THE DAILY EVENING TELEGRAPH.-PHILADELPHIA, MONDAY, FEBRUARY 11, 1867.

CITY INTELLIGENCE.

[FOR ADDITIONAL LOCAL ITEMS SEE THIRD PAGE.]

THE MINT-THE ANNUAL TRIAL BY THE MINT-THE ANNUAL TRIAL BY ASSAT OF THE GOLD AND SILVER CONAGE-HOW IT IS DONE AND THE, PRINCIPLES OF THE OPERATION.-In the month of February of each year there is a commission appointed by the President of the United States, who, in conjunc-tion with the officers of the Mint and the Com-mittee on Coinage, Weights, and Measures of the House of Representatives, make a thorough trial of the gold and silver coinage of the differ-ent Mints in the country, with a view to de-termine whether they come up to the governtermine whether they come up to the govern-mental standard of fineness.

mental standard of fineness. The following gentlemen, appointed as Com-missioners by the President:--Professor Joseph Henry, Washington; Pro-fessor John Torrey, New York; Hon. Samuel B. Ruggles, New York; Professor J. H. Alexander, Ralumore; Professor George J. Bruah, New Haven; Professor Robert E. Rogers, Philadel-phia; Professor Charles M. Wetherell, Bethlehem, Pa. William S. Arnieton Roston Mass - Pro-Pa.; William S. Appleton, Boston, Mass.; Pro-lessor Stephen Alexander, Princeton, N. J.; and the House Committee, consisting of Hon, John the House Committee, consisting of Hon, John A. Kasson, of Iowa (chairman); Hon, Charles H. Winfield, of N. Y.; Hon, Thomas Williams, of Pa.; Hon, Hezekiah S. Bundy, of Ohio; and Hon, Henry L. Dawes, of Mass., assembled at the Mint at 10 o'clock tais morning. After or-ganizing in conjunction with the officers of the Mint, and the reading of the act of Congress in relation to the duties of the act of Congress in relation to the duties of the commission, they proceeded to the business of the meeting. Out of the different places of coinage, a certain number of exch denomination are laid aside for this annual assay, and are called the

aside for this annual assay, and are called the reserved coins." These are placed in packages

Gold coins from the Mint at Philadelphia, Silver coins from the same, Gold coins from the Branch Mint at New

Orleans. Silver coins from the same

Gold coins from the Branch Mint at San Francisco.

6. Silver coins from the same. Gold coins from the Branch Mint at Char-

8. Gold coins from the Branch Mint at Dah-

lonega. These coins were weighed, and the number in each parcel was recorded upon the Secre-tary's minutes.

THE OPERATION OF ASSAVING GOLD, After the weighing of the several parcels of gold and silver coinage, the Commission proceeded to assay the coin with reference to its deviation, if any, from the standard fineness. The general principles of this operation is as follows:-

According to law the standard gold of the United States is so constituted that in 1000 parts of weight 900 shall be of pure gold and 100 of an alloy of copper and sliver. The process of assay-ing requires that the sliver and copper shall be entirely separated from the gold; and to effect

The first is to remove the copper. This is done by a method called *cupsilation*, which is conducted in an assay furnace in a cupei made of calcined bones. By adding lead and subjecting the whole to an intense heat, the converting the automic. To search the copper is separated entirely. To separate the silver from the gold, it is necessary to add more silver until there are three parts of silver to one of gold. Then the siloy of gold and silver thus formed is rolled out into thin ribbons and boiled in nitric acid until the silver is entirely eaten out.

THE TEST ASSAY.

To test the accuracy of the above process, the

To test the accuracy of the above process, the following method is employed:— A roll of gold, of absolute purity, which has been kept under the scal of the Chairman of the Assay Commissioners, is opened in their presence, and from it is taken the weight of 900 parts. To this is added 75 of copper and 25 of silver; so as to form, with the gold, a weight of 1000 parts, of the exact legal standard. This is passed through the same process of assay as the other gold, and at the same time. After the assay is finished, it is evident that the pure gold remaining ought to weigh exactly

pure gold remaining ought to weigh exactly 900. If, however, from any cause, it be found to differ from this weight, and, therefore, to require a correction, it is assumed that the same correc-tion must be made in the other assays, and this is done accordingly.

ASSAY OF SILVER COINAGE.

