Another Speech by Dr. Schenck. Dr. Scheuck was at his elegant rooms in Hanover street on Saturday, on the occasion of his weekly visit. As usual, there was a great rush of patients, coming from almost every por tion of New England. The Doctor, who is wise and shrewd, saw at a glance what could and what could not be done in the few remaining hours of the day, and, entering the receptionrooms, proceeded to address those present, giving, as will be seen, some very excellent counsel. The Doctor deals in common sense, makes plain statements, and knows what he says. He spoke as follows:-

Ladies and Gentlemen: -I see there are more here than I can properly attend to, and so I must try and manage it to get at a number of you at a time. Many of you only want a little advice. You have seen me before. Some of you have come a long distance, and are apparently too feebie to wait your turn. Those that wish a thorough examination with the Respirometer I will take into my private room as soon as possible. My charges are five dollars for an examination. I can listen to your lungs, and tell pretty well their condition, but if you want to know their exact state-whether it is Bronchial, Tuberculous. Pleuritic, or Pulmonary Consumption, and whether you are curable or not-you must be examined with the Respirometer. It is the only proper way of auscultating. Consumption can be cured; lungs deeply diseased can be healed up if the system is got into a healthy, healing condition. The course pursued by the majority of physicians is all wrong. They never cure. Their Cod Liver Oil and Whisky only ruin the stomach. I frequently, in riding in the ears, get seated by consumptives. They have all their traps for drinking with them, and as soon as they get into a spell of coughing they take a drink of whisky. And so they go on, and many drink a quart a day. Take a we'l man, and let him drink in this way, and he will soon lose his appetite. Many of you have a cough, night sweats, creeping chills; and you all want to have them stopped. You think you would be so much better. What causes it? The diseased lungs. Get them to healing, and they If your lungs are diseased, the first and only

thing to be done is to get the strength; and the only way to do that is to cleanse the stomach and liver; then the stomach will crave food, and make good blood, and that blood will give sirength, and the lungs will begin to heal. If both lungs are not too badly affected, with my Mandrake Pills, Sca-Weed Tonic, and Pulmonic Syrup I can frequently effect the most wonderful cures of Consumption. A cure frequently requires gentle purging for some length of time, to get the stomach and liver to

act naturally. The Sea-Weed Tonic being an alkali, preserves the food in the stomach until it is digested, preventing it from souring. Now, in almost all cases of lung diseases, the action of the system is so slow that food lies in the stomach and sours. Blood is made of it after it is spoiled; and this is the way our blood gets thick and bad. Canker, Sore Throat, and Catarrh proceed from this sour stomach. Burning out the throat with caustic and gargles afford only temporary relief. It should be treated the same as when the tongue is coated, or sick headache. The cause is the same. It proceeds from a sour or a deranged state of the stomach. Get up a good appetite, eat good, rich food, fat meat, gravy-in fact, nearly everything the appetite craves-and the lungs will soon begin to heal. No matter whether the sore is inside or outside, if the system is healthy it will heal up. You can hardly stop it. It is its nature to heal. You may notice persons that have Scrofula or any old chronic running ulcers; they are all of a feeble or bilious condition, their digestion is poor, and they have not a healthy circulation of blood. Some three or four years ago a lady, Mrs. Bartholomew, came to my rooms, No. 32 Bond street, New York; she had a tumor, with two running ulcers on her liver, which had been running fourteen years, and they kept getting worse. She was costive, skin yellow, very stupid and dull, liver and stomach torpid, and no circulation. In three months I ran the disease all out. The ulcers healed, and she is now a bright, healthy woman. Now, there is one very important matter to be attended to in curing consumption, and that is to prevent taking cold. Your physician may tell you to go out every pleasant day. This, in my opinion, is a great mistake, Per-

sons in health go out and take colds.

When I can persuade patients to keep their rooms, I am almost sure of success. Fresh air is not assential to the healing of diseased lungs; the great secret is to prevent taking cold. When they are able they can exercise about the rooms to get the blood in circulation. The directions which accompany my medicines are so explicit that any one can take them without seeing me. There is not a day but what I hear of some who have been cured that I never saw. Take the medicine, and guard against taking cold. If the lungs are not too far gone the stomach will soon cleanse itself, and the appetitewill come. Eat plenty of good food, and nature will heal the lungs. As I said before, do not depend on something to ease the cough, to stop nightsweats and creeping chills. Some persons may think, when I speak of taking cold, that my medicines may open the pores and lay them more liable; but it is right the reverse of this, for when the stomach is cleansed, persons are not so hable to take cold as when the system is locked up. Frequently, when people take a cold, if they would swallow a dose of Mandrake Pills it would work it off; but instead of this they take something to check it, which drives it back to the lungs, leaving the seeds for tupercles or the next slight cold and inflammation of the lungs. I have talked much longer than I intended to, but when I start I get so anxious to convince people how easy it is to keep well and feel fit for business, that I do not know where to stop. When the stomach is out of order you are sick all over, and if you keep that right you cannot help but be healthy and fleshy. Look at me, Once I was in the last stage of consumption, as tall as I am now, and I weighed less than one hundred pounds. My father, mother, brother, and sister all died of consumption—a family complaint—and here I am now, weighing two hundred and thirty pounds, cured by the same medicines I offer to you. I do not wish to be understood that my medicines cure all. A great many die that take them. They commence too late, and their lungs are too far gone. Their stomach and liver are so much congested—and am sorry to say, frequently by the use of Bour-bon Whisky-to get them into action. The Mandrake Pills contain no calomel or mercury; they are perfectly harmless, and carry off the bile better than blue pill or any other purgative ever

