Medical Testimony in Favor of Upham's Fresh Meat Cure. We copy the following medical testimony in favor of "Upham's Fresh Meat Cure" from the

Meedical Register of this city, edited by John

H. Steck, M. D.:-

"The employment of raw meat as a curative agent in puimonary diseases, as well as in many other disorders which humanity is heir to, seems to be meeting with extraordinary success in France, Germany, and Russia. The Public Ledger of this city, on several occasions within the past few months, has given considerable editorial space in detailing the particulars of Professor Trousseau's mode of preparing and administering raw meat in cases of pulmonary consumption and other specified complaints. The fact that a public journal, maintaining so high a position in popular estimation as the Ledger so deservedly occupies the great interest it has taken in presenting its myriads of readers with the facts as developed by the experiments of the distinguished medical savan of Paris, has very naturally created a sensation on this side the water upon the subject. the subject of the new and somewhat novel manner of treating diseases of a serious nature. Mr. S. C. Upham, No. 25 South Eighth street, well known in Philadelphia as one of our most enterprising and successful business men, immediately set about to pre pare this new agent, as a proprietary remedy. He has succeeded admirably in combining the nutrient properties of raw meat in a concentrated form, with a vehicle that renders it exceedingly palatable to the taste—in this respect really improving upon the plan of Trousseaux, With that precaution characteristic of a conscientious man, Mr. Upham first submitted his preparation, before offering it for sale, to several parties whose condition seemed to call for this treatment, to test its virtues. These experiments having proved even more success ful than he had reason to anticipate, he at saw that he had a remedy of rare value and lost no time in preparing it for general use. We have it in our power to give personal evidence of the value of Mr. Upham's 'Raw Meat Cure' in the case of a young friend of ours for whom it was prescribed. The immediate effect was an increased appetite, a gradual, steady gain in flesh, and a general improvement in health. These results are due to a single bottle. The demand for 'Upham's Raw Meat Cure,' as might be expected, is very large, And increasing every day."

THE EIGHTH STREET BURIAL GROUND-FINAL MEETING OF THE OPPOSITIONISTS.—The opponents to the selling of the Lutheran Cemetery on Eighth street, above Race, held a final meeting last evening at the S. W. corner of Ninth and Spring Garden streets. The walking being very unpleasant, the attendance, especially that of the ladies, was not so numerous as at the previous meetings. The business before the meeting was principally of a financial character. It was stated that the final bearing before the Examiner was fixed for Tuesday next at 4 o'clock. It is expected that the case will come up before the Common Pleas Court about the latter end of this month.

Able counsel having been retained, the case will be one of great interest, forming, as it will, an important precedent to similar questions define the status of parties in relation to the claim to the bodies of deceased relatives, and the spot occupied as their supposed final resting-place. Among the prominent citizens whose parents are to be disturbed, and who are thoroughly adverse to be disturbed, and who are thoroughly adverse to the sale, we find such names as F. Dreer, Esher, Barge, Tatem, Kessler, Gutekunst, Grambo, Skinner, Zealand, and scores of other familiar names whose ancestors were the very founders of the church.

The opposition would, doubtless, not be so decided were it not impossible in very many cases to find the exact spot occupied by the deceased, as some twenty years ago the ground was filled up some four feet, and by the misplacing, by earlier persons employed, of the headstones—besides a prevailing impression as to the general mismanagement of the Lutheran Church affairs, there being at this time an in-debtedness of over \$80,000 resting upon it. The misfortune appears to be the lack of ability in the corporation, formed for many years past of hard-working Germans but recently emigrated from Germany. These people are industrious and very economical, and are generally well-toand in their ordinary capacity do very well, but are totally untit to manage the affairs of an establishment in which over a quarter of a million of dollars are at stake. As an instance of the above, they have at this time some four schools (day) in operation, at considerable exnense, each having but one teacher to an average of one hundred scholars. The exercises are religious recitations, spelling, reading, arithmetic, the latter by far beneath any of our primary schools-at a time, too, in the child's when the most thorough instruction This is but an instance of should be imparted. the peculiar manner they have of spending the revenue of the church. It is believed that a proper check to their selling their property will have a salutary effect upon the whole organiza-

A MODEL ESTABLISHMENT .- Any gentleman of naturally good endowments in regard to form and figure can become, by the aid of Messrs, William H. Taylor & Co., "The glass of fashion and the mould of form—the observed of all observers." The well-known elegance of the fits" obtained at this popular place is the subject of universal remark. Their place of business, No. 132 South Fourth street, has been in successful operation for a number of years past. Indeed, it would be a work of supererogation to speak in praise of their work, for it is so well known as not to need it. We advise all our triends to give them a call and see for them-

