TROTTING.

The Attempt to Trot the Horse Captain McGowen Twenty-One Miles Within the Hour-The Horse Exhausted and Withdrawn at the End of the Thirteenth Mile-Time-Table of the Trotting-The Previous Twenty-Miles-au-Hour Exploits, Etc.

Bosron, November 16.—The great trot against time to-day by Captain McGowen stamps that horse as certainly a "good un" to go." Before detailing the performance to-day upon the Riverside Park let me refer, for the sake of comparison, to some of the horses that have trotted twenty miles within the hour, and to some that have tried and failed to do it, and also the time made by Captain McGowen on the last day of October of last year, when he made twenty miles in fity-eight minutes and twentytwenty miles in fifty-eight minutes and twenty-

WHAT HORSES HAVE DONE IT. Trotting twenty miles an bour has been accomplished by three horses only, Young Trustee, Lady Fulton, and Captain McGowen. Other celebrated horses have tried to make themselves wonderful in this attempt, but want of blood on the last two or three miles has deprived them of the bonor. In 1833 a grey gelding called Paul Pry trotted eighteen miles and thirty-six yards in 58 minutes and 5 seconds, without fatigue, under the saddle. Hiram Woodruff rode this horse when he (Hiram, not the horse) was a mere boy. About the same time a horse called Jerry trotted seventeen miles in 58 minutes, under the saddle; and the English trotting stallion Bellfounder, 174 miles within the hour; but it was not till 1848 that a horse was found that could do the 20 miles within 60 minutes. That horse was Young Trustee, out of the celebrated trotting mare Fanny Pullen. Trustee was more than a half-breed. He performed the feat on the Union Fanny Pulley. Trustee was more than a half-breed. He performed the feat on the Union Course, Long Island, on the 20th of October of that year, never breaking throughout the whole performance. Berline, then so well known among the followers and admirers of the sports of the turf, handled the ribbons on that memo-rable occasion. On the twentieth mile the horse came in apparently as fresh as ever, doing it in 2.514—the fastest of the match—and trot-ing the twenty miles in 50 minutes and 354 seconds. The time on that occasion was carefully kept, and everybody concerned felt satisfied that the horse actually accomplished the feat. Some months after this a black geiding, sporting the name of Ajax, a sinewy and closely built animal, sired by Abdallah, attempted to hang out on a twenty-mile-an-hour gait, but failed, overrunning the hour by 7 minutes and 371 seconds. The same year, in the autumn, a horse called

Woodpecker attempted to share the laurels of Young Trustee, but after going nineteen miles in 57.43, his owner was afraid of losing his horse, and stopped him, having only 2.17 to ac-complish the last mile. No further attempts were made to equal or surpass Young Trustee's marvellous featuntil 1855, when Trustee, Senior, was matched against Spangle. In this case the winning horse overran the hour by five minutes and fifty-nine seconds. Flora Temple, on the 24th of May, of the same year, aspired to divide the honors with Young Trustee, but sue failed to accomplish the task in consequence of throwing a shoe on the eighth mile. On the twelfth or thirteenth mile she was withdrawn. About this time it was known that Lady Fulton had a desire to test her power of endurance and blood over the track at a twenty-mile-anhour gait. Accordingly, on the 12th of July the match came off, and to the agreeable disappointment and astonishment of her friends, she accomplished the feat, having, however, only five seconds to spare. She was a mare almost unknown to the track, but from and after this time her name was in the mouths of turimen. She was a blo d-bay, weighing only seven hundred pounds. How she ever managed to astonish the sporting world was a mystery, when it was known at that time she was only an ordinary horse. It was with great distress that she got to the end of her journey. She not only sweated profusely, but lathered wherever the harness touched her, and broke six or eight times during the race. But we now come to the greatest performance on record, only exceeded by that of to-day, in which Captain McGowen, on the 31st day of October, 1865, beat the time of Young Trustee by one minute and ten and a half seconds, and the time of Lady Fulton by a minute and a half, the only other horses that were able to trot twenty miles within an hour. On that occasion, it will be remembered, Captain McGowen had all the elements against him, and nothing in his favor. The track, however, was in good condition, and the borse, clastic and plump, was driven by J. J. Bowen. He broke only once, and that was on going out of the back stretch of the first half of the seventeenth mile. An hour after the match, Captain McGowen exhibited no distress. The veterinary surgeons who examined him pronounced him good for another similar For the purpose of reference and comparison, we append the following time table of Captain McGowen's trot of October 31, 1865:—

TIME OF THE FIRST HALF OF EACH MILE, EACH MILE, AND THE AGGREGATE.

