### CITY INTELLIGENCE.

For Additional City Intelligence see Fifth Page.] CITY COUNCILS .- The regular meetings of these

bodies, were held yesterday afternoon. Select Branch—Mr. Cattell presented to the Chamber the resignation as Chairman of Mr. James Lynd, its President, who, being nominated as City Solicitor, relinquishes his post in the Councils of the city.

A letter was read at the same time from Mr. Lynd, expressing his thanks to his fellow-members

for the manner is which they had sustained him as President of the Select Council Chamber, and for the personal regard that they had evinced to-

The resignation was accepted.

By acclamation, Joshua Spering, Esq., of the Ten'h ward, was elected as Mr. Lynd's successor.
The oath of office was administered to him by Mr. King, and he was installed President of the A resolution by Mr. Barlow, to meet in joint convention of a Thursday, to elect a City Solicitor in the stead of F. C. Brewster, elected Judge, was

Appropriations as follows:

To pay interest on city loans falling due January, 1867, Warrants drawn against water, schools, loans and city ice boat,

Balance in sinking fund account, -Loans maturing in the month of January, 1867, to be paid from sinking fund, 10,791 00

The ordinance providing for the imposition of a tax upon fire insurance companis was now taken up. Pending the discussion the subject, the

up. Pending the discussion—the subject, the Chamber adjourned.—Common Council met at the usual hour, Presiden Stokley in the Chair.

Mr. Palmer presented the following communication from Wm. Neal:

Respected Councils: I have received the official notice of my election to the office of Director of the Northwestern Railroad Company. I am not an office seeker; but whenever my fellow citizens or their constituted anthorities have called me, I have willingly devoted a portion of my time to public affairs. But I am confident it will be out of my power to be of any service to the city by accepting the effice you have now conferred. I find that the Northwestern Railroad Company, after exhausting the \$700,000 paid by the city, and all the available means which the ingenuity and the disingenuousness of its managers could devise, became hope-lessly bankrupt, and closed a life of doubtful vir-tue in about six years. How this premature disso-Intion was so ingeniously effected by its dearest friends, the act which incorporated the company will clearly show, and how the dity was disfranchised of all its interests in the Railroad Company. I therefore think that Councils will see that there is no loager necessity for electing a director of this road.

WM. NEAL.

Mr. Stanton presented the following, moving that for the present it be tabled: that for the present it be tabled:

The undersigned committee, appointed by a meeting of the firemen of Philadelphia, desiring to co-operate with your honorable bodies in any measures designed for the good government of the Fire Lepariment, respectfully offer to attend before any committee appointed by your bodies, and to be the consultation for that purpose. They are join in consultation for that purpose. They are satisfied that they can give information which will rescind the measures now before you for adoption, and form an ordinance that will be more likely to effect the objects proposed by the bill now under consideration by Councils.

J. Gordon Showaker, W. Searles Mann, JACOB F. STABL, CHARLES R. MISKEY, WILLIAM D. KENDRICK, Committee

The motion of Mr. Stanton was agreed to.
The Fire bill now came us under the motion on
which the Chamber adjourned on Wednesday of
last week, to refer the bill to the Committee on Fire and Trust.

Mr. Harper said that the bill had been considered by a committee of Councils. It was their special work. It was well investigated and matured.

Why should it go to another committee!

Mr. Fox said that it was only intended to refer the bill to the Committee on Fire and Trusts to smother the ordinance. The firemen openly proclaimed this. If they can send the bill to that committee the measure will be locked up. The bill should not go there. If it does, and the measure is lost a raid fire department must follow. The prelost, a paid fire department must follow. The present system will not work, and must be changed. The reason why he did not now advocate a paid fire department is because of the expense. In a few years the paid system will come naturally. If the present bill be not approved, the paid system will be introduced at once

Mr. Evans spoke against the reference. The re-ference is but an attempt to smother it finally. Councils have considered the matter and are ready to vote without any further action by the Fire Committee. Why should Councils be respectful to the firemen! they insult Councils.

