ANOTHER ADDRESS BY DR. SCHENCK.

We copy the following from the Boston Journal of January 17. Philadelphians,

Dr. Schenck was at his elegant rooms on Hanover street yesterday, on the occasion of his weekly visit. As usual, there was a great rush of patients, coming from almost every portion of New England. The Doctor, who is wise and shrewd, saw at a glance what could and what could not be done in the few remaining hours of the day, and entering the reception-rooms, proceeded to address those present, giving, as will be seen, some very excellent counsel. The Doctor deals in common sense, makes plain statements, and knows what he says. He spoke as follows:-

Ladies and Gentlemen:-I see there are more here than I can properly attend to, and so must try and manage it to get a number of you at a time. Many of you only want a little advice. You have seen me before. Some of you, I suppose, have come a long distance, and are apparently too feeble to wait your turn. Those that wish a thorough examination with the Respirometer I will take into my private room as soon as possible. My charges are five dollars for an examination. I can listen to your lungs and tell pretty well their condition, but if you want to know their exact state-whether it is Bronchial Tuberculous, Pleuritic, or Pulmonary Consumption, and whether you are curable or not-you must be examined with the Respirometer. It is the only proper way of auscultating. Consumption can be cured: lungs deeply diseased can be healed up if the system is got into a healthy, healing condition. The course pursued by the majority of physicians is all wrong. They never cure. Their Cod Liver Oil and Whisky only ruin the stomach. I frequently, in riding in the cars, get seated by consumptives. They have all their traps for drinking with them, and as soon as they get into a spell of coughing they take a drink of whisky. And so they go on, and many drink a quart a day Take a well man and let him drink in this way, and he will soon lose his appetite. My first step is to cleanse the stomach and liver, and then to create an appetite. Many of you have a cough, night sweats, creeping chills, and you all want to have them stopped. You think you would be so much better. Now I stop nothing. The cough is to relieve the lungs. If your lungs are diseased, the first and only thing to be done is to get the strength, and the only way to do that is to cleanse the stomach and liver. If both lungs are not too badly affected, with my Mandrake Pills, Seaweed Tonic, and Pulmonic Syrup I can frequently effect the most wonderful cures of Consumption. A cure frequently requires gentle purging for some length of time, to get the stomach and liver to act naturally. As soon as the mucus and slime begin to move, the appetite begins to come up. The Seaweed Tonic being an alkali, preserves the food in the stomach until it is digested, preventing it from souring. Now, in almost all cases of lung disease, the action of the system is so slow that food lies in the stomach and sours. Blood is made of it after it is spoiled; and this is the way our blood gets thick and bad. Canker, Sore Throat, and Catarrh proceed from this sour stomach. Burning of the throat with Caustic and gargles affords only temporary relief. It should be treated the same as when the tongue is coated, or sick headache. The cause is the same. My Pulmonic Syrup goes right to blood when the stomach is kept right with the Pills and Tonic. Now I wish you to understand that I have no special remedies for Chills or Night Sweats. As soon as the lungs begin to heal these will stop; but if opium, quinine, and many other things which are used to stop them thus go right into the stomach and get it so deranged, digestion stops. This is the very thing I am trying to restore. If I cannot get patients hungry, and get food to digest easily, I cannot cure them. Get up a good appetite, eat good, rich food, fat meat, gravy-in fact, nearly everything the appetite craves-and the lungs will soon begin to heal. No matter whether the sore is inside or outside, if the system is healthy it will heal up. You can hardly stop it. It is nature to heal. You may notice persons that have Scrofula, or any old chronic running ulcers; they are all of a feeble or bilious condition, their digestion is poor, and they have not a healthy eirculation of blood. Some three or four years ago a lady, Mrs. Bartholomew, came to my room, No. 32 Bond street, New York; she had a tumor, with two running ulcers on her liver, which had been running for fourteen years; and they kept getting worse. She was costive skin yellow, very stupid and dull, liver and stomach torpid, and no circulation. In three months I ran the disease all out of her. The ulcers healed, and she is now a bright. healthy woman. Now there is one very important matter to be attended to in curing Consumption, and that is, to prevent taking cold. Your physicians tell you to go out every pleasant day. This, in my opinion, is a great mistake. Persons in health go ont and take colds. When a lung begins to heal the slightest change will inflame it, and then they are thrown back. When I can persuade patients to keep to their rooms I am almost sure of success. When they are able they can exercise about the rooms to get the blood in circulation. The directions which accompany my medicines are so explicit that any one can take them all without ever seeing me. There is not a day but what I hear of some that have been cured that I never saw. Take the medicine, and guard against taking cold. If the lungs are not too far gone, the stomach

