A Brothers' Fight.—Yesterday afternoon two boys named Caleb and Richard Gordon, aged respectively 16 and 14 years, indulged in a fight near the West Jersey ferry. Caleb had been tantalizing his brother for some time, and been tantalizing his brother for some time, and Richard, considering his inability to master his brother by the use of his fists, determined to do so by resorting to something harder. He had a small hammer in his hand, which he threw at Caleb, striking him on the head, and penetrating almost into the skull. Both of the lads were arrested by Officer Mason, and taken to the Station House, and to-day will have a hearing before the Mayor.

THE CITY CONVENTION .- Last evening the THE CITY CONVENTION.—Last evening the citizens of the North Ward held a meeting in the Court House. Benjamin F. Archer, Esq., was called to the chair, and the following gentlemen elected to represent the Ward in the City Convention, which meets on Monday, March 5, at the Union League Boom, for the purpose of nominating a Mayor and Marshal:—Messrs. H. L. Moulten, Charles S. Cotting, David L. Taylor, William Wilson, and Charles Wilson.

A REBEL LODGER,—Last evening, a man calling himself Henry Thorne applied for and received permission to lodge in the Station House. He claims to be the son of the Rebel General Travers, and that he held the position of Lieutenant at Richmond. He is now on his way to get work as a day laborer on a railroad that is being constructed near Mount Holly. 'The way of the transgressor is hard.'

FUNERAL OF THE LATE I. H. PORTER, Esq.-The funeral of Isaac H. Porter, Esq., late Trea surer of the West Jersey Ferry Company, took place this morning at 10 o'clock. The New Jersey Lodge, No. 1, of which he was a member, as well as the Order in general, were present. The flags on the ferry boats are at half-mast to-day out of respect for the memory of the

A New Organ.—A new organ, which cost \$2800, is being erected in St. Paul's Episcopal Church, on Market street. It is nearly completed, and in a few days will be open for inspection. The church, in consequence of this addition, has been closed, but will be open as soon as the organ is completed, which will be in about two weeks.

THE NEW DEAD HOUSE.-A Committee of the THE NEW DEAD HOUSE.—A Committee of the Board of Health is now considering the plans for the construction of a new Dead House, or Morgue, an institution which is sadly needed in this city. It is proposed to erect the building, which will be of brick, and two stories in height, on Buttonwood street, above Thirteenth, where the dog-pound is at present located, and to remove the Coroner's office there, to save the expense of \$3 which is now incurred whenever a body is removed from the Dead House to the Coroner's office for an inquest.

Coroner's office for an inquest.

The proposed cost of the structure will be but five thousand dollars. To this establishment will be taken the bodies of all persons who meet with sudden or violent deaths, and especially those whose names and residences are unknown at the time. These last will be pro-perly washed, and then placed on elevated slabs, in such a position that they can be easily

seen through a glass partition.

In the heat of summer it is extremely difficult, with the present inadequate arrangements, to preserve a body long enough to secure its identification. In the proposed Morgue this difficulty will be obviated to a great extent, and the applicances of modern science will be as all the appliances of modern science will be brought into use. It is expected that the Philadelphia Morgue

will be a decided improvement on the one which was opened in New York city on the 19th of June last, and which was thus described in THE EVENING TELEGRAPH of the following

"It is modelled very much after the celebrated Morgue of Paris, and is said to surpass anything of the kind in London, as far as commodiousness and outfits are concerned. Upon the lifed flooring are placed four slabs of marble, six feet in length, and at the height of about five feet, having a slight inclination towards the foot. Each slab is provided with an india-rubber hose, connected with the hydrants, by means of which a steady stream of water can be kept running upon the bodies.

"In this way they can be preserved in a recognizable condition for from twenty-four hours to three weeks, according to the state of decomposition in which the bodies are when found. The ciothing of the unknown deceased, as aids to their identification, are to be hung up around the room, on pegs provided for this purpose. Proper ventilation has not been forgotten, and every other accessory that will tend towards rendering the establishment in all respects adapted to the end in view."

