THE DAILY EVENING TELEGRAPH.-PHILADELPHIA, FRIDAY, JANUARY 11, 1867.

A note was received from Mr. Dixey, Commis-tioner of City Property, in answer to a resolution of imputing as to the right that certain parties had to cartice from the Schuyikill through Fairmount Parz. Mr. Dixey says that the privilege was granted to Mr. Elsenger as an equivalent for one bundred loads of gravel that he promised to de-tiver to the city in the spring. The communication was referred to the Com-iner of the City Property. Mr. King offered a resolution of instruction to for the city property. Mr. King offered a faitment from the vouchers in his department of the moneys drawn from the city Treasury by authority of Councils, and used in suppressing the late rebellion, stranged under the following heads, "defence of the city," "rilef of families of volunteers," "bounty to volunteers," of families of volunteers," "bounty to volunteers," during and since the year 1861, and report the same to Councils. Mr. King said that so soon as the necessary

Mr. King shid that so soon as the necessary figures were furnished to him, he proposed to ap-ply to Congress for a reimbursement of the money to the city. Massachusetts has already been reim-bursed to the amount of \$3,000,000, and is still ast-ling for a further sum. Philadelphis has given more money than any other city in the Union, and the United States government was bound to re-imburse it.

The resolution was unanimously agreed to. A resolution was offered by Mr. Cattell, author-izing the renting out of the basement of the city armory for the sum of \$500.

It was sgreed to. A resolution by Mr. Stokley, relative to making connection with sewers by underground drainage, was postponed for the present. The Chair then announced the following com-

The report was a labored answer to the report of Colonel Page to Select Council three weeks since. It stated that twenty-one meetings had been held.

and 200 pages of printed matter been taken, of which the committee would not attempt an analy-sis. The report stated that the committee, at its outset, advertised in every paper in the city for persons to come before it and complain against the Trust. Nobody came, however. Then the com-mittee commenced to take testimony. They would not summon the President, engineer, and directors of the Trust to testify as to their own conduct, but they went to the works and examined the dealers, inspectors, and out-door men, who, with the fore-man of the works, they believed to be the best men to testify about the management of the works. Mr. Roberts, foreman at Point Breeze, testified that Mr. Oresson never introduced politics into the works. Mr. Stewart did. Fromthis introduc-tion the political errors are traceable. The break-ing of the holder at Point Breeze was because Mr. ing of the holder at Point Breeze was because Mir. Stewart discharged Mr. Benson, a competent man, and placed Lamb in charge. Lamb was incompe-tent and broke down the holder. This caused a loss of one-half the capacity of the holder-1,809,-000 feet of gas. Mr. Manuel had to cut down the holder an entire section before he could repair it. The whole evil being, in the opinion of Mr. Evans, attributable to the course of Mr. Stewart, the report recommended that action be at once commenced against the sureties of that engineer. The committee also went into the refreshment matter at the works and gas office, and justified it. "A little something to eat when they visit the works upon official business would not injure the

The price of coal in 1863 and 1864, the report

The price of coal in 1863 and 1864, the report said, was in consequence of the inflated condition of the currency. This will account for the in-creased price of coal during those years. About tolls the same thing was true. The tolls on coal were \$4 25 per ton in 1863. In 1864 they were \$4 75, and then the tolls went up to \$5 75, and in 1867 to \$6 75 and \$6 80. This has now been reduced to \$5 75, and the coal owners having reduced their price \$1 per ton, the Trust now saves \$2 per ton on the schedule of 1865.

n the schedule of 1865. on the schedule of 1863. The committee answered the statement of Col. Page's committee about Cameron coal. It had been stated that Cameron coal would not produce good gas, and the committee having the coal tested found that it would produce 4.82 feet of gas to the pound, Pittsburg coal producing 4.27 feet of gas per pound. The committee make bat little explanation of the "leakage" question. The report said that the great loss of leakage in 1865 (112,000,000 feet of gas) was caused by the breakdown of the holder at Point Breeze, (900,000 feet.) The report stated that the city does not pay the

