columns to the statements of both parties, for and against the proposed sale of the Eighth street burial ground. We give place to-day to a letter received from one apparently "well-booked," which reads as follows:—

MR. Eprror.—There have appeared lately in your valuable paper, of which we are a constant reader, several articles concerning the church affairs of the German Lutheran Congregation. Some of those articles contained statements of which, if you will allow, we desire to make a few statements in correction concerning our church affairs, and you will please excuse us, if we are not so able in expressing ourselves in the English language as correctly as we inight.

Over one hundred years ago our congregation had two churches, two ministers, and two or three school teachers, and so it remained for about one hundred years, with no progress. Our English-Lutheran brethran, exactly those who now oppose our progress and the sale of the burial ground, found fault with us, complained, and said:—"Why do you not build more churches and school-bonses, and make use of the large means your fathers have left you? If you would do so, we would have in Philadelphia twice as many English-Lutheran congregations." etc. etc.

Taking this advice, and yielding to the wants of our own people, we commenced, about fifteen years ago, and build a church of the burial street and Columbia avenue, at a cost of about \$22,000, where there is now a large congregation. Less than three years ago we purchased a school-bouse and lot for a church in Southwark for \$7000. Then we bought a lot of ground for \$5000 to Ogden and Pilceeth streets, where now a fine church is erected, but only half finished, to the cost of which we gave about \$31,500. Then we built a large school-house last year on St. John and Brown in the surfaces and improvements were made because it was of the greatest necessity. Two churches, two purchases and improvements were enough one hundred years ago; but not so now, when the German population has increased twenty-fold.

or wherever the relatives wish to have it done, at our expense.

Our foreinthers have left us these properties just for such purposes, to help the poor emigrants, to give them churches and schools. Your correspondent of last Saturday says in substance—"That the opposition of the prominent citizens Dreer, Esher, Barge, Tatem, Kessler, Gutekunst, Skinner, and others, to the sale of the burial-ground, would notibe so decided, if there were not a prevailing impression as to the general mismagement of the Lutheran Church affairs; that these hardworking Germaus are totally unfit to manage an establishment of over a quarter of a million of dollars; that as an instance of this, they spent money on four day schools, which are, in learning, beneath any of our English primary schools," etc. etc.

This, then, seems to be a point of opposition. "Those prominent citizens," it seems would like to manage that quarter of a million for us. Wouldn't that be a fine thing for "prominent citizens." That seems to be the itening point, but we doubt very much whether under a management of such prominent citizens the hard-working Germans could have accumulated over half a million of dollars, and kept and have it too. As to our schools, we will only say, that we have not four but aine day schools, with over low scholars for each teacher, and that there are at this moment applications from more than 200 children for admission to them, but cannot be taken in for want of room. This shows that people think well of our schools, at least we know that people think well of our schools, at least we know that people think well of our schools, at least proposed to sell, and that our new burying-ground is large enough to inter four times that number, as proved befors the Anditor by actual measurement. Three years ago our debt was about the amount of our first debt, and you will have about the amount of our first debt, and you will have about the amount of our first debt, and you well he amount of our debt will be Our forelativers have left us these properties just for

present indebtedness; and as we were going on buying and building, so we were going on borrowing; and now we hope that the amount of our debt will be fully understood, and not be at all mysterious any Our income from interest, rents, pew-rents, school-

Our income from interest, rents, pew-rents, school-tax, collections, and every other source, varies from \$15,000 to \$18,000 per annum. With this must be paid the interest on the debt, the salaries of two ministers, nine teachers, two sextons, two organists, repairs of churches and schools, coal, gas, etc. To do all this with the above income requires better financiering than McCulloch and Chase are able to perform; but we do it, and we would have no objection if those prominent citizens would manage that part for us.

After such an unavoidable outlay, can debts be paid, churches and school-houses be built, from that income? Certainly not. To sell houses and ground-rents would do us no good, as that would lessen our income. But the sale of unproductive property, such as the front on Eighth street of our burial ground, will give us the means to pay our debts, and to build churches and school-houses for our emigrants and hardworking Germans. The city will save thousands of dollars by us hearing the expense of teaching over one thousand chidren. The city will get thousands of dollars in taxes by improving the Eighth street front. The relatives of the dead will, after all, be more satisfied to remove their dead now than later, when they may not be living to superintend it themselves. Considering all the good that will come from the sale of the burial ground front, we feel sure that if the dead lying there could speak, they would say AMEN.

