

Evening Telegraph
Published every afternoon (Sundays excepted) at No. 108 S. Third street.

TUESDAY, JULY 10, 1866.

Persons leaving the city during the summer months, can have the Evening Telegraph mailed to their addresses...

The Probable Fate of the Tariff Bill.
The New York Tribune this morning contains the following despatch in regard to the probability of the adoption of the Tariff bill in the House...

The consideration of the Tariff in Committee of the Whole was finished this afternoon. Tomorrow the reading of the journal will be dispensed with, and the bill promptly moved at the opening of the session...

The second gauntlet will be the attempt to postpone the bill to December next, ostensibly to avoid the political dangers that menace the Western protectionist members...

The third gauntlet will be the yeas and nays on the motion to lay the bill on the table—that is, to kill it outright.

Many members, protectionists in principle, are about to vote against the bill, and it is not unlikely that it will be defeated...

The sentiment in the House is overwhelmingly in favor of a fully protective tariff. The British Free Trade League, whose headquarters are in New York city...

When a hopeful and good protective journal like the Tribune begins to score up a majority of more than ten in favor of a measure of such vital importance as the Tariff bill, we begin to feel anxious...

When we consider that our country is yet prostrated from the effects of war, and that, in order to rise, every protection possible should be given her, we are at a loss to understand the local partisanship which induces Western members to endanger her prosperity...

OUR Democratic contemporary endeavors to draw a contrast between General GRAY and HERBERT CLYMER. It neglects the real elements of contrast in the characters and careers of the two men.

The true picture is something like this: GRAY, a man of experience and ability, a soldier of two wars, who, when his country was assailed by traitors in arms, rushed to her defense...

The Cause and Probable Termination of the Cuban Insurrection.
The New York Post of last evening concludes an article on the insurrection in Cuba with the following passage:

If the movement is what we suppose, it is not in the hands of mere filibusters, but of men who mean liberty and justice and peace, in place of oppression and bondage.

Our opinion coincides with that expressed by our New York contemporary. We do not think that it is a mere effervescent outburst, but are inclined to believe that it is the determined and desperate endeavor of a people to free themselves from Spanish rule.

The power of Spain has of late been broken. She has lost all her prestige—a little republic like Chili has dared her and defeated her.

Whether the news which reached us yesterday from Cuba, via Baltimore, corroborated as it is by advices from Panama, shall or shall not prove exaggerated, we cannot doubt that the knell of Spanish domination over the Queen of the Antilles has sounded.

"Cuba has long been the brightest jewel in the Spanish crown, yielding a very considerable revenue to the government, and vast wealth to favored individuals among her people.

The fuller accounts and details of the battle of Custoza lead us to wonder, not so much that the Italians were defeated, as that they had the hardihood to court a battle under such adverse circumstances.

The above advertisement appears in the Congressional Globe, with the address of the gentleman who is kindly willing to write essays, and preserve the utmost circumspection.

OUR Democratic contemporary endeavors to draw a contrast between General GRAY and HERBERT CLYMER. It neglects the real elements of contrast in the characters and careers of the two men.

Senator Clark's Bill for Regulating Senatorial Elections.
The bill reported yesterday from the Committee on the Judiciary, by Senator CLARK, of New Hampshire, to regulate the time and manner of holding elections for Senators in Congress, is a necessary measure of reform.

"The times, places, and manner of holding elections for Senators and Representatives shall be prescribed in each State by the Legislature thereof, but the Congress may at any time by law make or alter such regulations, except as to the place of choosing Senators."

These examples are sufficient to show the necessity which has arisen for some definite and uniform method of procedure.

"First, That the Legislature of any State next preceding the expiration of Senatorial terms shall elect, on the second Tuesday of its session, a successor of the retiring Senator. The voting shall be by ballot, and the name of the person receiving a majority of the votes, shall be declared elected, but if the same person shall not have received a majority of the votes of both houses, or if either house shall have failed to take proceedings as required, the joint assembly shall proceed to choose extra voters, and the person receiving a majority of the votes, shall be declared duly elected."

"Second, That when a vacancy shall be existing on the opening of a session of a Legislature, an election shall be held on the second Tuesday of the session, and if a vacancy shall occur during the session, it shall be filled the second Tuesday after its announcement."

"This bill, if it shall become a law, as we trust it may, will diminish the number of contests before the Senate for disputed seats, and will do away with the irregularity and confusion which are now so characteristic of Senatorial elections in the Legislatures."

The engagement between the Prussians and Austrians, reported by the despatches brought by the City of London, took place in Northeastern Bohemia, Pardubitz, where the Austrian telegram is dated, is situated on the railroad directly east of Prague.

Prussia offers the beleaguered King of Hanover an alliance, with a guarantee of his throne, on the basis of reform, as terms of honorable capitulation. He will probably accept.

LITERARY.—Fair copies of manuscripts made promptly; manuscripts corrected; essays, etc., composed from materials furnished. Good references will be given, and the utmost circumspection observed.

Wilkox & Gibbs' Improved Loopstitch Family Sewing-Machines. CHESTNUT ST. NO. 720.
