THE GITIZENS' ASSOCIATION OF PENNSYLVANIA -FIRST ANNUAL REPORT. The first annual report of the Citizens' Association of Pennsyl-vania is before us, and from it we extract the following summary of the operations during the year 1866:-

The year 1886:---The present officers of the Association con-sist of the following well-known gentlemen:--President, Joseph Parrish. M. D.; Vice-Presi-dents, John M. Maitand Jay Cooke: Secretary, Joshua Woolston; Directors, John A. Wright, Samuel Parrish, Wistar Morris, George Mil-liken, Archibaid Campbell, Caspar Morris, M. D., Henry Lewis, and T.T. Tasker, Jr. By the provisions of its charter, the Associa-tion is empowered to purchase lands and erect buildings for accommodating those addicted to the use of intoxicating drinks; to inquire into the causes of pauperism, vagrancy, and

into the causes of intoxicating drinks, to inquire into the causes of pauperism, vagrancy, and crime, and their statistics; and to do whatever may seem practicable and needful for the pre-vention of all these evils. The report before us is devoted chiefly to the flist of the objects enumerated above. The different classes of inebriates are enumerated, and the causes from which the report of the flist of the classes from which intemperance springs are fully and can-didly discussed.

for the purpose of carrying this portion of the objects of the association into effect, they have purchased a farm of one hundred and seven acres, located in Darby township, Delaware county. The location is easy of access to the city by both steam and horse cars, and being completely surrounded by forest trees, enjoys that privacy which is so essential in all reformatory institutions. It is intended, in the erection of the necessary buildings, to depart from the beaten track, and instead of congregating large numbers of intemperate persons under the same roof and at the same table, to provide for their accommodation table, to provide for their accommodation houses which will contain families of from

five to twenty persons. The best internal and external arrangements of these cottages, together with the proper relations of the inmates to each other, are disclose of the infinites to each other, are dis-cussed in the report in an exhaustive manner. Under the subject of "dependent and criminal classes," the report presents the following in-teresting calculations, based principally upon the records of Massachusetts, as those of Pennsylvania are too meagre and uncertain to be

The proportion of the insane is one to every four hundred and twenty-one inhabitants, which would give to Pennsylvania an aggre-gate of 8716 of these unfortunates. Of these about two thousand are inmates of the different about two thousand are initiates on the united of more are cared for in the county poor-houses; and a few hundred, perhaps, in institutions outside of the State; and the remainder, many of whom are unknown to the census-takers or other officials, in their own homes or those of their friends. their friends.

their friends. The proportion of idiots to the population is one in one thousand and fifteen, which esti-mate includes only those who are born idiotic, or become so in early childhood. This would give a total of 3615 for the State, of whom but a few hundred at the most are cared for in public entities the great bulk of them remaining nstitutions, the great bulk of them remaining

in their homes. The blind and deaf mutes exist in about the "anne proportion as idiots. The institutions provided for their care contain of the former class one hundred and eighty-one, and of the

class one hundred and eighty-one, and of the latter one hundred and twenty-six. The ratio of pauperism in Massachusetts-one to three hundred and sixty-five-would give to Pennsylvania an aggregate of 10.053. Philadel-phia alone has at the present time more than 3000 of these in her Almshouses. During the past fourteen years the number of persons committed to jail in Massachusetts was one in two hundred and twenty-nine. In 1865, there was one in 9524 committed to the State Prison, while in Pennsylvania, during the same year, the proportion was one in \$293. Accepting the Massachusetts basis, which is seen to be below the real state of the case in our wy State, below the real state of the case in our own State, Pennsylvania would have had a criminal population, during the past year, of 16,023, exclusive of the large number who are never brought to justice.

With regard to the number of vagrants there can be no accurate estimate, but there were at least thirty thousand of them prowling over

the State during the past year. The proportion of drunkards is set down at one in sevenity-four, which would give to Penn-sylvania 49,557 of this class. Such is the immense field within which the Association is to labor in the cause of morality

and happiness ! The report closes with a table of valuable statistics, from which we extract the following:-

Population in Total revenu 1866 (exti- of State from mated), liquor, 1866, \$31,061 \$769*50 242,667 23,630*90 Adams Allegheny. 44,845 Armstrong.