So much for our correspondent: and now a

So much for our correspondent; and now a few words of our own. Our Teutonic friends of the Democrat have been sorely exercised because of our alleged "championship of the opposition" side of this question. In truth, they have even resorted to the quaint device of parables in order to give us a side thrust of the most excruciating nature. 'Tis a pity, indeed, that some of our readers, owing to detects in their early training, "spreachen nicht Deutsch;' but for the benefit of those who are more fortunate, we reprint, in all its native pungency, and with all its wavet German accentuation, the with all its sweet German accentuation, the unadulterated and doubly distilled original ebullition of our contemporary, which reads as

A SUCCESSFUL BURGLARY-A DOWN-DRY GOODS STORE GUTTED .- At a very early this morning the dry goods store of Mr. A narazyn, No. 229 South street, was entered by irglars. The latter were evidently no apprentices at the business, as everything goes to show that they entered on their work with a methodi-cal coolness that, to an outsider, would be quite refreshing, if it were not for the thought of the loss inflicted upon the poor victim. The bu-glary must have been consummated between the hours of 2 and 4 o'clock. A jimmy was used to pry open the shutters of a side window the fastenings of which were very insecure. By simply raising a sash they had uninterrupted entrance into the store, and the gas being lighted they had the whole field of operations mapped out That it was some one acquainted with the store is very evident from the manner in which they made their selections of plunder. The latter comprised an assortment of long shawls, ribbons, fine merinoss, cassimeres, fine shirts, neck-ties, etc., amounting in value to quite, if not over, \$1500. They evinced a proper idea of business by not disturbing the less valuable goods, and contenting themselves with the most valuable, enough of which were taken to start a small business. After they had secured their "pile," they walked out of the front door,

and left for parts unknown. PETTY POLICE CASES .- A man giving the PETTY POLICE CASES.—A man giving the name of John Gallagher had a hearing before Alderman Toland last evening, on a charge of larceny. It appears that he took a violent fancy to a whip and bridle which he saw at Mr. Stuckert's stables, in Fifth, above Green street, and walked off with them without asking the owner's leave, and afterwards tried to sell them at a large discount upon their real value.

value.

Andrew Gordon, a poor, insane young man, was picked up by the police in the Twenty-seventh Ward, whilst wandering around the streets. When taken before Aiderman Allen, it was some time before he could be persuaded to give his real name. He was committed to Moyamensing, in the hope that his friends, who reside in the city, may find and take proper charge of him.

"WOODBURN GRANGE,"-We have received from T. B. Peterson & Brothers, No. 306 Chesnut street, an advance copy of "Woodburn Grange," by William Howitt, it is handsomely issued, and seems to be of deep interest. We will notice the work at length in a few days.

THE GREAT RAILBOAD COMBINATION which has just been consummated in New Jersey is of important interest to Philadelphians, and so we give the official copy of the greement, as follows:-

SEVENTEENTH ANNUAL REPORT OF THE WEST CHESTER AND PHILADELPHIA RAILROAD COMPANY.—We have received from Mr. Henry Wood, Superintendent of the West Chester and Philadelphia Railroad, the last annual report for the current year of 1866, from which we take the following figures and facts:—The earnings of the road during the year were \$336,661-02 being an increase of \$5671-00 over the preceding year. The operating expenses during 1866 (including salaries), \$234,418.93, an increase of \$64,719.18 over 1845. Number of passengers carried:—1865, 555,654; 1866, 553,285, being a decrease of 2369. Freight tonnage:—1865, \$2,595; 1866, 100,792; increase, 18,197. The road has in operation 8 engines, 13 passenger cars, and if baggage and freight cars. The increase of ex-penses, as above shown, for the just year is principally due to the renewal of bridges, some of iron structure. The officers are as follows:— Marshall B. Hickman, President; Treasurer, William McCalloch; Secretary, A. Lewis Smith; Superintendent, Henry Wood.