Mr. Nichols said that as Chairman of the Committee on Trusts and Fire Department he would promise, if the matter was referred, that he would promise, if the matter was referred, that he would

introduce a report from that committee in a week, presenting either the old bill or an amended one.

Mr. Harper said that this was showing the hands of the committee, and now the bill should not be referred to a committee hostile to the measure they

are instructed to consider.

Mr. Evans moved to amend by referring it again to the committee that first reported it.

Mr. Harper objected. That committee had considered it. He nidn't want to hear the firemen. He

knew what they wanted to say. They have ex-pressed that in their convention.

Mr. Hancock said that that committee had done

Mr. Hancock said that that committee had done but a portion of its duty, and should complete it. The firemen should be heard. Their record of honesty and peril of life, and readiness to spring to the ropes to save their fellow-citizens' property, all deserve that they should be consulted and advised with in reference to this change.

The motion of Mr. Evsns was lost.

Yeas—Mossrs Alien, Allision, Bardsley, Billington, Evans, Fox, Franciscus, Harrison, Hill, Krupp, Marcor, Miller, Oram, Bay, Echaffer, Simpson, Vankirk, Willeta and Stokley—19.

Nays—Messrs. Armstrong, Barnes, Calhoun, Derbyshire, Dillon, Eager, Earnest, Gill, Hancock, Harper, Hetzell, Huhn, Msctague, Nickels, Palmer, Shane, Stanton Stockham, Stokes and Wolbert—20.

The motion to refer to the Committee on Fire and Trusts was then agreed to. The Select Council amendment to the police bill

was then concurred in.
Mr. Harper, from the majority of the Finance Committee, presented a report, with a bill, fixing the tax rate for 1867 at 4 per cent., and funding \$1,500,000, the excess of the appropriations of the present year.

The report stated that for this year the estimates were \$6,104,351 58.
Of this, interest on city loans, - \$2,250,000 " temporary loans, - indorsed loans, -

It will thus be seen that nearly one-third of the whole amount was for the payment of interest on the loans incurred in previous years to bear the burden of the war; and the neglect of former Councils to provide a sufficient rate of tax now

bears heavily upon the public.

The committee referred to the manner in which property is assessed. That in the old city is generally assessed about 60 per cent. of its real value. That in the rural wards is not assessed over 10 per cent, and the tax of 4 per cent. on the returned value of \$160,000,000 is not as much as would be predicted by the cent. produced by 2 per cent, on \$360,000,000, which is nearer the real value of the city property. By the correction of the Board of Revision, this great evil

will doubtless be remedied before the expiration of the present year. The committee closed by reporting the following

Section 1. That the City Commissioners are hereby authorized and required forthwith to levy hereby anthorized and required forthwith to levy upon the taxable property returned by the assessors as the assessment of 1866 (except such as is rural) the tax of \$4 on the assessed value thereof, and upon every taxable inhabitant of the city 25 cents.

2. Said tax be laid for 1867, as one city and county tax, and is hereby voted for the following objects for 1867: Items—First. For poor, 17 cents. Second. For public schools, 58 cents. Third. For lighting city, 28 cents. Fourth. Payment of interest on funded debt and for sinking fund, \$1.54. Fifth. Highways, 20 cents. Sixth. Water, 21 cents. Seventh. Police, 37 cents. Eighth. City property, 6 cents. Ninth. Fire, 7 cents. Tenth. Prisons, 7 cents. Eleventh. City Commissioners, 11 cents. Twelfth. Street cleaning, 7 cents. Thirteenth. Remaining expenses, 27 cents.

The report was signed by Alex. J. Harper,

The report was signed by Alex. J. Harper, Samuel G. King, Henry Harrison, A. H. Francis-cus, Alex. M. Fox, Sam'l. W. Cattell, Alexander Hodgdon.

to make all things square. The deficiencies were

to make all things square. The deficiencies were all the result of one year, and should have been paid from the tax levy for 1866. This amount is \$50,000.

