RECONSTRUCTION.

Chief Justice Ruffin Against the New

Johnson as a Despot and Usurper.

From the Raleigh Standard.

Constitution-He Denounces President

We learn, and indeed the fact is admitted by the Sentmel, the organ of Governor Worth, that the long and abie argument recently published in the Wilmington Journal, against the New Constitution and the powers of the late State

Convention, and copied with so much gusto by the Secession press of the State, is from the pen

of Chief Justice Ruffin. We regret we have not

space to lay this argument in full before our readers, but we give the following extracts, which will afford some idea of its intent and spart. The Chief Justice says:—

cause your Convention was not a legitimate Convention, and had no power to make a Con-

stitution for us, or to after that which we had

and have; and that it cannot be made a Consti-

intion, even by popular sanction. It these positions be correct, it ought to be rejected by the people, as the easiest, simplest, and most

efficient method or setting the points at rest, and avoiding many perdexing and dangerous questions before the Judiciary. I object to the

organization of your body as a Convention, because it was called without the consent of the

people of North Carolina by the President of the United States, or under his orders— an act of clear and despotic usurp-pation, which could not give the body any authority to bind the State or its inhabitants.

It it be said the President, or his satrap—his Governor of a Province—did not call, or

rather constitute the Convention, but the

delegates were elected by the people, and thereby the body was duly constituted, I deny

it, directly and positively. Mr. Johnson required a convention to perform certain specific acts; to annul the ordinance of secession, and

tender a return to the Union, or claim its con-

tinued existence under the Constitution of the

United States; to emancipate the slaves, and

ordain that slavery shall never hereafter exist

promptly and in satisfactory terms; and

the third at the last moment, under sub-

jection and in conformity to orders, after having once refused to adopt the measure. All

was done, I say, that was required, and Mr.

Johnson proclaimed that he had got all he

wanted; that we were back as a State and might

choose our Representatives in Congress in con-

formity to our rights as a State, and to our law

regulating elections. Was there anything more for that Convention to do? Were they chosen

for any other purpose, even by those who were allowed to vote for members? How dare they,

then, go on to trame a Constitution, a law tor

elected them for other ends, and also on taat large

portion of the patriots and heroes—"unpar-doned Rebels"—who were not allowed to vote at

cedent until the present term of radical assump-

tion of power in a dominant military or nume-

rical majority, without respect for rights or the Constitution. As far as they safely can, and

whenever they can, the people ought to resust that pretensior. This they can peacefully do, when called upon and allowed to vote; and I

trust they will do so on this occasion without

commetion, in support of the great principle of

human liberty-that a people have the right to

make their own Constitution, and not be made

subject to one imposed on them, by force or

fraud, by an extraneous power, or by a fraction of their fellow-citizens."

The pretension is without parallel of pre-

all time, which is to be binding on those who

CITY INTELLIGENCE.

A TERRIBLE ATTEMPT AT MURDER-A MAN'S WIFE CONSPIRES TO TAKE HER HUSBAND'S Life.—This morning, hearing of a mightful attempt to murder one of our citizens, our reporter recaired to the scene of the occurrence, No. 417 Gwkill street, and got possessing the contract of the contract sion of the following facts from the gentleman himself on whom the murder was attempted. Mr. Hull, the person in question, who keeps a barber saloon in Cheener street, near Strawberry, cave us the followin; part culars con-cerning the attempt on all life. Mr. Hull is a white man, aged about 40 years. His statement

"A plan was said to murder me for my money by a man named Wilmam Barser (white man), and Jane Hull, my wife. Last night when I came nome, at a little after twelve o'c eck, I found the light nearly out in the cellar kitchen, where a light was usually kept. I did not go down stairs, but went up into my bedroom and asked no wife what was the matter with the lamp, and she said it was out of order. I told her I would go down to go to the water-closest. She followed me down, and the then went down stairs. When I returned I found the light still dimmer, and she had gone up stairs. I had turned to go up stairs when she called to me to go down in the cellar to get the light, and I turned to go down?

