THE UNIVERSAL PEACE CONVENTION-YESTERDAY'S SESSION.-The Universal Peace Society, after the adjournment of the Pennsylvania Branch yesterday morning, met in the Franklin Institute building, President Alfred H. Love in the chair,

The Chairman, on opening the meeting, alluded to the depressing influence of the slim attendance of members, the disagrecable weather, and above all to the intelligence re-ceived that the President has propounded to the Attorney-General certain curstions which may Attorney-General certain questions which may result in involving our country in difficulties and distress such as we have never yet expe-rienced. He drew from these facts the concusion that there are inducations that we have a work before us which ought to be zealously prosecuted.

A letter was read from Gerrit Smith, in which he expresses much interest in the movement, but contesses himselt still somewhat undecided in regard to the absolute sacredness of human

Mr. Jonathan Magili, of Pennsylvania, fol-lowed the reading of the letter by remarking that although Mr. Smith still needs light on that atthough all. Shifth but here agenent to us, and Gerrit Smith will some time be reached by the light he needs.

series of resolutions favoring peace, adopted at the meeting in Boston, Mass., ware taken up separately and thoroughly discussed by George W. Taylor, Jonathan Magill, Henry T. Child, Lucretia Mott, Rachel Moore, Olivia F. Ste-phens, L. R. Joslin, and E. B. Chace, after which they were adopted.

The Convention then took a recess until 8 o'clock in the evening, when it was again called to order by President Love. Mr. Joslin, of the Executive Committee, re-ported a resolution recommending that when

borted a resolution recommending that when this Society adjourns it adjourn to meet in the city of New York, anniversary week, May next, 1867, day and place to be nereafter designated. That we recommend in the interview, to the State societies, officers, executive committee, and other members of this Society, active labor for the cause by correspondence with all known for the cause, by correspondence with all known iriends in this and other countries, by holding public meetings for lectures and discussions in different localities, by a judicions distribution of the Society's publications, and by securing to the cause a hearing through the public journals of the country.

Dr. Child offered the following resolution:-That we recommend to the triends of peace everywhere to avail themselves of the public press for the dissemination of our principles, That they endeavor to procure the insertion of articles in the papers, and that a committee of five be appointed to ascertain what papers would

be willing to aid us in the measure. Dr.Child said:—I hope this great cause, which belongs to humanity, shall fever be kept ost of sects. I care not whether a man believe in the Lord Jesus Christ, or whether he belong to any Church, if he is a true man, a lover of peace, I hail him as a fellow-laborer. I have said that man as an animal would fight; man as an intelligent being may light, especially if, as the Apostle James said, "Whence come wars? Come they not from your lusts, which war in your mem bers?" But when man comes to live in his spiritual nature, he will not, he cannot light. He never has, and he never can, and it is only as this portion of our nature comes to have dominion over the beasts of the field and the towls of the air that we hope for peace to prevail. Woman, as an apostle of peace, has a noble field of labor-first, in the family, where she may curb the bitter outburst of feeling in her children; then in society and in the State; and I hope that our friends everywhere will use every effort to bring this subject before the people. Every one who utters the word "peace" with a strong desire to have it prevail, is doing some-

thing to promote this cause. It is not the great men and women alone who are moving the world in this direction, but every honest, earnest soul whose aspirations go forth for the coming of the day when peace shall cover the earth as the waters cover the sea, is doing something to promote this good work. The resolution was agreed to.

The President, Mr. Love, then addressed the meeting at great length on the subject of peace,

THE FASHIONS-MILLINERY OPENING-NEW STYLES OF BONNETS AND HATS. -- The weather yesterday was most inauspicious for a millinery opening, yet it did not deter the proprietors of many of the establishments from making a display of their choicest bonnets and hats, nor did it prevent a number of ladies from visiting the shops, and selecting the newest in styles and the richest in trimmings. The bonnets this fail are smaller than those worn last year, and in richness of material and brilliancy of colors they have never been exceeded.

