FROM WASHINGTON THIS AFTERNOON.

SPECIAL DESPATCHES TO EVENING TELEGRAPH.] Washington, December 1. Thaddens Stevens Foreshadowing the Course of Congress.

Thaddeus Stevens is preparing very strong resolutions as to what will be the course of Congress during the coming session. These resolutions are to be laid before the caucus which will meet next week.

A Down-East Member Preparing Articles of Impeachment.

An Eastern member of Congress is now in this city preparing articles of impeachment against the President, and will introduce them at an early day during the coming session, unless the President alters his "policy" in the meantime. Negro Suffrage in the District.

Senator Morrill, of Maine, it is understood will immediately, on the assembling of Congress, introduce a bill to con'er the privilege of suffrage upon the freedmen of this District, and will energetically insist on an early vote. It is said to be his purpose to have this new law in n'll force before the next municipal election in this city. It was Senator Morrill who introduced and carried through the bill emancipating the slaves of this District. If he presses this second proposition with the energy and persistency that characterized his efforts for the first, t is more than probable that it will be successful.

Secretary McCulloch in Favor of Paying the United States Bonds in Gold.

Secretary McCultoch is desirous that Congress should enact a law making it distinetly understood that the United States are pledged to redeem the principal as well as the interest on its bonds in gold; but knowing the opposition which all his measures meet in that body, he will not directly propose it. In another form, however, it is not unlikely that this and several other measures he has on foot will be brought to the attention of Congress at the proper time.

The Message Sent to the Press. The President's Message was last night sent to

the Agent of the Associated Press, to be sent to the leading journals of the country. Copies will be malled to-day for all points save New York and Philadelphia. A special messenger will take copies to the latter places. The agast are held responsible for the proper use of the Message, and promise that it shall not appear in print until the document is presented to Con-Proposed Conference with the President.

Among the political straws of the day, it may be mentioned that a Republican member of Congress stated to-day that himself and several other members of the same party intend to call, together, upon the President in a day or two, to pay their respects to the President, and have a friendly talk upon the political situation.

Report of the Secretary of the Treasury. The instructions of the Department to J. Ross Browne, of California, and J. N. Taylor, of Minmesota, Commissioner to obtain mining statis tics east and west of the Rocky Mountains; the report of John J. Knox upon the Branch Mint of San Francisco and Carson City, and that of Captain Mew upon the loss of the Evening Star. will accompany the report of the Secretary of the Treasury to Congress,

The National Debt.

The monthly statement of the national debt will be issued early next week. Owing to the heavy payments for interest during the monthamounting to over \$23,000,000-and the lessening of the revenues consequent upon the dullness of the season, the forthcoming statement will show no diminution in the aggregate amount of the debt.

The English military officers on duty in the province state that they will take no prisoners, and that they hope General O'Neil will follow their example.

The water police of this city has been ordered to Sweetsburg. The indictments against the prisoners have been made out. They are charged with being found in arms in the province of Canada, and attempting to overthrow the Government of her Majesty.

Davis, arrived here the parole or pardon of Jeff. Davis. Johnson for the parole or pardon of Jeff. Davis, arrived here this morning, and have spent all day inside the fortress with the State prisoner. It is understood that they give very little encouragement as to the successful accomplishment of their mission. Their special object in coming here is to see Mr. Davis, and satisfy themselves, from personal observation, as to the condition of his health and his treatment as a prisoner, so as to make a report upon the same prisoner, so as to make a report upon the same

Regarding the health of Mr. Davis, both express themselves surprised, as well as greatly gratified, to find him as well as he is—his spirit still bright and elastic, and his hopes in the future still booyant and unfailing, not withstand-ing his protracted imprisonment and successive disappointments and discouragements on the subject of his trial. As to his present treatment, they have not a word of fault to und, and trankly acknowledge its elemency and humanity They will remain another day, and then it is said they

will go home to submit the result of their interviews with the President and visit here.

Valuable Masonic Jewels Stolen.

The Newark Advertiser states that on Wednes day last the tron safe belonging to St. John's Lodge of that city was opened by picking the lock, and the ancient jewels, consisting of the Masonic insignia made of solid silver, were stolen. Their pecuniary value was the least part of the loss, since they had a historic interest and peculiar associations which were prized by the members of the Lodge far beyon! any estimate of their worth that could be made in money. They are said to have been 104 years old, and were used by General John N. Cum-mings, who was Muster of the Lodge before the Revolution. During the war they were braned to the Army Looge at Morristown, presided over by Washington, and were also used on the occasion of miliating General Largette into the brotherhood of Masons. The circumstances of the robbery indicate that it was perpetrated by some one familiar with the place, and some unworthy member of the fraternity is suspected of being the guilty party.

