Is the Presbyterian Church Disloyal? WE have noticed in several of the denomina tional weeklies which are on our exchange list, numerous instructions against the loyalty of the Old School Presbyterian Church. These attacks are not made openly, but by inference, and the general groundwork on which they are all based is the assembling of a Secession Synod at Louisville. It is well for us to state the extent of that movement, and do what we can to secure justice to a Church which has ever been as true to the Government as any in the land, The General Assembly of the Church which met some months since at St. Louis had the harmony of its proceedings marred by the factious interference of certain ministers, who toadied to the South held more sway in their hearts than a love of Union and fear of God.

Headed by Dr. Van Dygg, of New York, and a Rev. STUART ROBINSON, of Canada, they endeavored to secure the recognition of the Rebel Bynod of Louisville, which was founded on the basis of an exclusion of all true Union men. In this they signally failed. By an almost unanimous vote the Convention admitted Dr. BRECK-INBIDGE and his party, and ordered the local synod of Louisville either to at once abandon their opposition or else be dissolved. The schemers, however, determined to brave the Church authorities, and rebel against the goverament of the religious world, as they did against that of the civil authorities. They accordingly invited all malcontents to meet at Louisville, and form a Southern Church, in which the upadulterated doctrine of State Rights was to be preached side by side with the Sermon on the Mount, and the speeches of the eloquent Cachoun and the erratic Rannoun be received as standard authority in all Church matters, the same as Sr. Chrysostom and GREGORY of plous memory. To this all who sympathize with the religio-rebel schism ; were cordially asked to come.

Then let it be noted that the loyalty of the Presbyterian Church was the cause which led to this secession from its ranks, and that, instead of its being any reflection on the patriotic doctrines of that body, it is the best testimony that could be borne to its determined love of Union. That these who sympathize with the Rebellion should find it impo sible to remain in the same pew and kneet at the same altar with the Old School Synod, is the greatest compliment that could be paid to them from whom they with-

Let us notice, however, the size of the movement, and see to what extent the leaven of treason has penetrated into the Church. The invitation, as we have said, was general, and two months were allowed to make the effort gather strength. Yet with all the working, scheming, and preaching, there are but two synods that send delegates-Missiscippi and Kentucky-and of these there seems to be but a small sprinkling of ministers of any standing. In fact, the affair is a failure, and the senism is a fizzle. The attempt has ended in a flasco, and the boasted disloyal Assembly could be easily seated in the choir of any of our principal churches. The loyalty of the Presbyterian Church is evident, and the authors of the secession rebuked.

We are very glad that it has come to such a sorry end, more glad for the sake of the South than, for the Presbyterian Church. A more illadvised, unchristian, and traitorous attempt has never disgraced the annals of the Church. It was ill advised, because it brands all the profession of the South as wilful falsehood. How can we be expected to believe that the late Rebel section are willing to vote and work with us in good faith, obeying a common government, when they will not kneel with us and worship a common God? Are we not justified in putting down all their promises to a love of policy and power, when we see them at their gliars striving to smite the hand which they would pretend to grasp at the ballot-box?

We are astonished that the politicians of the South had not more intelligence than to thus expose themselves and their actions to the charge of inconsistency. Why old not they suppress this effort? Either they have little power, or else they are not hopelessly ignorant of what

is their gain. It is unchristian, because it seems not only a spirit of rebellion against the well-established decrees of the Church to which it belongs, but also it exhibits a total disregard for the cause of Christianity, by exposing it to the charge of treason, and thus making it a scorn and a scoffing in the eyes of the world. We do not hesttate to doubt the truth of the professions of a man who, while protending to follow the paths of religion, will expose to ridicule and contempt, by his own action, the Church to which he

belouss. It is a treasonable movement because it originated in a desire to exclude those who had done nothing but proved their loyalty to the land of their birth. What was charged against Dr. ROBERT J. BRECKINGINGS and his followers except their devotion to the Union ?- and yet for this they were voted down on every motion, and virtually expelled from the Church. We therefore counder the movement a treasonable attempt, instigated by a spirit opposed to all Christianity, and one against which we pray when we join in the Litany, saying:- From all faise dostrine, heresy, and schism, good Lord, deviver us! !"

Our Relations with Mexico.

THE Mexican question has suddenly assumed new importance. The Laberals having lately obtained possession of Matamoras and other ports, MAXIMILIAN has issued a proclamation closing them to foreign and coasting traffic. This step our Government regards as an attempt to declare a belligerent blockade, unsupported by competent military and naval force; and declares it to be a violation of our rights as a

neutral power, as well as of the treaties existing between the United States and Mexico, and hence to be held null and void.