A CROSS ACTION .- A rather curious case came up before Alderman Williams yesterday afternoon. It appears that a German named Adolph Bletterdorf was arrested on a charge of assault and battery upon another German, named Leopold Nehl. The difficulty occurred on night before last at Nehl's house, No. 124 Peg street. Nehl works for Bletterdorf, and the latter boards at his house. He had not paid his board for six weeks, and Nehl asked him for the money, when, as Nehl alleges. Bletterdorf picked up a piece of iron, and threatened to strike him with it. The latter brings a cross action, charging the same action upon the plaintiff. Both were bound over to answer at Court

RIVER NEWS .- The City Ice Boat came up yesterday, about noon, bringing up the Tona-wands, who now lies at her wharf. This morning she forced her way along the river front to Cramp's wharf, in Kensington, where, when our reporter left, she was getting up additional steam for a down-river trip. The wind is from the northeast, with rain, promising to continue for some days, so at least say the affectedly weather-wise. It so, there will be a heavy freshet, and much destruction of property. The river is still fast above Petty's Island.

THE ABOMINATIONS OF PHILADELPHIA. -Rev. T. The lots were Chincoteagues, on which \$14 was readily obtained; Morris River coves, firm at \$10; and Tangiers, varying@rom cullens at \$5 to prime at \$10. They all came by railroad, there being no other means of

A MYSTERIOUS DISAPPEARANCE, WITH Some Account of the Missing Psasons.— This morning a widow lady informed the police officers, with deep motherly sorrow, of the mysterious disappearance of an only son, about fourteen years of age, and whose carnings, with the little she was able to lay by, were the only means of her support. Enfectled in health, her husband dead, and of seven children this son the only remaining one, it can be better imagined than described of the many be better imagined than described of the many tears shed while teiling her pitiful story. Edward Kelly, the son, left his home in Gaffaey alley, about 8 o'clock in the morning, last Friday, with another boy, Patrick Swalen, aged eighteen years, who lived in the same house, since which time their families know not their whereabouts. But these two youths are engaged in the business of looking out for their own in-terest at the expense of others. They came into possession of two watches on Tenth street, near Green, in a manner that excited suspicion. On being arrested, they said they had found them in the street. But this would not suffice, and they were arrested and committed for a further hearing. This was the cause of their disap-pearance. They were immediately sent to the

STEALING TOBACCO.-Robert Fulton, aged about forty years, yesterday afternoon came into possession in an unlawful manner of a box of tobaceo, which he was carrying on his shoulder up Arch stree;. After proceeding some distance up Arch street, he bargained with a driver to carry it to a store No. 503 Market Officer Armstrong being in the vicinity and deeming it a suspicious circumstance that a man would have carried a box half a mile on his shoulder, and then desire a dray to carry it one or two squares, questioned the individual, Fulton prevarieated, and Officer Armstrong arrested him. It was ascertained that at No. 503 Market street there was no store having any knowledge of the occurrence. This morning the police ascertained that the box of tobacco. valued at \$75, was the property of Lippincott & Colton, No. 121 N. Water street. Fulton was held for a hearing this morning before Alder-

STORE ROBBERY.—The firm of Messrs. Heller & Co., button manufacturers, Nos. 1126 and 1128 Charlotte street, have for some time past been the victims of a series of petty depre past been the victims of a series of petty depre-dations upon their stock. They have been missing packages of buttons from time to time, and resolving to ferret out the mystery, they got the son of Mr. Heller, a lad of 13 years of age, to conceal himself in the office, and watch for the guilty parties. Yesterday he concealed himself, and in a short time he saw a man named Fetch, a workman in the establishment, come in, and taking a package of buttons, put come in, and taking a package of buttons, put it in his pocket. Soon after another workman, named Miller, came in, and said to Fetch, "Give me my share." Fetch replied, "Wait a minute." They went out, and Mr. Heller sent the lad to Alderman Williams' office, and got out a war-rant for their acrest, on a charge of larceny.

THE COLORED RACE ON A RAMPAGE .-Many arrests were made last night and yester-day by the officers, and a majority of the in-dividuals arrested were of the colored race.

Albert Mandoff and Edward Fortner, aged repectively eleven and twelve years, both resid ing on Suippen street, were arrested by Lieutenant Goldy, for the lareeny of two silver watches, one breastpin, and one set of gold earrings, the first at Fifth and Spruce, and the latter at Shaker's court. On the attempt being made to take them into custody, Mandoif, a puglistic youth, fought with great energy, and a dogged determination to place the officer in an unenviable position. But Lieutenant Goldy immediately took the youngster by the collar and quickly marched him off to Alderman Beltler's, when both were committed for a further

FREAKS OF A SKY-ROCKET.—We learn from one of the officers that last night, during the firing off of rockets at the Thirty-first and Walnut Streets Skating Park, the stick of one of the longest, about 10 feet long and 1 of an inch square, after describing an immeasurable circle in the air, came down, passed through the roof and ceiling of a house near Twentyfourth and Pine streets, choping a large piece from a bureau which it struck, and passing very near to a child playing on the floor. Whether it passed through the remaining stories, and then out of the cellar window and through the garden gate, has not been ascertained.

