Suspension Bridge was slightly scorched, and several of the guy-ropes burned in two. The company also lost some timber, which was lying in an alley between the mill and the bridge. A stable, belonging to Mr. John F. Hunter, fronting on Scott street, was also con-sumed. One of the Cincinnati steam engines came across the bridge and olayed upon the fire. The Covington engine, U. S. Grant, was early at the conflagration, and the company worked manfully, but their efforts to save the building work furtiles. A dozen anglines could building were fruitless. A dozen engines could not have checked the devouring element. This is the most disastrous fire that has visited our for many years .- Cincinnati Evening Times, the inst.

Mr. Charles Reade and His Critics.

Mr. Reade sends to a London paper the fol-

lowing letter:-To the Editor of the London Sun,-Sir:-I have to To the Exitor of the London Sun,-Sur,-I have to thank you for some kind words relative to a statement lately put forth, that my story, "Griffith Gaunt," is compounded from two in-dependent and original tales in Household West

Will you oblige me by stating, as the truth is will you conge me by starting, as the truth is that I never saw either of those tales, nor read one line of them. By the extracts I am con-vinced they are simply short stories founded on the cause celebre "Pivandiere." The bare out-line of that true narrative is made use of in the second, and third volumes of "Griffith Gaunt." second, and third volumes of "Griffith Gaunt," and hence, no doubt, has arisen a partial re-semblance between three tales of very different calibre, based, however, upon one great fact. In the parallel that has been drawn, all the points of difference between "Griffith Gaunt" and his predecessors appear to be fraudulently

and his predecessors appear to be iraudulently suppressed. Of course by this artifice, and by one criti-caster wording in his own language the three English plots, a slight similarity may be made to appear a great one. When two short tales and one three-volume novel are all based on an outline, that would go into a page, the short tales must, by the na-ture of things, be more indebted to the histori-cal record than the voluminous fiction can be. Yet the editor of the Round Table picks me out or the three story-tellers as the one plagiarist;

Yet the editor of the Round Table picks me out of the three story-tellers as the one plagiarist; tri-voluminous Me. I think the circumstance, apparently irrele-want, that I am such as this editor for defama-tion, has something to do with this droil selec-tion. He has a mind to show one there are such things as imperitent liars as well as imperitent thickes. My attorney shall give him a pinch for stele news.

for stale news. Let me add that to plagiarize is to borrow Let me add that to plagiarize is to borrow from a homogeneous, not from a heterogeneous source. When an artist of fiction clothes with firsh and vitality the dry bones of a State trial, this is not to plagiarize. Dramas and tales that are and will lond remain the delight and won-der of the world, have been so based on histo-ries, blographies, chronicles, and other records; indeed, the more we scrutinize the origin of lasting works, the more we shall incline to say with the naturalists, owner those of the with the naturalists, or ne vicum ex ovo. I am, sir, your faithful servant, CHARLES READE.

Mutual Aid Societies in France .- At the end of 1867 there were in France 5288 mutual ald societies of various kinds, representing pro-perty to the amount of about £1,500,000 sterling.