An hour spent at several shops, yesterday, afforded an opportunity of seeing the styles

AFTERNOON SESSION OF M. E. CONFER-ENCE SUNDAY SCHOOL CONVENTION .- The atternoon session was taken up by instructions in the Sunday School Institute, consisting of Bible

Study, Method and Exercises in Sacred Geography. The evening session was opened with singing

the hymn "Nearer, my God, to Thee," and prayer by the Rev. Mr. Ingraham.

The order of business was announced by the Chair to be the question, "How can the early conversion of Sunday School children be best secured ?"

A number of the delegates participated in the discussion, most of whom contended that the most effective way of converting children was to have converted teachers in the Sunday Schools, so that their whole hearts might be devoted to the work. Several of the speakers stated that they had no doubt of the conversion of many children, and related a number of in-teresting incidents connected with Sunday Schools in which they were interested.

BAPTIST SABBATH SCHOOLS .- A Convention of the Baptist Sabbath Schools of this city will be held in the Tabernacle Baptist Church. Eighteenth and Chesnut streets, on Monday evening next. Its object is to discuss and adopt some plan of organization through which the general interest and efficiency of our Sabbath Schools may be increased. Coming directly upon the heels of the Methodist Convention for the same purpose, it will require especial inves-tigation to present any new discovery or theory as to Sabbath School management. The de-nomination, however, will doubtless be present in handsome numbers.

THE SOUTH STREET BRIDGE,—We learn that property-bolders and persons doing busi-viding for the construction of a footway on the upper side of Gray's Ferry Bridge, which was under consideration at the time of the adjourn-ment of Council, a week ago, was taken up and adouted. which will be most worn. One, called the Josephine bonnet, is very beautitut. It is made of garnet velvet, and trimmed with black barbe ince and bugles, and daisies inside the face. It is of the shape so much worn last autumn, with waterial or plait. Another very pretty bonnet is made of royal velvet, the colors being drab and purple, which afford a pleasing contrast; the trimming is bugle tringe and cactus flowers A bonnet, said to be all the rage in Paris, white corded one, with white ostrich feather. The face is open, with scarlet veivet trimmings inside. Another pretty bonnet is made of pink velvet, with lace crown, pink feather, and platt, and white bead-drops. Beads and bugles are very much worn on the

bonnets this season. Hats will be fashionable with young married laties and misses. One of the intest styles is called the William Penn hat, because it is supposed to bear resemblance to that worn by the great tounder of Pennsylva-nia. As it has a feather in it, and is trimmed with bugles, it looks the least possible like the Friend's beaver. A hat likely to be much worn is of white telt, trimmed with white velvet, and deconsided with a borow feather. Another and decorated with a heron feather. Another, quite popular, is a white French turban, trimned with blue velvet and white ostrica feather. The bonnets range in price from fifteen to thirty dollars; the hats from twelve to eighteen dollars.

ANOTHER NEW CHURCH EDIFICE .- The Nineteenth Street Methodist Episcopal Churca, Nineteenth and Poplar streets, in the north west-Independent and Poplar streets, in the northwest-ern part of our city, already celebrated for its neat and comfortable churches, will be opened and dedicated on Sunday, the 14th instant. This society began operations as a Sunday School enterprise, some six years ago last March, occupying Dr. Hare's old church, which stood on the site now occupied by the new building. They were a feeble band and few in number, but by energy and perseverance are now about to open to the courch-going commanity in the vicinity a very near and comfortable place of worship.

The building is of Trenton brownstone, 57 by 76 feet, with basement for Sunday School and class rooms, with an audience room in the second story, which is furmshed throughout with walnut. The seating is in circular form, all cushioned and upholstered, with kneeling boards for forward kneeling. Seats free. The church is handsomely freecoed; pulpit of marbleized slate; cabinet organ and choir gallery in rear of pulpit. The public spirit manifested not only in this church, but in the many church organizations of our city, is apparent to all, as the many new and eleganly fited churches will testify. If any doubt exists as to the neatness and comfort of the Ninete-uth Street M. E. Church, it will be removed by a visit, as it will be dedicated on next Sunday.