INTERESTING PROCEEDINGS AT NATIONAL HALL. Interesting Proceedings at National Hall.

A grand combination entertainment was given by the Young Men's Religious Union Association last evening at National Hall. The hall, though not crowded, was comfortably filled by a most select and respectable audience. The meeting was opened with prayer by Rev. F. Church, after which there was singing by the choir.

by the choir.

The President, Mr. James McKnight, then made a short address of welcome to all present, after which Mr. John Church, the Secretary, after which Mr. John Church, the Secretary, after which Mr. John Church, the Secretary, after which Mr. John Church, The Viola was called on for a few remarks. The Viola Glee Club was then announced, and they ac-quitted themselves with great credit.

quitted themselves with great credit.

Professor Vanhorn, by special request, recited a piece entitled, "Eulogy on Laughing," being loudly encored, he agais made his appearance and read a poem entitled, "Beautiful Snow."

Professor John McGowan was then announced, and sang a solo entitled "The Maid of Laugweilen," which was much applauded. He then reappeared and sang another solo, much to the entertainment of the audience.

Professor Schultz then played a piano solo, after which Mr. Culliss and Mrs. Parker sang a duett—"Larboard Watch." The intermission was then announced, and at this stage refreshments were served, during which time several humorous pieces were both sung and read. Dr. N. F. Church read "The Bachelor's Sale."

After the refreshments were served, Mrs.

N. F. Church read "The Bachelor's Sale."
After the refreshments were served, Mrs. Parker sang a solo, "Flve O'clock in the Morning." The Vlola Glee again favored the audience with some vocalism, after which Mr. John Church recited "The Downfall of Poland." Dr. Thomas then sang a solo entitled "Rocked in the Cradle of the Deep."
A laughing trio was next sung by Mr. Hall, Mr. Lilly, and Miss Conn. There were several other exercises engaged in, among which a bass solo was sung by Mr. W. Feils, entitled "The Old Sexton," which was greatly applauded. And again refreshments were served, after which

It must here be stated that great credit was due to all who participated in the exercises. They all seemed to combine their efforts to make the evening one of great pleasantness to all present.

LARGE FIRE IN WEST PHILADELPHIA,-Be tween the hours of 5 and 6 o'clock this morning, smoke was seen issuing from one of the windows of the upper story of Blundin's woollen factory, in Haverford street, between Forty-fifth and Forty-sixth streets, West Philadelnith and Forty-sixth streets, west Frinani-phia. The alarm was given, and but one steamer appeared on the ground, inasmuch as all the others belonging to that section had come into the city at the notice of the fire at Fifth and Callowhill streets; and because of the absence of the hose carriages that one steamer was useof the hose carriages that one steamer was use-less. The flames, meeting no obstacle to their progress, spread rapidly, until all the combus-tible material of woollen goods and wood-work had been burned out, leaving nothing but the blackened stone walls standing. The loss, from accounts received, because of the large amount of stock on hand, will be very heavy. The build-ing was about three hundred feet in length, four stories in beight, built of stone, and owned by Mrs. Blundin, widow of Richard Blundin, Esq.

A Dishonest Employs,—Robert Shultz, aged 25, who resides at No. 629 Fitzwater street, has been in the employ of a Mr. Travers, at No. 625 Fitzwater street, the proprietor of a number of drays, of one of which Shultz was driver. Yesterday morning, at an early hour, he went up into one of the rooms of his employar's house and stole therefrom a gold watch, \$100 in greenbacks, and a valuable gold chain. He was seen, and on complaint was arrested in about two hours after the robbery. When searched, the watch and money were recovered, but the gold chain had been broken to pieces, looking as if Shultz intended to melt it up. Alderman Tittermary, after a hearing, sent Shultz to prison, there to await trial at court. A DISHONEST EMPLOYS,-Robert Shultz, aged

