WIRE STRETCHES ABOUND THE GLOBE, To the Editor of The Evening Telegraph:-Sir:-You are aware that I have long been emplayed in the place formerly held by my long-lost brother, Artemas Ward, in the office of the Plaindealer. In consequence of a sudden appreciation of my peer wit and bad spelling, I have been dubbed the "Series Editor." I get no salary, but am allowed my wittles and washin. I send you some of my best stile after-breakfast squibs on the cable. They were intended for the Plaindealer, but were taken from my pocket while I was boarding on a cellar-door the other evening by the "Devil" of the Leader, and they have appeared in that journal much to my displeasure. I hope you will use them just for fun. OLONZO WARD.

Yours, cabalistically, Goveland, which is in the State of Oh! Higher!

you see the point? -The London Times' special from Windsor says me Queen yesterday directed the Lord Treasurer to pay Minister Adams the amount claimed by the United States for losses by the Alabama, and that Mr. Adams received a check for the amount on the Bank of England, and at once turned it in to her Majesty's Exchequer to square the damages occa-moned by the Fenian raid on Canada. Thus the "tie that binds us" is strengthened and perpetuated.

A paper sound in his pocket after the body was recovered contained a pathetic inscription for his own tombetone.

THE FREEDMEN.

The Reported Kidnapping in Florida-The Advantages of the Southern Homestead Law-Industry of the Freedmen im Kentucky-Rebel Violence. THE BEPORTED KIDNAPPING.

Washington, August 3.—Secretary Welles has directed that a contradiction be made of the capture of any slaves on the coast of Florida. He certainly is best informed as to what steps the Navy Department have taken in the matter. A Mobile paper of July 18 is responsible for the following:—A stoop was overhauled in Mobile lower bay, early on Tuesday morning, July 17, by the United States cutter, having on board fifty negroes, whom the parties were about to carry to Cuba and sell into slavery. These negroes had been collected at different employment efficies in Louisville Neghbills, and Morning and Morn ment offices in Louisville, Nashville, and Memphis, under a promise of \$30 per month, to work on a plantation. The captain and crew of the ahip were ironed and placed on board the sloopof war Augustine for safe keeping, and will be forwarded to Washington.

There are reasons for suspecting that the steamer Virgin, tug George Williams, and the schooner Sunnyside were interested in this slave brade, and that the schooner Charles Henry, that cleared at Mobile on the 7th July for Fowl river, with a cargo of lumber and laborers, was to take about one hundred and fifty negroes to sea. Of these facts, and more important ones, been informed. It may not, however, be within the province of the naval officer to know of these matters. The representations of wellthese matters. The representations of wellinformed parties from the South consulting with members of Congress at the
last session upon these very affairs, were
the prime reasons for Representative Elliot's
resolution for the appointment of a
Conference Committee to visit the South, and
investigate the affairs of the Freedmen's Bureau.

It passed the House but the South and It passed the House, but the Senate did not reach it. The success of slave-trading is, however, one of general gossip in the South, and Government officials, to somebody responsible, have closely watched and are well informed upoh the subject. The officers of the cutters Morris and McCulloch, cruising in the Gulf, report their inability to find any reason for the belief that there is any kidnapping of negroes.

INDUSTRIOUS FREEDMEN TAKING ADVANTAGE OF THE SOUTHERN HOMESTEAD LAW.

A letter received here from the very highest men will, on closing up their labors for this year, remove with their families to the homestead lands provided for by the Government in the new bill. The more enterprising and trustworthy portion of the freedmen, the class most worthy to the plantage are a most the mean than the class most worthy portion of the plantage are among the most plantage. waluable to the planters, are among the most determined to go. They take this mode of relief from harsh treatment, and evidence their besoming very rapidly self-supporting and self-

ington en an official visit. He reports that ninety-five per cent. of the freedmen in Kentucky are self-supporting, and are employed at fair wages. There is more land put in with crops this season than ever belore. Wheat and hay are a fair average crop. For corn, hemp, and tobacco the prospects are for a very large yield. The active producers and wealthy land-owners acknowledge that free labor is a success

beyond their most sanguine expectations. A bitter prejudice exists against the freedmen and white loyalists, among many of the returned Rebel soldiers, who style themselves "Regulators," and live by depredation and robbery upon these people. The military authorities are researched these manual or these peoples. ties are prompt in arresting these marauders and turning them over to the United States Circuit Courts for trial under the Civil Rights bill. In a large number of cases, the action of the Kentucky State Courts, where the rights and life of freedmen are concerned, is a faree and mockery upon justice.—N. Y. Tribune.

NEURALGIA, GOUT, ASTHMA. These Terrible Afflictions and Painful Diseases Positively Conquered at Last.

BE CONVINCED BY CANDID TRUTH. CURE WARRANTED, OR THE MONEY RETURNED.

Remember, Used Inwardly.

There are no diseases treated with less success by Physicians than EHEUMATISM, NEURALGIA, GOUT, ANTHMA—few so prevaient, none so painful. The newly afflicted fly for renef to the many quack nostrums, which only produce worse effect, while sufferers for years, repel the thought of ever being cured, and the cry, my Doctor can't cure me, and I have spent thousands, trying to get well and am no better, is everywhere heard. It is no wonder the afflicted are suspicious and doubtful, for they have just cause to be, for truthfully, upon solid facts, certified to by hundreds, there is no positive infallible genuine never-failing cure for Rheumatism, Neuralgie, Lumbago, Sciatica, Gout, and Asthma at pregia, Lumbago, Sciatica, Gout, and Asthma at pre-sent known in this world other than Dr. FITLER'S Great Rhenmatic Remedy, which defies your suspi-cions, and commands your confidence for the fol-

lowing reasons, viz.:

First. Because it is prepared from the original prescription of Doctor Joseph P. Fitler, a graduate of the University of Pennsylvania, and now one of our oldest precising physicians. our oldest practising physicians.

Second Because he has made these diseases his specialty, and spent a lifetime in preparing this in-

allible remedy.

Third, Because the medical properties of this great Remedy differs very essentially from all the remedies hitherto brought before the public. Fourth, Because it is purely vegetable, and war-

ranted not to contain mercury, colchieum, minerals, metals, or anything injurious to the system.

Fifth. Because when you have used a bottle or two, and are satisfied it will not cure your particular case, you, by application, set the full amount had refunded without being compelled to continue on an indefinite period, although not a single case in thousands has ever had occasion to demand

Sixth. Because Doctor Fitler has liberally reduced the price from \$10 to \$2 per bottle, so that all classes of society may have the opportunity of being alleviated from ruman suffering and disease.

THE ATOMIZER.

Dr. VON MOSCHZISKER asserts with the utmost confidence that his system of treating LUNG. THROAT, CHEST Diseases, CATARRH, ASIMMA, and all maladies of the digostive organs, by the use of the AIOhIZER is the only reliable one. Since the introduction of this system cases have been brought to his office, No 1031 WALNUT Street in which every other possible means have been fruitlessly employed, but readily yielded to his treatment. The ATOMIZER is an APPARAIUS constructed on scientific principles, which by a mechanical arrangement, either by atmospheric pressure or steam, converts any medicine mospheric pressure or steam, converts any medicine into a fine SPRAY, and readily conveys him to the BRONCHIAL TUBES or LUNGS, with the RESPIRATORY CURRENT. The medicines subjusted to the action of this APPARATUS lose nothing of their CHES ICAL VALUE, as in other preparations, but are received into the RESPIRATONY ORGANS in their full MEDICINAL STRENGTH.
