

THE RELIGIOUS WORLD

THE CITY PULPITS TO-MORROW. Baptist.—The Rev. Henry D. Moore will preach in the morning, at 10 o'clock, at the church on Thirteenth street, above Wallace. Congregational.—The Rev. William D. Patton, at the First Church, Frankford road and Montgomery avenue, morning and evening. Rev. Dr. Malin, at the Central Church, Eighteenth and Green streets, morning and evening. Rev. Frank Russell, at the Hall of the Plymouth Church, Ridge avenue, below Jefferson street, morning and evening. Lutheran.—Rev. N. M. Price, at the West Arch Street Presbyterian Church, Eighteenth and Arch streets, morning. Rev. B. F. Kinsler, at St. Peter's Church, Christian street, below Sixth, in the morning. Methodist.—Rev. James Neill, at Union M. E. Church, Fourth street, above Arch, in the morning; Rev. Dr. Carrow in the evening. Rev. Andrew Manship, at Calvary Church, Twenty-first and Jefferson streets, morning and evening. Presbyterian.—Rev. J. H. McIlvaine, D. D., at the North Presbyterian Church, Sixth street, above Green, in the morning. Rev. A. Paul, at the Richmond Church, in the morning. Rev. William E. Luckenback, at the German Street Church, in the morning. Reformed Dutch.—Rev. J. H. McIlvaine, at the First Church, Seventh and Spring Garden streets, in the evening. Roman Catholic.—The cornerstone of the new church of St. Anne, Port Richmond, will be laid to-morrow afternoon at 3 o'clock. Bishop McGill, of Richmond, Virginia, will officiate on the occasion, assisted by a number of clergymen, and the sermon will be preached by Very Rev. Dr. Moriarty, O. S. A. Miscellaneous.—Rev. H. Mauny, at the Eglise de Christ (French), No. 1009 Chesnut street, morning and evening. Elder Burbank preaches at Spring Garden and Ninth streets in the morning and evening. Rev. H. S. Hoffman, at Sixth and Girard avenue, in the morning. In the evening Charles H. Sutton at the same place. Rev. L. Osler, in Horticultural Hall, Broad and Walnut streets, morning and evening. A woods meeting was commenced this morning in Eggle's woods, three miles southeast of Whitehall Station, on the Pennsylvania Railroad. It will continue through to-morrow, with preaching morning, afternoon, and evening. Rev. Dr. Castle, Rev. J. F. Meredith, and others will be present.

THE GREEK CHURCH.—Hitherto it was the practice in Russia that when a criminal, not a Christian, embraced Christianity pending the proceedings taken against him, a more lenient sentence than would otherwise have been given was pronounced. This mode of proselyting has now been abolished. The mitigation of the punishment of criminals on religious grounds has been declared inadmissible by a recent law. The Russian Government has succeeded in raising to the patriarchate of the Armenian Church a man devoted to Russian interests. It has for years been the policy of Russia to encourage the absorption of all the remnants of the Eastern Churches into that of Russia. The whole Georgian Church, and nearly the whole of the United Greek Church, has been united with the Church of Russia, and it is expected that the union of the Armenian Church will soon follow. JEWISH.—The New York Jewish Messenger denounces the Common Council of that city for donating property of the city corporation for sectarian purposes. "We care not," it forcibly remarks, "whether the beneficiary be Catholic, Protestant, or Jewish, it is contrary to the spirit of republican government to encourage or to repress sectarian institutions. It is not within the scope of the Common Council to give away the city property for any such purpose. If any body of citizens desire to maintain a college or cognate establishment for the preparation of their peculiar religious views, they have no claim upon municipal assistance." Dr. Steinheim, a Jewish author of great eminence, died at Zurich, Switzerland, in his seventy-eighth year. In his younger days he was an eminent physician and medical author at Altona. Later in life he retired from the profession, and travelled about a great deal. It was after his retirement that he composed his principal classical works connected with Judaism. His love of art was great, and he spent much of his time in Rome. Baron Rothschild of Vienna has appropriated the sum of 2000 florins for the benefit of such poor Jewish families the fathers or brothers of which should have been called to the Austrian army. LUTHERAN.—The Third English Lutheran Church, Baltimore, has received fifty-eight persons, mainly from a Bible class held once a week by a layman. Most of the students in the Lutheran Theological School in this city are preparing to preach the Gospel in both German and English. METHODIST.