Case of Renner vs. Mullin. To the Editor of the Evening Telegraph:-

PHILADELPHIA, February 3, 1867.
Sin:—Your issue of the 31st ult, contained the statement that, in the contested election case before the House of Representatives, of Renner against Mullin, the proceedings had been insti-tuted by me. In contradiction thereof I would beg the insertion by you of the following com-munications, which I trust will place the credit where it belongs, and at the same time relieve me from the imputation alleged:-

MR. DONNELLY TO MR. RENNER. MR. DONNELLY TO MR. BENNER.
February I, 1867,—Sir:—Contained in the Harrisburg letter of The Evening Teleghaph of the 31st ultimo is the statement that the proceedings in the contested election case of Renner against Mullin were instituted by me. I would beg leave to ask of you whether such be true, and if not, to request at your hands a denial of the same. Remaining, sir, yours, etc.. James Donnelley, No. 1350 North Second street.

Enos Renner, Esq., Fifth street and Girard avenue.

REPLY OF MR. RENNER.

FEBRUARY 2, 1867.—Sir:—Yours of the 1s inst, s at hand, and in reply I would state that I am wholly ignorant of your having had anything to do with the case you mention.

The proceedings were instituted by me, because I believed Mr. Mullin not to be a citizen

of the United States, and as such not entitled to represent any district, because I doubted the legality of any party to represent themselves in the Legislature of this State by a subject of Queen Victoria; and, in fine, because I believed

myself entitled to the sent.

Trusting that you will be satisfied from the above that you had nothing to do with the proceedings of Renner against Mullin, I am, sir, yours, etc.,

No. 1428 N. Fifth street.

James Donnelly, Esq., No. 1350 N. Second st.

I think, sir, the communication of Mr. Ren ner will speak for itself. Although not believ ing in the imputation cast by him on the Demo-cratic party of the city, I trust it will convince all fair and honest minded men that the impatation, that I had anything to do with the en-deavor to exclude from his seat a Democratic was unfounded, and that the statement made by your correspondent was incorrect. Yours, etc., James Donnelly,

ROBBERS COMPLETELY "RUMMAGE" A HOUSE ON SECOND STREET-CASH, WATCHES, JEWELRY, ETC., APPROPRIATED.—It will be re-membered that Satarday evening was accompanied throughout by rain, and so dark that objects were unseen even in close proximity. This was then the most favorable opportunity for house-breakers to be active in their opera-tions, and accordingly the dwelling of Mr. R. Buchanan, No. 326 South Second street, the ower part of which is occupied as a tea and grocery store, was entered, and the contents of its upper stories completely "rummaged," upset, and the most valuable articles appropriated. While all the members of the family were engaged in the store, the burglars, by the aid of a long ladder, placed in the court back of the dwelling, gained the top of a two-story ouilding, and from thence to the third-story window of Mr. Buchanan's residence. They worked in a systematic manner. All the rooms in both of the upper stories were entered, desks opened, bureaus investigated, trunks upset, and boxes broken open, resulting in a confiscation of \$300 in money, two silver watches, rings, and chains and other articles, to the amount of about \$600. When on the second floor the burglars were irightened away with such precipitation that they left the ladder in its position. No clue has as yet been obtained to the thieves, but the ownership of the ladder being known, it may end to the gaining of important information.

MISSION SCHOOL EXERCISES .- Yesterday afternoon, the Edwards Mission, a branch of the West Arch Street Presbyterian Church Sab-bath School, was visited by a number of gentleman who feel a great toterest in the Sunday School cause, and contributed largely to the success of the exercises. Among the vicitors were Judge Pierce, John A. Gardner, Esq., and Governor Pollock, each of whom delivered thrilling addresses to the children, after which some time was spent in singing, under the leadership of Mr. Tuomas Rawnings.

This Mission School is rapidly increasing in the number of scholars and teachers, and a great work for good is being accomplist by the worthy Superintendent, Mr. H. P. Am-bler, and the faithful band of ladies and gentle man who assist him in instructing the children of that neighborhood (Sixteenth and Pearl streets) in the way that leads to heaven. public are invited there on any Sabbath afternoon, and children who do not attend school are specially desired to attend regularly.