This decided step must bring matters to an issue between us and Maximilian at once. He must either back down from his proclamation, or support his blockade by a competent military and naval force, or he must go to war with the Unifed States. It he chooses the latter alternative, the whole of Mexico will be in our hands in less than six months from the day the war commences.

Affairs in Missouri.

GOVERNOR FLETCHER, of Missouri, has issued a proclamation in which he asserts that the combined power of the State and National Governments will be used in that State to enforce at the ensuing election the Constitution and laws of the State. The registration law will be strictly entorced, and the electron conducted in accordance therewith. No arrests will be made except as authorized by law, but wherever the civil officers are unable to execute their functions, the aid of the military will be promptly afforded.

The necessity for taking these stringert precautionary measures is to be found in the attitude of the Conservative party in that State, which for months has been committing the most outrageous excesses, and has boldly avowed its intention of trampling under foot the Constitution and laws in the ensuing elec-

As a specimen of what "Conservatism" means in Missouri, we may state that in Jackson county, a few weeks since, a band of these tellows rode into Independence, the county seat, in the night, murdered the sailor in cold blood, and released one of their number who was confined on a charge of murder. Not long since a gong of the same stripe rode into Kansas City in the day time, and shot down Major W. C. RANSOM, the county clerk. These outrages were encouraged and incited by the Conservative organs of the country.

We trust that Governor Fletcher will use all the power of the State, and such additional force as may be necessary, to maintain the sanctity of law and the supremacy of order in Missouri. That great State is the prospective home of thousands of good citizens all over the Union, and it should not be given over to the

The Southern Union Convention.

TENNESSEE has appointed two hundred delegates to attend the Southern Unionist Convention to be held in this city on the 3d of September. Governor BROWNLOW, Representative STOKES, and other prominent men who stood by the Union cause in its darkest nours, are among the number.

Governor Fletcher, Senator Brown, C. D. DRAKE, General McNIEL, Colonel VAN HORN, Senator Hennesson, and other noted Unionists,

will probably be present from Missouri. Honorary delegates will be present from the Northern States, Governor FENTON, of New York, has already requested Senators Morgan and HARRIS to act in that capacity from that

In the case of John Bartley convicted of bur-

glaty, committed at a clothing store in Callownid street, evidence was heard to show an alibi. Witpesses were produced who swore that Bartley at the time of the burg ary, Jone 13, and at the hour at which the goods were removed from the store, was at home in bed. Mr Thomas, an officer of the Court, testified also that at the last term he had charge of the van, in which a man named Brown, or Walker, who had been convicted and sentenced for burgiary, was conveyed to prison.

Brown stated to the officer that it was he who had done the Callowhul street "job."

Mr. I homas also stated that there was considerable similarity between Bartley and Brown. The latter was ordered to be brought into Court on Monday, and the matter was continued until then Most of the cases that was expected would be heard were for various reasons not ready, and were The Court then adjourned till Monday.

LILLIE'S

CHILLED IRON SAFES.

CERTIFICATES.

"By Their Works Shall Ye Know Them."

Спісадо, April 12, 1866. Messes. Murray & Winner-Gentlemen:-On Thursday night, the 29th day of March, a gang of burglars visited our manufactory. which is situated in an unfrequented place, near the lake, and made a desperate attempt to open the Lillie's Safe you recently sold us, which, however, rest ted all their efforts The safe bore marks or heavy sledging, but without any effect upon the childed iron door. The dial of the lock was entirely destroyed, and will require to be replaced by a new one. Their most determined offorts seemed to be in the use of carefully prepared thin teel wedges, twenty of which were driven around the edge of the door, but did not disturb the sastenings of the safe in the least. AN ATTACK ON THE SAFE OF THE TREASURER OF WILL COUNTY, I.L.

Messrs. Murray's W. unc. Agents for Lillie's Safet.—
Gentlemen:—My office was entered on Monday night
by some daring burgars, who forcibly opened the outer
office door. I have in use a large Lillie's Patent Fire
and Burglar Proet Safe, which the annacious villains
made a desperate attempt to open, using all the formidable tools of old hands at the business. A heavy siedge,
and some bars taken from a blacksmith's shop in the
neighborhood had been used with much vigor. A number of their steel wedges were driven around and between the doors, without effect. Efforts to dril the safe
were entirely futle. It severat places the point of the
drill had made marks, only to show that the chilled from
was perfectly impenetrable. I send you the one door
for repairs.

