CITY INTELLIGENCE

FOR ADDITIONAL LOCAL ITEMS SER FIFTH PAGE.

MEETING AT FRANKLIN INSTITUTE .- A meeting of the Franklin Institute was held last evening, to discuss the proposed ordinances before City Councils in reference to the organization of a department of inspection of steam boilers. The meeting was well attended, and quite a number of practical engineers were present. J. V. Merrick presided, and Professor Morton acted as Secretary. The minutes of the preceding meeting were read and approved, after which the ordinances submitted in committee of Councils by Colonel Page and Mr. Evans were read by the Secre-tary. The meeting then proceeded to compare the ordinances and act upon them by sections. The title of the proposed bill was agreed upon, as follows:—An ordinance organizing a department for inspecting steam engines and boilers." Mr. Sellers moved an amendment to the first section of Colonel Page's ordinance, as follows: - "That the Mayor shall appoint an advisory commission, to consist of five persons, either practically engaged in manufacturing steam engines and boilers, or scientific experts familiar with their management, whose duty it shall be to examine candidates for the office of Chief Inspector of Steam Engines and Boilers.

The amendment was agreed to. That part of the ordinances in reference to the requirements of the Chief Inspector was so amended so as to read, "That he shall be a practical mechanic of scientific abilities, and shall have control and oversight over all the officers connected with the department, who shall have been appointed by him and approved by the Mayor."

The second section of Mr. Evans' ordinance was then discussed, and on motion, amended as follows:-"The Chief Inspector shall appoint, with the approval of the Mayor and the advisory commission, four assistant inspectors, who shall be experienced and practical mechanies in the construction and management of steam engines and boilers, and shall be capable of making all necessary calculations and directions.

The other sections of the bill were not acted upon, and the meeting adjourned to reassemble on Monday evening.

THE "SHELTER" POR COLORED ORPHANS .-The Thirty-first Annual Report of this institu-tion is just issued. The "Shelter" for friendless and orphan colored children was started forty-four years ago. The reasons assigned for not making any public statement of its operations for thirteen years has an historical interest. The report says:-"The association in its early movements was scarcely cheered with a hope of success. At the commencement, and even long after, incredible as it may appear, so strong was the aversion of some of their white neighbors that it was difficult to locate the Shelter. In the meantime it was justly feared to adopt any measure which might bring the Shelter, for colored orphans, before the public. This train of difficulties has been gradually subsiding, and is now reviewed in retrospect to vindicate that system of silence which has east a veil of obscurity over years

of patient perseverance." There are now 74 children in the Shelter, of whom 15 are under four years of age; the eldest is not over ten. These are all taken from the lowest condition in life, where want and dirt reign supreme.

In the list of officers and managers we do not find the name of a single man. All its

affairs are managed by women. The children are under good discipline, and show more proficiency in the rudiments of education, or in knowledge of scripture, than can be found in any other institution.

An appeal is made by the Treasurer, Rebecca Carter, No. 329 South Twelfth street. for more funds, to meet increasing expenses. The building has a fine airy location in West Philadelphia, near the terminus of the Market street railroad, and is capable of accommodating 200 children.

AFTERNOON SESSION OF THE RELIGIOUS CON-VENTION .- The Convention met at 3 o'clock

yesterday afternoon. The following resolution was submitted by the Rev. Mr. Stevenson:-

Resolved, That Government being God's ordinance, instituted not only for the good of the people, but also for the glory of God and for the establishment of His authority in our world, it should only be administered by men who are the friends of God and the faithful subjects of His rule; and, therefore, for Christian men to entrust the reins of government to the hands of ungodly, profane, corrupt, and intemperate men, the known enemies of the Ruler whose authority they exercise, is to be unfaithful to the cause of God and the best interests of mankind. "As a roaring lion and a raging bear, so is a wicked ruler over the poor people." The resolution, after some discussion, was adopted.

The following was submitted:-Resolved, That all objections to the prinset forth in the Constitutional Amendments we propose, rest-ing upon the prohibition of all religious tests in the Constitution, and of the establishment of a national religion, do assume that the nation, as such, should know no God-an assumption which is repudiated by the ablest expounders of the Constitution.

The resolution, after some discussion, was voted down.