WAGON RECOVERED .- On the 5th of August, | WAGOR RISCOVERED.—On the 5th of August, 1866, a wagon belonging to a Mr. Mitchell was stolen from a livery stable No. 455 N. Thirteenth street. Two wagons had been built upon the same model, and were the only two ever constructed on the same pian by the maker. The one stolen was one of them. At the time it was stolen a reward was offered for its recovery, but all attempts to discover its whereabouts were futile. Reserve Officer Dehaven was intrusted with the case. He kept watch on the streets for fotile. Reserve Officer Dehaven was intrusted with the case. He kept watch on the streets for eighteen long months, without any trace of it, but on Saturday last, as he was walking up Callowbill street, he saw the wagon in a stable yard. He found, on making application, that the wagon was owned by a Mr. Williams, who said he had purchased it from a man, but had taken no receipt. The wagon was returned to the owners, who had long since given up all hopes of recovering it. Officer Dahaven is entitled to a great deal of credit for keeping a watch so long, and at last restoring the lost vehicle.

STREET-WALKING .- There is a certain class of females who are irrepressible in their mid-night rovings through the city. The number is on the increase, and the police are arresting all those who are out at late hours, and can give no reasonable account as to why they admire midnight walking better than that of the dav-time. Caroline Brown and Kate Baker, old acquaintances, so said, in their line, were attrested last evening, at Seventh and Maria streets, and this morning were each committed to prison for thirty days. to prison for thirty days,

MEDICAL.

MELICAL ELECTRICITY. Latest and Most Important Discoveries in the Treatment of Chronic

Diseases. DR. S. W. BECKWITH'S

ELECTRICAL INSTITUTE,

No. 1220 WALNUT ST.

During our investigations in the treatment of disease in its various forms by the agency of electricity, we have obtained very many valuable and startling facts, which, added to the previous though limited information, possessed by other and less fortunate operators, place us beyond all provious knowledge of this mysterious agent. Luring the course of our practice we have treated and cured, through the knowledge thus gained, many thousands, and by means of our new discoveries have established ourselves as the most successful Medical Electricians in this country or Europe.

Electrical investigation has proved that the human body acts on the principle of the galvanic battery. The brain, mucous and serous membranes, the skin, tissues, and fluids constitute the negative and posttive torces, and every action, whether mental or physical, is the result of these antagonistic forces. Digestion, respiration, circulation, secretion, and excretion are due soiely to electrical influence. There is a polar action established throughout the nervous system which connects with every part of the body, establishing and preserving a proper balance of the electrical element which constitutes health, and a disturbance of which causes disease. There are strictly out two conditions of diseaseone of inflammation, or positive: the other weak, debilitated, negative-and as electricity contains these two conditions in the action of the positive and negative currents, all we have to do is to neutralize the disease and restore proper, hearing

action. Among the chronic diseases in which electricity has been, and is easily being by our agency, of the greatest utility, a cure being rapidly effected after the failure of all other means, are:—

1. Epilepsy, Chorea, or St. Vitua' Dance, Paralysis (Hemplegia), Neuralgia, Hystoria, Nervousness, Palpitation of the Heart, Lockjaw, etc.

2. Sore Throat, Dyspepsia, Diarrhosa, Dysentery, Obstinate Consupation, Hamorrhoides, or Pilea, Bilious, Flatulent, and Painter's Colic, and all affections of the Liver and Spleen.

3. Catarrh, Cough, Influenza, Asthma (when not caused by organic disease of the heart), Broncatts, Pieurisy, Pieurod, nia, or Rheumanism of the Chest, Consumption in the early stages.

4. Gravel, Diabetes, and Kidney Complaints.

5. Rheumatism, Gout, Lumbago, Stiff Neck, Spinal Curvature, Hip Diseases, Cancers, Immors (those last named always cured withous pain, or plasters in any form). Among the chronic diseases in which electricist

phasters in any form).
6 Uterns Comp aints, involving a mal-position, as Prolapsus. Antroversion, Retroversion, Inflammation, Uteration, and various other affections. For information desired upon other diseases, application may be made at the office, or by letter.

Mrs. BECKWITH has entire charge of the Ladies Department, and all delicacy will be used towards those who entrust themselves to her care. In temale diseases, it is universally successful in her For the convenience of those desiring information.