The standard silver of the United States is so constituted that, of 1000 parts by weight, 900 shall be o pure silver and 100 of copper. In the process called the humid assay, the

silver coin is first granulated, and then dis-solved in nitric acid, and to the solution com-mon salt is added, which precipitates the silver in the form of an insoluble chloride. In the testing of silver coinage too high a degree of ALUMNI INSTITUTE OF THE CENTRAL HIGH SCHOOL.-A meeting of the Alumul In-stitute was held at the Central High School on

Hron Somool. — A meeting of the Alumni In-stitute was held at the Central High School on Saturday evening, when the following officers were elected to serve for three years.— Alexander P. Colesberry, President; Richard B. Wise, Vice-President; John J. Weaver, Re-cording Secretary; B. Frank Abbett, Corres-ponding Secretary; B. Frank Abbett, Corres-ponding Secretary; E. H. D. Fraley, Treasurer; R. B. Whittington, Librarian. For Roard of Managers, Messrs. Fraley, Buck-walter, Weaver, and Abbett were elected for three years; Messrs. Coxe, Kirk patrick, Whit-tington, and Hogan were elected for two years; and Messrs. Christine, Stern, and McDevitt were elected for one year. On the organization of the Board, Mr. Buck-walter was elected Chairman, and Mr. Coxe Secretary. The object of this Institute, as set forth by the President, is social and literary. A hall will be obtained, and furnished with a library. Already liberal donations of books have been promised. In the rooms of the Institute, the members of the Alumni of the Central High School meet as friends, forgetting there all differences in an homest desire to cultivate social feelings, and at the same time advance the interesis of popu-lar education. The annual meeting of the Alumni will be held on Weinesday evening, when a President of the Association will be elected; also, a Speaker for 1868. elected; also, a Speaker for 1868,

REV. W. C. VAN METER, the indefatigable friend of homeless children, spoke three times friend of homeless children, spoke three times yesterday in this city, presenting the cause of the "Howard Mission and Home for Little Wanderers," in New York, at the Congrega-tional Church on Elghteenth street; at the First Baptist Church, Broad and Arch streets; and at the Olivet Presbyterian Church. In the morn-ing \$230 was raised, and in the afternoon \$275. Mr. Van Meter speaks this afternoon and even-ing at the Spruce Street Baptist Church. To-morrow he leaves for Wilmington, with eight or ten pupils, and will proceed to Baltimore, and spend next Sunday in Washing on. His success is remarkable. Thousands of little wanderors have been rescued from want by his earnest labor. earnest labor.

PAYING FOR DRINKS.—Jacob Leister has been long in the habit of spending his evenings in the bar-room of a tavern kept by Mr. Dackin the bar-room of a tavern kept by Mr. Dack-erman, and by playing sundry games of cards, and ordering sundry drinks, had run up a bill to quite an extent. Saturday evening he went to his old resort, and demanded drinks, but the landlord, having in view the long column of unpaid articles, refused. Whereat Leister said he would pay the "score," and fell to, com-pietely blacking the eyes of the landlord. For this Alderman Holme committed him in default of \$500 ball to answer.

INSANE MAN PICKED UP .- This morning, INSANE MAN PICKED UP,—This morning, at an early hour, a young man was found in Clay street, his manner and actions indicating insanity. When asked by the officer where he resided, he answered in Lombard street. This he corrected again by saying he lived in Jersey; and to the inquiry as to the exact place, he re-plied, "about half way." A Testament was found in his pocket, with the name of Robert Wilson written on the fly-leaf. He will be kept this day, and if by to-night friends or relatives do not claim him, he will be sent to the Alms-house. house.

AN UNLAWFUL WARNING TO A TENANT-James Palmer resides in Rising Sun, and occu-ples a dwelling, part of which he rents to an old ady. Saturday night Palmer, incited to evil deeds by ardent spirits, went home and to his tenant's apartments, and warned her to move immediately. This he did by kicking her violently and unceasingly until she could get out of the room, Complaint was that night made before Alderman Good, of Germantown, and Palmer was arrested and committed in de-fault of \$500 bail.

RESCUED .- Last evening Charles O'Neil hailing from Camden, New Jersey, came near shuffling off this mortal coll. He was rather the worse for liquor, and tumbled in the water at Meade alley wharf. Officer Morris had obat Meade alley wharf. Officer Morris had ob-served him a short time before, but suddenly missing him, went to the dock and saw him struggling in the water. He was rescued by the officer; and was considerably sobered by his cold bath, so much so that he was enabled to reach the ferry and get to his home.

LARCENY OF CHICKENS .- Margaret Delmar, aged about 58 years, was passing through the Second Street Market, when her optics were enchanted with the vision of large, plump, and tender chickens, in a defunct state. No one, apparently to her, was watching, so she un-hooked them from their hooks and deposited them in a basket and went on. It was how. them in a basket, and went on. It was, how-ever, "no-go" with her, as she was arrested, and Alderman Pottinger heid her to answer.

