uneral Ceremonies of a New Orleans Martyr-Remarks by Governor Bullock and a Number of Distinguished Divines.

Boston, August 29.—A crowded congregation assembled in Tremont Temple to-pay, at the funeral services of the Rev. Mr. Hofon, martyr to the President's New Orleans policy. Large numbers of clergymen were present, with high State officials. Governor Bullock spoke of Horton as a martyr in the cause of freedom and the rights of man. Himself innocent and unprovoking, he was abandoned by the Government to the violence of a mob. The insatiate spirit of slavery, surviving its own nominal destruc-tion, by the Constitution of the land, has been permitted by Federal authority to break forth with new violence, without even the pretext of excuse which used to be pleaded when slavery

had a legal existence.

If this state of things will not quicken our sensibility and conscience, be knew not what would. The blood of Horton cries and solemnly appeals to us to be faithful in the cause of the rights of human nature, for which he laid down his life. Dr. Eddy said that the sacrifice of this martyr to principle should invoke a spirit of stern hostility to wrong-doing and lawlessness in the land. The Rev. Dr. True said such outrages must serve as a warning that, unless the people rise in their strength to reconstruct the outhern States on the principles of absolute justice, they will leave open a wide abyss which will in the future prevent the advancement of We are losing all we gained by war, owing to the President's policy. The blood of the Union martyrs was shed in vain unless the op e protect themselves by earnest opposition

to the Executive. Our very safety is at stake.

The Rev. Dr. King said the voice of the North must be heard in tones that would cause these devils to tremble. Neither Southern churches nor Southern States were yet in a trame beatting reconstruction. This riot was not an excen tional outbreak, but a true expression of the murderous spirit of the South. No remonstrance against it had come from any Southern city. It the truit of the unwise haste and leniency of the Executive. Already again free speech is denied in the South. Only ruffians who support the President's policy are allowed to speak freely there. The south must be held in military subjection outil the rights for which war was waged, are secured-established beyond One or two more such occurrences as the New Orleans riot would influence the North as Bull Run did, arouse it to its peril, and end in putting the miscreants under foot. resolutions were passed by the Baptist minis-ters. The coffin was carried from Tremont Temple, accompanied by a great concourse of

THE INDIANS.

Continued Accounts of Their Depredations-A Party of Supposed Government Surveyors Massacred.

LEAVENWORTH, August 29.—The interpreter of Omahas reported that seven men had been killed on Salt creek, and that numerous small passbooks seen in the posse sion of the Indians indicated that the party massacred were, in all probability, Government surveyors. One passbook belonged to a Canadian. They ordered the settlers off Tula creek. The conductor of the Santa Fe stage states that on the road he passed through a party of Cheyennes highly xcited, swearing vengeance because a Mexican had killed one or their number. Later reports from Denver state that the Indians have commenced massacreing the inhabitants between Forts Garland and Union, New Mexico.

CHICAGO, August 29 .- A private letter from a gentleman on the plains says that the Indians recently attacked a Mormon train at Wagon Mounds, twenty miles east of Deer Creek, and drove off ninety head of cattle, besides killing several others. They also attacked and burned Deer Creek Station, one hundred miles west of

SECOND DAY'S PROCEEDINGS.

The Convention reassembled at a quarter past 10 o'clock this morning at Sansom Street Hall, the President, Mr. John P. Verree, in the chair.

The reading of the minutes was dispensed with. The Secretary was then requested to call the roll, and as each member's name was called he was instructed to step forward to the platform, receive a printed list of the candidates, and pay his contribution of fifty cents to the Treasurer. A motion was made and carried by which the contributions from each ward were paid in a lump. While this ceremony was being gone through with, the scene in the Hall was quite animated and boisterous,

When this business was completed, a motion prevailed by which the hall was cleared of all its occupants. The members then re-entered on showing their tickets at the door. This movement was rendered necessary by the impudence of certain individuals who had forced an entrance into the room without being entitled to The President then read several communica-

ANTICS OF A MAD COW .- An immense crowd gathered this morning at Twenty-first and Pine streets. Although attended with some danger, it was a scene of considerable amusement among the excitables present. The cow rushed around in a miscellaneous manner. t tossed two little children, and injured tuem severely. One of them, named Donnelly, was taken to the Hospital. It then upset a whole row of chairs in iront of a saloon, and spilled out the occupants. About Twentieth and Pine streets the cow made a rush at a very quiet horse that was standing wi h a milk wagon, and gored the horse in a savage manner. Two chiloren were upset, but not very severely injured. The cow started from Third and York streets, but did not commence her active campaign until she reached the region of the Schuylkill Rangers Three men were standing on the corner of Twenty-second and Pine streets, cheering, when the cow made at them and upset them, and then making a selection, downed her man, and on a passer by attempting to preserve the first man, she chased the rescuer. The cow placed her

head against his rear, and then ran him along at a furious pace, driving him before her in a "Spanish fashion."