AN IRREPRESSIBLE BELLIGERENT .- At late hour last evening, a man named Joseph Foster and another man were engaged in the innocent amusement of discharging flearms in the neighborhood of Race street wharf. The police interfered with their little amusement, however, and took them into custody. Foster, however, did not relish the idea of being taken, and commenced a furious assault upon Officer Wright, who arrested him, and in the skir-mish the officer's coat was almost torn from Foster was finally compelled to knock under, however, and was taken before Alderman Godbou. He was held in \$300 bail to answer the charge of assault and battery. When he was taken into the Station House he threw himself into an attitude, and wanted to combat the assembled force of police officers. His pugnacious desires were so vehemently expressed that the officers were compelled to manacle him to prevent a skirmish.

A VICTIM OF MISPLACED CONFIDENCE .-A VICTIM OF MISPLACED CONFIDENCE.—
A gentleman from the rural section, whilst
paying a visit to this city, made the acquaintance of a free-and-easy fellow this morning,
who was willing to show him the elephant, and
do the agreeable for the sake of his company.
Amongst the rest of the places they visited was
a clothing establishment at the southeast corner of Second and Market streets. There the gentleman tried on a suit of store clothes, with an eye to purchasing. Whilst he was doing this his new-found friend went through his breeches pockets, and abstracted from thence a pocket-book containing \$135. When the "friend" had secured his "toll," he took French leave, and was no more seen or heard tell of at

SELLING PT TOO CHEAP .- Yesterday afternoon, a man named William Baker was ar-rested at Second and Otter streets, on a charge of larceny. It appears that the officer on that beat observed Baker carrying a box of soap, which he would offer to sell to persons passing. As he did not look like a mercantile man, the officer made a personal inspection, and found that he asked the small sum of \$1.25 for the box, which was worth at least \$5. There being such a remarkable reduction in even the wholesale price of the article, William Baker was taken into custody and escorted to Alderman Shoe maker's office, where he had a hearing on the charge of larceny, and was held in \$300 bail to answer. The soap can be had by applying at the Tenth District Station House.

RIVER PIRATES .- A couple of enterprising fellows went aboard the scuconer George M. Ridgway, lying at the foot of Laurel street wharf, and made away with a quantity of loose rope. They were arrested yesterday at Beach and Poplar streets, and gave the names of Robert McIlhenny and James Smith. The property was in their possession, and was all re-covered and restored to the owners. The two prisoners had a hearing before Alderman Toland, who held them in \$800 bail to answer the charge of larceny. Melihenny has had a bench warrant out for his arrest for about four or five months, for an offense committed about that length of time ago.

ARRESTED FOR PICKING POCKETS .- A man giving the name of Robert Thompson was arrested at Penn and Lombard streets yesterday afternoon, on a charge of larceny. It appears that Robert was arrested for making a appears that Robert was arrested for making a most unfortunate mistake on his part. In a fit of absence of mind (very likely), he put his hand into the pocket of a man named Mr. Bowing, at the Sailors' Home, and took out his pocket-book, containing \$25. Some person standing by saw the action, and had Robert arrested. He had a hearing before Alderman Beitler, and not being able to convince that gentleman of its all being a mistake, he was held in \$1500 bail to answer the charge of larceny.

STEALING MARKETING .- Last evening, an STEALING MARKETING.—Last evening, an old lady went out marketing, and after getting in her weekly supply of meat and vegetables, she went to a grocery store at Eighth and Lombard streets to get her groceries. She left her basket at the door as she went in. A negro named William Manson had cast his covetons eyes upon the basket, and no sooner had she turned her back than Manson picked up the basket and made off. However, his auticipated Sunday dinner was spoiled, and he was brought to at Seventh and Lombard streets, and then taken before Alderman Morrow to answer the charge of larceny. Manson is said to be an old offender. He was held in \$560 bail to answer.

REV. PHILLIPS BROOKS will, to-morrow evening at 714 o'clock, preach at Grace Church (P. E.), Twelfth and Cherry streets. We doubt not but that the services and sermon will be of a most interesting nature.

