DR. VI. H. SCHENCK'S SEAWEED TONIC, FOR THE CURE OF DYS-

This remedy is composed of a compound preparation of a common weed, growing along the seashore, and is a certain and infallible remedy for the cure of Dyspepsia.

Nearly every person is more or less afflicted with Dyspepsia, or some of the diseases connected with it; and it is with feelings of pleasure that Dr. Schenck can announce to all such the discovery of the virtues of the Sea Weed. which is just the remedy for their ailments. Dyspepsia and the many diseases arising from at are caused by the deficient secretion of the gastric juices, and weakness of the powers of the stomach. The effect of the Seaweed Tonic Is felt soon after it is taken, as it supplies at once the principles of the deficient gastric juice, and the food is digested naturally. In fact, the Tonic so nearly resembles the natural gastric juice, that chemists even find difficulty in distinguishing them. It gives tone and strengthens the stomach, thus enabling it to secrete the proper quantity and quality of gastric juice, and Dyspepsia and all its diseases soon disappear.

It is a well-known fact that none suffer like the Dyspeptic; for in addition to the Dyspepsia, there is often either Headache, Sour and Sick Stomach, Pain in the Side, Palpita tions of the Heart, Chills and Fever, Gravel. Disease of the Kidneys, Nervous Weakness and Tremors, General Debility, Faintness Loss of Appetite, Bad Taste, Fever Stoppages in Females, all or each of them arising from a disordered state of the Stomach; and here is a remedy that will cure all this train of disease.

Now, dyspeptic, will you avail yourself of this remedy, for so trifling a cost, or will you still suffer on? The choice is with you to make. The Seaweed Tonic is a pleasant bitters, giving a person a good appetite and good digestion; is put up in quart bottles, and always agrees with the stomach. Whenever the bowels are costive, the tongue furred, or the complexion sallow, a few of Schenek's Mandrake Pills are to be used.

SCHENCK'S MANDRAKE PILLS

Will be found to possess those qualities necessary to the total eradication of all bilious attacks, prompt to start the secretions of the liver, and give a healthy tone to the entire system. Indeed, it is no ordinary discovery in Medical Science to have invented a remedy for these stubborn complaints, which develope all the results produced by a heretofore free use of calomel-a mineral justly dreaded by mankind, and acknowledged to be destructive in the extreme to the human system. That the properties of certain vegetables comprise all the virtues of calomel, without its injurious tendencies, is now an admitted fact, rendered indisputable by scientific researches; and those who use the Mandrake Pills will be fully satisfied that the best medicines are those provided by nature in the common herbs and roots of the fields.

The Pills open the bowels and correct all bilious derangements, without salivation, or any of the injurious effects of calomel or other poisons. The secretion of bile is promoted by these Pills, as will be seen by the altered color of the stools, and disappearing of the sallow complexion and cleansing of the tongue.

It has long been thought by the profession, that calomel or some other form of mercury was the only medicine that would restore the deranged or deprived secretions of the liver. But such is the poisonous effect of any form of mercury, in producing salivation, caries of bones, and a premature decay, that the profession has long ago endeavored to find some other preparation that would act as well upon the liver, without any of the dreaded results of mercury.

In some of the Prize Essays in Europe it was remarked that the discoverer of this remedy would be entitled to the lasting gratitude of the entire human race.

This preparation Dr. J. H. Schenck, of Phi ladelphia, has certainly discovered in the Vegetable Kingdom, and its active principle is contained in the Mandrake Pills. It is as equally efficacious in producing a healthy action of the liver as any of the forms of mercury, and entirely free from any dangerous or injurious results.

Dr. Schenck is professionally at his principal office, Philadelphia, every Saturday, where all letters for advice must be addressed.

He is also professionally at No. 32 Bond street, New York, every Tuesday, and Mo. 35 Hanover street, Boston, every Wednesday. He gives advice free, but for every examination with his Respirometer the price is 85. Office hours at each city from 9 A. M. to 3 P. M.

Price of the Pulmonic Syrup and Seaweed Tonic each \$1.50 per bottle, or \$7.50 per half dozen. Mandrake Pills, 25 cents a box. A full supply of Dr. Schenck's medicines for sale at all times, at his rooms.

POST OFFICE APPOINTMENT.—Colonel Henry H. Bingham, the new radical Postmaster of this city, whose nomination to that responsible position has successfully passed the flery ordeal of the Senate, has become firmly settled in his office, an event for which the people of Philadelphia have good cause to be sincerely thankful. It is some consolation for a city which has seen so much tribulation in this respect of late, to know that at least one of the Federal offices within its limits is in a settled condition, with a responsible and efficient head. The promotion of Colonel Bingham to the head of the establishment made vacant the position of Chief Clerk, which he has filled for some time past. To this vacancy he has promoted Mr. Lewis G. Wunder who has been an attache of the office for the past twenty years. This appointment ensures an able and intelligent administration of the affairs of our postal department in all its intri-

The Friendship Division has been organized for a period of twenty years, during all of which time it has been in healthy and active operation. The regular meetings of the Division have been held on Tuesday evening of each week, during the whole period of its existence, at the southwest corner of Twelith and Flibert at the southwest corner of Twelith and Filbert streets, and now we learn that they have just purchased the property at an outlay of \$10,000. This evidence of prosperity is truly gratifying.

