THE FENIANS.

The Trials of the Fenian Prisoners Abandoned—A Nolle Prosequi Ordered in their Cases—Canadian Troops on the Look-out—Camp at Fort Erie, Etc. Etc. Etc.

BUFFALO, August 20.—The trial of General O'Neil, and the other Fenian officers captured by the United States steamer *Michigan* in June last, was to have taken place this week in the United States Circuit Court in this city, but owing to the following letter which has been received by United States District Attorney Dart from Attorney General Stansbery, it will not take place, much to the gratification of all concerned in the interests of the cause:—

WASHINGTON, August 14.—To W. A. Dart, Esq., United States Attorney, Potsdam, N. Y.—Sir:—I have received your letter of the 9th inst. relative to the indictments pending against the Fenians, and concur in the propriety of the course suggested. You are, therefore, hereby authorized and instructed to enter a *nolle prosequi* in their cases. Very respectfully, your obedient servant,

HENRY STANSBERY, Attorney-General.

This letter of instructions has also been delivered to Mr. John Garson, the counsel for the Fenians. This is considered as conclusive evidence that the Administration has no disposition to deal severely with the Fenians.

The Governor-General's body guard, mounted, about sixty strong, have been scouting up and down the river banks on the opposite side since their arrival at Fort Erie on Saturday night. They appear to be quite sincere in their anticipation of a brush with the picnickians, should they attempt a crossing. They regard all visitors from Buffalo with much suspicion, and are really in a most ridiculously nervous state. There is also a small detachment of the Canadian Rifles at Fort Erie.

At Thorold, C. W., the Government is about to establish a camp of instruction. About four thousand men are now there, consisting of the following troops:—10th Royals, Colonel Brunel; 7th of London; the right wing of the 16th Regulars; Colonel Hostes' Light Battery, battalion of 17th Infantry, and the 13th Regiment of Hamilton, Colonel Booker's former command. Colonel Wolsey, of the regulars, is in command of that post.

With all this display and expense the Fenians here seem to be much amused, which has been caused by their intended picnic.

It is hardly probable, I find from the best information attainable, that any visit to the vigilant red-coats on the other side of the river will be attempted during the festivities to-morrow at Clinton Forest. It is expected that Generals O'Neill, Spear, and Murphy will be present.

The Fenian Picnic—Additional Canadian Troops Authorized.

OTTAWA, August 20.—Public expectation is on tiptoe to ascertain the result of the Fenian picnic which comes off at Clinton Forest to-morrow. The general impression, however, is that the Fenians are not yet ready to commence hostilities.

The last number of the official gazette of Canada, just published, announces that thirty-four additional companies of volunteers have been authorized to be organized by the Government.

Fenian Movements in the Southwest.

CHICAGO, August 20.—There is great excitement among the Fenians here to-day, and a movement of some kind is evidently under way, although everything is kept profoundly secret. Some mysterious picnics and pleasure gatherings are announced in this vicinity.

Three hundred Fenians left Louisville last night to attend one of their picnics, and on the same train there were thirty cases of rifles. Companies A and D of the 18th Fenian Regiment leave Louisville for Chicago to-night, also two hundred Fenians from Nashville, each one carrying a four-shooter by way of provisions. Two hundred Fenians also passed through Nashville yesterday from Memphis, on their way to attend the Chicago picnics, and news has been received here even from New Orleans that the Fenians there are making preparations for the Chicago picnics.

While the recent Fenian picnic in this city undoubtedly had no direct connection with any movement against Canada, as it was public, yet General O'Neill's visit here was doubtless for the purpose of consultation with reference to that movement. Excepting the time he was speaking at the picnic, he was closeted with prominent Fenians here, and since his arrival at Nashville he has expressed great satisfaction with his visit, and predicts glorious times for the Fenians this fall.

SOUTHERN FEELING.