First ball of Each mile. Aggregate 2 484 ******** 1 27)...... .2 56 1 28 2-55 1 29 2 57 THE GREAT TWENTY-ONE MILE TROT. The morning opened rainy, and the leaden skies betokened nothing but a compound of water and mud under toot. But the idiosyn-

cratic clerk of the weather, who is supposed to read the papers, and not forgotten that the trot of Captain McGowen against time had been advertised to take place in the afternoon, and so he was accommodating enough to suspend his corollary to the serollte vapors, and give us pleasant weather. The cloudlets began to fly, and by noon a warm sun and a drying wind conspired to put the track in good condition to respond with elastic touch to the rattling strokes of the swiftly flying teet of the high-bred courser. As the nour drew nigh for the trot to commence, the capacious park began to teem with people, some coming on foot and others in gay equipages, while the sleek-coated Captain McGowen, with his game head and intelligent eye, looked upon the busy scene from his stable window as if conscious of his aristocratic line age and blood unuingled with valgar drops, and of his ability to accomplish the work before him. But as the result shows, the managers of the track were deceived in its condition. To all appearances it was in a suitable state, but after the tenth mile had been trotted, it was evi-dent that the horse could not accomplish the

The word "go" was given at five minutes of 4 o'cleck, and the horse started off in splendid style, the thoughtful crowd watching with profound stience his uniform step and motion as he shot round the course. Hiram Woodruff, Jr., his driver, sat behind him motionless as a statue, looking neither to the right nor to the left, riveting his attention on the gelding as he

sped over the ground.

The first mile was made in three and a half minutes in an easy gait, and on the horse went, the party in interest near the judge's stand giving the driver the time at each half mile, and how many miles, in order that he might send the horse along at a given rate as with a steam guage to guide him. The second mile was made in 2.437.

After the tenth mile it was obvious that the heavy and slippery condition of the track was proving a serious drawback to the horse, for he showed signs of working hard. The reins lay loose upon his back, and his driver was compelled to urge him along with the whip. The first ten miles were trotted inside of time, with from ten to twelve seconds to spare.

On the thirteenth mile the Captain stopped deliberately of his own accord, and thus ended the long-talked-of trot.

To say that disappointment rested upon every face would convey but a faint idea of the tecl-ing that pervaded the immense concourse of spectators. After the ninth mile was accom-plished hope ran high, but there could be read in the countenances of the backers of the Captain that failure was inevitable on such a slippery track.

pery track.

During the eleventh mile these tears were realized. The gelding showed considerable distress, and had to be encouraged by talking to him and persuading him with the whip. On the twelfth and thirteenth miles everybody gave up the match as lost, but no one ventured to question the ability of the horse to perform all that had been promised, provided the track had been in a fair condition. The veterinary surgeons on the ground immediately examined the Cartain, and pronounced him at right. He discussed his supper with his usual relish, and during the evening exhibited no signs of prostration or illness, under the careful attention of his custodians.

The eager curiosity of the great crowd of spectators having been partially satisfied, it was not long before the grounds were deserted, and all wended their way homeward, satisfied with the performance of Captain McGowen, under such adverse circumstances, although at the same time there was a great disappointment manifested. There is no doubt but the twentyone miles could have been trotted inside of the hour, had it not been for the bad track. It is not probable that Captain McGowen will be matched against time again this season .- N. 1.

ECONOMY IN FUEL .- It is seldom any new article lie wins ils way into popular favor as rapidly or as effectually as the celebrated stove patented, manufactured, and sold by Mr John S. Clark, No. 1008 Market street. All who have tried this cook stove of Mr. Clark's are delighted with the admirable manner in which it operates. Mr. Clark tells his customers p ainly that it is the best cook stove ever invented; that for all kinds of baking and cooring purposes it is unequalled; that it is more curable and convenient than any other stove in use; that its price is more moderate; that it consumes but the small quantity of one ton of coal in six months the small quantity of one ton of coal in six months in doing the cooking, heating, and boiling of a large family, all or which he warrants to be as represented. The fact, therefore, that no complaints have been made is the best possible evidence that, strong as are the representations of Mr. Clark respecting his porular stoves, they are strictly true. In all affections of Pulmonary organs, as well as in Bronchial Complaints, Jayne's Expectorant is both a palliative and a curative, as the testimony of thousands and its world-wide reputation attest-while in Coughs and Colds it acts speedily, and when taken according to directions promptly removes them. Why not give this standard remedy an immediate trial? Prepared only at No. 242 Chesnut street.

WHAT IS THE MATTER WITH THE LAGER?-Those who are accustomed to drinking this exhibitating beverage complain of its uncomfortable action upon the lower bowels. This is the result of using aloes Arabica in its composition to give it a bitter taste. Dr. James N. Bedloe, at Lakemeyer's saloon, Carter street, below Third, has his Lager Beer brewed expressly for him, without the use of anything except the malt and hops. It is positively wholesome, and is the best in the city.