Trust as much money for lighting the street lamps as it should, the Trust having lost \$91,000 during

last year on the street lamps. Mr. Evans moved to adopt the report, print it, and dismiss the committee. Agreed to. Mr. Evans then offered an ordinance to pay \$300, the expenses of the committee for clerk hire, car-ringe hire and messenger fees. The ordinance was severely criticised, and

A CURIOUS CASE-SERIOUS CHARGE.-

On the 5th of November last, Mrs. Louisa Lind-say, No. 1728 Cox street, went before Alderman atchell and preferred a charge against James Lukens, accusing him of assault and battery, with intent to kill. It was alleged at the time that Lukens entered the house and cut Mrs. Lindsay in the neck and at the same time made an assault upon James Smith, who was present, inflicting a wound on his neck. Neither of the parties were seriously injured. The warraat then issued was either lost or mislaid, and Lukens was not arrested. Smith preferred no charge against him.

On Friday, December 21, while Mr. Lukens was in a public house at second and Lombard streets, a nan entered and discharged a pistol at him, the load taking effect in the thigh, severing one of the principal arteries. Information of the shooting reached Lieutenant Goldey, and he sent officers to the place, who were informed that the whole affair was trifling, and that i was the result of an accident. Nothing upon which to base an arrest was obtained, and thus the matter was allowed to rest. In the meantime Lukens, who was kept at the house where he was injured, gradually grew worse, and at the end of a week was removed to the hospital He remained in the institution but a few days, and was then taken to his home, in the neighborhood of Fifteenth and Fitzwater streets. Yesterday his condition was such as to indicate death in a short time. The physician in attendance resolved upon an amputation, which is fixed for to-say. Little hope is entertained that he will survive the operation. In view of this condition of affairs, Lieutenant Goldey last evening arrested James Smith as the party charged with discharging the pistol at Lukens. Up to the present time the injured man has refused to give any information in regard to the individual shooting him. Smith will have a hearing to-day.

Resolutions to organize such an association, allowing each alumnus to become a member for an initiation fee of ten dollars; de-claring its officers to be a president, vice-presi-dent, recording score!ary, corresponding scoretary, treasurer, and a board of twelve managers; declaring that the association shall not be a secret organization, with neither political, religious, nor sectarian basis; and recommending the securing of a hall, with library, chess, smoking, and conversation rooms, were intro-duced, but postponed until after the next meeting of the alumni, which will be in February next.

Robert D. Cox was elected to deliver the next annual address of the alumni. It was announced that the lecture would be

delivered on Saturday, February,16. Adjourned.

Resolved, That the teachers of Philadelphia dis-avow without qualification the reflections referred to in the preamble to this resolution. That this disavowal is an act of justice not only to themselve-, but also to the Oity Councils, and would have been made at an earlier date, had they supposed that the unsupported and gratuitous assertions of others would have been in the slightest degree held to be the judgment of the large body of the teachers of Philadelphia.

expenses of removing heavy machinery. The claimants produce before the jury experts who submit estimates involving hundreds of items, and it is impracticable, not to say idle, for counsel by cross-examination to attempt to reduce the several amounts. The Solicitor therefore recommended the appointment of experts, to appear before the jury and rebut the evidence of the experts in the service of the claimants. This will be necessary, as well in this case as in the matter of the rolling mill at Fairmount Park, should the report of the jury be set aside. The communication was referred to the Commit-

tee on Finance. (See close of report.) Mr. Harper submitted the surveyes of Mr. Dan-san, collector of taxes for the Twenty-third ward. Referred to Committee on Finance.

Mr. Franciscus presented a communication from Mr. Dixey, Commissioner of City Property, stating that he had given permission to an ice dealer to cut ice and use the landing of the park, under-standing that such a practice had been the custom of his predecessor. The park was frozen hard, and the roads would not be injured by the haui-ing; but on the contrary, the ice dealer had agreed to haul for the park 100 loads of gravel free. The communication was referred to the Committee on City Property.