Some of the Southern papers that don't understand how VALLANDIGHAM and WOOD were "*fixed*" at the Wigwam Convention, and that their withdrawal was a mere stroke of policy to fool the people, are really laying the matter a little to heart. We make the following extract rom the Augusta *Constitutionalist*:—

TOO THICK TO THRIVE.

"Thar was"—says the great Artemus in his account of that episode, his wooing—"thar was a fectin' ties that made me hauker arter Betsy. Her father's farm jined our'n; their cows and our'n squenched their thirst at the same spring; our old mares both had stars in their forreds. The measles broke out in both families at nearly the same period. Our parents (Betsy's and mine) slept every Sunday in the same meeting-house, and the nabers used to observe, 'How thick the Wards and Peasles air!'"

"Now, to borrow again from the great Artemus, one scarcely knows where to look for a thing 'more apropos ser' to the times than this. It involuntarily recurs to mind at the thought of all that huge fantaronade where with the Philadelphia Convention was gotten under way—the tooting of horns and playing 'Dixie,' the rising of delegates and cheers for 'Hail Columbia,' the clap-trap of the chairman, and the entrance of South Carolina and Massachusetts cheek by jowl. This latter little theatrical touch in especial is fearfully after the fashion of A. Ward, showman, and his Betsy Jane.

"His Excellency Governor ORR, diffusing, let us imagine, conciliation at every pore, appears on the floor arm in arm with Major-General Couch, of the Federal army. What a self-abnegatory spectacle was here! What a lying down of the lion and the lamb together! And what wonder that the sublimest emotions were so appealed to that delegates melted into 'tears!' Think of it, kind Heaven, just think of it, that here were eight thousand patriots assembled who wept as with one single eye! Debarred of entrance by a chivalrous devotion to the South that never wavered, even CLEMENT L. VALLANDIGHAM and FERNANDO WOOD, let us imagine, stood afar off and wiped away a pensive tear. But human nature is not calculated to stand these terrific excitations of joy; strong feeling is apt to become painful, and how well timed it was there came up upon the air strains of dulcet music from a band of fifty pieces. Blow on, oh! great trombone—come in with thy mellow warble, ophecleide—thump for thy life, thou drummer; and scrape aloud and spare not, artist with the big bassoon. Tears of joy have yielded place to shouts of triumph—sixteen thousand eyes are dried, and eight thousand tongues vociferate. A roar goes up that shakes the Wigwam, and hark! was that an echo that meets it as it dies away? Listen! it yet trembles on the air—what is it? Pah! 'tis nothing—only the footfalls of VALLANDIGHAM and WOOD, who, shut out from this great love-feast of them that have the wedding garment, are going away—of WOOD—FERNANDO WOOD, who this day can carry, if you put him on his mettle, the great city of New York against New England; and CLEMENT L. VALLANDIGHAM, who suffered all but martyrdom for his principles, was exiled because he would not help throttle the South, and is going to his home in Dayton, where the panels of his house door show to this very day the mark of tyranny's musket butts and axes.

"*Ah! gentlemen, it will take a deal of blowing to drown the sound of those footfalls—the footfalls of men who, when* DOOLITTLE *and* COUCH *had us by the throat, dared to stand up, in the very face of despotism, to plead for mercy, for moderation, and for justice—to plead and to suffer for us and for our sakes.*"

CONVENTION OF SOUTHERN LOYALISTS.

Governor Fenton's Letter to Senators Harris and Morgan.