VIOLENT ASSAULT ON AN OFFICER .- Godfrey Violent Assault on an Officer.—Godfrey Birkinstock, an officer, was yesterday afternoon taking a prisoner to the Police Station, when he was violently assaulted by James Locust, who attempted to rescue the prisoner, at the corner of Frankford road and Girard avenue. The officer was thrown down, kicked, pounded, and otherwise maltreated, by a crowd coming to the help of Locust, Other officers coming up Birkingstock was rescued, and Locust taken prisoner by the help of a bullet through one of his arms, but the first prisoner escaped during the fraces. Locust, after a hearing before Alderman Toland this morning, was committed in default of \$2000 ball for a further hearing.

He was evidently well prepared for full and com-plete operations in the residence of Mr.

Soon after an alarm of fire was given in the neighborhood, and while Officer Stimpson was attending to the duties incumbent at such a scene, he espied one Charles Dickey wearing one pair of the identical shoes lost. Dickey was immediately arrested, and Alderman Ramsdell held him to appear at Court in default of \$1000 bail. WANTED SHORS TO WEAR .- Two pair of shoes

STEALING MEAT .- An employe in one of the STEALING MEAT.—An employe in one of the stores at Third and Chesnut, named Nathan Alexander, has of late and at different times abstracted certain articles, such as different kinds of meats, etc., from his employer's stock, amounting to two hundred dollars. Sharp watch had been kept upon him, and on Saturday he was arrested by Officer Rawlings, taken before Alderman Beitler, and held to appear in the sum of \$1000 bail.

PITCHING PRINIES .- This mode of gambling, prevalent with many degenerate youngsters, received somewhat of a quietus in and about Independence Square on Saturday last. PASSING COUNTERFEIT MONEY .- Saturday PASSING COUNTERPEIT MONEY.—Saturday evening a man, giving his name as Lewis Yoder, and hailing from Shamokin, Pa., was arrested in the Girard Avenue Market, between Fifth and Sixth, for passing \$10 counterfeit bilis of the First National Bank of Rochester. Suspicion was first aroused by his asking persons to change these large bills, as he desired smaller money. As his desire to reduce his money to lesser amounts increased, and his anxiety to get rid of his large bilis became more evident, an officer examined into the affair, and believing him to be a "professional." arrested him. He was held for a hearing by the United States Commissioner.

THE FOLLOWING ARE THE STATE ments offered at the meeting of persons interested in LUMBER, held at the Exchange to-day, and suppressed by resolution of the men mostly engaged in selling Lumber:—

suppressed by resolution of the men mostly engaged in selling Lumber:—

PHILADELPHIA, April 1, 1867.

To the Chairman of the Meeting to take into consideration the Amendment to the law regulating the duties of the Lumber Inspector.

Sir:—We respectfully ask you to have road the following facts, which will explain the object of the amendment offered to the act of April 15, 1835.

Very respectfully.

MANY BUYERS.

The following are the propositions contained in the amendment to the act of April 15, 1835, and to which you are most respectfully referred. As the law now stands, there is no protection to buyer or seller, as interested parties appoint their own inspectors:—

There are no additional fees asked for, only that the inspection shall be under the control of the property appointed officer and his swora deputies, by which—

hich—
The buyer is benefited and protected.
The seller is benefited and protected.
The community are benefited and protected.
The importers and exporters are benefited and

The importers and exporters are benefited and protected.

The trade of the city is benefited, as it is well known lumber men even in our own State refuse to send lumber to this city in consequence of the loose and unfair manner of inspection.

Other citles, Baltimore, Boston, New York, etc., have their morn officers, and therefore all parties interested are satisfied with the work performed, but if not, they have their redress by looking to the inspector appointed by the Governor.

The law as it now stands is a reflection on the intelligence of the law-makers of our State. If the law as it new stands is right then we might as well do away with Flour Inspectors, Highway and other departments, and permit each and every interested party appoint whom he may deem best to perform the duties he may have to assign him. Laws are made for protection to all parties, and all portions of the communitasmuch as those who are not interested to-day may be to-morrow. The present lumber inspection law does not give protection to any one, but opens the door to the grossest frauds without remedy, as the work is performed, as above mentioned, by irresponsible parties.
