Semmes' Sword .- It will be remembered by some readers that a number of English officers and noblemen gave Mr. Admiral-Pirate-Probate Judge Semmes to understand, shortly after his little affair with the *Kearsarge*, that they in-tended to give him a sword. The sword has not arrived, but the editor of the Mobile *Register* and Advertiser has seen a photograph of it, and to him we are indebted for the following de-scription:—"The blade bears a suitable inscription, and is ornamented in the highest style of the swordmaker's art. The scabbard, which is of gold, as is also the hilt, or at least the guard. is ornamented, not profusely, but most tastefully, with devices emblematic of the naval profession and of Southern agriculture."

Dr Gwin — The New Orleans Times has seen his Grace Duke Gwin. It says: — "We are pleased to see in our city, in remarkably hale and vigor-ous condition, that distinguished son and citizen of the South, Dr. Gwin, formerly Senator from California, and more recently connected with the enterprise of establishing an American colony in Sonora, Mexico. The Doctor, it will be remembered, was released from captivity in Fort Jackson last summer, and, on his parole, proceeded to Europe to visit his family. He returns now to his native South to re-embark his fortunes and fate in the same boat with the Southern people." Southern people."

Cincinnati versus Chicago.-The controversy between the Chicago and Cincinnati papers as to the relative populations and prospects of the twe cities, is participated in by other Western journals. The Pittsburg Gazette takes the side of Circiunati. It bases its estimates of population on the number of votes polled at the recent election. In Cincinnati 29,728 votes were polled. In Chicago only 15,975 were cast. In St. Louis, where a large class are distranchised for past disloyalty, 21,062 votes were polled. In Pitts-burg 23,303 votes were cast. We can hardly concede the accuracy of the conclusion arrived at by the Gazeile from those figures, but they have some significance and value.

A Good Stock County .- The Guthrie (Iowa) Vide te gives some figures about a heid of stock raised near Dale City which deserves notice. The herd consists of seventy-two head of twoyear old steers, bought in that county last win-ter, and herded out on the prairie during the summer. He only hoped the simile would not be carried further, and they be swallowed up and disappear altogether with the extreme rapidity he had that day witnessed in the case of the natives."

A FENIAR MEETING.-Last evening, a large Fenian meeting was held at the hall in Fourth street, above Vine. Addresses were made by Colonel Condon and Captain McDer-mott, urging the friends of Ireland to contribute the means to enable the men at home to achieve the independence of Ireland. Reterence was made to the promise of Mr. Stephens that fighting should take place in Ireland before the close of the year, and hence the necessity for prompt assistance. Last year the people of Ireland were ready, but, failing to receive the aid promised from America, nothing was done.

In December, 1865, a firm in England was ready to ship fitteen thousand rifles, and to insure their safe delivery in Ireland or forfeit their value. Mr. Mitchel, who was then in Paris. was applied to for the needed amount, but he declined to advance it, giving as his excuse that he had promised the officers in America not to give more than \$500 per week to Mr. Stephens, and to stop that amount so soon as it was understood that the men in Ireland were ready. It seemed to be understood by Mr. Mitchel that the only use for the money was to maintain the organization, but not to extend aid in the shape of munitions of war.

The speakers urged union and harmony, and an earnest effort to assist the men at home in

the coming struggle.

An OPERATION IN PAPER.—A young man named James Bertrand had a hearing yes terday afternoon upon suspicion of having stolen four packages of printing paper from the cellar of a store at Fifth and Minor streets. From the testimony, it appears that he removed the packages to the corner of Fifth and Market streets, where they were placed in a furniture car, and taken to a lager-beer saloon on Ches-nut street, below Sixth. Soon after they had been delivered, it is alleged that Bertrand called for them. The barkeeper, thinking the move a queer one, notified Detective Lamon, who took elendant into custody. MRS. M A. WHITING, wife of Dr. A. B. Whiting, of No. 4 East Thirty-fourth street, New York, a lady well acquainted with all the leading Sewing Machines, says the superiority of the Grover & Baker Machine consists in the elasticity of the stitch, and the stitch fasculing itself at the ends of the seam; also that the machine may be used for embroidering purposes. The stitch will not break on bias seams when stretched, as others do and neither does at when stretched, as others do, and neither does it draw the work. The strich will wear as long as the earments.—Testimony before the Commissioner of Patents.

Some Facts About "Falling Stars."—
Although the "stars" did not shoot and fall as the philosophers and newspapers said they would, yet "stars" do fall, as every one kdows.