We give below the letter of Governor Fenton to Senators Morgan and Harris, requesting them to attend the convention of loyalists to be held at Philadelphia in September next:—

"STATE OF NEW YORK, EXECUTIVE DEPARTMENT, ALBANY, August 17.—Hon. Messrs. Ira Harris and E. D. Morgan, United States Senators, etc.:—In view of the justice and importance of aiding in every patriotic demonstration of the friends of loyal government in the South, I take the liberty of requesting you to represent the State of New York in the Convention of Southern Unionists called for the 3d of September in the city of Philadelphia. Permit me, most respectfully and earnestly, to ask your attendance, that you may reassure these tried and true friends of the Union and constitutional freedom, that the Union party of New York fully appreciates their continued self-sacrificing efforts to place the States lately in revolt upon a just and stable basis: that it sympathizes with them, and sincerely desires the re-establishment of local self-government in the communities lately in rebellion as soon as consistent with safety and future peace; that we are anxious to see their respective States represented in Congress as early as early as full assurance can be had that the power of these States will not thereby be placed in Rebel hands, and that he will cordially co-operate with them to these ends.

"I have reason to believe that other representative men from the Union party of this State will be present and unite in the deliberations of this important convention; that it will be an assemblage of great advantage to the cause of good government, and that it will lead to extended organization throughout the South, and stimulate loyal and patriotic endeavor to harmonize the people and restore the Union upon terms in entire consonance with the Constitution and the spirit of liberty.

"Very respectfully, R. E. FENTON.'

Terrible Powder Explosion—Seventy-Two Lives Lost.

At Constantinople, July 19, the large cartridge and rocket factory below Macrikeui, on the Marmora, exploded with terrific force, destroying the workshops and killing seventy-two of the hands employed on the works. The group of buildings, comprising nine magazines, of which four contained from 800 to 1000 barrels of powder each, the fifth about 1500 barrels, and the remaining four about 6000 barrels each—or a total of about 30,000 barrels of about 50 pounds each. Nearly in the centre of these separate buildings was another large compartment which formed the laboratory of the establishment, in which cartridges and rockets were manufactured. In this last the accident originated. About one hundred hands were employed, some in making new cartridges, and the rest in ripping up and extracting the powder and bullets from old ones. The official account is that one of the sixty or more Jews employed at this latter work, in using a hatchet to open a case of cartridges, struck fire with the tool, and, igniting, it blew up the whole stock of powder, amounting in all to, it is said, nearly 50,000 pounds. The Porte return of the casualties states the dead at seventy-two, and the wounded at twenty-four. Of the former sixty were Jews, eleven Armenians, and one a Turk; of the latter, three Jews, seventeen Armenians, and four Turks. Fragments of the killed were picked up more than half a mile from the scene of the disaster; of the laboratory itself not one stick or stone was left upon another, its very site being torn up as if a huge shell had fallen and exploded upon the spot.

—The London Missionary Society says in its last annual report:—"Sixty years ago, there was not a solitary native Christian in Polynesia; now it would be difficult to find a professed idolator in those islands of Eastern or Central Polynesia where Christian missionaries have been established. The hideous rites of their forefathers have ceased to be practised. Their heathen legends and war songs are forgotten. They are gathered together in peaceful village communities. They live under recognized codes of law. They are constructing roads, cultivating their fertile lands, and engaging in commerce. On the return of the Sabbath, a very large proportion of the population attend the worship of God."

THE ATOMIZER.

Dr. VON MOSCHZISKER asserts with the utmost confidence that his system of treating LUNG, THROAT, CHEST Diseases, CATARRH, ASTHMA, and all maladies of the digestive organs, by the use of the ATOMIZER, is the only reliable one. Since the introduction of this system cases have been brought to his office, No. 1031 WALNUT Street, in which every other possible means have been fruitlessly employed, but readily yielded to his treatment.

The ATOMIZER is an APPARATUS constructed on scientific principles, which, by a mechanical arrangement, either by atmospheric pressure or steam, converts any medicine into a fine SPRAY, and readily conveys it into the BRONCHIAL TUBES or LUNGS, with the RESPIRATORY CURRENT. The medicines submitted to the action of this APPARATUS lose nothing of their CHEMICAL VALUE, as in other preparations, but are received into the RESPIRATORY ORGANS in their full MEDICINAL STRENGTH.