This stairway into the cellar vitchen was very narrow and dark. At the foot of the stairs there is a doorway leading into a small vault. In this place there were two colored men concealed, armed with hatchets. Mr. Hull continues:—

"I had just passed the vault door when I heard a slight noise inside; I turned, when they jumped out, and one of them struck me on the head with a halchet, knocking me down in the opposite corner of the room; then when I was down, he jumped on mand a rothled me; he held me so that I could not hando out out finally I recovered my strength and threw him off, and cried murder land got up and hoisted a window opening into the street when they both ran up stairs. One of them ran into the water closet and the other into the second story the water closet and the other into the second-story front room and concealed himself in a closet: the one that struck me was in the water-closet; it is stated that they were to get \$800 to murder me, and they would get the key of my safe; they were employed by William Barker; there was also a clothes line on the table near the bed, supposed to be to the me if they did not succeed in the cellar. One colored man stated that after the murder he was to get the key of the fire-proof from my pocket. He also stated that my wife placed the hatchet in his hard and concealed him. Yesterday morning at the breakiast table, my wife stated that I would be a dead man within four weeks or two months. The plan was laid two or three days ago."

The above is taken down from Mr. Hull's lips, The above is taken down from Mr. Hull's lips.

and on the spot of the occurrence. The neighbors stated that the negroes were seen coming into the house in the early part of the afternoon. At the hearing at the Station House, Union street, below Fourth, they (the negroes) recognized Barker as the man who

Yesterday, also. Barker was seen by others talking to these negroes.

When the officers arrived Mr. Hull's wife got up, and wanted to know what they wanted, as there was no one in there, and the officers had to burst open the door. The officers making the arrest, and to whom credit should be given for their timely appearance on the spot, were Sergeant Pearson and Officers Bayletts, Jeffries,

At the hearing before Alderman Swift the two negroes, John Kinsley and Charles Green, Confessed. Barker, who was arrested at Seventh and South streets, Mrs. Hull, and the two negroes, were commuted to answer the charge of attempted murder. Mr. Hull received a very severe cut over the right temple, but is now doing well. The negroes left a pair of old shoes in the cellar kitchen.

Mr. Holl is a very mild, inoffensive man, and is well known as one of the best amateur chequer-players in the United States. He had in his possession, in the sale at his house at the time of the attempted nurder, about \$3000 worth of United States bonds, the fruits of many vears savings.

EIGHTH STREET IMPROVEMENTS. - The spirit of public improvement is manifesting itself very extensively in the environs of North Eighth street. Some old and successful mer-chants upon this street have for a long time prosecuted their business in buildings of a character inferior to what one would expect, considering their mercantile reputation. although revolution in affairs seems, however, to have taken place, as almost entire blocks o new and magnificant buildings are in course of construction. This speaks well for the business of that locality, and also for the spirit and enter-

prise of the merchants. Mrs. Henry's cloak and mantua-making establishment has removed from No. 38 North Ninth street to No. 46 North Eighth street, and she has taken down the old front; and is about to replace it by a new and handsome one. She will be able to occupy her store in ten days. Immediately adjoining, H. Schwab & Co. are erecting a three-story brick, for the sale of fancy goods and trimmings. They will open the eek in September. At No. 28 North Eighth street, Mr. C. M. Hooper is putting up a fine four-story brick for the sale of faucy goods to a certain extent, but intends to make the sale of dress trimmings a specialty. At No. 30, Mr. Rosenbaum is electing a magnificent four-story brick. At No. 43, Mr. E. R. Lee is building a gorgeous brown stone front, a credit to any street in the city. This, and the two below, will exceed in extent and magnificence

any buildings on the street. The Staten Island fancy dyeing establishment are enlarging and electing a new front to their well-known establishment. They have raised their ceiling several feet, and the handsome bulk front they are putting up will be an honor to that locality. They have had an experience of fifty years on Staten Island, and have been located seven years in Philadelphia. Their increase of business, on account of the superiority of their work, has rendered this improve ment necessary. Surely Philadelphia is a growing city, and the merchants of North Eighth street have exhibited a praiseworthy and exemplary spirit in increasing its improvements.