THE RILLING ON LAST TURSDAY.

THE RILLING ON LAST TUESDAY.

This morning an application for the discharge of Hugh Cochran was made. He was charged with the killing of George McNally. One witness only was examined. Thet witness, a little girl, said she saw the deceased standing near the railroad track, when a fire steamer, driven by Cochran, come running down bouth street, be ow Eleventh.

The crowd called to McNa ly to get away, and the driver ha looed also, but he did not seem to hear, and tefore the steamer could be stopped McNally was knocked down, run over, and killed. The Court said there was no necessity for going further into the case, for where a life is taken the case must go to the jury.

SENTENCET. Joseph White, convicted of a charge of the lar-ceny of a trunk, or participation in the larcony, was sentenced to two years and six months in the

Cennty Prison.

James Wetmore was next called up for sentence. His case is no doubt fresh in the minds of the public. Colonel William D. Baker applied to the Court for a new trial of the case, reading an affidavit made by a New York gentleman to the effect that Wetmore did not fire the shorset forth in the bill.

Mr. Baker reterred also to the great harm done to the cause of the young man by his appearance in the daily papers by the alias of "Mysterious Jimmy;" but this was answered by the District Attorney by stating it was necessary for the purpose of identity to put in the bill such name as detendant was known by among his feilows.

I be motion was overruled, and the prisoner was sentenced to the County Prison for two years and six months.

John Mason and George Roberts, the two men whose wonderful feats of burgary have of lace created such a sensation throughout the commubity, netwithstanding a motion for a new trial made and strongly argued by Mason, and a very severe slap at reporters in general, were sentenced each to Comty Frison for five years.

In the case of Catherine Stokely, convicted of a charge of larceny, the verdict was set aside.

Christian Mil'er, convicted of a charge of larceny, was next called for sentence. Christian Kucas, Eag, ably argued a motion for a new tria, saying that the Commonwealth's case had been entirely founded upon an alleged confession of the prisoner's wife, and that recent investigation had brought out the 1ct that this very same wife was insane, and had been confined in the Atmahouse for insanity.

He also argued the other usual reasons, insufficency of testimony, illegality of the verdict, etc. but the motion was overruled and the prisoner was sentenced to the County Prison for one year.

FROM WASHINGTON THIS P. M

[SPECIAL DESPATCHES TO EVENING TELEGRAPH.] WARHINGTON, December 1. The Southern Loyalists Demanding the Impeachment of the President.

The universal-suffrage party of Louisiana has sent a delegation here, with a series of reso lutions addressed to Congress, asking the impeachment and removal of President Johnson, as a traitor and sympathizer with Rebels, and for the abolishment of the present State Government of Louisiana, and the establishment of a loyal Territorial Government, with a military or provisional Government therein; and also asking Congress to provide for a State Government therein on the basts of universal suffrage, and also to establish universal suffrage throughout the United States. Head-Blocks for Soldiers' Graves.

Yesterday General Meigs opened bids for furnishing iron head-blocks for soldiers' graves, to be delivered at any point in the South. Over three hundred thousand are to be furnished. The lowest bid was by a party, in this city at one dollar and eight cents each.

The Welcoming Address to Congress. The address of welcome to Congress, by Judge Carter, will be made at the Capitol at noon on Monday.

The Great American Philanthropist, George Peabody, will shortly visit Washington, and be the guestlef his fellow-banker, W.W. Corcoran.

Interesting from Baltimore.

By the United States Associated Press. BALTIMORE, December 1 .- The new Surveyor of the Port, William Wales, of the Commercia!, entered on his duties this morning, vice E. Fulton, of the American, removed. Deputy Surveyor Parker, also removed, rad Robert Cathcart appointed in his place. There are indications of a general removal of subordinates.

Mr. Fulton was the last of the supporters of Congress in the Baltimore Custom House, and the above subordinates were all of the same class.

Considerable interest is manifested in the mercantile and newspaper world as to the telegraphic contest between the old Associated Press and Mr. Cra'g's new organization. The course of the American, in refusing to submit to the exclusive orders of the old Association, is highly approved, and the superiority of the despatches jurnished by the new Association is generally admitted. Their old-fogy notions will not suit the present progressive age.

A colored artist named William H. Sumpson has astonished our connoisseurs, who think nothing good can come out of Africa, with a life-like portrait in oil of Judge Bond, for which he thad but two sittings. The likeness is perfect, and the execution is very line.

From San Francisco.
