## CITY INTELLIGENCE.

[ POR ADDITIONAL LOCAL ITEMS BEE OUTSIDE PAGES.] COURT MARTIAL IN SESSION. - The Marine General Court Martiul, tent has been in session

for some time at the barry Yard, for the trial of Major Field, is drawing to a close. Licutenant French, although young, has exhibited a rare applitude for the duties of Judge Advocate. The accused read his defense yesterday, and we learn that it consisted more in scrimonious language against meritorious officers than in a careful analysis of the testimony. From the high character of the members composing the court, we know their duties have been honorably discharged. The Government requires no more from any or its servants.

CASUALTIES AND HOSPITAL CASES.—The fol-CASUALTES AND HOSPITAL CASES.—The following named persons were vesterday admitted into the Pennsylvania Hospital:—

Mrs. Ana McVey, who was badly scalded yesterday about the face and hands, by the breaking of a can containing noiling water.

James Murphy, aged forty-eight years, living at No. 721 Bedford street, was badly bruised.

He alleges that while Iving in his own house a man entered, kicked and beat him severely. James was very drunk when he entered the

Matthew Moore, aged fifteen, was struck on the head by a press in motion at No. 519 Minor street. He lives in Temple street, below Thir-

A SERENADE.-Colonel H. H. Bingham, Postmaster of tals city, received the compliment of a serenade at his residence, No. 1714 Arch street, tendered through the Liberty Cornet Band, by his subordinates. In his acknowledg-ment Colonel Bingham promised to have the business efficiently conducted, and to retain all competent employes. Mr. Wunder, Chief Clerk, was subsequently serenaded at his residence, Tenth street, below Columbia avenue.

COMMENDABLE-The following is a move in the right direction, and will receive the hearty approval of all who delight in visiting Oaktinle Park and Physical Institute:-The special agent of the Park has announced that the sale of spirituous or malt liquors will not be permitted upon the premises. Yesterday a number of subscription circulars were distributed in the city. Subscriptions to the stock will be received until April 15, commencing next Monday.

DEATH OF AN OLD CITIZEN. -The oldest papermaker in this city, Mr. Joseph Duckett, died yesterday, after a lingering illness, from typhoid lever. He had attained the age of sixty years. He was a man utterly opposed to estentation. During his long and eventual life he assisted many young men in business, or, in other words, gave them a start in the world. He was a kindhearted gentleman, and very correct in all his business transactions.

IN WORKING ORDER.-The splendid grain elevator at the foot of Washington street is now The Philadelphia Grain, Warehousing, and Drying Company have lease it. The Com-pany comprises a number of the leading grain dealers of Philadelphia. In a short time notice will be served to the trade in general as to the extent of the arrangements for their accommo-

SLIGHT FIRE. -- A pot of pitch took fire yes terday in Market street, near Forty-fifth, about half-past 8 o'clock. The dense smoke gave rise to an alarm of tire. The bells in West Philadelphia were rung, and all the fire companies turned out. Beyond the destruction of the pitch, no damage was done.

BADLY INJURED .- Lieutenant Edward Holgate, of the Thirteenth Police District, was unable to be on duty yesterday, having had his leg badly injured at the late conflagration of Schoneld's mill, in Manayunk.

TAVERN LICENSES .- The number of licenses granted to the keepers of taverns, up to the close of yesterday, was 2175.

#### MEDICAL ELECTRICITY. Latest and Most Important Discoveries in the Treatment of Chronic

Diseases. DR. S. W. BECKWITH'S

## ELECTRICAL INSTITUTE, No. 1220 WALNUT Street.

During our investigations in the treatment of disase in its various forms by the agency of electricity, we have obtained very many valuable and startling facts, which, added to the previous though limited information possessed by other and less fortunate perators, place us beyond all previous knowledge of this mysterious agent. During the course of our pracice we have treated and cured, through the knowedge thus gained, many thousands, and by means of our new discoveries have established ourselves as the jost successful Medical Electricians in this country r Europe.

Electrical investigation has proved that the human ody acts on the principle of the galvanic battery. The brain, mucous and serous membranes, the skin issues, and fluids, constitute the negative and positive lorces, and every action, whether mental or physical, is the result of these antagonistic forces. Digestion, respiration, circulation, secretion, and excretion are due solely to electrical influence. There is a polar action established throughout the nervous system which connects with every part of the body, establishig and preserving a proper balance of the electrical element which constitutes health, and a disturbance of which causes disease. There are strictly but two conditions of disease-one of inflammation or positive; the other, weak, debilitated, negative-and as electricity contains these two conditions in the action of the positive and negative currents, all we have to do is to neutralize the disease and restore proper healthy action.

Among the chronic diseases in which electricity has been and is daily being, by our agency, of the greatest utility, a cure being rapidly effected after the failure

ntility, a cure being rapidly effected after the fallure of all other means, are:

1. Epilepsy, Chorea, or St. Vitus' Dance, Paralysis (Hemplegia), Neuralgia, Hysteria, Nervousness, Palpitation of the Heart, Lockjaw, etc.

2. Sore Throat, Dyspejsia, Diarrhea, Dysentery, Obstinate Constipation, Hemorrhoids, or Biles, Bilhous, Flatulent, and Painter's Colic, and all affections of the Liver and Spieen.

3. Catarrh, Cough, Influenza, Asthma whe caused by organic diseases of the heart), Bronch

caused by organic diseases of the heart). Brouch Picurisy, Picurodynia, or Rheumatism of the Consumption in the early stages.

4. Gravel, Diabetes, and Kidney Complaints, a. Rheumatism. Gout, Lumbago, Stiff Neck, nai Curvature, Hip Diseases, Cancers, Tumors (those last named always cured without pain, or plasters in any form).

4. Gravel, Discostes, and Kinney Complains.
5. Rheumatism, Goat, Lumbago, Shifi Neck, hai curvature, Hip Diseases, Cancers, Tumors (those hair named always cured without pain, or plasters in any form).
6. Uterus Complaints, involving a mal-position, a Prolapsus, Antroversion, Retroversion, Inflammation, Uteration, and various other affections.
For information desired upon other diseases, application may be made at the office, or by letter.
Mrs. BECKWITH has entire charge of the Ladier Department, and all delicacy will be used towards those who entrust themselves to her care. In female diseases, it is universally successful in her hands.
For the convenience of those desiring information, we give (by permission) a few names of persons, among the best business men and others of this city and elsewhere, whom we have treated and cared—A.