In the evening addresses upon the subjects embraced in the resolutions were made by the Revs. Dr. Sloan, of New York, Milligan, of Pittsburg, and others.

OUR FIREMEN. - A committee of the Fame Hose Company of Wilmington, Del., was in our city last week, with a view of purchasing a steam fire-engine. Committees of firemen were also in the city from Trenton and Lancaster.

The committee having charge of the hose carriage to be presented by New York firemen to the Independent Company, No. 1, of Columbia, S. C., will stop in this city on their return home. They will be the guests of the South wark Hose Company.

The steamer of the Assistance Fire Company has been thoroughly overhauled, the boiler repaired, and her machinery put in perfect order.

It is expected that a public trial will be given this week of the new steamer building in this city for the Sun Fire Company of Lan-

The Humane Fire Company of Easton, Pa., have also ordered a new steamer from one of our Philadelphia machinists. All the modern improvements are to be introduced.

POCKET PACKED.—Last evening a gentleman named Marshall, residing in New Castle, Pa., paid a visit to the Academy of Music. On coming out he jumped into a Chesnut street car, and had to force his way in past a growd that had gathered on the platform. Soon after he had entered he put his hand in his pocket to get his money to pay his fare, when he became aware of the very interesting fact to him that his pocket-book had vanished, with its centents, amounting to \$200.

SLIGHT FIRES. Some coal in the yard of J. G. Morrow, Laurel street wharf, took fire about 3 o'clock yesterday afternoon, but was extinguished before much damage was done. An alarm was caused yesterday afternoon about 2 o'clock, by the burning out of a foul chimney in the rear of No. 627 Fitzwater

MACHINES FOR PRIVATE RESIDENCES, MILLS, HOTEL

CHURCHES, ETC., FURNISHING FROM TEN TO SIX HUNDRED LIGHTS, AS MAY BE REQUIRED. This; machine is guaranteed; does not get out;

order, and the time to manage it is about five minutes a week. The simplicity of this apparatus, its entire reedom from danger, the cheapness and quality of the light over all others, has gained for it the favorable opinion of those acquainted with its merits. The names of those having used them for the last three years will

be given by calling at our OFFICE, NO. 105 SOUTH FOURTH STREET,

To CONTRACTORS AND MINERS.—THE road and Hoosac Tunnel, acting for the State of Massachusetts, invite Proposals, until the 19th day of March next, for Excavating said Tunnel at three different sections of that work.

This Tunnel, when completed will be about 4% miles in length, extending from the town of Fiorida, through the Hoosac Mountain, to the town of North Adams. through the Hoosac Mountain, to the fown of North Adams.

The Eastern End has been penetrated from the grade of the Railroad 2507-test, 2400 test of which consist of an opening of about 10 cubic yards to each lineal foot, the same to be enlarged to a section containing about 17 cubic yards to each foot; the remaining 110c feet being heading—now measuring upon an average 4 cubic yards per running foot—to be enlarged to the full section; making some 35,000 cubic yards to be removed. to the full section; making some \$5,000 cubic yards to be removed.

A further section of the work will also be let to the successful bidder for the above-named enlargement, if satisfactory terms shall be offered.

The Western End is worked from a shaft 318 feet deep. The easterly heading from this shaft—of about six cubic yards to each lineal foot—extends 1160 feet and is to be enlarged to a section containing 17 yards per foot, requiring the removal of 12,000 cubic yards. Bids for that amount, and for an extension in either direction of the heading and enlargement at this point, will be received.

The Central End of an elliptical form, 27 to 15 feet, now 400 feet in death, is to be sunk to grade, 1030 feet from the surface, requiring the removal of about 9000 cubic yards. All the work to be done is in Talcose State, and will require neither masonry nor supports of any will require neither masonry nor supports of any kind.

Buildings, machinery, and means of ventilation, all of the most substantial character, have been provided and will be turnished to contractors.

Ample sureties will be required from parties who may be contracted with, and the Commissioners reserve the right to relect all offers that may be made.

Plans and specifications may be seen on application to ALVAH CROCKER, at the Engineer's Office, North Adams, Massachusetts; and other information may be obtained from JAMES M. SHUPE, Room No. 10. No. 13 Exchange street, Boston, to whom proposals may be directed.
