CONTROLLERS OF THE PUBLIC SCHOOLS .- At 3 o'clock yesterday afternoon the Board of School Control held its regular session. Mr. Shippen presided.

Thomas J. Beckman, the Controller elect from the Sixteenth District, was qualified and

Permission to open new divisions in primary schools was requested by the First Section. A similar request for a secondary division was received from the Second Section. From the Fourth Section was received a petition for an additional appropriation of \$5000 for a new school building at Tweith and Fitzwater streets. The appropriation for that purpose now is

The Ninth Section officially notified the Board that they had consolidated primary schools Nos.

From the Tenth Section came a resolution in favor of the continuance of the election of School Controllers by the sectional boards. The resolution was tabled.

From the Fourteenth Section, requesting the appropriation of \$27,000 for a new building, on Fourth street, above George. From the Twenty-second Section, a request

for an appropriation of \$900 for fencing at the new school-house, Centre street, [Germantown. The petitions were referred to regular com-A communication from John Eckstein, Clerk

of Common Council, informing the Board of the passage of a resolution instructing them to have all the children in the schools vaccicinated, was read.

Mr. Stauton inquired if there was not a rule

of the Board declaring none but vaccinated children entitled to admission into the schools. Mr. Shippen thought so, but could not find

The subject was temporarily postponed, in order to allow the President to read his report concerning the enumeration of the children in the city, fust completed by the police, which we published in The Evening Telegraph of yesterday. Mr. Shippen called attention to the following particulars:—
The report shows that there are now in the

There are in the city, neither at school nor regularly employed:—
Girls between the ages of six and twelve, 6,185 Boys between the ages of six and twelve,

Difference between report and census

It also appears that of the same there are:-Boys between the ages of twelve and fifteen Girls between the ages of twelve and 2,707

We have, therefore, 15,504 children in Philadelphia between the ages of six and fifteen, who are neither at school nor engaged in regular occupation. This must satisfy the community of the need of compulsory education laws. So ciety has a right to project itself against vagrancy and idleness as well as to punish crime. The school door is open to all; the public purse is ready to educate all. It were better to force every idler into the school-room than to employ a regiment of police officers to protect the community against the fruits of idleness.

The expenses of the past year, including sala-

ries of the teachers, rents, fuel, books, etc. for 771,164 pupils, were \$864,276.26. The cost of private school education is varied according to the character of schools, etc. It may be fairly estimated that each pupil costs \$40 per term, and \$80 per annum. In our first-class private schools pupils cost from \$500 to \$1000 per Yet at \$80 per annum for 12,799 pupil annum. in private schools we have the cost per annum of \$1,023,920, considerably more than the cost last year of educating 76,164 pupils in public

Mr. Carrigan said that he was pained to be compelled to except to the report, but the census was inaccurate. As far as his ward was concerned, the report is grossly at fault in detail and in the aggregate. According to the enumeration made by the police there are only 610 children in the public schools, and only 901 in all the schools, public, private and parochial, in the ward. Now, by the report of the teachers for the last year, the average attendance in the public schools alone]was I568 in the Twenty-fifth Ward. In some of the winter months the attendance was over 2000. Mr. Carrigan hoped that no turther action would be taken on the report until each controller has time to examine the figures and approve them.

Mr. Shippen said that the tables from which the report was prepared, the tables numbering over one thousand, are at the office of the Board, and can there be seen. That the calculations of the report are correct, he would vouch for, Each arithmetical computation had been proved by triple verification. That the general facts of the report are correct, the similarity of its report to the result of the regular census proves. Mr. Carrigan moved that the further consideration of the report be postponed until the next

meeting of the Board, that the members may inspect the items. Agreed to.
The Committee on Accounts reported bills amounting to \$37,023.36, which were ordered to be paid.

A number of other bills were reported by the committee without approval. The bills were principally for stationery, of which the committee said that in the Seventeenth Section it was stated that a heavy bill was for stationery, divided among the twelve directors. Anothe item was for lounges, and one for the use of a piano, which was damaged. Globes, brackets and other articles of an expensive nature finished the list of rejected accounts. The bills were taken up seriatim, some approved and some

Mr. Hilles, Chairman of Committee on Schools reported resolutions creating additional divi sions in the Twenty-fifth and Twenty-sixth sections, in the Landreth and in the Barton schools, which were agreed to. Also, in the Sixth, Tenth, and Fourteenth Sec-

Mr. Stanton presented a resolution instruct ing Directors to admit into the public schools only pupils who have been vaccinated at least one year before their entrance, and that parent of children not vaccinated be requested to have

them at once vaccinated. Agreed to Mr. Stanton also offered a resolution of thanks to the Mayor for the prompt and thorough man-ner in which the Police Department complied with the resolution of the Board for the enumeration of the children in the city. Adjourned,

POLICE INTRILLIDENCE,-Two men, named Heenan and Phillips, got into an altercation in a saloon at Fifth and Walnut streets, yesterday afternoon. Heenan settled his adversary with a blow and one kick. The former sent four teeth crashing from their bleeding sockets; the latter broke the unfortunate man's jaw in two places. He was taken to the hospital, his face awelling to a size that was fearful to took upon, and his agony lamentable to behold. Heenan darted

from the door, and so tar we have no tisings that he has been arrested.

A man, an alleged swindler, who recently se-cured employment of John Blakeley, a wool dealer in this city, to solicit orders on stock, and who caused two bales to be shipped to Bonnel & Co. Newark, New Jersey, which did not reach the firm named, was arrested on the charge of swindling, and reached to seity yesterday in charge of an officer. It seems that instead of wool being sent to the firm to whom it was consigned, a portion of it was sold to small dealers, and the rest shipped to other points for sale.

