashville, by the Commis-sioner of that institution, and J. S. Hall, for-merly Colonel of the 37th Indiana Iriantry, appointed in his place, with the new title of Wardea.

-A bad man, misnamed Goodman, in course of a bar-room row al Owensboro, Ky., on Thurs-day last, drew his revolver and shot three men. One McAilister was killed instantly; Barksdale was mortally wounded in the breast, and Wil-liam Brown seriously wounded in the leg.

-The grumbling of the Canadian press at the alleged delay of the United States Government in enforcing the neutrality law, reminds one of the boy who, on being rescued from drowning, growled at the quantity of water he had been obliged to swallow.

-The Connecticut State Prison, at Wethers field, has 195 convicts, of whom 17 are in for
