"Augusta, Me., September 11.-Fuller returns largely increase the Union majority in this State. It will reach THIRTY THOUSAND, and the closest Congressional district is carried by Foun THOUSAND. Our majority is vasily larger than ever was gained in Matce before by any party, and is nearly double the average Union majority of the past years, JAMES G. BLATN, "Chairman Union State Central Committee,"

WE have had a hard time to secure the de-From this it will be seen that we have four served and legitimate fruits of our victory thousand more than we dared say yesterday, last autumn; but, thanks to perseverance and and eight thousand more than we had last Mr. Scovel's conscience, we have won at last. year, or hoped for this. The assertion made by the agent of influence will give us an equal triumph in the Associated Press, that Governor Ward this State. immediately gave his assent to the amend-

The moral effect of this victory is really astonishing. It has carried terror, and in many cases despair, into the conservative ranks, Some seek shallow excuses to palliate their rout, others own it was indeed a terrible defeat, but are willing to continue the fight. The New York Herald hangs out the white flag, and surrenders at discretion. It is in simple despair. It says in its leading editotorial to-day :-

"And so we find the generous and acceptable restoration policy of the President turned into contempt by squads of Southern vagabonds. here and there, playing into the hands of Northern radicals and fanatics in such scenes of 1aw lessness and bloody violence as those of Memphis and New Orleans. Such ghastly scenes of dis-order are, we are satisfied, as revolting to the masses of the Southern people as to the people of the North; but in the stabborn fact that such scenes are enacted in Southern cities with the connivance of the local authorities, and that the guilty parties escape without punishment, the Northern mind is naturally drawn to the conclusion that President Johnson's magnanimity s thrown away, and that the intractable spirit of

the Rebellion still prevails throughout the South, "It the moral effects, therefore, shall prove to be the triumph of the stringent radical volicy of exclusion, against the President's generous and conciliatory policy of Southern restoration, the Southern people may charge it to those vicious and rebellious elements among themselves which southern political leaders have permitted to be used by Northern radical agitators for their party purposes,

"Whatever may have been the real causes, however, operating to bring about the extra-ordinary results of this Maine election, it is too decisive against the Democracy and conservatives to be limited to Maine. We apprehend that, as in all our political contests of the past of a national choracter, the result in Maine inducates the generai drift of the elections coming after it larough out the Northern States. The prospect now of a conservative majority in the next Congress is very doubtful; the prospect of another radical Congress is better than it has appeared at any time since December last, in short, this Matue election of 1866 will probably mark another new chapter in our political history, and perhaps another reorganization of parties and another recon-struction of party platforms for the Presidential election, beginning with the close of the coming elections of October and November.'

ANOTHER ASTOUNDING FRAUD.-It seems to us that some means should be devised by which the Government might be protected against such wholesale trauds as those to

portant reaction abroad in favor of American securities and investments. Meantime our increased receipts of gold from California, Arizona, etc., are equally remarkable. Our receipts from San Francisco since January of this year have been over \$29,000,000, against \$12,000,000 for the same period last year.

The careful policy of our able Secretary of the Treasury has not only received universal encomiums at home, but is already being felt abroad, and causing additional confidence in our finances, when so able a man is at their head.

UNION DELEGATES IN NEW YORK .-The Empire City seems determined to outrival Philadelphia in its cordial welcome to the Southern Union delegates. The vast crowd which filled the Cooper Institute and surged around its walls, bid God-speed to the tried men of the South. Peter Cooper presided, and the first men of the metropolis acted as Vice-Presidents. Stirring speeches were made, wild enthusiasm prevailed, and the whole demonstration was a far grander one than we had hoped for from the city which gives a Democratic majority of 30,000 votes. It is, however, but a sign of the times.

New Jersey All Right at Last.

ment, is evidently an error. The Governor

had nothing to do with the matter whatever.

The adoption by New Jersey of the amend-

ment renders its ultimate ratification almost

certain. It was held, in the case of the aboli-

tion of slavery, that the time allowed for the

ratification extends through all eternity.

Whenever in the future the requisite twenty-

seven States shall give their consent, the pro-

position becomes the supreme law of the

land. Already we are sure of twenty-four

States, not including Delaware, Virginia, or

Kentucky, or any of the late Rebel States,

with the exception of Tennessee, which has

already given her assent. We need, there-

fore, but three more States, and those three

will be secured. The advance of public sen-

timent will lift the dead wrecks of the ship

of state upon its waves and hurl them for-

ward. The order of the age is progress. Ten

years ago, to be an abolitionist was to be an

object of contempt and calumny; to-day, to

be a pro-slavery man is to stamp yourself a

mark for ridicule, and a political, if not a men-

That same spirit which has shown the na-

tion the error of its ways in regard to one

form of oppression, will show it the right path

to lead it out of the slough of prejudice in

another. We are suffering under a grave injus-

tice, an injustice consented to in that spirit of

compromise which has ever been the curse of

this country. We have not followed the path

of right ; we have bowed to the idol of expedi-

ency, and truly, "whoever sacrifices principles

for peace deserves to lose both peace and

principles." It was this cringing spirit of

subservience which nade us let proper y in

men be represented, when we refused pro-

perty in cattle a like advantage, and now that

yielding to arrogance has come back upon

ourselves. Our votes are neutralized by the votes of Rebels, and it requires but half as

many Rebel votes to defeat us as we possess

ourselves. And to day the men who have

conquered the Rebels with the bayonet ac-

tal dotard.

