was presented by Mr. King.

Mr. King said that he was constrained to offer
this resolution because certain individuals who
suffered from the proposed improvement were endeavoring to bring about a repeal of the law in
question. The Girard estate has paid a large sum
in damages to such persons, and he desired the
prompt adoption of this most important resolution.

Colonel Page very pointedly characterized the course taken by private parties who oppose a great public improvement because it does not benefit them. Mr. Page advocated the passage of some general law providing a remedy for this evil Upon every topic connected with the streets of the city the speaker thought the only approach to the Legislature should be through the Councils of the

city.

The resolution passed unanimously.

A note was read from Mr. Graeff, Chief Engineer of the Water Works, naming his appointees, s follows: Clerks-Sterling Bell, Wm. H. Holliday, James

Inspectors-F. F. Pootes, Samuel McIntyre, Jos.

The communication was referred to the Committee on Water.
Mr. Bumm, chairman of the Committee on City Property, to which was referred the subject of the disposal of the lot of ground upon which now stands Moyamensing Hall, reported an ordinance providing for the sale of the materials of the building and the ground upon which it stands. Referred.

The ordinance requires the Commissioner of City Property, Mr. Charles Dixie, to advertise for bids for it and the property to be thus disposed of to the highest bidder.

A resolution that a joint committee of five be appointed from each Chamber to make arrangements to entertain a delegation of Boston Council-men, now in the city on public business, was offer-

ed by Mr. Van Cleve, and agreed to. Mr. Van Cleve, and agreed to.
Mr. Wagner, from the Committee on Law, to

Philadelphia, March 14.—To the Select and Com-mon Councils of the city of Philadelphin—Gentlemen: Your Committee on Law, to whom was referred the annexed resolution offered by Mr. Evans, entitled "Resolution of Instruction to the City Solicitor and Chief Engineer of the Water Department;" and also the annexed resolution offered by Mr. Harper, entitled "Resolution of Instruction to the City Solicitor," beg leave to report that they have considered the subject matter of the resolutions, and report back the one offered by Mr. Evans with a favorable recommendation,

An ordinance to pay \$20%) to Nathan Nathans for injury done to his property by the opening of Broad street, in the vicinity of Columbia avenue,

A resolution instructing the Committee on Police to report an ordinance providing for the erection of a station house in the Seventeenth District was reported by Mr. Barlow, with instructions to the committee to report as soon as possible. Referred to the Committee on Police.

Mr. King offered a resolution asking a repeal by the Legislature of the act authorizing Councils to issue bonds bearing 73-10 per cent. interest per

A communication was received from the City Solicitor naming William M. Meredith and Ed-win Olmstead as assistants to his department in a suit at Washington, in the case of the heirs of the Girard Estate to recover the Girard property from Philadelphia. Mr. Hodgdon, while conceding that many of Mr. Hodgdon, while conceding that many of these culverts would be very desirable, yet the Mill creek culvert ought not to be built. It would cost \$195,000, and the grading of the street some \$60,000 more. The fund on hand for the purpose was but \$17,000. This job ought to be postponed for a few years, at least. Mr. Hodgdon moved to strike out the Mill creek culvert.

The discussion was protracted for near an hour by Messrs. Fox, Cattell, King, Van Cleve, Gillingham and Page.

lingham and Page.

Colonel Page closed the debate by declaring his resolve to vote for the bill. It was not a question of locality, but a question of health, and for this he should support it. The miasma arising from his creek ought not to be permitted to exist. It is not the Twenty-fourth ward alone, but the en-tire city is concerned. Into this creek flows a fear-ful amount of flith. A great hospital, a large rail-road depot, and very many factories are drained into it. We had a visitation of cholera last year, and may have a pestilence sgain. We cannot stop to think of our treasury; there is that in the air that must compel us to vote for this bill. We must do it because a power that we cannot control de-mands us to do it for our own protection.

Mr. Cattell pledged the faith of the Twenty-fourth ward that if the loan was made it should

not go upon the market. Mr. Barlow cheerfully sustained the bill. It passed with unimportant amendments.