THE BOARD OF HEALTH-Annual Report of the Registrar.-The annual report of George E. TION AT HARRISBURG THIS AFTERNOON.-It would seem, from the indications all around us, that the friends and advocates of temperance reform were about making another united and earnest effort to forward the good cause which they have at heart, especially in this State. And any one who takes the trouble carefully to read the police reports in THE EVENING TELEread the police reports in THE EVENING TELE-GRAPH, will at once be convinced of the urgent necessity for a renewal of the efforts to prevent the further spread of intemperance. This after-noon, at 2 o'clock, a State Convention of the friends of temperance assembles at the Court House in Harrisburg. The call for this Conven-tion, which was published several weeks ago, was signed by the Governor of the State and the leading members of the Legislature, as well as by many of the most prominent cligans of the by many of the most prominent citizens of the

ceedings. WHERE TO BUY YOUR DRY GOODS.—This is an all-important question, in which all indi-viduals are interested; and where to purchase substantial and tasteful goods, and at the most reasonable rafes, is a difficult problem to solve, when surrounded by a multiplicity of stores, all advertising the best. Cooper & Conard are the monoplators of one of the largest deviced. proprietors of one of the largest dry goods esta-blishments in the city, at Market and Ninth streets. In fact, their establishment is a perfect emporium, where can be found at all times the very finest, most durable fabrics, of every grade, and of every variety, put up at prices which cannot but give the fullest satisfaction to all cannot but give the fullest satisfaction to all who call upon them. It has its "black-goods" counter, where can be found alapacas, mobairs, wool delaines, sin-gle and double, black "Canton" cloth, and black glossy silks; it has its print counter, piled up with over two hundred styles of new prints, balmoralskirtings, new delaines, and the best of goods, with fast colors; and it has its "linen" counter, covered over with all that its necessary to complete the table and fill the wardrobe; and last, but not least, is the "notion" counter, where the goods are in such great variety, con-sisting of all the little "essentials" so necessary to the full completion of all dress-goods articles. A visit to this establishment would, no doubt, benefit many. enefit many. A STREET Row .- Last night the people in the neighborhood of Nineteenth and South streets had quite an excitement. It appears that three persons, going by the names of Francis Coyle, Hugh Drane, and "Slasher," were drinking together, when "Slasher" went out on the payement and accosted a couple of women who were passing. Not content with stopping them, he addressed some very insult-ing remarks to them. One of the women was Coyle's wife, and the other was his sister. former went in and told her husband, and he and Drane both went out, swearing vengeance and Drane both went out, swearing vengeance on "Slasher." Coyle met the latter, who threat-ened to disfigure him sadly. Coyle, reply-ing that he was not able, made a rush at "Slasher." If it had not been for the vigilance of the police, probably a murder would have been committed. As it was, "Slasher" was roughly handled. Drane and Coyle were arrested, and were taken before Alderman Dallas, who, after hearing the facts of the case, held them in \$1000 each to answer the charge of held them in \$1000 each to answer the charge of assault and battery.

STEALING CHICKENS .- Solomon Clawson was

Disonnegar Horse.—Wilkam Holme, Mary Holme, and Francis Finn were arrested about twenty minutes past one o'clock this morning, on a charge of keeping a disorderly house. It appears that the two Holmes have for some time past been keeping a house, at No. 1 Ashby street, for bad characters, who are in the habit of making night hideous by their noisy mirth each and every night. The neighbors com-plained of the nuisance, and Sergeant Selby despatched a squad of police, who made a sur-round and captured the three above named. They had a hearing before Alderman Titter-mary this morning, and were committed to answer the charge of disorderly conduct and keeping a disorderly house. DISORDERLY HOUSE .- Wilkam Holme, Mary

THROWING STONES.—The pugnacity of some of our juveniles is frequently shown by what are called "stone fights" in our streets. Not unfrequently passers-by have been injured by the missiles thrown by the compatants. Last evening some young lads were indulging in that amusement in the neighborhood of Fourth and Poplar streets, and for a time stones were thrown in a perfectly dangerous manner, until the police stepped in and put a stop to it. They arrested George Keim, one of the principals in the disturbance, and took him before Alderman Toland. After a hearing, he was held in \$300 bail to answer the charge of malicious mischief. Assaulting & Policeman. - Last night STEALING CHICKENS.—Solomon Clawson was arrested yesterday afternoon, at Germantown Road and Jefferson street, on a charge of lar-ceny. It appears that Solomon had, in his love for natural history, seized on a few chickens, in order to have the pleasure of dis-secting them. Unluckily for Solomon, the owner of said fowls did not like to have his fowlstaken in so foul a manner, and when the police came afoul of Solomon he was taken and escorted to the office of Alderman Heins, to tell how he became possessed of said fowls. Not being able to do so satisfactorily, he was held in \$300 bail for a further hearing in the case. Assaulting a Policeman. — Last night a police officer met a German at the corner of Tweifth and Race streets, who was in a state of fighting drunktenness. The officer tried to get him quisted, and, as he would not, be told him he would have to arrest him. The German shock s pair of leg-of-mutton fists in the officer's face, and then, taking good aim, deposited a quantity of saliva upon him. Not satisfied with this, our Teuton warrior raised up his foot and amout the officer. The latter took the bellige-rent in charge, and had him put in the Station House until this morning, when he had a hear-ing before Alderman Jones, who held him in \$500 ball to answer. to ball to answer.