The session of the Legislature of New Jersey adjourned until Monday, when it will meet again, and on the succeeding day elect Hon. Alexander G. Cattell United States Senator. The law passed at the last session of Congress, in May, providing for a uniform method of holding elections for Senators in the States, provides that the election shall be held at noon on the second Tuesday of the session. The Democracy, reduced to desperation, have seized on the shallow pretext of declaring that the day for such election is passed, that it occurred on the second Tuesday of January Even if we grant that this is but a continuation of the same session, which it undoubtedly is not, still their argument would have no effect. The Constitution expressly forbids an ex post facto law; and by what right could a law passed in May affect an event which it declares was only legal if it occurred on a day already past by some four months? It could have no binding force whatever. Hence on Tuesday the wellearned fruits of our battle will be garnered, and Mr. Cattell made Senator. We have already expressed ourselves in regard to that gentleman's qualifications. He is an able business man, a high-toned, honorable gentleman, and one thoroughly fitted to fill the high post of Senator. The rapidly failing health of Senator Wright leads us to fear that there will be another vacancy, in which case, while mourning the loss of a genial gentieman, we will rejoice to see New Jersey represented by two loyal Union Senators .

"THAT'S WISDOM."-The immortal "Jack Bunsby" has, we surmise, assumed an editorial position on the Age, and gives us this morning some of those "chunks" of wisdom for which he is famous. In speaking of the Maine election, our contemporary, under a show of candor, seeks to gain credit for admitting a fact which is patent to even the dullest intellect-that the Democrats have sustained an overwhelming defeat. It further assumes a "hollow mockery of mirth," and thus explains the cause :---

"That we have been beaten, we cannot deny. As journalists determined in every instance to present the truth, we will not attempt to disguise our defeat, nor endeavor to cover it up with faint excuses or shallow apologies. What causes led to our discomiture we cannot now enumerate; and we broach no other theory upon the subject at present except the general and perhaps the most truthful one, that we had not votes enough to carry any of our candidates. That explanation may not be consolatory, it is true, but that it verges closely upon fact, the most disappointed and disconsolate cannot help admitting.

This explanation is almost on'a par with the cause of the decease of the veritable "Cock Robin." He died for want of breath.

which it is continually subjected. The New York Post yesterday gave the particulars of one by which a million dollars were quietly removed from the national vaults, and appropriated by "two enterprising young men." It is the old story of Government ofilcers giving receipts for what was never received. A feeling of delicacy, we suppose, leads the Post to withhold the names of the "enterprising young men." We need two additional protections :- First, a more rigorous system of examination, by which not a single man may act as a check, but a series of checks be secured; second, a strict and crim'nal prosecution and punishment of the guilty parties when detected. These two remedies would, we think, prevent the evil.

The fact that after the lapse of years the fraud was only discovered by one of the culprits turning State's evidence, caused some natural suspicion as to how many like frauds have occurred in which there was no quarrelling among the thieves. Millions upon millions may have been stolen, and now the only remedy is to have all the accounts reaudited, and as soon as a felony is discovered to make a rigid example of the crimipals,

THE MILEAGE QUESTION. - President Johnson stated that the radical Congress increased its own pay \$2000 a head, but refused to give a proper bounty to soldiers. The President is in error in his statement, as it implies that a vast sum was added to the perquisites of the members by the bill. This was not the case. The mileage was reduced to one-halt of its present amount, and the sums thus received were divided among the members more equally. It used to be that the Western members, many of whom were mere nullities in the House, would receive \$12,000 mileage, while Eastern members would get \$200, and do all the work. To equalize the pay, an increase of regular salary and a reduction of mileage were agreed upon. So far as the real additional outlay is concerned, the sum is too insignificant to be fought over.

OUR CREDIT ABBOAD .- That the European capitalists have at last perceived the advantages of American securities seems evident. The unprecedented flow of gold to our shores is the best proof that our bonds are being absorbed. We require no quotation on the 'Change to tell us that they are rising On the 10th instant the steamer City of Boston, from Liverpool, brought over \$250,000, and the Hermann, from : outhampton, brought \$310,000. Then we have the information by the cable, that on the 8th of September the Jura sailed from that port with nearly \$1,500,000 in gold among her precious freight. At this rate the term spasmodic will hardly apply to this returning tide in gold; but it must be attributed to some general and im-