A bill to increase the salaries of the Messengers of Councils to \$1000 was adopted. The Chamber then adjourned.

Common Branch.-President Marcer in the chair. Mr. Wm. D. Martin presented a resolution di-recting the City Controller not to sign warrants for the item of \$6000 to the Board of School Control for the payment of salaries of the officers of the Board. Referred to the Committee of Finance. Mr. Little presented a resolution to allow the fire companies on the west side of the Schuyikili to attend fires in the city proper.

Mr. Bardsley, a petition of citizens of Twenty-second ward for sidewalks in Day's lane.

Mr. Hancock, a communication from Jacob Colladay, contractor for the new court-house, stating that he had lost \$1612 by his contract, and

stating that he had lost \$1612 by his contract, and asking for that amount. These were all referred. Also, a resolution directing the Committee on Fire and Trusts to inquire into certain firemen's riots on March 3d. Agreed to.

Mr. Earnest, a resolution censuring the Commissioner of City Property for removing a one-armed soldier from the superintendent's post in Norris Equare. Referred.

South Broad street. Referred to the Committee on City Property.

At four o'clock Mr. Hetzell moved to take up the House of Correction bill. The matter came up on the resolution and ordinance reported last January—the resolution petitioning the Legislature to pass an act to vacate Eleventh street, between the county prison and the parade ground, and to fix the title of the parade ground in such manner as to allow the erection of a workshop for prisoners; the ordinance appropriating \$160,000 for the erection of a House of Correction on the parade ground, or such other ground as the Committee on House of Correction may select.

A motion to strike out "parade ground" from the resolution was agreed to.

resolution was agreed to.

A motion was then made to amend the ordinance by referring the erection of the building to the inspectors of the county prison.

Mr. Simpson argued against the selection of the parade ground. In a few years, he said, improvements will extend thitherward, and the prison will

be removed. Ten or nineen years ago the House of Refage was taken from its former site and removed farther west. Building improvements crowded it out. To day the march of improvement is towards the section of the city on which stands the prison. It must soon be removed, and the city should now purchase a hundred acres of lead in the remote part of the city, or river navigation, where building malerials are cheap, and there erect a house of correction. Then when the prison is to be removed it can be placed side by side with the House of Correction, and when the Almshouse is forced from its present location it will also go to the same spot.

its present location it will also go to the same spot.
Mr. Willets said that the question of site is the question of erection. If the Parade Ground should be devoted to the purpose then the building will be erected. If the Parade Ground is rejected there will be no house of correction, and the reason is this: There is a large piece of ground, unoccupied, valueless, save for this purpose. The city owns it. It was provided for the extension of the county prison. Manipulation turned it into a Parade Ground, and now it should revert to its original purpose. The convicts in Moyamensing can all labor on the new building, and if the Parade Ground be chosen the building will at once go forward, but alter the site and there will be no build-

Mr. Potter argued in favor of the same views. Mr. Mershon declared that the House of Correction of the Twenty and Potter argued in favor of the same views tion would be a pest spot in the Twenty-sixth ward. The county prison is so already, and the House of Correction will render the numance ten-

DECISION OF THE SUPREME COURT RELATIVE TO MERCANTILE TAX. -The following decision relative to the application of the mercantile tax law to manufacturers has been rendered. The case was argued in January, and a few days since Justice Read, of the Supreme Court, in equity, delivered an opinion, from which we make the following extract:-

The plaintiffs allege they are the proprietors of a tan-yard, where they manufacture hides into leather, and sell part so manufactured to shoemakers and others at their tan yard, and the rest they sell or consign for sale on commission to commission leather merchants in Philadelphia and elsewhere, and sell at their tan-yard their own manufacture exclusively, and do not keep any store or warehouse away from said tan-yard. They also allege that there are many other tanners under like circumstances who are also assessed, and the bill s formed so as to permit them to come in and become parties thereto. In form it is a class