During 1866 extra appropriations of \$360,000 have been made to the department. By the report of the Comptroller for the year it will be seen that the extra appropriations foot up \$1,500,000, including \$95,600 to the ice-boat and \$748,822 40 to the Water Department. In addition to these sums of \$500,000 and \$300,000 not provided for in 1866 and added during the year, the State recovered a judgment against the city for \$600,000 for back taxes.

The majority of the Finance Committee recommend that this \$1,500,000 be funded. This the undersigned oppose. It is the duty of Councils to prepare a tax sofficient to carry on the government. By funding \$2,500,000, two years ago, the city was minde even, and a rate of \$4 40 instead of \$4 should have been proposed for 1866.

The duty of imposing a tax rate sufficient to meet the expenses of the city has always been evaded by Councils. In 1865 they imposed a proper tax to meet the departments' estimates. The experience of many years has been that the necessity to have a sum sufficient to carry on any particular department is not rendered inexorable by reducing the estimates, and the extra appropriations of this year shows the accuracy of "sis rule.

ment is not rendered inexorable by reducing the estimates, and the extra appropriations of this year shows the accuracy of his rule.

The act of consolidation requires that the city shall not only provide for the payment of the interest of its debt, but shall be prepared for any loan needed by a contemporaneous appropriation for the payment of the interest, and to sink the principal within the next thirty years. This law is very plain, and if it be admitted, then we ought to carry on the government of the year by the taxes of the same year, without borrowing. This law imposes the additional duty of paying the interest upon the public debt and the sinking fund "without loans." The postponement of the payment for thirty years of the \$1,500,000 will involve the payment of \$90,000 annually for interest, and \$12,000 annually for the sinking fund, and of \$15000 annually for the sinking fund. annually for the sinking fund, and of \$4500 annually State tax upon interest-altogether \$112,500

per annum.
Again the Controllers report says that there are now on hand for schools, gas, water, etc., unsold loans amounting to \$2.277,800. The contracts for these works are made and the loans will be issued during the coming year. If the \$1,500,000 are to be funded, there will be \$4,000,000 of a loan on the market at the commencement of the year. It may be said that the Commissioners of the Stoking Fund will take all this, but the law says that the amount must be raised by tax, "exclusive of loans," and this is wise to prevent the compounding of the and this is wise to prevent the compounding of the public debt as the result of funding. The debt should only be increased by the corresponding erection of public works, the receipts from which will pay the advance interest and sink the prin-

Again, to borrow this \$1,500,000 will be to do it in paper and pay it in gold. While the cost of government is at paper prices, the taxes should also

so be,

It is stated that four per cent. is a high rate of taxation. But the aggregate of assessments of property made to Councils is \$164,000,000. Councils is \$164,000,000. The people cils cannot change this assessment. The people elect officers to assess property, and the undersigned hope that the apparent high rate will lead people to correct the cause of the evil. The interest account of the city is already \$2,225,000, and we should pause before increasing it.

The undersigned do not refer to \$600,000 for the South street bridge, nor to \$100,000 ordered to be expended for arterial sewers, because if these works be commenced the proportion of loans that can be sold in 1867 will be small. The Controller's estimates for 1867 are \$7,604,351 58 The Controller's estimates of To this Councils have added—

For House of Correction, -For increased pay of police, -- 100,000 00 - 140,000 00

To meet this a tax rate of \$1.75 will be necessary, and the undersigned think that there is no reason that will excuse the funding of part of the expenses that will not justify funding the whole, and therefore urge upon Councils the honest payment of the whole. of the whole.

(Signed,)
JOS. F. MARCER, Chairman,
JAMES FREEMAN,
JOSHUA SPERING. Mr. Harper moved that the ordinance attached to the minority report be considered. Agreed to.

The smendment to fix the rate at \$4 75 was lost

The smendment to fix the rate at \$4 75 was lost rong, Billington, Dillon, Heizel, Marcer, Stockham and Stokes.

The rate was then made \$4 on the hundred, only these members—Billington, Marcer and Stockham—being in the negative.

