MILITARY,-An adjourned meeting of the representatives of the various military organi zations of the city took place on Saturday even ing, at the Armory of the Gray keserves, Broad street, near Race. Notwithstanding the violent storm, there was a good attendance of officers, among whom we noticed General Lyle and Colonels Davis and McMinn, of the National Guards; Colonel McMichael, Adjutant Latta, Quartermaster Rolin, Captains Ciark and Lou denslager, and Lieutenauts Ide, Guler, Hast-ings, and Klawder of the Reserves; Captain Fairman Rogers and Lieutenaut M. E. Rogers, City Troop; and Lieutenant Baugh, of the Washington Grays. Colonel Howard, recently Assistant Adjutant-General of the Army of the Cumberland, was among those present. This officer served with great credit in the West on General Thomas' Staff, having been promoted from the Anderson Cavalry, and atterwards twice breveted. Some of the orators who were

at the last meeting were absent from this one.
Colouel McMichael was called to the chair,
but declined in layor of Captain Rogers, of the Troop. General Lyle not having arrived until after the meeting was organized, Adjutant Latta acted as Secretary. The report of the committee to draft amendments and a supplement to the existing law was received, and the committee discharged. The report was then acted upon by sections, and, with a few important changes, was adopted unanimously, and a resolution passed directing the Secretary to send a copy of the proceedings to Harrisburg It was also urged that the attention of the Legislature be directed to this subject, and the passage of the supplement urged upon them as necessary for the prosperity of the city militia. The meeting was very harmonious, and will lead to good results. This movement was started by the Gray Reserves, who are the only regularly organized military body which we new have but who invited the conversion of now have, but who invited the co-operation of the other commands, in order that some legisla-tion might be effected which would be of

equal benefit to all. We understand from their officers that they desire no undue precedence, but are only anxious that the militia may be increased in numbers and efficiency, and that we may have a force here which shall be creditable to the city. One of the proposed sections especially provides that the City Troop, Washington Grays, and National Guards may, if they so desire, reorganize with all their old rights and mixtures. privileges. They have been long and honorably identified with the militia of this city, and during the war did gallant and effective service in the field. An objectionable feature of the old law is repealed by allowing company officers to discharge men, subject to the approval of battalion or squadron commanders.

A fine of four dollars will be imposed on those who do not join a company, and the fund thus raised will be distributed under certain restrictions, and not to exceed \$20 to a man. Thirty-two is fixed as the minimum or companies. Militiamen are to be exempted from jury duty.

LEFT-HAND PERMANSHIP BY UNION SOLDIERS .-William Hand Bourne, editor of the Soldiers Friend, an interesting weekly paper published in New York, and devoted to the interests of the Union soldiers of the late war, has offered five hundred dollars, in ten premiums of fifty dollars each, for the best specimen of left-hand penmanship by soldiers or sailors of the Union who lost their right arms by amputation or disability in the war. A very attractive feature of these premiums is that they are to be severally awarded each by one of the following eminent officers:-General Grant, Admiral Farragut, and Generals Sherman, Sheridan, Howard, Meade, Hancock, Hooker, Geary, and Logan. An autograph letter of the officer making the award will accompany the premium in each instance. The object of the premiums is to encourage that class of soldiers who lost their right arms in the service to acquire the art of penmanship with the left hand so as to render themselves canable of supporting themselves as clerks, book-keepers, etc. Mr. Bourne's efforts in behalf of this most worthy class of soldiers are highly commended by several of the officers above

LOCOMOTIVES IN THE CITY .- It now looks as if the legislative committee appointed to consider the propriety of prohibiting the running of locomotives in the city proper would be unable to introduce their report during the current session. The committee met again on Saturday afternoon, Mr. Hood in the chair. The sitting was held in order to hear statements relative to the running of the Reading Ratiroad steam trains through the densely populated streets of the northern part of the city to Richmond. Mr. Hood stated that he had received a memorial, cumerously signed by parties fearing for the lives of their children, and for themselves, in consequence of the passage of these steam trains. It was for this special purpose, Mr. Hood said, that he had called the meeting. The day, however, was inclement, and not a single witness appeared. The committee, it is said, propose to report a bill prohibiting the company from coming further down than Girard avenue. Should this be enforced, the splendid depot at Broad and Callowhili streets will be much less valuable than now.

ROBBED IN A TAVERN .- John Lill, Samuel Grace, Samuel Price, and Samuel Kendrick were arrested about 2 o'clock yesterday morning, by Officers Carney, Baker, and Pearson, of the Third District Police, upon the charge of robbery. It appears that a respectable indi-yidual, while laboring under the influence of liquor, wandered into house No. 120 Dock street, kept by a man named Dougherty. The accused were in the place at the time. They got up a sham fight, and gave the new-comer to understand that they intended to punish him. Kendrick finally said that he did not think it fair for all of them to fight one man, and said he was going to stand by the stranger. A rush was then made, and the stranger was thrown to the floor, and on arising, found that he had been robbed of his pocket-book, containing \$160. He then called on the potice to arrest the abovenamed parties. They were taken before Alderman Beitler, and were held in \$1000 bail each to answer the charge of larceny.

FIRE MATTERS .- The Hand-in-Hand Engine Company have ordered a new hose carriage, which is to be completed in a short time.