She went down Lombard to Seventeenth street, followed by the crowd. Here several attempts were made by excited individuals to kill ner, but they only succeeded in wounding her in several places with shots from a pistol. Finally a citizen succeeded in knocking her down with a large stone, at Seventeenth and Lombard streets, and Lieutenant Connelly had her despatched, and her remains converted into beef, which now awaits an owner. During her head long course, the cow ran into the mail wagon of The Evening Telegraph, severely injuring the horse, which will probably die. There was a great crowd around all the time the cow was kicking up its antics, and every one congratulated each other that there were no lives lost.

A FRATERNAL DIFFICULTY .- James Considing is a man in whose breast the element of traternal love is greatly deficient. Yesterday he went into his brother's saloon, at the corner of Second and Walnut streets, and after acting in a very abusive manner, struck him over the eye. James was arrested, and had a hearing before Alderman Butler, who committed him in default

A BETLIGERENT CUSTOMER ON A CAPI-TAL CHARGE,-Barney McIlhenny, about a week or so ago, got into a row in a drinking saloon in Water street, below Walnut, and during the melce McIlhenpy struck the daughter of the keeper of the saloon over the head with a bottle, cutting her head in a shocking manner. Too girl has since been in a very dangerous condi-tion from the effects of the wound, and it is teared she will die. McIthenny was arrested, and committed to await the result by Allerman

SUNDAY CARS,-The cars of the Fifth and Sixth Streets Passenger Railroad will next Sun-day run over the whole length of their route, thus enabling persons from Frankford, Germanlown, Norristown, and Manayunk to go down through the city and return-a facility heretofore afforded only to those arriving by the Trenton Railroad and the North Pennsylvania road. BASE BALL MATCH.-Yesterday afternoon the people of our western suburbs were interested by a well played match of base ball between the Municipal Base Ball Club and the 'Broken-winded nine" of the West Philadelphia. The match was played on the grounds of the West Philadelphia, at Forty-first street and Lancaster avenue, and resulted in rayor of the Municipals by a score of 79 to 32.

OUR NATIONAL GAME-KEYSTONE FAT vs. LEAN.—A return match between these two celebrated nines will take place this afternoon, on the grounds of the Keytone Club, Eleventh and Wherton streets, at 24 o'clock precisely. There is much speculation regarding the result, as both parties have made valuable additions to their nines.

[SPECIAL DESPATCHES TO THE EVENING TELEGRAPH.]

WASHINGTON, August 30.

Reduction of Mechanics' Wages. An order has been issued by the Quartermaster's Department reducing the salaries of the civil employes of the Department of Washing ton. Mechanics, except bricklayers and plasterers, are reduced from seventy dollars to sixty dollars per month; bricklayers and plasterers from seventy dollars to sixty-eight dollars; wagonmasters from sixty dollars to fifty dollars;

laborers to twenty-five dollars. Office-Seekers Persevering. It is reported currently to-day, that C. H. Snow, proprietor of the Intelligencer, has the appointment of Postmaster of this city, to take effect from September 1. The office-seekers, in the absence of the President, are making a desperate raid upon the Cabinet officers in town, besieging them at their private residences, as well as at their offices,

From Fortress Monroe.

FORTRESS MONROE, August 29 .- The interesting ceremony of breaking ground for the New-port News and Richmond Radroad took place several days ago at the former point, in the presence of all the officers, agents of the Com pany, and others inter sted to the work. hrst shovel of earth was thrown by E. S. Ham lin, Esq., the President of the Road, at the position selected near the upper Government A. C. Dunn, the Chief Engineer, and all the Directors partic pated in the ceremony, each using the shovel in turn.
At the conclusion of the dirt-turowing,
speeches were made by President Hamlin, Engineer Dunn, and Captain Warren,
of the United States Army, and Agent of the
Freedmen's Eurean at Newsont News Agent Freedmen's Bureau at Newport News. A large force of laborers is now at work, and the erading of the road is proceeding vigorously; the engineers and surveyors are pushing ahead the surveys and laving the line of the road. It is computed the road will cost about \$19,000 per mile. It will pass through Williamsburg, and the terminus strike Richmond somewher near the Rocketts; but this end of the road has

not yet been surveyed. It is not intended to connect with the York. River Radroad, though the track will cross it. The grading required will be very light, and there will be sixteen miles of an airline. The immense advantages of this road to the country bordering on the James river is incalculable, and in its speedy completion all the energy and capital of the State are unsparingly used. Newport News, the terminus of the road at this end, possesses a level plateau of many miles in extent, and furnishes an eligible site for the erection of a town or city, which, with its great water advantages and commerce to the coast, would in the course of a few years outrival any other city in Virginia, and become its principal sea-port. The climate is healthy and vater plentitul. The tever and ague, so common further up the Peninsula, is here unknown. Already the attention of Northern capitalists is being directed to wards this road and the other lines of travel to the South, and large investments in land at Newport News are being made

at a great increase over the rates it commanded only a year ago. The United States double-ender Monocacy was docked yesterday at the Gosport Navy Yard, for the purpose of repairs. She will soon be ready to proceed on a cruise to China, where she has

been ordered. Respect to the Memory of Dean Richmond.