on something to ease the cough, or to stop night sweats and creeping chills, for these are only temporary. Some persons may think when I speak of taking cold, that my medicines may open the pores and lay them more liable; but it is right the reverse of this; for when the stomach is cleansed persons are not so liable to take cold as when the system is locked up. Frequently, when people take a cold, if they would swallow a dose of Mandrake Pills it would work it off; but instead of this they take something to check it, which drives it back to the lungs, leaving the seeds for tubercles, or the next slight cold, and inflammation of the lungs. I have talked much longer than I tntended to, but when I start I get so anxious to convince people how easy it is to keep well and feel fit for business, that I do not know where to stop. When your stomach is out of order your are sick all over, and you keep that right, you cannot help but be healthy and fleshy. Look at me. Once I was in the last stage of Consumption, as tall as I am now, and I weighed less than one hundred pounds. My fathers, mother, brothers, and sister all died of Consumption-a family complaint-and yet here I now am, weighing two hundred and thirty pounds, cured by the same medicines I offer to you. I do not wish to be understood that my medicines cure all. A great many die that take them. They commence too late, and their lungs are too far gone. Their stomach and liver are too much congested, and, I am sorry to say, frequently by the use of Bourbon Whisky, to get them into action. The Mandrake Pills contain no Calomel or Mercury: they are perfectly harmless, and carry off the bile better than Blue Pill or any other purgative ever concected.

In 1866 the freight traffic had increased to 15,503,626 tons, or 65½ per cent., yielding \$351,-18108, or an increase in receipts of 47½ per cent.

The gross receipts during the year amounted to \$531,136-08. From this must be deducted to \$531,136-08. From this must be deducted \$51,541-30, for rent and use of connecting rail-roads, leaving the earnings of the road at \$486,594-78, which is equal to \$7,486-07 for each mile of track. During the year \$72,694.93 were expended in new work and extensions to accommodate the increase in the tonrage of the road. The report in the passenger unts for the diminution in the passenger traffic in these words:-

"The diminution in the passenger business is, in a siderable degree, attributable not only to the failur the Pennsylvania Railroad Company to comply we the contract of the first of April, 1885, made we the Catawissa Railroad Cempany, but also the entire withdrawal of all interest by them in business common to us both, and existing before a contract. "It is to be hoped," continues the report, "that the nowise and unprofitable discriminating policy practised against the Catawissa Railroad by its immediate Western connections, the Philadelphia and Eric and Elmira and Williamsport Railroads, may be soon so changed as to yield hereafter profits to all literested, and thus surely avoid the losses annually admitted to both of these railroads."

The report contains extracts of a favorable character from the recent report of the Atlantic and Great Western Railroad, showing the rela-tions of that concern with the other railroads of this State and of New Jersey, in connec-tion with the Catawissa road.

The report states that, owing to arrangements The report states that, owing to arrangements lately concluded with the Philadelphia and Reading Railroad, a still further increase in the business of the road during the current year is confidently anticipated. The net earnings of the year have been, by advice of coursel, placed to the credit of the rontal account due by the lesses, the Atlantic and Great Western Railroad Company. As soon as this can be properly adjusted, it is proposed to make a division among the preferred stockholders. a division among the preferred stockholders, on account of the interest due them. This, it is expected, will take place within a month's time. The meeting was very harmonious, and everything passed off to the satisfaction of all

Assaulting an Oppicer .- Last evening John Tray had imbibed just enough to make him very disorderly. The corner of Seventeenth and Coates was his base of operations, where he became exceedingly annoying to passers-by. Officer Bailey undertook to arrest him, when Tracy's companions pitched into the officer Then acitizen named Sitsenderfer coming to the aid of the officer, pitched into the rowdies, and between them all an exciting tus le was kept up for about ten minutes. The officer and citi-zen came off conquerors finally, the three companions retreating ingloriously Tracy, who in the souffle was energetic in trying to choke Officer Balley, was marched to the Station House, and this morning was committed by Alderman Hutchinson in default of \$800 bail.