THE GREAT CARNIVAL AND BAL MASQUE, which is announced to take place at Congress Hall, Cape May, on the evening of the 9th of August, promises to be the most superbaffair of its kind ever seen in America. The arrangements are under the immediate control of a committee of one hundred and fifty gentlemen of influence, now solourning at the different hotels of Cape May. It is their intention to spare no efforts or means to make this the Carnival of America. The immense facilities for giving this carnival at Congress Hall are unequalied in this country, as the elegant improve-ments in and around the hotel had, since last season, given the management an opportunity to introduce many entirely new features, which will, no doubt, make this huge festival the Carnival de Venice of America. The grand display of fireworks will be under the immediate supe intendence of the well known firm of Joseph B. Bussier & Co., of this city.

ENGRAVINGS .- We have received from Van Ingen * Snyder some specimens of chromo-ligneate engraving, in the highest style of art. That sot and celicate shadowing, heretolore supposed to be only attainable in a chromo-lithe graph, is exhibited in work on wood from this establishment. These beautiful pictures, which are an ornament to the drawing-room table of persons of the most judicious taste, are twentyfour in number, and are intended for four books. Another very rare and finely executed engraving is that of Satterlee Hospital, in West Philadelphia.

CHILD RUN OVER .- We have to record another accident resulting from the careless-ness of parents. An infant, only two years old, named McCormick, was run over by passenger car No. 30, at Twenty-second and Wallace streets, and had both of its legs broken, one of them in two places, and is now lying in a critical condition. It is expected to die in a few

WILL THE BOARD OF HEALTH LOOK INTO THIS MATTIR!—Hunning from Front street to Water, a short distance below Vine, are several open lots. For years past this locality has been the general reservoir for the fifth an I garbage of this densely populated neighborhood. boot-legs, potato peelings, old hats, and apple cores have accumulated here until they have at last assumed the proportions of an incipient mountain. It any person who has not the fear of cholera before his eyes will inspect the place. he will likewise discover that it has become a receptacle for worse descriptions of filthiness than those we have enumerated.

This summer the accumulation of garbage has been more rapid than ever before. At all hours of the night frowsy-headed women and cropneaded men may be tound resorting thither with buckets overflowing with pestitential refuse. Even in open daylight they have not desisted from this practice. A few days ago a man drove up and deposited a whole cart-load of reeking filth. He was tollowed to his retreat, at the distance of several squares, by a gentleman doing business in the neighborhood, while another hunted up a policeman. This latter official easily personded the carter to return and gather up his deposit, with which he drove off

to some other open lot, in all probability. Something should be done in this case, and that immediately. The stench arising from the refuse k abomin ble in this weather. The neighborhood is very densely populated, and what class of people everybody in the city knows. Should the cholera once cain a toothold among them, its ravages would be fearful. Yesterday a woman living in a wretched abode a few doors from the place in question was upon the street, in apparently good health, at ten o'clock in the morning. At three o'clock in the atternoon she was dead. The belief that shdied of the cholera soon gained universal credence, and created a panic in the neighbor hood. We do not pretend to say that there was any truth in the report; we doubt very much if there was. But we cite this case to show that the Board of Health should take the matter in

hand without any further delay.

There are numerous other localities throughout the city, into the sanitary condition of which we intend to look, for the purpose of calling the attention of the Health authorities to them.

MEETINGS TO-DAY .- A meeting of the citizens of the lower section of the city will held this (Thursday) evening at 74 o'clock, Moyamensing Hall, to protest against said hall being used as a hospital for cholera patients.

A stated meeting of the Boys in Blue of the Twentieth Ward will be held this evening at 8 o'clock, at No. 1009 Girard avenue.

The Seventeenth Ward National Union John son Club will hold a meeting at Steuben Hall, southeast corner of Fifth and Thompson streets,

A stated meeting of the Journeymen Bricklayers' Association will be held this evening, at Painters' Hall, southeast corner of Eighth and Valnut streets.

There will be a precinct meeting of the members of the Union Republican party of the Seventh Division, Friteenth Ward, at the house of C. Glenn, this evening, at 8 o'clock.