STEALING WASH-CLOTHES,-Yesterday afternoon a colored man, giving the name of Lewis Washington Jackson, was arrested on a charge of larceny. He was taken whilst bundling up some wash-clothes in the yard of No. 1323 Filbert street. Jackson claims to have come from South Carolina, and to have been brought up here during the war. He was committed in default of \$400 bail, to answer a charge of lar As Jackson turned to leave Alderman Jones' office, he turned around and said to the spectators. "Take a good look at me, and you will know me again." He then said, "I suppose I shall have to go to the Eleventh street wharf,'

STEALING CHICKENS .- As Officer Meeks was going his round this morning, about half past 1 o'clock, near Eighth and Reed, he espied John McGidden making his way along in rather a suspicious manner, and carrying something in his hand. The officer came up to him, stopped him, and, after learning that the objects in McGiddon's hand were four chickens. with necks wrung and feathers on, he arrested him. This morning McGiddon was committed in default of \$1000 bail, by Alderman Lutz. The chickens can be found at the First District Station House, where they await identification by the owner.

ROBBING A BARBER SHOP .- James Burroughs and Henry Shultz (colored) were arrested yesterday, and had a hearing before Alderman Jones, on a charge of robbing the barber shop of Nathaniel Lane, No. 1717 Market The robbery occurred on the night of the 30th of January, when the barber shop was opened by means of a false key, and the razors, brushes, etc., were taken. Burroughs was for-merly employed by Lane. They were held in \$600 bail to answer.

PETTY LARCENY .- About 7 o'clock this morning, as a man named Isaac Smith was passing the grocery store of Bickerman & Hoff-man, at No. 1107 Market street, the sight of a couple of bags of flour proved too much for his honesty. He seized them and walked off. A boy attendant in the store saw the little transaction, and made a chase after Smith and captured him. He had a hearing before Alderman Jones, and was held in \$600 bail to answer.

IN AN UNSAFE CONDITION,-The Board of Directors of the Eleventh School Section of this city, have passed a resolution calling attention to the dilapidated and unsafe condition o a building occupied as a school house, in Brook street, below Brown. The building is really dangerous, and the lives of the teachers and pupils are not safe whilst occupying it. The Board of Control has been notified to take action upon the case.

MALICIOUS MISCHIEF.-William Ruigg orty years old, while driving his dray alone Fifth street, near Market, became angry at some respectful request to turn out in order that a more heavily laden wagon could go by, and drove speedily right along, jamming the wheels of his vehicle into those of the other, breaking and otherwise damaging them. Alderman Hurley held him to answer in \$400 bail.

LARCENY,-John Simpson was arrested at No. 617 Fitzwater street, for a petty larceny. He was committed by Alderman Tittermary to

BEFORE ALDERMAN BEITLES,-At two clock to-day George Oberhozer was before the above Alderman upon the charge of stealing \$275, the property of John Kuntsuan. t appears that they went to Memphis, Tenu. for the purpose of setting up in the carpenter business. They put up at a hotel in that city. Mr. Kuntsman was taken sick, and Oberhozer departed with the money, some shirts, and carpenter tools. He arrived in this city the first part of this week, and was arrested on

The owner of the property arrived in this city shortly after, ferreted him out, and was promised that he should receive all the goods back. Defendant had purchased a watch, a revolver, etc., which he promised to restore. He had only \$75 in money left. Defendant was held in \$1500 for a further hearing on Wednesday next.

LARCENY. - George Oberkozer was arrested this morning by Detective Taggert, upon the charge of larceny. He will have a hearing to day before Alderman Beitler.

DR. S. W. BECKWITH'S ELECTRICAL INSTITUTE,

No. 1220 WALNUT ST.