Mr. Willets then moved to amend the bill by fixing the tay on farm lands in the proval districts at

ing the tax on farm lands in the rural districts at one-third of the regular tax, and all other rural properties at one half the tax.

The amendment was not agreed to, and the bill was approved without further objection.

Mr. Stanton offered to the Chamber a communication from John M. Orton, of Boston, in reference to the proposed change in the Fire Depart-

ment.
Mr. Stanton moved to refer the communication

A TERRIBLE EXPERIENCE—Arrival of the packet ship Tonawanda with sixty-seven wrecked Frenchmen on board.—The ship Tonawanda arrived at this port yesterday, from Liverpool, with D. W. Harry, M. D., of this city, as passenger, and sixty-seven wrecked Freuch-men on board. Captain Julius, of the *Iona*wanda, reports "that on November 18th, latitude 45.20 N., longitude 50.50 W., saw a dismasted vessel on our port bow; stood for her; she proved to be the brig Jacques, Captain Fontaine, of and for Granville, from St. Pierre, Newfoundland; four days out; when two days out, while lying in a gale of wind, under close reeted maintopsail, a heavy sea struck her and hove her on her beam ends; it carried away her bowsprit and all her masts and yards, except the foremast and yard, broke the tiller, seven deck beams, etc., and took her houses, boats, and everything else off the deck, even to her hatches; she had sand ballast in, with barrels of cod liver oil and codfish over it; she was making water, pumps choked, and they were bailing with buckets; lowered two boats, one in charge of the first and the other of the second mate, and took them off, with their effects; one boat made three, and the other four trips; dur ing this time the wind and sea were increasing and we did not save anything else; the captair set the vessel on fire before he left; we brought away sixty-seven persons, besides the crew; she had two cabin and over fifty other passen-

gers; these last were in a miscrable condition.
"When the accident occurred they were all in the hold, on the barrels, and when the vessel was thrown down, the cargo shifted, and they was thrown down, the cargo shitted, and they with it; one was kilied, and there are now on board the Tonawanda four persons with their collar-bone, hip-bone, jaw-bone, and one arm broken, besides a number with bruises and wounds, and there are several cases of scurvy; our doctor attended them all, set their bones, and made them comfortable. On the 1st inst., Thomas Corrigan, seaman, of St. John, N.iB., fell overboard and was drowned. On the night of the 5th inst. Jean Theffaire, of St. Verny (Cote. of the 5th inst. Jean Theffaine, of St. Verau (Cott du Nord), died from the effects of injuries received at the time of the accident to the

FEMALE SNEAK THIEF .- At the Central Station yesterday, Mary Moore (colored) was charged with the theit of wearing apparel from the premises of George W. Metzgar. The complainant testified that Mary Moore was engaged as a domestic in his family on Wednesday, and slept in the house that night. Yesterday morning, upon the family rising, the house was found to be open, and the defendant nowhere about. An examination of the premises disclosed the fact of the theft, a number of dresses and other articles having been carried off. Officer Web testified that he arrested the accused, and recovered the stolen property from information he received from the occupants of a house in Middle alley, where a bundle of the things had been placed for safe keeping. The defendant

CHURCH DEDICATION .- For some month past the First Presbyterian Church, Northern Liberties, on Buttonwood street, below Sixth has been undergoing very extensive improve-ments, which speak well for the taste and vigor-ous life of the congregation worshipping there. The interior has been entirely remodelled. The cost of the improvements will amount to over \$13,000. Dedication services will be held next Sabbath morning at 10.30 A. M. by Rev. J. T. Sheppard, D. D., and in the evening by Rev. Daniel Marsh, D. D.

A minority report presented by Mr. Marcer purported that the tax rate of \$4 per hundred for 1866 was, by the Comptroller's estimates, expected to raise \$6,500,000. The same estimates placed the expenditures at \$7,000,000. This included the deficiency of the previous year. This whole amount should have been paid, because the city had funded within one year before \$2,500,000 of her obligations.
