REORGANIZATION OF THE HIGH SCHOOL FACULTY BY THE BOARD OF CONTROL. A special meeting of the Controllers of Public Schools for the First School District of Pennsylvania was held yesterday afternoon at 2 o'clock, in the rooms of the Board, at Sixth and Adelphi streets. The object of the meeting was to elect Principal and Professors for the Boys Central High School, which business the Board at once

proceeded to transact.

The discussion on the respective merits of Professors Riche and McBride, nominees for the Principa ship, was quite exciting, the chief participants being Dr. G. W. Nebinger and Messrs, Freeborn, McManus, and others,

Dr. Nebinger said that the time had arrived to increase the salary, and not to put in incompetent men. He read at length an article from Saturdoy Negal, snowing Mr. Rhoads' entire want of qualifications for the place. He charged him with entire literary incompetency, and said he was recommended, among other reasons, because he was on the same political committee of superintendence as Mr. Freeborn, who was, as always, striving in everything to ruin the High School. Every High School graduate knew what Freeborn was,

Mr. Freeborn denied that Mr. Rhoads was on the committee. Dr. Nebinger read from the official rules of the Republican City Executive Committee to show that his statement was true, unless the party had wrongly printed their

Mr. Duffy, of the Sixth Ward, asked to read a composition which had been handed in to Prof Rhoads on nine different occasions, and which Mr. Rhoads had never detected. Mr. Freeborn objected to any evidence of this kind against Mr. Rhoads, and President Shippen promptly choked oil debate. An appeal was taken from the decision of the chair, and the decision was not sustained. Mr. Levick, of the Twelith Ward, said that he

had been a member of the Committee of Investigation, and believed Mr. Rhoads to be entirely incompetent, although he was a member of his own party.

Messrs, Nebinger and Duffy endeavoyed to further discuss the qualifications of Mr. Rhoads, but were refused by President Shippen, who

was on the opposite side of the question.

Mr. Freeborn said that the Saturday Night was a Johnson paper, and that the editor, who wrote the article showing up the High School, was in the Chamber, controlling the movements of the Democratic side of the House.

Dr. Nebinger said that the editor who wrote the article was a radical of the Kelley school, and that the Freeborn clique had resolved to dismiss two members of the old Faculty, but had modified their report, owing to the influence of Saturday Night.

The vote on the various candidates resulted in the choice of the following gentlemen for

the positions named.-Principal-George Inman Riche, A. M.

Professor of Belles Lettres-James Rhoads, Professor of Mathematics and Astronomy-James McClune, A. M. Professor of Mathematics-Zephaniah Hopper,

Professor of Writing and Book-keeping-James A. Kirkpatrick, A. M.

The election of a Professor for the Chair of Drawing was postponed for the present.

A committee of nine was appointed to pre pare estimates of the expenses of the public

schools, for the year commencing on the 1st of January next.

Dr. Nebinger closed the proceedings with a forcible address, showing up the "ring," and their way of making nominations. testimony of prominent centlemen against the efforts of Messrs. Freeborn, Shippen, and Eakin to injure the School.

The Board then adjourned.

REASSEMBLING OF THE REPUBLICAN IN-VINCIBLES,—Last evening a large meeting was held at the Hall, Seventh and Chesnut streets, for the purpose of reorganizing the club of Re publican Inviscibles for the coming political campaign. George I. Riche, the former President of the Club, presided. In calling the meeting to order, he expressed his pleasure to see so many of the old members present and filled with enthusiasm, and ready to enter with spirit into the coming campaign. It reminded him of the first meeting of the Club, when they had a President against them. They were again called upon to contend against a President. But the Invincibles had shown that they were not an organization aiming for the spoils of office. (Cheers.)
A committee of five was appointed to report
officers for a permanent organization.

During the absence of the committee, Mr. Fox introduced a series of resolutions setting forth the principles of the organization, and announcing the determination of the Club to maintain the struggle for the right. Andrew Johnson is characterized as faithless to the party that placed him in power, while the Club pledges itself to use every exertion to secure the reelection of all the representatives in Congress from this city. General John W. Geary is endorsed as eminently fitted for the position of Governor of the State.

The resolutions were adopted. The Committee on Organization reported Colonel William McMichael for President, Samuel S. White and Dr. James Truman for Vice-Presidents, George Truman as Marshal, J. W. White, Treasurer, and Secretary, William L.

The report was accepted, and Col. McMichael, in taking the chair, reviewed the questions at issue before the people in the comping campaign. We have to meet the declarations of Andrew Johnson, and be prepared to stand by the representatives of the people in Congress. A great work is before the people, but the enthusiasm to-night proves that the future is safe." Colonel McMichael's speech was received with

great applause. Dr. Truman introduced a resolution of thanks to George I. Riche, for the manner in which he had presided as President of the Club, and expressing regret that other duties call him from further continuance in office. The resolution was adopted, and Mr. Riche returned thanks.

ACCIDENTS .- As the Hope Hose steamer was rounding the corner of Pine and Third streets yesterday afternoon, it overturned, and the driver, Charles Griffith, was seriously in-

John Calvin, while working yesterday at Selters' iron foundry, Sixteenth and Hamilton streets, was seriously injured by a large casting falling on him. He was taken to his residence, at Twenty-first and Wood streets. Edward Little, employed at the Spring Garden Gas-Works, had a foot badly crushed yesterday while assisting to draw out an old retort.

MAGNIFICENT BUILDING FOR THE HORmachificiant Bullions for the Horizottural Society has secured possession of the lot adjoining the Academy of Music, and ground has been broken for the new hall. The building will be one of the largest in the city. It will be 75 feet by 200, as now proposed, although the building committee is negotiating for an additional strip of ground, in order to increase the width of the structure. The front will be of pressed brick, ornamented with brown stone, in a style similar to the Academy of Music,

One of the witnesses thought the hole was made by some one inside the store. The accused was held in \$2000 bail to answer.

A SAVAGE METHOD OF GETTING RID OF a Witness.—The man Hasland, of New York who was the accomplice of the gang of burglars arrested in this city about ien days ago was assailed on Saturday night last in Mercei treet, New York, where he lives, by another burslar named Shannon, and was stabbed so seriously that his life was despaired of. Lear Sirs:—Having tealized in my family important benefits from the use of your valuable preparation—

Some eight years ago one of my daughters seemed to be in a decline, and little hopes of her recovery were enter aimed. I then propared a bottle of your excellent Balsam, and before she had taken the whole of the contents of the bottle there was a great improvement in her hea th. I have, in my individual case, made frequent use of your valuable medicine, and have always been benefited by it.