They claim to be not liable to assessment, by virtue of a proviso of the 11th section of the act of 22d April, 1846 (P. Laws, p. 488), and the decision of the Supreme Court in the Commonwealth vs. Campbell, 9 Casey, 380, This case was decided prior to the acts of 1862 and 1866, which appear to make the Court in the first case, and the mercantile appraisers in the second case, which is the one before us, final arbiters, from whose decision there is no

appeal to any other tribunal. In Com. ex rel. Rawle vs. Supervisors of Colley Township, 5 Casey, 121, it was said if the Treasurer attempted to sell land for road taxes paid to the Supervisors, he would be restrained by injunction. In Hughes vs. Kline, 6 Casey, 227, it was held that the decision of the Court of Common Pleas, on an appeal from the County Commissioners, under he act of the 26th of April, 1850, is concluive upon the parties, both as to the assessnent of their real estate for the purpose of taxation, and to the regularity of the pro eedings of the County Commissioners; and it was also held that a bill for an injunction to restrain the collection of the tax could not be

In Miller vs. Gorman, 2 Wright, 309, an injunction was granted against a supervisor and collector where no opportunity had been given to work out the road taxes, which was a condition precedent to collection by legal

None of these cases authorize this application to a court of equity to restrain the collection of all taxes due to the State of one class which by the very tribunal to which the State has entrusted these assessments and collection, and from whose decision there is no appeal, have decided that these plaintiffs, and ill others in similar cases, have been right-

ully ascertained and assessed. This question has been so ably discussed and decided in Macklot vs. The City of Daven-port, 17 Iowa Reports, 379, by the Supreme Court of that State, that I think it unnecessary to repeat the reasons so forcibly given by that tribunal for denying in this case the interposition of a court of equity. CELEBRATION OF THE FOSTER HOME. - A most agreeable celebration was held yesterday after-noon at the new building of the Foster Home Association, Twenty-fourth and Poplar streets A large audience, composed mainly of ladies. filled the large corridors, and appeared much interested in the features of the entertainment. The building is of stone, spacious, tastefully constructed, well planned, well lighted, and has wide, cheerful halls on every floor. It is as yet but partially furnished, owing to the lack of means on the part of this laudable

institution. The exercises, yesterday, on the occasion

detailed the works for good which existed for it to embrace.

The occasion was of special interest to the lady managers, permitting them to behold that for which they have so long and ardently struggled, viz., the erection of a plain, comortable, and convenient house, in which they can probably shelter one hundred destitute children, instead of only sixty, as for-

The Home is in debt \$10,000, which must be paid before the 1st of June, or a mortgage to hat amount will have to be made upon the building. The aid of a generous public is

PUBLIC MERTINGS.—A public meeting was held last evening in Temperance Hall, Race street below Eighth, under the auspices of the Female Anti-slavery Society. The hall holds about 300 people, and was well filled.

Mrs. Lucretia Mott presided, Miss Sarah Pugh Secretary. The annual report congratulates the society that a bill had passed the Sena's permitting colored people to ride in passenger cars, and expressing a hope that the House would concur. The enlire report was made up of a review of the progress made by the negro in obtaining the common privileges of humanity during the past year. rivileges of humanity during the past year. The balance in the treasury is \$108, said the freasurer in her report.

The meeting then adjourned. There was a large meeting of the friends of Ireand last night at National Hall, at which resolutions were adopted requesting the President not to interfete in the present struggle of the Irish to tain their independence. Especial stress was laid by the various speakers upon the fact that the Atlantic cable is in English hands, and that no reliunce whatever is to be placed in the reports concerning the uprising of the people in the Eme-

There were present a large number of ladies, and the orstory was spirited and earnest. The ulmost confidence was expressed by the speakers that, with fair play on the part of the United States, Ireland could achieve her liberty. The propriety of following the example of the Alabama and Shenandoah was very pointedly hinted at, and the result of the meeting will be a special appeal to the President and to Congress to stand

side and see fair play.

A bandsome sum of money was last night added to the fund raised at the last meeting, of which the proceedings were duly published in our columns. The speakers last evening were the same able gentlemen who held forth on the former occasion.

