REVISING TAX DUPLICATES.—The Board of Revision closed the hearing of general appeals from tax-payers yesterday, and will commence at once to examine into special cases which have been brought to their notice during the past three weeks. The Board have afforded every facility to real-estate owners to ascertain the valuation of their property as returned by the Assessors; and since they commenced their labors, those who have purchased property during the present year had the opportunity of having their own names placed around the board. having their own names placed upon the books, and also in having divisions of property made, and thereby save the duplicating of assessments, which frequently occurred under the old system. The attention of the Board has also been directed to the assessment of rural property, which only pays two-thirds of the city rate; and a visit will be made to portions of such districts for the assessment. such districts for the purpose of ascertaining whether the full city rate cannot be imposed whether the full city rate cannot be imposed upon land now rated as rural. Since consolidation, when the rural rate was fixed, the advantages of water, gas, and police have been extended to many portions that were deprived of those privileges at that time, and the Board now think that the owners of such property should bear their full proportion of the city tax. Already over \$300,000 has been added to portions of the Twenty-second Ward, and it is thought that this sum will be largely increased. The Board have also directed a return of all ad-The Board have also directed a return of all additions or improvements to property made this year, so as to place the same in the duplicate

Henry Buttry, William Summers, James Lynch, and Richard Slack were examined as witnesses. The evidence given before the Committee was in substance the same as that elicited at previous meetings. The only thing new was the evidence of James Lynch, who, five years ago, had the meetings. The only taing new was the evidence of James Lynch, who, five years ago, had the contract for hauling coke from the Works. He testified that, of his own knowledge, he had known more coke to be put into carts than what purchaser's ticket called for. He further said he stood aside and saw his carts loaded up with more coke than was called for by the He said after the casts entered the Works they were under the charge of the coke boss, and it was his place to detect all faults. The Committee then adjourned until Friday