During our investigations in the treatment of dissee in its various forms by the agency of electricity, we have obtained very many valuable and startling facts, which, added to the previous though limited nformation, possessed by other and less fortunate operators, place us beyond all previous knowledge of this mysterious agent. During the course of our practice we have treated and cured, through the knowledge thus gained, many thousands, and by mesns of our new discoveries have established ourselves as the most successful Medical Electricians in this country or Europe, as the long list or references at our office can testify. Electrical investigation has proved that the human

body acts on the principle of the galvanic battery. The brain, mucous and serous membranes, the skin, tissues, and fluids constitute the negative and positive torces, and every action, whether mental or physical, is the result of these antagonistic forces. Digestion, respiration, circulation, secretion, and excretion are due solely to electrical influence. There is a polar action established throughout the nervous system which connects with every part of the body, establishing and preserving a proper balance of the electrical element which consututes health, and a disturbance of which causes disease. There are strictly but two conditions of diseaseone of inflammation, or positive: the other weak, debilitated, negative-and as electricity contains these two conditions in the action of the positive and negative currents, all we have to do is to neutralize the disease and restore proper, healthy

action. Among the chronic diseases in which electricity has been, and is daily being by our agency, of the greatest utility, a cure being rapidly effected after the failure of all other means, are:-

1. Epilepsy, Chorea, or St. Vitus' Dance, Paralysis (Hemplegia), Neuralgia, Hysteria, Nervousness, Palpitation of the Heart, Lockjaw, etc.

FROM WASHINGTON THIS AFTERNOON.

[SPECIAL DESPATCHES TO EVENING TELEGRAPH.] WASHINGTON, February 2. Official Publication of Laws. Special publication is made of the act to re-peal the 13th section of the law of July 7, 1882,

which section is as follows:—
"Be it iurther enacted, that the President is hereby authorized at any time hereafter, by proclamation to extend to persons who may nave participated in the existing Recellion in any State, or part thereof, pardon and amnesty, with such exceptions and on such conditions as Official publication is also given to the act providing that from and after its passage there shall be no denial of the elective franchise in any of the territories of the United States, now or hereafter to be organized, to any citizens thereof, on account of race, color, or previous condition of servitude, and all acts or parts of acts, either of Congress or the legislative assemblies of said territories, inconfistent with the provisions of this act, are hereby declared null

Each bill is signed by the officers of the House and the Senate, and the following note attached by the Department of State:-

'The foregoing act having been presented to the President of the United States for his approval, and not having been returned by him to the House of Congress in which it originated within the time prescribed by the Constitution of the United States, has become a law without his approval. The Collectorship of the Port of Phila-

delphia. The name of Mr. Harbeson has not been sent to the Senate by the President for Collector of the Port of Philadelphia, nor is it likely to be, He was recommended for the place by the Secretary of the Treasury, but is not favored by the

The Compound Interest Notes. It is claimed now in regard to the bill before the Senate Finance Committee, advocated by the bankers for funding the compound interest notes, that the Senate has not the power to originate a financial measure of that character, and that it must originate in the House, Night Sessions of Congress.

The House will commence to hold night sessions on Monday night, for the rest of the ses sion; and as the work of the Senate is behind that of the House, that body will also, doubt-less, commence night sessions next week. Bankrupt Bill.

Senator Poland will endeavor to call up the Bankrupt bill to-day, and get a special vote Governor Hahn.

sieners of Agriculture,
Mr. Hooper (Mass.) asked unanimous consess
for a motion that, from and after Monday next the House take a recess daily, except Saturdays from half-past four till half-past seven.

Mr. Wentworth objected, unless it was agreed that no votes should be taken in the evening

Mr. Hooper said that the evening sessions were to be for business, and gave notice that he would, on Monday, move to suspend the rules for that purpose.
On motion of Mr Schenck, (Ohio), the reports
of the military officers relating to the furnishing of arms to Indians by the Indian Agents,
were reterred to the Committee on Indian

were referred to the Committee on Indian Affairs. The House then took up the unfinished business of yesterday, being the Senate bill to regulate the tenure of certain civil officers, the question being on reconsidering the vote whereby the House rejected yesterday the amendment offered by Mr. Williams, of Pennsylvania, striking out the exception made in the bill to the Cabinet officers.

The effect of the amendment is to make the emoval of Cabinet officers subject to the advice and consent of the Senate, as with all other civil officers covered by the bill. The yeas and mays were taken; and resulted in yeas, 74; nays, 65. So the vote rejecting the amendment was econsidered.

The question then recurred on the amend-

ment, and it was adopted, years, \$2; nays, 63. So the exception of the Cabinet officers in the first section of the bill, fram its operation, was struck out. The words in the second section, "Except-ing those specially excepted in section 1 of this act," were then, on motion of Mr. Garfield, of Ohio struck out. Ohio, struck out.

Ohio, struck out.

The bill was then passed—yeas, III; nays, 38.

On motion of Mr. Morrill, the Senate amendments to the Tarin bill were taken from the Speaker's table, referred to the Committee of Ways and Means, and ordered to be printed. The House then took up the House bill passed over yesterday in the morning hour, for the extension of the patents of Thomas W. Harvey, extension of the patents of Thomas W. Harvey, for improvements in machinery for cutting screws and for dressing screw heads.

Mr. Wilson (Iowa), moved to lay the bill on the table, which was agreed to. Yeas 74, hays