AN ATTEMPT TO KILL BY A PUGNACIOUS TALLAN YOUTH.—Francis Burleigh, an Italian youth of ten years, is a fiddler, and has often caused great annoyance to the older persons riding in our street cars, by fiddling a noted Irish lyric, i. e. "Pat Malloy," which of itself was gratifying to the smaller passengers. Francis last evening met a peer in his profe sion, and a discussion arose as to who could discourse the sweetest strains. Their opinions differed, a scuffle ensued, and Francis drew a pocket-knife and cut the other boy very severely in several places. A citizen arrested the former, and Alderman Jones committed him to answer the charge of assault with in-

LARCENY OF A PTECE OF VELVET .- S. Rosenstein, aged thirty, pretended, in passing through the dry goods stores in the vicinity of Eighth and Filbert streets, to be desirous of purchasing good and costly fabrics, and wished to be shown the finest specimens. A costly piece of velvet was given him for his examination and close inspection, white the clerk attended to some other duty. The clerk returned, but Rosen-stein had left, and with him the piece of velvet, valued at \$130. Officer Hess was immediately informed, started in pursuit, and arrested the thief at Eighth and Noble streets. He was taken before Alderman Beitler, and committed in default of \$800 bail.

Malicious Mischief.-A colored man was peaceably riding on horseback last evening, in the vicinity of Ninth and Filbert streets, and enjoying the pleasurable exercise, when by some mishap he passed an envious darkey named Francis Luss. His joy was somewhat disturbed by being immediately saluted with stones, sticks, etc., hurled at his head by this envious person, and every time he or the horse har rode were struck it was eccompanied with he rode were struck it was accompanied with, "Git, jis now, off dat hoss, dah!" This offending darkey was arrested by Officer Dehaven, and committed by Alderman Beitler in default of

A GENERAL THIEF .- Charles Mootheart has been long known, so it is alleged, as an old offender, generally engaged in taking things not belonging to him. Last night he was arrested in Front street, having in his possession six in Front street, having in his possession six latge-sized engravings, which he had obtained in a dishonest manner in Third street, below Washington; also, a push-cart, which he was propeling carelessly along, the property of a gentlemen on Vine street. Alderman Tittermary committed Mootheart for a further heaving.

STRIKINGLY AMUSING .- It is said that Joseph STRIKINGLY AMUSING.—It is said that Joseph O'Nell has but two pleasures—that of frequenting the rum-shop and imbibling freely, and that of beating his wife. To these two pleasures he is habitually addicted. And having passed through the first one at a little groggery last night, he returned to his home in Bodine street, near Columbia, and fell to beating, bruising, and otherwise maltreating his spouse, until he was arrested. Alderman Cloud committed him to answer in default of bail.

STEALING COTTON .- A common practice along STEALING COTTON.—A common practice along our river front and on the wharves where goods are piled up preparatory to shipping, is that of persons cutting through the coverings of such goods, and abstracting slyly small amounts, which altogether never fall of making a profitable sale. Mary Gillim was arrested last evening for taking small portions of cotton from torn bales on the wharf at Front and Market streets. Alderman Hurley committed Mary to prison for the offense.

STEALING A TRUNK .- Joseph Heisler, aged STEALING A TRUNK.—Joseph Heisler, aged thirty-two years, was an inmate of a boarding-house on Washington avenue, near Second street. Last evening he left hurriedly, and took the trunk of a fellow-boarder with him. Officer Nuti followed him up, and arrested him at the corner of Moyamensing avenue and Carpenter street. Alderman Tittermary, after a hearing, committed him to answer.