ANOTHER FRUITLESS ATTEMPT TO BOR. ONE

ANOTHER PRUITLESS AITEMPT TO ROB ONE OF LILLIE'S BANK SAFES.

SCHUYLERVILLE, N. Y., March 30, 1866.

Messes. Lillie's Son:—

A desperate attempt was made to rob this Bank on the night of the 15th instant, as you have heard. The particulars are as follows:—The burglars entered the bank by prying open a window; they then tried the vanit doors made by you, by breaking off the knob and exploding what powder they could get in but doing no damage to the door. They finally succeeded in getting into the vault by disging through a heavy wall. Here they found a foeman worthy of their steal—one of your Burglar proof Saies—as it proved to be. They broke off the knob of the door, and tried in vain to drive in the spindle; they then broke off the handle and disl of the lock, and tried to cut out and to drive in the centre piece. But failed also in this They then tried with heavy siedges to break in the doors, which successfully resisted all their efforts. They evidently worked taithfully all night, as they were seen to leave the village about five o'clock in the morning.

Russell & Ermin, Manufacturers' Agents for Lille's Safey:- Gent emen:-The safe referred to in our letter of Gent emen:—The safe referred to in our letter of February 9, as having preserved its con ents perfectly from fire, was again subjected to a very sovers teat by the fire of last Sunday night—one of the most severe fires that has occurred in San Francisco. It was taken from the ruins on Monday, and on opening, all the books and papers were found in persect condition, not the least sign of fire being visible inside the safe; this being the third time the safe has preserved its contents within the past five months.

The Second Time the Same Safe Passes

Iron Safe Can Endure. Messes Marroy b Wane, Agents Lude's Sales.

Gentlemen — We had a No. 7 Lillile's PATENT CHILLED AND WROUGHT-IRON SAFE in our office, on Exchange street at the time of the great fire o' July 4. 1866. The sale was in the account story of the building, and fell to the cellar where it lay entirely unprotected for 16 days. When digging it out, vesterday atternoon, we found the bricks surrounding it too hot to hold in the hand. On opening it this morning, we found all the books and papers in a good state of preservation. This safe brobably had as severe a test as any in the 4re, as Sales of other makers in a doining buildings had their CONTINTS RUNNED TO CINDERS.

This is the SECOND TIME ITHIS SAFE HAS BEEN TESTED B: FIRE, as it was in the store of F. Raffarris when it was burned in February, 1861, at which time it also preserved its contents.

Our confidence in the fire-proof qualities of LILLIE'S SAFIS is increased by unparasicled 1 sas, and we have no doubt of their Uppers. CERTIFICATE OF JUDGE FOX.

No sate of Lillie's make was destroyed in this fire, or alled to preserve the contents, which fully endorses the high reputation of these Safes as being the most reliable

monstrated in the above certificates :-First. That Lillie's cale stands the second fire as well as the first, and both Safe and contents still fit for use . while other Safes are worthless after the first fire, and, if the fire is severe, books and papers have to be copied, if preserved at all, and very frequently lost.

Fecond That Lillie's Safes are honestly drill-proof perfectly wedge-proof, powder-proof, and in every sens of the word, burg are roof, and, as a further evidence, I assert that there never has been, to this time, one of tilllie's Bank Safes robbed (that is, Sates two mones thick). A word to the public and to my old friends and patro ns :-- My motto is "A nimble sixpence rather than a slow shilling." I have taken a roomy, convenient cheap store, for five years, on Arch street, instead of a dear one on Chesaut My carrage is done with one horse instead of three horses. Fconomy and small profits is my motto. The Safe Works are now removed from Troy and in successful operation near Philadelphia, in this State and I rust hereafter to be able to urnish my patrons, cheaply and promptly, with the best Sales. P. S -I notice much has been said latterly about dry filling, slum, etc. I have only to say that usually, and generally, LILLIE'S SAFE is free from damoness and does not mould books or papers; and will not if perfectly manufactured: and hereaster all LILLIE'S SAFES will be warranted not to mould. TRIAL OF A SAFE IN THE OFFICE OF C. B. AND Q. R. R.

CHICAGO, Sep ember 13, 1865.

Murray & Winne, General Agents Lilie's Safes:

Gentiemen:—The station agent at Downer's Grove reports one of your o, 8 Safes severely tested by burg ars. They worked atl night at it with drills, wedges, and chisels, but the contents were undisturbed, and the "ale apparently but little damaged. These send us che of the same size to replace it, a so another of same size for use at Mendota. Our sate there (of another muke) was broken into and plundered.

Yours respectfully.