MATTERS ON THE RIVER.—The Steamer Hunter, bound for Providence, was fool-hardy enough to venture down this morning. She succeeded in reaching Greenwich Point, when the Captain, enterprising as he was, found the ice almost as heavy as, occasionally, at home. He managed to make the Point-House piers, and subsequently attempted to put back to her wharf, which it would have been better for her if she had never left. She is now lying broadside to, or across, the descending ice, wedged in a mass of drift, close upon the Pennsylvania

A Young TILL-TAPPER.-John Muldoon a preceious young scamp, only eleven years of age, was arrested yesterday morning at Third and German streets on a charge of larceny. John, although such a very young boy, is said to be utterly incorrigible. He is said to have been engaged in several affairs of the kind before. He had a hearing before Alderman Tittermary, and exhibited a coolness that would not have disgraced an old hand at the business. The Alderman sent him below until he could answer the charge of larceny. answer the charge of larceny.

A JEHU ARRESTED.-Hiram Bush was A JEHU ARRESTED.—Hiram Bush was driving a horse and wagon up Market street this morning. In front of him was a colored individual named John Turner, watching a milk cart. The Jehu, when he approached, sangtout for him to get out of the way. John not doing so immediately, Hiram came very near running over him. For this he was arrested, and held in \$800 ball by Alderman Beitler.

OPENED FOR DIVINE SERVICE .- The new Protestant Episcopal Churchof St. James, Fifty second and Paschall streets, Hestonville, will be opened for Divine service on Sunday, the 10th Instant, at 10% A. M., and 3% P. M.

The new church is of prown stone, of Gothic architecture, 35 by 65 feet, with tower, and chimes of six bells, the gift of H. & S. Tasker. When completed will cost about \$60,000.

ARRESTED ON SUSPICION .- Charles Spenser was arrested this morning at Tenth and Chesnut streets, by Reserve Officer Parker. He is charged with entering No. 413 Chesnut street, on Tuesday night, and stealing \$175 worth of engravers' tools. A hearing in the case will be had this afternoon.

FORGERY.-August Aulford was arrested this morning by Detective Taggart, upon the charge of forging checks for various sums on different banks in the city. He will hearing at the Central Station to-day.

LARCENY.-John Altemus was arrested this morning by Lieutenant Hampton for the larceny of a gold watch, valued at \$300, the pro-perty of E. Peterson. He will have a hearing

NATIONAL EDITION OF DICKENS.-We have previously spoken in high terms of the edition of the works of Charles Dickens just issued by the Messrs, Peterson. The more we examine this set of novels, the more are we pleased with its general form. They are clearly printed, with bold type, on good paper. Most of our litterateurs have a luxurious love for wellgotten-up books. It affords double the pleasure to read a work which is printed on fine paper and large type, than it does to pore over small type on bad paper, and with poor engravings. We will not call attention to the literary contents of the stories which have flown from the pen of Dickens. It would be insulting the intelligence of our readers to say that he is worth reading. It is merely the material form in which he is presented to us. Of that we cannot speak too highly. As a general rule, good editions demand extensive outlay of capital to secure them. In the present case, beauty and economy are combined, and the "National Edition" is as well printed a set as we could desire, and at a price (only 20, and much lower to "lubs) which puts it within the reach of alm, stall who desire to possess a copy of the works of the inimitable novelist as their private property.

Respectfully inscribed to the memory of Mrs. ELIZA
DERINGER, lamented wife of Mr. Henry Deringer,
of this city, who departed this life on the 26th of
January, 1867. With undoubted faith and patient
resignation, she resigned into the hands of her
Creator a life so blameless, and so blessed, and so
confirmed in the security of conscious virtue, that the
grave was not the close, but the completion and consummation of her happiness. Religion, patriotism,
and love were it, sentiments that filled and animated
her human breast. From early youth she devoted her
faculties that she might do honor to her God, her
country, and herself. Possessed of a temper that
nothing could ruffle; the warm kindness which nothing
could chill; the bounding spirit of affection which
nothing could subdue; with a mind that never fell
into the sear or yellow leaf, but the perpetual spring
of a never-falling succession or fragrance and beauty—

to all who someth. endeared her to many friends. Har life clung to triendship and sympathy, deeply felt and strongly expressed to all who sought it. Popularly distinguished as a good neighbor, passionately devoted to her children, the faithful wife and counsellor of half a century or more (who is said to be the architect of his business and fortune), she held their very heart-strings with sweet and tender force, shedding a lively and vivacious lustre o'er the horizon of home. We saw the cherished mother but a short time ago seated amid the domestic circle of father, mother, sons, and daughters—a home of inapplness. Where is she now such into dreamless repose. Around her devoted and ballowed name clusters all that is most beautiful, chaste, and permanent. We condole with the aged husband, and children, whose hearts, allinging serrowing, kindles at the mention of one so loving and beloved in life.