GRAND TEMPERANCE MERTING. - This evening a public meeting of the friends of the Tempe rance cause will be held in Rev. Mr. Talmage's church, Seventh street, above Brown, on which occasion addresses will be made by Rev. Alfred Cookman. Pastor of the Spring Garden Methodist Church, Rev. P. S. Henson. Pastor of the Broad Street Baptist Church, and others. The bare announcement of the names of the gentle-men alluded to as speakers, will, no doubt, secure an overflowing audience. Bev. Mr. Talmage will preside,

DEPARTURE OF A PASTOR.—A large congrega-tion assembled last evening at the Union Metho-dist Episcopal Church, for the purpose of testitying regard to the pastor, Rev. Dr. Carrow, who is about leaving this country to make a tour through parts of Europe and the Holy

Thomas T. Mason, Esq., presided. On taking the stand, he alluded in eloquent terms to the first existence of the Church, one hundred years ago in that place, and to the many noble and self-cacrificing Christian ministers who had filled the pulpit since the dedication of the building to the service of God. The speaker then spoke of the prospective departure of the Pastor of the church, Rev. Dr. Carrow, and hoped that his passage to the place of his desti-nation would not be marred by any calamity. but that he might be permitted to visit the places named, and after remaining from home few months, be returned in safety to the peo ole of his choice, with reinstated health.

Carrow made the final address. The room was decorated with American flags, besutifully arranged flowers, and devices of

MOVEMENTS OF STEAMERS .- The Alliance, Capain James R. Kelly (Empire Line), Charleston South Carolina, arrived last evening, at 7 P. M. after remarkable passages, going and returning only eight days from port to port, and each

time with very heavy freights.
The Juniata, Captain Hoxie, sailed from New Orleans, via Havana, on the 2d instant, and uness defained by freight and passengers at that port, will reach here to day.

The W. P. C'yde, Captain William H. Snyder,
was signalled off the Capes, en route to New

ork, by the Alliance. The Tonawanda, P. &. S. M. S. S. Co., Captain William Jennings, Savannan, Georgia, reached Lee's whart at 4 P. M., and was, at sunset, being discharged.

A STRIKE.—The journeymen house carpenters struck on Monday for an advance in wages. They have been receiving \$2.75 per day, and they now ask for \$3, and have resolved not to ommence work until their demand is acceded to. The Carpenters' Union, which regulates the subject, has a membership of about one thouand, some of whom are at work in other States, but those residing in the city, and now on the strike, number some five hundred. Yesterday a meeting of those on the strike was held at Eighth and Walnut streets, for the purpose of receiving reports of committees. Many of the boss carpenters expressed their willingness to accede to the demand made if all the employing carpenters would agree to it.

CASUALTIES .- Thos. Parsons, a lad 14 years of age was thrown from a horse yesterday in Mana-yunk, and had his right leg fractured. He re-sided in Baker street, Manayunk.

The following case was removed to the Pennsylvania Hospital:—
Thomas Fredericks, sixteen years old, residing at No. 266 S. Twentieth street, slipped on one of the street crossings yesterday and broke one of his arms.

A PHILADELPHIAN IN TROUBLE.-A package, said to contain one hundred and fifty dollars in counterfeit money was a few days ago Cempany at Pittsburg, by two men, one of whom, named Samuei Weil, is said to belong to this city. They were arrested at once, but the package had been given to an accompliee, and

Fires .- A frame stable on the Darby road, below Gray's lane, was totally destroyed by fire about 9 o'clock on Monday evening. It belonged to Thomas Hanbest, Loss \$500. Partly in-

A false alarm was caused last evening by the burning of rubbish at Twentieth and Sansom streets. FRANKLIN SQUARE was opened on Monday,

green, fresh, and beautiful. With its foun-tain in full operation, and with troops of happy children sporting about it, the picture it pre-sented yesterday was sufficient to expand with pleasure the heart even of an anchorite. The rest of the squares will shortly be opened.

AMUSEMENTS.

WOLFSOHN'S SIXTH AND LAST MATINEE. This fine planist, in closing his brilliant series, ias determined to give a programme which shall eclipse all his preceding ones. The dis tinguished German tenor, Mr. Habelman, will sing, to the delight of his hearers the wonderful love song, "Adelaide," by Beethoven; the equally famous "Erl King," by Schubert; and two charming songs composed especially for him by Mr. Woltsohn: "I Wept while I was Dreaming," and the "Water Lity." These are regarded as Mr. Habelman's specialties, and have made great eclat wherever heard. Mr. Woltsohn's selections are of a very high character, and must please all tastes, however fastidious,

NOTICE TO MARINERS.

Fixed Light at Entrance of Pekatongan River, Java Island.—Ollicial information has been received that since the 27th day of September, 1886, a light has been exhibited from a lighthouse erected at the entrance of the river Pekalongan, on the north coast of Java.

The light is a fixed white light, elevated twenty-six feet above the level of the sea, and in clear weather should be seen from a distance of eight miles.

The illuminating apparatus is dioptric, or by lenses. The light is placed at the west entrance of the river, and its approximate position is in lat. 6-1/5 S. and ion. 109 43 E. of Greenwich. It is intended to indicate the position of the roadstead of the river.

Fixed Light at San Francisco River, Brazil.—Informa-ilon has been received at this office that since the lst day of February, 1867, a light has been exhibited som a lighthouse at the mouth of the river San Francisco, near Macelo.

The light is a fixed white light, at an elevation of sixty-nine test above the level of the sea, and in clear weather should be seen from a distance of eleven miles. The lighthouse is built on the northern point of the river, and its position, as given, is in lat. 10 27 S., lon. 36 21½ W. of Greenwich.

By command of their lordships. 3