—The Primitive Methodist Conference of England met at Chester June 6. The statistics of the Connection, exclusive of the Canadian Societies, were:—Total members, 151,307; increase, 2007; deaths, 2178; travelling preachers, 880; local preachers, 13,727; class-leaders, 9103; Connectional chapels, 2932; increase of new Connectional chapels, 155; rented chapels and rooms, 3183; Sunday Schools, 2335; scholars, 227,476; teachers, 46,203. The Mission Rooms are in receipt of the Quarterly Report of the New Orleans District of the Mississippi Mission Conference, showing an increase in members of 1180; of probationers, 97; of churches, 1. Increase in value of church property, \$2500. The Camp Meeting of the Newark Conference is appointed for August 20, near Morris-town, N. J., on Speedwell Lake. A great gathering is expected. A letter from a Southern Methodist minister describes the state of feeling as quite unfriendly to Northern laborers in the churches. Many instances are given of malicious interference with worship. Philip Embury and Barbara Heck were the only Methodists in America one hundred years ago. Now there are twenty bishops, seventeen thousand ministers, twenty-seven thousand local preachers, Sunday School teachers, etc., two million communicants, nineteen thousand churches, two hundred colleges and academies, and twenty bookstores. These figures show to what a mighty power Methodism has grown in one hundred years. Mr. Redford, book agent of the M. E. Church South, announces that in conducting his business he must confine himself to the cash system. The Massachusetts Legislature has appointed Rev. Henry W. Warren, of the New England M. E. Conference, to deliver the next annual election sermon before that body. Bishop Baker, after reaching Denver City, en route to attend the Pacific Conference, became so ill as to render it important to return at once to his home in the East. The African Methodist Episcopal Church has been in existence fifty years. It embraces ten annual conferences, four bishops, two hundred travelling preachers, and 75,000 members. They own two hundred and eighty-six churches, have thirty-nine clerical, forty missions, and fifty stations. Their Sunday School scholars and teachers number 21,000, and they have over 18,000 volumes in their libraries. Their church property is valued at over \$850,000, and they expend more than \$84,000 a year for the support of their preachers. PRESBYTERIAN.—The Duke of Argyll has declined to sign a petition in defense of the Westminster Confession, and against innovations, for presentation to the General Assembly of Scotland, because he is not aware that any doubt has been cast on the Westminster Confession as the doctrinal standard of that Church, and because he does not know that any changes have been made in the forms of public worship which exceed the reasonable liberty which ought to be allowed to the various congregations of the Church. The Duke says:—"Both in doctrine and in government, it is the part and the business of the Presbyterian Churches to be in themselves a protest against the fundamental errors of which Popery is only the complete development. These errors may and do prevail in churches no longer in connection with the See of Rome. They are involved in every priesthood which pretends to

connect exclusively with its own order the vital functions of the Christian Church. These are not errors, indeed, essential to Episcopacy to involve them and to develop them. It is against these errors, and the correlative system of doctrine which is inseparable from them, that the Presbyterian churches of Scotland are an invulnerable defense. For this purpose I wish them to be strong. No one would regard with more jealousy than myself any attempt, or any indication of an attempt at compromising the fundamental principles on which their policy and their doctrine depend. But it is, in my opinion, shortsighted and most unwise to confound those principles with accidents of worship which may have become, in many cases at least, sources of weakness rather than of strength." Of the six principal Presbyterian churches in Baltimore, it is thought only two will accede, and even those contain a considerable protesting minority. The Mercer Street Presbyterian Church, New York, continues open through the summer. Dr. Towne preaching; Dr. Krieb's church, Madison Avenue, is also open, Rev. Dr. Whitehead supplying the pulpit. The Rev. Dr. J. P. Stearns, of the First Presbyterian Church, Newark, New Jersey, has received an invitation to assume the Presidency of Hamilton College. Seventy-four persons have recently joined the Presbyterian Church in Harbor Creek, Pennsylvania. The permanent fund of the General Assembly for the relief of disabled ministers, etc., has received \$1000 from an unknown friend in New York city. Rev. Hober H. Beadle, son of Rev. E. R. Beadle, has been installed as pastor of the Second Presbyterian Church in Bridgeton, New Jersey. Rev. B. L. Stanton, D. D., formerly of the Danville Theological Seminary, Ky., has been elected President of Miami University, Oxford, Ohio. Dr. Stanton was Moderator of the last Old School General Assembly, which met at St. Louis. Rev. Emanuel N. Pires, a member of the last graduating class at Princeton Theological Seminary, was ordained at Jacksonville, Ill., on the 4th of May, by the Presbytery of Sangamon, as a missionary to Brazil. He is a Portuguese by birth. George H. Stuart, Esq., of this city, has been entertained at a public breakfast in Belfast, by the ministers and ruling elders of the Irish General Assembly. Rev. W. M. Cheever has already entered upon the duties of his new appointment under the A. B. C. F. M., at the office, No. 28 West Fourth street, Cincinnati. Ground has been broken for the foundation of a Presbyterian church, to be erected at the junction of Franklin