ONE GAITER.—A young chap named John Moran, did this morning, at an early hour, slip into a little shoe store on Second street, near Thompson, and did issue therefrom having in his possession one ladies' gaiter. Time would not permit his appropriating the pair, for he was hotly pursued and finally arrested. Alderman A. H. Shoemsker committed him to answer in default of \$500 bail.

ARRESTED ON CHARGE OF ARSON.—George Hansi erry, Henry Ahil, Charles Black, and John Glacy were yesterday arrested by Officers Dunlap and Iredel, of the Fourteenth District, for being the parties who set fire to a barn, at Mount Airy, the property of Mrs. Miller, which caused the burning of other buildings, involving in all a loss of about 3300. The parties ing in all a loss of about \$3000. The parties were held in proper hall to answer.

Letter from Ex-Governor Brown, of Georgis, to a Northern Man. The following letter from Ex-Governor Brown, of Georgia, was written in reply to a citizen of New Albany, Ind., who had congratulated him upon his letter of the 23d of February, relative to reconstruction and the proper course of the Southern States:—

relative to reconstruction and the proper course of the Southern States:—

ATLANTA, March 23.—Dear Sir:—Your communication came to hand resterday, and I have read with pleasure the kind expressions it contains. I have been bitterly assailed by many Southern presses, and my motives impugned, on account of my letter of the 23d ultime. I acted from a conscientious conviction of duty. I knew the situation, and had no doubt that it was the best for both North and South that this vexed question be forever settled, and as speedily as possible. We, as the conquerors, can expect no better ferms than those contained in the Sherman bill. Your people, as the conquerors, can never have a high state of prosperity while this section is prostrate and her interests paralyzed. Under existing circumstancies, the welfare of the whole country will be best promoted by the prompt acceptance of the terms on our part in good faith, and a faithful adherence to the pledges contained in the act on your part. We must accept the act as a final sectionent, and you must then admit us to representation, and we must all shake hands over past differences. Let the old family of sister States again assemble around the common council board. Let each drop a tear over the following the second of the series of the series of the series of the common council board.

lies and misfortunes of the past, and let all receive in foure that all distracting sectional agitation shall be banushed from the bulls of legislation, as that the promotion of the best interests of the whole country, and all its parts, shall be our lightest ambiten, and we will then see returning preserving and bappiness in every part of our vast territory. This is now my most ardent wish. If I can be instrumental in producing this result, I am content that others hold the offices and enjoy the honers. I shall do all I can to encourage loyalty and obedience to the constituted authorities. As a private citizen (for I expect no public position), I shall contribute my humble part to uphoid the flag, sustains the croftle, and maintain the honor of the Government against every assault, and, if you please, a bold, ardent Rebel. I conscientionally believed that we had the right peace ably to secode. The people of your section denied this right. We appealed to the arbitrament of the case. The decision was in your favor. We are bound by it. I consider the judgment conclusive and the settlement final. I took my parole, as a militar commander, and the ambesty onth in good faith. I have done he act in violation of ether, nor do I ever intend to in future. The Government of the United States is now my Government—the flag is now my flag. I chose both after the surrender in preference to any other Government or flag, and I am determined, comewhat may, to not satisfully and defend both. With this fixed purpose it is natural that should dealer the stability of the Government and the prosperity of the whole country as the greatest earthly blessing.

In reply to your comments upon parties, I have

prosperity of the whole country as the greatest earthly blessing.

In reply to your comments upon parties, I have only to say that I shall sympathize and encourage our people to act in future with the party, no matter by what name it may be called, which has most ability to build up and restore prosperity to the land of my birth and the home of my manhood, and shows the greatest disposition to respect our rights as the broken section of the Union. I do not intend to be bound by past predilections and prejudices. We have entered upon a new era, and I expect to take a practical view of each question as it is presented. This I believe to be the intention of a majority of our people. After we are restored to the Union we intend to discharge our obligations in good faith, and we expect equal rights and equal protection.

Very respectfully, your obedient servant.
