hospitals, fire companies' houses, free libraries, ceme-teries, etc. Mr. Smith objected to the exemption of cometeries, which he said were as much matters of speculation to privare individuals as oll or goid mining companies. He cited the case of several of our cometeries, by which private individuals had largely enriched them-selves, and considered that these individuals could as well afford to pay taxes upon this as upon any other portion of their possessions. The bill was adopted. A resolution was offered by Mr. Pollock asking that the Committee on Highways shall report an ordi-nance providing for the paying of Passynuk road from Broad street to Point Breezs Gas Works. This, after an explanatory speech by Mr. Pollock, was adopted.

This, after an explanatory speech by Mr. Pollock, was adopted. The ordinance to sell certain real estate in this city belonging to the corporation, and or which there is no further public use, was read a third time and passed. A resolution from Common Council, to appoint an inspector of Gas, after remarks from various gentie-men upon the miserable qua ity of the Gas made at the Gas Works, was postponed for one week. ANOTHER OPERATION ON "BURGLAR-PROOP" SAFES .- The drug store of Messrs. George D. Wetherill & Co., No. 56 N. Front street, was entered by thieves on Wednesday night. They effected an entrance through a window in the rear. The obstacles that were overcome to enable the rogues to get within the walls show that bars and bolts are no longer to be relied upon. The shutters forced are made of iron, and they were fastened with an iron bar, which extends more than halfway across each. Besides this, there was a fastening at the bottom of the shutter. From the marks upon the iron, it is evident that the thieves first attempted to work the shutters bodily off the hinges, but failing in this, they applied force to the fastenings with better success, and considerable of it must have been used. No person looking at the shutters, with their fastenngs, could believe that such implements as store robbers usually operate with could be so used as to pry them open. Once in the store, the thieves set to work to get inside the fireproof vault, and this they effected in precisely the same manner as was done a few weeks before at Nos. 130, 132, and 134 S. Front street. The brick work was broken from around the bolt and the lock, and the bolt driven back. Only a few minutes must have been required to open the door. . In the vault they found a small fire-proof safe, and by means of chisels and sledges they appeared to have easily worked their way to the inside of it. Here they got about a hundred dollars in greenbacks, which was all of value carried off. A thousand dollar United States bond, in an envelope, they overlooked, as well as some other valuable papers.

EXCITING CHASE AND ARREST OF A BURGLAR. -A notorious safe-blower and burglar, known as "Jew Harry," was arrested yesterday after-noon by Chief Detective Lamon and Detective

Joshua Taggart, at Walnut Street Wharf, upon suspicion of his having been concerned in a number of safe robberies that have occurred in the city within the past month. It appears that the prisoner has been stopping at a tavern in Front street, below Walnut. Yesterday morning information was received at the detective office to the effect that the prisoner was going to leave for New York in the afternoon train. Chief Lamon and Detectives Joshua Taggart and George H. Smith proceeded to the wharf, and soon after they arrived "Jew Harry" made his appearance, carrying a large valise. The officers imme diately took him into custody, at the same time seizing his valise. While going up Walnut street with their prisoner, he suddenly slipped out of his overcoat, leaving it in the hands of the officers, and darted down Front street. Chief Lamon and Mr. Taggart gave pursuit, and after an exciting chase through a tavern, several small streets and alleys, caught up with the fugitive at the foot about street. He was then taken into custody and removed to the Central Station. where he was locked up to await a hearing. The valise was found to contain a fine set of safe-blowing tools, burglarious implements, and skeleton keys. BURNING OF & WOOLLEN MILL .- The alarm of fire last evening, at half-past nine o'clock, was caused by the partial destruction of Deary's woollen mill, at Twenty-second and Wood streets. The building is a large four-story brick, and the second, third, and fourth stories were occupied by Mr. Deary, who had a large stock of wool on hand, as well as valuable machinery, including three Jacquard looms. The flames were confined to the upper part of the building, and the third and fourth stories, with the roof, were destroyed. James Ditty, who occupied the first floor as a dyeroom, suffered considerable damage from water.

AGENTS WANTED FOR

GENERAL L. C. BAKER'S ;

History of the Secret Service. The Most Exciting and Interesting Book Ever Pub-

sa's iner man lished! -----

This work embraces an anthenile and official account of the bitberto suppressed facts and information obtained by Gene al Baker, during his five years' service as Chief of the National Detective Police. It was announced a year ago, but owing to the attempts of the Government to suppress it. Its publication was delayed. It will now be issued, unaltered and unarridged, under the supervision of General Baker. The little information and magre accounts of his operations derived from the newspapers of the day, bave only awakened a more intense desire in the minus of the reading community, to learn still more of the mysteries in elevine hidden by the curtain of official surveillar.

Lays have their inward recesses to the inspection and criticism of the world. The morals of the National Capital are thoroughly vestilated, and there are some strange revelations concerning heads of departments, members of Coo-rest of the source of the source of the strange of the provide the source of the source of the source of the For thritiling interest these marvelious narratives of General Baker eclipse the famous experiences of fOUCHE and VIDOCQ, and posses the rare marvel of the source of the work.