A PREACHER IN TROUBLE ON A SERIOUS CHARGE.—John Klem is a sort of local preacher belonging to the Methodist faith. He is charged with committing a shocking and nameless assault upon a little girl, only fourteen years of age. Mr. Klein is in the dental business, and Arch. The attle girl is an orphan. Her mother said that the brute Klein had committed at he assault upon an elder daughter, now eighteen years old, about four years ago, and at the hearing before Alderman Beitler she so testified. The assault on the younger girl was committed on last Thursday. The details are untit to appear in our columns. The defendant claims that the prosecution is an attempt to extort money He was held in \$800 to answer the charge of assault and battery, with intent to commit a graver offense.

ATTEMPTED BURGLARY .- Last evening. about 9 o'clock, John Henry made an attempt to get into the second-story window of the lager beer saloon, at the southwest corner of War-nock street and Girard avenue, kept by a Mr. Gendall. Some one heard him and gave the alarm, which trightened him, and he turned and jumped to the ground. As he jumped he was noticed by Officer Sweigert, who gave chase, When the burglar reached Stiles and Eleventh treet, some citizens attempted to stop him when he drew a revolver and threatened to shoot any one who laid a finger on him. The crowd getting too thick, he turned and attempted to run back again, at the same time throwing his revolver away under a wagon. He was caught, however, before he had gone tar. He was committed by Alderman Fitch to answer.

FURTHER HEARING .- Hugh Keenan, who was before United States Commissioner Sargent on the charge of giving in false returns to revenue officers had a further hearing this Keenan keeps the place at Twentyfirst and Pine streets. It appears from the evi-dence that he did not make the proper return of the amount of liquor distilled, returning only twenty gallons when he should have returned one hundred and sixty; and also that he did not make the returns at the proper time. He was held in \$1000 bail to answer.

MARKET STREET BRIDGE.-It is with no little satisfaction that we observe the commence ment of efforts to render this bridge a little more respectable in appearance. For several days past painters have been at work on it, and it already begins to present a more cheerful appearance. We only fear that this improve-ment has been delayed a little too long, and the weather has injured the lighter woodwork. When both bridges are finished they will present a very attractive appearance, and add greatly to the appearance of that section of our city.

RECEIVER OF STOLEN GOODS .- Robert Castle was arrested for committing the above offense. He has been in the habit of buying brass castings and brass trammings for Venitian blinds that had been stolen by small boys. He was arrested at Eleventh and Hamilton streets. and was held by Alderman Jones in \$800 to answer at Court.

SUPPOSED SUICIDE.-This morning a man was found dead at the Point House wharf, with a discharged pistol lying by his side. He is sup posed to have committed suicide. The Coroner has been notified to hold an inquest.

CHOLERA.-There were four cases of Asiatic cholera reported to the Board of Health since our report of yesterday. Of these two cases

It is with a melaucholy pleasure that we write of the many endearing qualities of a late much esteemed friend and fellow townsman Mr. Isaac J. Evans (of the firm of H Huddy & Co.). He was suddenly taken ill on the morning of July 31, with violent cholera symptoms, and lingering through the day, died towards evening. At a consultation, after death, it was agreed that his death was caused by a virulent attack of Asiatic Cholers. Mr. Evans was a gentleman respected and esteemed by all who had any connections with him, either in matters of business or in the social relations. As a ousiness man, his ability, energy, and persevering enterprise rendered him a man of mark. He will be long remembered by his sorrowing friends, and to his relatives his loss will be irreparable.

PRIVATEER AFLOAT.

A Large Screw Steamer Pirating in the South Atlantic-Probably a Chillan Privateer.

A gentleman who has arrived at Montevideo writes from there under date of June 14, as

"On the 23d of April, when in longitude fiftyone degrees west, latitude thirty-six degrees north, we were chased by a large screw steamer of about fifteen hundred tons, barque rigged. She had one large pivot gun between the fore-mast and a smoke-pipe. She had a numerous crew aboard, as many heads were distinctly visible above the deck. She was a very fast vessel under steam. We were going at the rate of ten knots an hour, and sae ran ap to us in less than two bours. I believed then that she was a Chihan privateer. When first sighted she was steering southeast, under full steam, which she continued to do until within a mile of then hauled to east, and at sundown was steering northeast under sail only. She was out of the track of any merchant steamships, and us that of vessels bound to the West Indies from England."
