A GOOD INVESTMENT .- Among the most solid and enduring of American institutions are to be reckoned our leading Life Insurance Com panies. The remarkable pregress of these com-panies for the year 18.6 proves beyond doubt the held these institutions have secured on the con-fidence of all classes. A Life Policy is now very generally regarde that the best of all policies. The reason for this is plain:—Life Insurance is founded upon selectific principles and controlled by unvarying laws, and not subject to the caprices of trade, as are the usual modes of investment. Moreover, the amount necessary to secure a life policy is so small that most persons will not feel the on lay, so that their usual busioperations are in no way embarra-sed

Life insurance is universal in its application. No one is too rich to need its benefits, nor too poor to avail himself of them. The wealthy seek it as an investment as well as a protection against a reverse of fortune; the business man to secure his creditors from low in case of faiture in trade, and his family from want in case of premature death. There is no protec-tion to the man of moderate income or to his family without a life policy. The wisest men have approved this system of saving a small part of present incomes, in order to secure the large future protect on to self, family, and friends as practised by life insurance compames. Scarcely a week passes but some family in this city is made to feel that these organiza-tions are their best and only security. But a few years will pass before every village, every town and hamler, every point wherever there is an inhabitant, will furnish living witnesses to the beneficent character of life insurance.

Without any desire to disparage any good company, and there are many, we take pleasure In commending to all who desire insurance the Equitable Life Insurance Society of the United State. This Company having been organized in 1859. It wrote policies covering over \$26,000,000 for the year ending in November last. Mears, Betts & Register, the enterprising general agents, will give tull information to these who desire it. Their office is at No. 432

The furniture of the house was insured for \$1000. She let it in charge of Smith and her son-in-law, at the former's request.

Mrs. Appleby was gone longer than she expected, and during her absence the rent became duc. Those left in charge paid it, and in return Smith took \$300 worth of choice fure and the son-in-law took an equal amount The law returned, but Smith refused to de-liver it up. The son-m-law, on the other hand, handed his part over immediately on applica-tion. What the Medical Papers Say.—Hoff's Main extract beverage of Heath, is a fluid resembling beer, and is often so called; nevertheless it is no beer, it contains the least particle of spirils; it strengthens by nourishing the body, but it is not irritating to the nervous system, NOR DOES IT IN-TOXICATE. Therefore, we are of opinion that for diseases of the chest and stomach, Hoff's Mait Extract should be raverably received as a truly salutary remedy, and that it ought to be recommended to the public in general, and more especially to those physicians who have as jet taken no notice of it. Sold by all druggists. Sole depot for Pennsyl-vania. WARD J. CAFFEE. S. E. corner Front and Che-nut streets.

THE DRUG BUSINESS.—There is no business of branch of trade in which skill, knowled, "c, and entry price are more essential, than in the drug busines; nor is there any branch of human industry in which more charls anism and imposture prevail. It is therefore to the interest of the public carcinally to discriminate between the true and the false drugs, %. This can easily be done by a simple practical application of that rule which is as true in matters of tuaness, as morals "by their truits for results) you shalk now them." Judged by this rule, Helmbold is a frue druggist, and those well-known and comes known as "Helmbold" Preparations in relegificate remedies.
