The receipts at Tischner & Jacoby's Yards for the past week reach about 2200 head, mostly all Pennsylvania stock. Holders of choice cattle, which are scarce, are not so firm in their views, and a slight concession in favor of buyers had to be made before sales even to a limited extent could be effected. Common stock are offered freely, but there is but little inquiry.

CAPTAIN COOK, -The people of New South Wales are about to erect a memorial to commemorate the discovery of that country in April, 1770, by Captain Cook.

General Sweeney's Address to the Fenians
- He Ethorts them to Avoid Party Poli-

The old and tried members of the Fenian Brotherhood regret to find that some political papers are endeavoring to make it appear that our organization is about to be used for party purposes in the approaching political campaign, and I cannot allow such an impression to go

The Fenian Brotherhood was established for the liberation of Ireland from a state of foreign misrule and subjugation which, for the continumisrale and subjugation which, for the continu-ance and intensity of its persecution, has no parallel in history. While solely devoted to the grand object of their musion, the members of the Fenian Brotherhood sympathize with any struggling nationality, and are ardent lovers of freedom for all men in every land.

Two of the fundamental rules of the organiza-tion are that all relations and political ques-

tion are that all religious and political ques-tions should be entirely excluded from their councils, and it is owing chiefly to these wise provisions that the Fenian Brotherhood, without the aid of a single dollar from any political party, in the face of the most heree opposition, has spread its branches into every land, and become the great power in America which it is to-

while every citizen, in his individual capacity, has a right to vote as his judgment dictates, I apprehend that disruption and disaster, and the utter blighting of all our hopes would be the result of turning the Fenian Brotherhood into a political organization at this junc-

Aithough the attempt may be made by some ambitious men, who must necessarily exercise influence in so wide spread a combination, still I am sure the great majority of the Fenian Brotherhood are too devoted to the great cause to which their lives are pledged, to allow the cause to be swallowed up in the vortex of American pointies, or to permit themselves to be diverted for a single moment from the direct path which must eventually lead them to

The Pittsburgh Congress held in February, 1866, was very exolicit in reference to this matter. In the sixth day's session, the following resolution was ananimously adopted, the President in the chair:-

Resolved, That this Congress, in the name of the Fenian Brotherhood, in the most solemn and em-phatic manner, disclaim any intention, desire, or inclination to use the power of this organization for the purpose of influencing, in any form, party politics in America, such policy being entirely foreign to our aims and repugnant to our patriot-ism; and those who would attempt to traffic on the sacred impulses of Irish hearts deserve, and should receive, the scorn and detestation of all true men.

Whoever attempts to violate, abrogate, or evade that resolution will incur a serious responsibility, which I am not prepared to sustain or to share in my official connection with the Fenian Brotherhood. Exhorting all the members of the organization to persevere in the safe and successful course which they have hitherto pursued, I am theirs, fraternally, T. W. Sweenby, Sec'y War of F. B.

No More Elephanting Executions. - A letter from India says: - 'You will see a story about a criminal having been executed at Baroda by means of an elephant drarging him through the streets and then trampling on him. The incident gave rise to a great outery against the Guicowar's rule, more especially as the crime was said to have arisen out of mere personal offense, namely, the taking as concubine a discarded favorite dancing girl from Guicowar's zenana. I am glad to say that this elephant trampling is likely to be the last case of the kind. The Guicowar, yielding to the earnest remonstrances of Colonel Barr, our new resident, has signified his intention to abolish that mode of punishment,"

EDUCATION OF IDIOTS.—At the Earswood Asylum for Imbeciles, in England, there is a young man upon whom the system of instruction seems to have had the happiest effect. He is described as "a living and walking general history; acquainted with the principal events in Grecian and English history, together with their dates; as correct about Miltiades as about Charles the First. He is also well acquainted with geography, and greatly interested two young ladies from Iceland by giving them a description of s me or the country from which they had just come." There was another whose skill in drawing was little short of marvellous,

A "STRIKE" AT A LUNATIC ASYLUM. -Au insane from England. In the Murthley Lunauc Asylum the other day, the inmates, who are permitted to work in the garden, sent a deputation to the doctor to demand shorter hours and more pay. The doctor put his hand in his pocket and handed the deputation half a crown. This gave complete satisfaction; the deputation returned, informed their associates of their success, and the whole resumed work immediately.

TRANSPORTATION OF SHRUBS .-- An Australian paper.the Launceston Examiner, states that there came in the ice house with the last shipment of salmon ova from England, arriving at Hobarttown in May, two bundles of heather and a few shrubs as an experiment. Six apple trees and two species of heath arrived in the most perfect condition. There was not even a decayed leaflet on the heaths, and the whole of the plants are in as perfect health as if they had only just been lifted out of the nursery.

A Huge Fraud.—A fraudulent failure has just taken place at Lille, France, where a banker called Joire has managed to issue forged bills to the amount of over five hundred thousand dol-lors. Joire has been arrested at Vichy, where he was taking the waiers with his daughters; but his son, who was managing business during his absence, has eluded the search made for The Lilie branch of the Bank of France has lost two hundred thousand dollars.

COMPLIMENTARY.-The workingmen in Neweastle, England, have begun to register their children by the name of "Gladstone."