street and Columbia avenue. From a glance at the drawings of the architect, we learn that it will have a front of 25 feet and a depth of 100 feet; that it will have a brown stone front in the Norman style of architecture, and that the side walls will be of pressed brick. There is to be a basement for school and lectu-erium, with a handsome audience-room above, 62 by 80 feet, with a ceiling 32 feet to the crown of the arch. It is to have a tower and spire, the whole 192 feet from the ground. The Alexander Presbyterian Church is also progressing finely, and when finished will be one of the most ornamental in this city. It is in the Norman style of architecture, and is being constructed of "white stone," with brown stone dressings. It will have a tower and spire, all 170 feet high, and will be ornamented with turrets. The audience-room will be 52 feet by 96, with a height of 45 feet to the crown of the arched ceiling. The building is to be 55 feet front, and capable of seating about 600 persons. There will be a basement for class-rooms, school-rooms, etc., and the audience room will have an arched ceiling of 32 feet to the highest point. There will be a gallery along the front of the building, which will accommodate 150 persons. ROMAN CATHOLIC.—The late riot at Barietta, Italy, gave rise to a debate in the Italian Parliament, in the course of which the article in the Constitution was referred to which declares Roman Catholicism the religion of the State. Upon which the Minister of the Interior said, "The first article of the Statute cannot extenuate in any way excesses of this kind, and take nothing from liberty of conscience. What is meant by the first article of the Statute by stating that the Catholic religion is the sole religion of the State? It means nothing else (and this has been repeatedly said in Parliament, and never been contested), but that the State declares that everything that it undertakes or will undertake in connection with some religious rite will be done in connection with the Catholic rite. This and nothing else is the meaning of the article of the Statute." In response to an address recently presented to the Pope by a large number of strangers residing in Rome, his Holiness responded:—"I alone, despite my unworthiness, am the successor of the Apostles, the vicar of Jesus Christ; I alone have the mission to guide and direct the barque of Peter; I am the way, the truth, and the life. Let them well understand this, that they may not be deceived, or led astray by soi-disant Catholics, who desire and teach something quite different from what the Head of the Church desires and teaches." The Pope, it is said, was "full of dignity and grandeur" when he pronounced these words. The Pope held a consistory on the 21st ultimo, in the Sistine Chapel, at the Vatican, on which occasion several eminent prelates were graced with the real cap of a cardinal. Prominent among these was the Archbishop of Dublin. The other promotions were of the following:—Cardinal Hoheloh, nephew of the illustrious prince of that name; Cardinal Biglio, inheritor of the dignity, as he was of the learning and abilities of Gerold Fontana, and Lambroschini, all of whom, as cardinals, rendered illustrious the Order of Barnabites, to which they belonged; Cardinal Consolino, a distinguished Canonist, for many years connected with various congregations of Rome; and Cardinal Mattei, who, for a long time, and under very trying circumstances, held the official post of Governor of Rome. On the 22d ult., the Pope held a secret Consistory, in which five Cardinals were preconized, and eight Archbishops and Bishops. Amongst the Archbishops was Monsignor de Merode, whom the Pope has named his almoner. It is remarkable that Monsignor de Merode succeeds to the title in partibus, held by Cardinal Andrea when he was Archbishop. In his address to

profession of faith, under the labors of the men employed by the Home Missionary Society, was 2183, and the number added by the labors of the Board was 2330. Rev. N. Thompson, of "Boulder City, in Boulder county," writes to the American Home Missionary Society that he has removed his place of worship from the kitchen, four miles below, where he had congregations numbering thirty-five, to a school-house where he gathers sixty or seventy. MISCELLANEOUS ITEMS.—There were one thousand one hundred and twenty-three church edifices in New Jersey in 1860. These would seat 461,746 persons, and were valued at \$7,762,705. They were severally divided among the different denominations as follows:—Adventists, 1; Baptist, 130; Seventh-day Baptists, 6; Christian, 10; Congregationalist, 4; Dutch Reformed, 84; Episcopal, 105; Friends, 61; German Reformed, 4; Jewish, 1; Lutheran, 17; Methodist, 404; Presbyterians, 211; United Presbyterian, 1; Roman Catholics, 61; Spiritualist, 1; Swedenborgian, 2; Union, 11; Unitarian, 11; Universalist, 3; Mormon, 2.