Among THE PATENTS recently issued by the Patent Commissioner at Washington, is one for "dressing grindstones." We know of an excel-ient plan for dressing the Commissioners, and that is to send their orders and measurement to Charles Stokes & Co., under the Continental. Persons may think, by this notice, that we "have an axe to grind" ourselves. INSURE YOUR LIFE MEDICAL ELECTRICITY

DR. S. W. BECKWITH'S	A second se		
ELECTRICAL INSTITUTE,	STATEMENT OF THE CONDITION		
No. 1220 WALNUT ST.	OF THE		
During our investigations in the treatment of dis- ease in its various forms by the accurv of electricity, we have obtained very many valuable and startling facts which, accied to the previous though limited information, possessed by other and less fortunate operators, place us beyond all previous knowledge of this mysteri-us agent. Furing the course of our practice we have treated and cured, through the knowledge thus gamed, many thousands, and by means of our new discoveries have established our- selves as the most successful Medical Electricians in this country or Europe. Electrical investigation has proved that the human body acts on the principle of the raivanic battery. The brain, mucous and serous membranes, the skin, tissues, and fluids constitute the negative and posi- tive forces, and every action, secretion, and exerction are due solely to electrical influence. There is a polar action comblished throughout the previous system which connects with every part of the body, establishing and preserving a proper balance of the electrical element which consutines there are strictly but two conditions of disease- ment strictly but two conditions of disease- ment of inflammation, or positive : the other weak, debilitated, negative—and as electricity contains these two conditions in the action of the positive and negative currents, all we have to do is to particulate the disease and restore proper, healthy and negative currents, all we have to do is to predicate the disease and restore proper, healthy and negative currents, all we have to do is to predicate.	 1ected

it reached and even went below the freezing point. During the entire day there was a tre-menaous gale blowing, which was so strong that redestrians could hardly make headway against 11. Towards the latter part of the even-ing, however, the wind moderated and the weather was clear and cold.

weather was clear and cold. During yesterday the effect of the heavy rain storm of Saturday uight became apparent in the great and rapid rise in the rivers Delaware and Schuylkill. The ice had been weakened and broken to a great extent by the previous mild weather, and the rise in the river sent it down over the dam. The water was previous mild weather, and the rise in the river sent it down over the dam. The water was at least three feet above the top of the dam, and did not decrease in its volume the whole day. It is highly probable that, if it had not been for the present cold snap, the vast masses of loc that are heaped up in the upper part of the Schuylkill would be carried down and sweep everything before it. Below the dam the river is almost clear of ice, and the water is very high and very muddy. On the Delaware front the aspect of things is decidedly more pleasant. The river is comparatively clear, and the chan-nel being open, there is a prospect that it will nel being open, there is a prospect that it will be kept so in the future. Vessels that were loe-bound below in the Delaware can come up, and the stoppage to business that was consequent on the ice-blockade of the channel will be done away with.

RECOGNIZED .- The man found at Fifteen h and Carlton su eets yesterday morning, has b en recognized to be Hugh Miller, residing at No. 330 North Sixteenth stress, and worked for William Sellers & Co., Sixteenth and Penn-sylumia automatic stress, Sixteenth and Pennsylvania avenue. Miller has a wife and family in Brooklyn.

LABCENY OF A SHAWL.-John A. Albright, aged 27, residing at No. 707 Front street, was arrested by Officer Myers for stealing a shawl m a reslience on Contes street, below nan Toland committed him in default of \$600 ball to answer.

DIED FROM EXPOSURE.-Yesterday, an old woman named Margaret Rill was found dead in a house No. 145 Bedford street, above Bixth. The Coroner held an inquest, and re-furned a verdict:-"Died from exposure and regelect"

A GENERAL PILFERER.-Mahlon Kite was arrested on Saturday afternoon, for being concerned in numerous petty larcentes. Heatone time worked for Edmund Dunn, and some tools and other small articles were missed. [His room was searched, and a trunk found containing many articles which, at different times, had been stolen, overcoats, dressed skins; cloth, etc. etc., Alderman Allen committed him to answer.

KEEPING & DISOBDEELY HOUSE,-No. 322 Monroe street has been the rendezvous of the dissolute, who have acted in a manner to give annoyance and cause disgust to the peaceoving citizens around, Accordingly, it was broken up, it is hoped, by the arrest of the mistress thereof, Margaret Ardell, who was committed by Alderman Tittermary.

HANDSOME CERTIFICATE.-The Board of Directors of the Sixteenth School Section have just got up a beautiful certificate of graduation averages for scholars, to be presented to pupils of the Jefferson Grammar School, prior to ad-mission into the Central High and Girls' Nor-mal Schools. This certificate is printed in gold and colors by Rawlings & Zeising, and is the neatest affair of the kind we have ever Seen.

PAWNING WASH CLOTHES .- Mary Peale was intrusted with a bundle of wash clothes by different gentlemen, to put in a proper state. But instead of this she pawned them at some store, and never appeared with any answer to the owners thereof. She was arrested, and the facts ascertained, and Miss Mary, was committed to answer by Alderman Titermary.

A MINISTER'S DWELLING ENTERED .- The dwelling of the Rev. Dr. Stevens, No. 913 Clin-ton street, was entered about 10 o'clock on Sunday morning by forcing the back door open, Two fine coats were missed, together with a number of dresses belonging to servants.

LARCENY .- Henry Killinger was arrested this morning, by Detective Taggart, upon the charge of larceny. He will have a hearing toiny.