FENIAN MASS MEETING .- Last evening the enians held a mass meeting at National Hall, n Market street, above Twelfth. The hall was well filled, the fair sex being well represented. The meeting was opened by the selection of Colonel M. Kirwan as President, and the following gentlemen as Vice-Presidents and Secretaries:

Vice-Presidents—E. W. C. Greene, John O'Byrne, Richard Vaux, John P. O'Neill, V. Crozier, George Northrop, Thomas Fitz-gerald, Peter McIntyre, E. P. Robinson, John Lavens, D. Giltnan, W. G. Turner, Thomas Horan, and Andrew Wynne, Esquires. Secretaries—Colonel J. P. Dunne, J. Bergin,

J. E. McDermott, William Donnelly, P. Murphy, J. McGittigan, P. McMenamin.

Colonel Kirwan, on taking the chair, stated that the object of the meeting was to request the authorities at Washington to grant the Irish such freedom of action, in the present struggle for national life, as was granted to the late Southern Confederacy by the English Government; also, to receive aid from those who have to give for the men at present struggling for national existence.

Speeches were made by Colonel T. P. Fitzgerald and John O'Byrne, after which a petition was circulated for signatures to be sent to Congress.

Pensions to Veterans of 1812.—The City Treasurer has received a list of the names o persons entitled to a pension under the act of Assembly providing for an annuity to the soldiers of the war of 1812. The money will be paid on and after Monday next.

NOTICE TO MARINERS.

A lighthouse man been erected on the Birff at the south side of the entrance of Port Natal, at an elevation of 22 feet above bigh water, a light from which will be exhibited on the 22d of January, 1867.

The building is an iron tower, in the form of a trustrum of a cone, 81 feet high, painted white, centre of light being 70 feet above the base, exhibiting a revolving while light of the second class (dioptric), attaining its greatest brilliancy once every minute.

It is visible in all directions from north (round by east and south) to 8.59 W., and can be seen from a ship's deck 24 miles in clear weather.

The above light is not visible from the Aliwai Shoal, which is 25 miles S. 23 W. from the lighthouse, vessels should not, therefore, when coming from the southward and westward approach the shore nearer than four miles, or shoal their water under 40 fathoms, using the lead freely until they make the light well out from the deck, when they may stand in until it bears N. 59 E, which bearing will keep them outside all known danger, notil they are abreast of the Umlazi river (about 9% miles below the lighthouse, when they must keep it more to the northward, as the land trends more to the eastward giving the shore a good berth of a mile, and when the light bears about W. NW., they can hauf in to the northward for the anchorage, anchoring in 8% to 10 fathom, with the lighthouse bearing SW. to SW. ½ S., distant one mile, W. E. ARC'HDEACON, Master R. AMERICAN LEAD PENCIL COMPANY. NEW YORK,

Factory, Hudson City, N. J. WHOLESALE SALESROOM, No. 34 JOHN Street, N. Y. All styles and grades of Lead Pencils of superior quality are manufactured, and offered at fair terms to the Trade. The public are invited to give the AMERI-

CAN LEAD PENCIL the preference. The Pencils are to be had of all the principal Stationers and Notion Dealers. ASK FOR THE "AMERICAN LEAD PENCIL." [TESTIMONIAL.] SHEFFIELD SCIENTIFIC SCHOOL. ENGINEER DEPARTMENT, YALE COLLEGE, November 16, 1866, }

TALE COLLEGE, November 16, 1866.

I have always recommended the Faber polygrade lead pencils as the only pencils fitted for both ornamental and mathematical drawing; but after a thorough trial of the American Polygrade Jean Pencils manufactured by the AMERICAN LEAD PENCIL CO., N. Y., I find them superior to any pencil in use, even to the Faber or the old English Cumberland lead pencil, being a superior pencil for sketching, ornamental and mechanical drawing, and all the ordinary uses of a lead pencil.

These pencils are very finely graded and have a very smooth lead: even the softest pencils hold the point well; they are all that can be desired in a pencil, it gives me great pleasure to be able to assure Americans that they will no longer be compelled to depend upon Germany or any other foreign market for pencils.