FIRE .- The drying-room of Andrew Brophy' factory, Coral street, above Frankford road took fire at a quarter to 12 o'clock yesterday afternoon. It was damaged to the extent of about \$300. There is no insurance upon the stock, but the building is insured in the Fire

PAINFUL ACCIDENT TO A CHILD,-William Mc Gonigal, aged four years, on Saturday afternoon fell from a hav loft in the Fitteenth Ward, and broke his leg. He was taken to St. Joseph's Hospital. He bore his suffering like a veteran

A POLICE OFFICER DECEASED .- Charles Fox. who has been acting for some time as Turnkey at the Fifth District Station House, died yesterday morning.

THE GREAT SNOW STORM OF SATURDAY AND SUNDAY.—About 7 o'clock on Saturday morning snow began to fall, and continued to do so until 10 o'clock at night, when it abated. The wind was high from the northeast, and it was almost impossible to make much headway facing the storm. The steam cars on all the lines were behind time; in their arrival in the city. The street cars made their trips as usual until about 10 o'clock in the morning, when four horse-were put on instead of two. By noon this addi-tional power had failed to make much head way.

Want 143

At an early hour in the evening most of the nes had found it so difficult to make headway that they ceased running entirely. The Fifth and Sixth, however, was an exception, and with six horses, to the great accommodation of the public, continued till a late hour to make

regular trips, At intervals throughout the night slight falls of rain occurred, until between 2 and 3 o'clock yesterday morning. The wind veered to the southwest, became coller, and for several hours after daybreak the white flakes came down thick and fast. It was a beautiful fail of snow. The wind fulled for a time, and the flakes came down very leader.

came down vertically.
Yesterday the Passenger Railroad Companies had their snow-ploughs out removing the ob-structions, and in places where the sun could strike the track, the snow disappeared rapidly. During the most violent part of the snowtorm on Saturday afternoon myriads of crows showed an evident desire to effect a lodgment among the leafless si ow-clad trees of Washington and Independence Squares. They made several immense circular movements, preparaory to swooping down upon the trees, but busily left in an easterly direction. This morning the snow was packed hard upon the railroad tracks, and until the sun melted it the cars had a hard time to keep on the track.

CONCLUSION OF THE WILLIAMS HOMICIDE CASE, AND THE VERDICT. - On Saturday afternoon, after Worrell's address, the District Altorney made a very able address in behalt of the Com monwealth.

His Henor Judge Ludlow then gave the charge of the Court. He spoke of the respon-sibility that rested upon the Court and Jury. and the two distinct functions of each. Then of the different grades of the crime of murder, and what elements were necessary; of the different kinds of evidence, direct and circum-

As this case was founded upon circumstantial evidence, he spoke principally of that kind.
"There are certain rules by which we may test
the accuracy and reliability of circumstantial
evidence. And, first, each lact in the chain of vidence ought to be distinctly proved by distinct, independent, and competent testimony, Second. Each should be consistent with the other and with the main tacts sought to be

established. Third, The inferences to be drawn should be natural and reasonable, and to a moral certainty certain: to establish a probability is not suffi cient; the result of our investigation must be reasonable and morally certain. Fourth, The hypothesis or theory of guilt must be such as to exclude every reasonable and fair hypothesis or

theory of innecence.
The Judgethen torcibly and very ably charged the jury upon the subject of a doubt, explaining what the law recognized as such, and saying that if that existed the controverey was settled

in favor of the prisoner.
At 3½ o'clock the case was given to the jury, and at 54 o'clock they rendered a verdict of "guilty of murder in the first degree."

STATISTICS-THE GAS WORKS,-During 1866 there were 10,625 applications for gas; 8174 removals and discontinuances; 33,226 private, and 199 street lights added, making a total of 650,996 private lights, and 7036 in the streets. During the same period 53,945 feet of mains were laid in the streets, making a grand total of 2,566,612 feet, or over 486 miles, now belonging 2,306,612 leet, or over 486 miles, now belonging to the Trust. The following shows the size of the pipe in use:—6592 feet of 1½-inch; 237,162 do., 2-inch; 1,126,164 do., 3-inch; 766,882 do., 4-inch; 223,013 do., 6-inch; 99,838 do., 8-inch; 20,103 do., 10-inch; 43,117 do., 12-inch; 24,607 do., 16-inch; 18 do., 18-inch; and 24,806 do., 20-inch. The 53,945 feet hild in 1866 cost the Trust \$72,562 00, of which amount \$15,178 45 was for labor and \$42.824 87 for main pipe.

DECOGED AND ROBBED .- On Saturday evening, a colored man named John Harris, belonging to Bucks county, was enticed into a den at Sixin and Lombard streets, kept by Perry Phillips, also colored, and while there he avers that he was drugged and then robbed of his pocket-book, containing \$115. He related the occurrence to Officer Leadbeater, of the Third District Police, who went into the place and ar rested the proprietor and two colored women, who gave the names of Susan Branson and Lydia Phillips. They were brought up before Alderman Beitler yesterday morning, and were committed in default of \$800 bail each to answer at court the charge of larceny.

Business at the Hay Market .- During the week 432 loads of hay and 68 of straw were worshed and sold at the Farmers' Hay Market, North Seventh street. Notwithstanding the unfavorable weather, the supply was an average Best quality timothy hay sold at \$1.85@2 per 100 lbs.; mixed and interior at \$1.70@1.75. Straw was more abundant, and sold at \$1.65@ 1.70 per 100 lbs.