STEALING A PAIR OF SHEARS .- A man by the name of Thomas Shaw, was arrested by Officer Lyster, at Fortieth and Market streets, yesterday afternoon, on a charge of larceny. It ap-pears that he had stolen a pair of shears from a tailor named Lomax, which, being a sheer piece of villany on Shaw's part, he was arrested. When taken before Alderman Allen to answer the charge, he could not pshaw the charge away, and was held to answer.

TWO OR THREE COLDS in succession will, with many constitutions, securely establish the seeds of Consumption in the system, thus converting what was originally a simple, curable affection, into one generally fatal. While ordinary pru-dence, therefore, makes it the business of every one to take care of a Cold until it is got rid of, intelligent experience fortunately presents a remedy in Dr. Jayne's Expectorant, thoroughly adapted to remove speeduly all Coughs and Colds, and one equally effective in the primary stages of Consumption, Asthma, and Bron-chitis, Sold by all Druggists, Prepared only at No. 242 Chesnut street.

THE GREAT FEATURE OF HUMPHREYS' HO MCCOPATHIC SPECIFICS is that each remedy is a Specific for some wel-iknown complaint; or dis-Specific for some wel-lknown complaint or dis-case, so that a person in buying a case may obtain the particular Medicine required for any ordinary complaint. Thus thousands, at a triffing expense, have been cured of long stand-ing troublesome diseases, upon which they have expended hundreds of dollars in vain. See the List of Remedies in another column. The House had acjoinned, and Mr. Eldridge asked any.
The statement read by Mr. Giossbrenner caused much amusement. It declared that the Committee had spared so pains to find ugly testimony, but that the winesses could not be brought up to the mark of seeing or suspecting any other than honorable motives or patricitic objects in those whose proceedings they detailed. From their testimony it appeared that the subject of the impeachment of the President had not been discussed or mentioned in any single or form. It suggested that a model gentleman named Conover, now the guest of the Marshal of the city, might be induced to "come out" and furnish all the information that might be desired.
The Select Committee was then discharged from the further consideration of the subject on, the vote was, on motion of Mr. Wentworth, reconsidered, and laid on the table.
The State of New York, for a historical picture to be placed at the head of one of the ground staircases of the Constitution of the cigning of the Constitution, the entire expense not to exceed \$25,000. Objected to. lected to.

Randolph Martin, assignee of the Washington and Georgetown Railroad Company. Passed.

Washington and Georgetown Railroad Company. Paised. Mr. Summer (Mass.) called up a bill for the relief of Henry F. Bianchard to pay him \$2751 for his services as Marshal at the port of Cauton. Inform February isss until May. 1866, which was passed. Mr. Trumbull (III.) called up the House bill estab-lishing a department of education for the collection of statistics and facts with rsgard to the school system of the States, to be under the control of a superiaten-dent at \$4000 per annum. Mr. Connecs (Cal.) moved to strike out the word department and insert the word bursau. Heads of Departments were Cabinet Ministers, and he hoped the term bureau would be sufficient for the new estab-lishing.

lishment. Mr. Trumbull said the head of the Agricultural Department was not a Cabinet Minister. Mr. Conness said that, while the Commissioner of Agriculture was not a member of the Cabinet it was well known that he (the Commissioner) thought he ought to be. (Laughter.) Mr. Wilson (Mass.) said the Commissioner expected to enter the Cabinet.

Mr. Wikon (Mass.) said the Commissioner expected to enter the Cabinet.
Mr. Grimes (Iowa) thought the matter could be arranged by consolidating the agricultural and educational departments under the efficient head of the former. (Laughter.)
Mr. Trumbul spoke in favor of the bill. It was better to use the word department. Decause heads of departments could appoint subordinate officers: and it was important that the Commissioner of Education should appoint his own subordinates.
Mr. Bixon (Conn.) supported the bill as a wise and appropriate measure to follow the extension of the suffrage.
Mr. Sumner was in favor of the bill. He cared not whether you called it a bureau or a department. Suffrage without education. He hour of the suffrage here four entered the bill would not be an any amendments.

endadgered at this had not be an important initia-mary amendments. Mr. Conness regarded the bill as an important initia-tory step, though it did not go as far as it might have done in this great subject. Mr. Howe (Wis.) regarded the bill as the first step in the struggle to educate the nation, and he should

Therefore support it. Mr. Howard would yote for the principle of the bill, but thought there was great force, in the objections of Mr. Conness to the use of the word department.
