RECENT VISIT TO WESTERN NEW YORK. The great stronghold of Unionism in the State, satisfies us that the cause is safe. The Johnson movement has no strength there whatever.

publican party, and the liberal and inspiring character of its doctrines, command it especially to young men.

There is, too, a quiet but very perceptible feeling among thoughtful men of all parties, that in this Constitutional question involved in the great contest, Congress has the right of it.

We regard all the omens of the most favorable character for the triumph of the Union party in all the fall elections.

THE "NEW YORK HERALD" FOR THE CONSTITUTIONAL AMENDMENT. The New York Herald has come to the very sensible conclusion that the right way for the Southern States to secure a renewal of their relations to the Union is to adopt the Constitutional amendment proposed by Congress.

THE WILL OF MATTHIAS W. BALDWIN, deceased, was proved this morning. It contains no legacies for public or charitable purposes.

REASONS WHY THE AMERICAN WATCH MADE AT WALTHAM, MASS., IS THE BEST.

It is made on the best principle. Its frame is composed of SOLID PLAT 56. No jar can interfere with the harmony of its working, and it is so constructed that damage to its machinery. Every piece is made and finished by machinery (itself famous for its novelty, as well as for its effectiveness), and therefore properly made. The watch is what all mechanism should be—ACCURATE, SIMPLE, STRONG, AND ECONOMICAL. Except some high grades, too costly for general use, foreign watches are chiefly made by women. Such watches are composed of several hundred pieces, screwed and riveted together, and require constant repairs to keep them in any kind of order. All persons who have carried "aneros," "lepinas," and "English Patent Levers," are perfectly well aware of the truth of this statement.

At the beginning of our enterprise, more than ten years ago, it was our first object to make a thoroughly good low-priced watch for the million, to take the place of these foreign impositions, the reuse of foreign factories, which were entirely unsuitable at home, and perfectly worthless everywhere.

How well we have accomplished this may be understood from the fact, after so many years of public trial, we now make MORE THAN HALF OF ALL THE WATCHES SOLD IN THE UNITED STATES, and that no others have ever given such universal satisfaction. While this department of our business is continuing to increase, facilities for better work, we are at the present engaged in the manufacture of watches of the very HIGHEST GRADE KNOWN TO CHRONOMETER makers, distinguished by any other watches of ourselves, and unsurpassed by anything made in the world. For this purpose we have the most complete facilities. We have erected buildings for the most complete machinery for the manufacture of watches. We have had the best talent secured, and have had the best material selected. Our watches are made by men and women, and are constructed with the most consummate delicacy and exactness. The choicest and most approved materials only are used, and we challenge comparison between this grade of our work and the finest imported chronometers. We do not pretend to sell our watches for less money than "foreign" watches, but we do assert, without fear of contradiction, that the SAME MONEY our product is incomparably superior. All our watches, whatever grade are fully warranted, and this warranty is good at all times against any one agency in all parts of the world.

CAUTION.—The public are cautioned to buy only of respectable dealers. All persons selling counterfeits will be prosecuted.