A GOOD IDEA-WHAT TO DO WITH IT .-We have already announced in THE EVENING TELEGRAPH, the fact that the Order of Ancient York Masons have determined to erect a mag-nuficent Masonic Temple at Broad and Filbert streets, for the accommodation of this large and, rapidly increasing brotherhood. In view of this fact the question has arisen, What shall be done with the present Masonic Hall on Chesnut street, above Seventh, when vacated? It was supposed that the Order of Odd Fellows would purchase it, but to suit that Order very radical changes would have to be made in the entire interior construction of the Hall, and the expense would approximate the amount needed to build a new Hall of less imposing appearance. It has been suggested that the city should be the purchaser of the Masonic Hall and we think the suggestion a very important and appropriate one. We believe the city would be benefited, and the members of the Order generally pleased with such a disposal of the building. If the city authorities should pur-chase the Hall, accommodations could be had for all of the City December of the City for all of the City Departments, with slight atterations, under one roof. There is ample room for Select and Common Council Chambers, Mayor's Office, Sheriff's Office, Central Station and Detective Police Rooms, Coroner's Office, and the City Treasurer, Register of Wills, Recorded of December 1988 corder of Deeds, City Commissioners, Receiver of Taxes, Trustees of Girard Estate, and indeed all of the city officials, might be placed here. This arrangement would be a great convenience to the public, and we trust that our mural officials will take the matter in hand, and make a thorough inquiry as to its feasibility. We would like to have the State House and its appendages full of past recollections, and under the sacred guardianship only of our Cour's of law .

STOPPED THEIR LITTLE WAME,-About alf an hour after midnight on Sunday morning, an attempt was made to rob the dry goods store of Mr. Daniel Allman, at the southwest corner Eighth and Spring Garden streets. John R. Jones, whilst patrolling his beat in that locality, discovered two burgiars very busy at the side window of Mr. Allman's place. One of them had a large jimmy, with which he was persuading the shutter to open. When they saw the officer approaching they ran. He pursued them, and the better to secure their escape they separated, and ran in different directions. The officer, however, ran after one of them and captured him. He gave the name of John Watson. He had a preliminary examination before Alderman Beitler, and was held for a further hearing this afternoon at the Central Station, When they ran, one of the burglars dropped the jimmy and a screw-driver. Watson had with

SHIPPING MASTER IN LEGUBLE.—Robert Haskill, who keeps a place for shipping sailors in William street, below Richmond, was arrested last Saturday evening, on a charge of assault and battery. It appears that a man named John Brough shipped at Haskill's place, and the latter, to insure Brough's retention, absorbed his cav into his possession, and when he wanted to go out last Saturday night to pay some of his lady friends a visit, Haskill refused to deliver said head-dress. The consequence was a war of words, and getting rather personal, Haskill used a heavy club to add weight to his assertions, and beat Brough over the head with it. The consequence was that he had his skull fractured and had to be removed to the Epis copal Hospital. Haskill was arrested, and was held by Alderman Clouds in \$1200 bail to answer the charge of assault and battery with intent to kill.

A FEROCIOUS FELLOW .- Joseph Boyd indulged in an extra quantity of the ardent yes-terday, and the consequence was that when he got to his home, in Twenty-second street, near Brown, he was decidedly drunk. Joseph was also in a very wicked state of mind, and going to his cupboard, he took from thence a huge carving knite, and then threatened to termi-nate the existence of all in that unhappy household. They seeing a prospect of clear weather coming, did not care to die just then, and called in a couple of police officers to arrest the ambitious carver. He fought them both on the narrow stairway for some time, when he was inally put hors de combat, and taken in triumph to Alderman Hutchinson's office. Atter a nearing ne was held in \$1000 bail to answer.

Suspicion of Arson .- A number of bad boys were arrested last Saturday, on the being concerned in the setting fire to the Buli's Head stables, on Market street, above Thirty-ninth, last Monday night. They were all discharged by Alderman Allen except one, named Dennis Lear. This youngster was seen in the immediate neighborhood of the fire a few minutes before it broke out. He was with another boy at the time, and when the witness who saw him charged him with the fact, at the hearing before the Alderman, he denied positively being anywhere near at the time. was held for a further hearing. Some time ago the same lad had been sent to the House of Refuge for being concerned in a petty larceny case,

A HOUSE ROBBERY .- James McBride, Jr., was arrested last Friday afternoon, on the charge of house breaking and larceny. pears that McBride is in parnership with a man named Mullen, in carrying on a gin-mill at the corner of Main and Mechanic streets, in Mana-yank. It is further shown, that McBride was his own best customer.

It is alleged that he forcibly entered the place last Thursday night, and helped himself to a quantity of money, and a belly-full of estables and drinkables. He was unsuccessful in explaining away his little operations to Alder man Ward's satisfaction, and was held in \$500 bail to answer h force in the countrymen on the chart

INDEATH FROM SUFFOCATION .- Yesterday morning Themas Toy was found dead in his bed, at Thirty-sixth and Sansom streets. He and his wife were called down to breaktast that morning, and not answering, some one went up, and on opening the door of their bed-room, both were found motionless. He had apparently half risen from the bed, and had fallen over upon his wife. When taken up life was tound to be extinct in him. His wife was in-sensible, and up to a late hour last night her life was despaired of. On an investigation it appears that they were suffocated by gas fro.n tove which was in the room, all the doors and windows being closed,

STREET FIGHTING .- For some time past the people in the vicinity of the Almshouse have been annoyed by crowds of boys who re sort to that locality to indulge in what are called "stone fights."