—The new Bible House in London is to cost twenty thousand pounds, to be raised by subscription, not from the current funds of the Society. Rev. John Dowling, D.D., has been elected to fill one of the vacancies in the Board of the American and Foreign Bible Society. Rev. Ichabod Gidding, one of the most eloquent and effective of the seventy lecturers sent out by the American Anti-Slavery Society in 1865-6, and long a zealous laborer in the cause at the West, died recently at Baraboo, Wisconsin. FINANCIAL. \$6,000,000 SEVEN PER CENT. FIRST-CLASS First Mortgage Bonds. THE NORTH MISSOURI RAILROAD COMPANY has authorized us to sell their First Mortgage Seven Per Cent. Thirty Year Bonds. The first amount is \$6,000,000. Coupons, payable on the first days of JANUARY and JULY of each year, in New York. Before consenting to this Agency, we have made a careful examination of the merits of these Bonds, by sending William Minor Roberts, and others, to report upon the condition and prospects of the Railroad. Their report is on file at our office, and is highly satisfactory. We do not hesitate to recommend these Bonds as being a first class security, and a most safe and judicious investment. The proceeds of these bonds will be used in extending a Road (already complete 170 miles into North Missouri) to the Iowa State line, where it is to connect with the railroads of Iowa; and to also extend it westward to the junction with the Pacific Railroad (at Leavenworth) and other roads leading to the Missouri River, so that this mortgage of \$6,000,000 will cover a completed and well-located Road of 389 miles in length, costing at least \$16,000,000, with a net annual revenue, after the first year, of over \$1,000,000, or a sum nearly four times beyond the amount needed to pay the interest on these Bonds. The income of the Road will, of course, increase every year. The Railroad connects the great city of St. Louis with its two hundred thousand inhabitants, not only with the richest portions of Missouri, but with the States of Kansas and Iowa, and the great Pacific Railroads. To the first applicants we are prepared to sell FIVE HUNDRED THOUSAND DOLLARS, at the low rate of EIGHTY CENTS, desiring to obtain a better price for the remainder. This will yield about 9 per cent. income, and add 20 per cent. to principal at maturity. Any further inquiries will be answered at our office. JAY COOKE & CO., BANKERS, No. 114 South THIRD Street. Permit me to state that the iron which enters into the composition of this medicine, is not a mere inert substance, but a powerful agent, and enters into all parts of the system, and builds up an iron constitution. DYSPEPSIA AND DEBILITY. From the Yearly Archives of SCOTCH DOCTORS, LONDON, Canada, Ed. March 24, 1865. "I am an inveterate Dyspeptic of more than 30 years standing. I have been so wretchedly benefited in the three short weeks during which I have used the Peruvian Syrup, that I can scarcely persuade myself of the reality. People who have known me are astonished at the change. I am now robust, and feel as if I were a young man, and that which has done so much for me is the Peruvian Syrup." A CASE OF 27 YEARS' STANDING CURD. From INGLE JEWETT, No. 15 Avon Place, Boston. "I have suffered, and am suffering, for 27 years from Dyspepsia. I commenced taking the Peruvian Syrup, and found immediate benefit from it. In the course of three or four weeks I was entirely relieved from all suffering, and have enjoyed uninterrupted health ever since." One of the most distinguished Jurists in New England writes to a friend as follows:—"I have tried the PERUVIAN SYRUP, and the result is that it restores your vitality. It has made a new use of me in using it to my system new vigor and energy; I feel no longer tremulous and debilitated, as when you last saw me, but I feel robust and vigorous, and with large capacity for labor, mental and physical, than at any time during the last five years." An eminent Divine of Boston says:—"I have been using the PERUVIAN SYRUP for some time past; it gives me new vigor, buoyancy of spirits, elasticity of muscle." Thousands have been cured by the use of this remedy. Iron tonic, sickly, suffering creatures to strong, healthy, and happy men and women, and invalids cannot reasonably hesitate to give it a trial. A pamphlet of 32 pages, containing certificates of cures and recommendations from some of the most eminent physicians, clergymen, and others, will be sent gratis to any address. While as a preparation, free from noxious ingredients, poisons, or minerals; uniting skill, science, and medical knowledge; combining all that is valuable in the vegetable kingdom; for the cure of the disease, it is INCOMPARABLE! And is entitled, merita and receives the general confidence of the public. SEYMOUR THATCHER, M. D., OF BOSTON, N. Y., writes to Dr. Wistar:—"Wistar's Balsam of Wild Cherry gives universal satisfaction. It seems to cure a cough by loosening and clearing the lungs, and by soothing irritation, and removing the cause, instead of giving up the cough, and leaving the cause behind. Consider the Balsam as good as any, if not the best, cough medicine, with which I am acquainted." From Hon. Judge S. P. F. of Canajoharie, N. Y.:—"I have used Wistar's Balsam of Wild Cherry for several years, and in all cases in which I have used it, it has proved to be a most valuable remedy. I have used it in reference to anything of the kind, and I have never known it fail. In cases of asthma, I have used it with the most successful results, and I have never met with anything equal to it." DAVID SPRAKER, The Rev.