'Chi' If there be a thought within our breast,

rowing, kindles at the mention of one so loving and beloved in life.

One lif there be a thought within our breast, One pure, deep feeling holler than another. One spot in memory dearer than the rest.

"Its where thy name is treasured, O our mother." Weep no more: she is at rest. The light of immortality, with rays softer than the thus of spring, reflicting the sunless solitude of the tomb. Streams of unnumbered joys and visions of cetestial loveliness open from the pearly gates of Paradise to glad the reawakened soul. The body now reposes beneath the solemn shades of Laurei Hill, and the spirit in our father's house, where the children of His love are gathered to a snotless fold.

MEDICAL ELECTRICITY. Latest and Most Important Discoveries

in the Treatment of Chronic

Diseases. DR. S. W. BECKWITH'S

ELECTRICAL INSTITUTE,

No. 1220 WALNUT ST.

During our investigations in the treatment of disease in its various forms by the agency of electricity, we have obtained very many valuable and startling facts, which, added to the previous though limited information, possessed by other and less fortunate operators, place us beyond all previous knowledge of this mysterious agent. During the course of our practice we have treated and cured, through the knowledge thus gained, many thousands, and by means of our new discoveries have established ourselves as the most successful Medical Electricians in this country or Europe.

Electrical investigation has proved that the human body acts on the principle of the galvanic battery. The brain, mucous and serous membranes, the skin, tissues, and fluids constitute the negative and positive forces, and every action, whether mental or physical, is the result of these antagonistic forces. Digestion, respiration, circulation, secretion, and excretion are due solely to electrical influence. There is a polar action established throughout the nervous system which connects with every part of the body, establishing and preserving a proper balance of the electrical element which constitutes health, and a disturbance of which causes disease. There are strictly but two conditions of diseaseone of inflammation, or positive: the other weak, debilitated, negative-and as electricity contains these two conditions in the action of the positive and negative currents, all we have to do is to neutralize the disease and restore proper, healthy action.

Among the chronic diseases in which electricity has been, and is daily being by our agency, of the greatest utility, a cure being rapidly effected after the failure of all other means, are:-

1. Epilepsy, Chorea, or St. Vitus' Dance, Paralysis (Hemplegia), Neuraigia, Hystoria, Nervousaess, Falpitation of the Heart, Lockjaw, etc. 2. Sore Throat, Dyspepsia, Diarrhoa, Dysentery, Obstinate Constipation, Hæmorrhoades, or Piles, Billous, Flatulent, and Pauner's Cone, and all affec-

tions of the Liver and Spleen.
3. Catarrh, Cough, Influenza, Asthma (when not caused by organic disease of the heart), Bronchitts, Fieurisy, Fieurodynia, or Kheumatism of the Chest, Consumption in the early stages.

4. Gravel, Diabetes, and Kidney Complaints, Impotence, and Seminal Weakness. The latter complaints never fail to yield rapidly to this treat-

ment.
5 Rheumausm, Gout, Lumbago, Stiff Neck,
Spinal Curvature, Hip Diseases, Cancers, Tumors
ithose last named always cured without pain, or plasters in any form).
6 Uterus Complaints, involving a mal-position, as Prolapsus. Antroversion, Retroversion, Inflammation, Liceration, and various other affections of the Womb and Ovarioe.

For information desired upon other diseases, application may be made at the office, or by letter. Mrs. BECKWITH has entire charge of the Ladies' Department, and all delicacy will be used towards those who entrust themselves to her care, In temale diseases, it is universally successful in her hands.

For the convenience of those desiring information. we give (by permission) a few names of persons among the best business men and others of this city and elsewhere, whom we have treated and cured:
