CITY INTELLIGENCE.

EASTER SUNDAY. How it was Observed in the City-The Services at the Various Catholic and Episcopal Churches-Ritualism Makes

Considerable Headway in the Latter. The close of the Lenten season was yesterday celebrated in the various Catholic, Episcopal, and other churches of the city with appropriate ceremonies and rejoicings. A more auspicious day for a general turn-out of the people of all classes could not have been desired; and from the multitudes which crowded into and around the centres of religious attraction, we infer that every one availed himself of the gleam of sunshine and the bracing air of spring.

At an early hour in the morning the Cathedral Church of St. Peter and St. Paul, on Eighteenth street, between Race and Vine, was filled to its utmost capacity by a multitude of people, who were drawn thither for the purpose of witnessing the unusual and solemn services of the day. The audience was by no means composed exclusively of Catholies, the musical programme being so elaborate that our music loving people of Protestant faith for the noncelaid aside their anti-Catholic prejudices. The magnificent basilika has seidom presented a more gorgeous and animated appearance than it did during the services. Lights without number were blazing on every hand, while over and around the high after there was while over and around the high after there was a wreath of flowers of dazzling beauty. At half-past 10 o'clock the procession entered from the side, to the accompaniment of a grand solemn march by the Germania Orcnestra, The Right Rev. Bishop Wood was attended by his officials, the students of the St. Charles' Theological Seminary, and the Sisters of Charity. The students were attired in their scholarly robes, and they and the Sisters, on leaving the procession occupied places in the leaving the procession, occupied places in the body of the church set apart for mem on this cocasion. The programme of the music, as given in The Evening Telegraph on Saturday, was strictly followed, and rendered in the most artistic manner. The bass solo, Date Somum Pastores, was particularly noticeable from the admirable singing of Dr. E. C. Bullard. The sermon was preached by the Rev. Dr. G'Connor, Rector of the Theological Seminary, and was fully equal to the occasion.

ST. AUGUSTINE'S.

ST. AUGUSTINE'S.
At St. Augustine's Catholic Church, the services were scarcely less attractive than at the Cathedral. The decorations of the altar were of the most elaborate and pleasing character, Solemn High Mass was sung by the Rev. Father Nino, and an impressive sermon delivered by the pastor, Rev. Father Stanton. The choir numbered twenty-five excellent

The choir numbered twenty-five excellent solo voices, and under the direction of the organist, Professor Henry G. Thunder, rendered Haydn's Grand Mass, No. 4, in B flat, in magnificent style. The very difficult parts of this great work were accomplished with perfect ease and the most admirable effect. The beautiful tenor solo, Et Incarnatus, was rendered by Mr. Martinez with deep fervor and much artistic feeling. Mr. Martinez likewise executed the difficult passage in the Gloria in a successful ma er, sustaining the B flat most admirably. Not asseffectively were accomplished the grand Creato, effectively were accomplished the grand Credo, the Sanctus, the Agnus Dei, and the Dona Nobis. In truth, the entire Mass was rendered in a manner that has never been approached in this city heretofore. At the effectory, the Veni Sancti Spiritus of Dietsch, a brilliant and effective composition, was also sung in a thrillingly impressive manner. The other solos were excellently sung by Miss Black burn, Miss Gormley, Miss Petrie, and Messrs, Jean Louis and Rosewig; while the chorus included several well-known amateurs whose presence added much to the attraction of the occasion. We were pleased to note the effectively were accomplished the grand Credo. of the occasion. We were pleased to note the effectiveness of the organ, which has lately been undergoing repairs, and is now almost complete. It deserves to be ranked among the very

plete. It deserves to be ranked among the very finest instruments in the country.

St. Matthias' and St. Michael's Catholic churches were likewise crowded to their utmost capacities, and were decorated in elaborate style. We gave the musical programme of these two churches on Saturday, and need only remark, in this connection, that they were rendered in the most unexceptionable

ST. MARK'S. Among the Episcopal Courches, St. Mark's, on Locust street, above Sixteenth, was naturally the object of the greatest amount of curiosity, from the announcement that the choir of men and boys, who have been for a long time past under the careful training of Mr. James Pearce, the organist, would appear for the first time arrayed in their cassecks and surplices. The church was finely decorated with floyers and evergreens, which were especially abundant in the chancel. At the window in the rear of this was a large cross hovs, who have I hall, abundant in the chances. At the window no the rear of this was a large cross of a double row of white roses, which, a the "dim, religious light" which struggled brough the pictured glass, had a very fine effect. from an artistic point of view. The baptismal font, which is situated near the right-hand enfrom an artistic point of view. The baptismal font, which is situated near the right-hand entrance to the church, was also overburdened with a magnificent floral wreath, made up of evergreens and flowers of every hue. Surmounting it was another magnifient cross of white roses. It was, however, a matter of some surprise that no lights appeared upon the altar, the only illumination of the church being that of the candelabrum nearest the pulpit, which was afterwards discovered to be for the purpose of enabling the preacher to read his sermon with ease. The services, notwithstanding the absence of the lighted tapers, were perceptibly tinged with those ritualistic formalities against which the majority of the Mouse of Bishops so recently fulminated their disapproval. Whenever during the course of the exercises, the names of the Holy Trinity were mentioned, a great number of persons in the audience bowed very low; and the minister, likewise, on entering the chancel, advanced to the cross in the rear and made a similar obelsance.

At the opening of the services there was bush throughout the room, as the choir of eighteen boys and six men entered in double column, robed to the feet in white. With quaint solemnity they advanced down the chancel, and then, parting to right and left, filed into

solemnity they advanced down the chancel, and then, parting to right and left, filed into the little stalls on either side, and there took up their positions during the services. This choir effectually relieved the audience of the burden of the responses, and for the customary hymns they chanted several beautiful anthems from the most approved oratories. Whenever the Prayer-Book indicated a response, whether short or long, the signal was given by a rumble of the organ, and the fresh young voices in the stalls rendered the words in voices in the stalls rendered the words in bewitching style. These special musical noveities in the morning service consisted of the Kysic Eleison, in D, of W. T. Best, of Liverpool; the Te Deum of Dr. Elvie; the Jubilate of Dr. Atwood; and Mr. Pearce's Trisagion; while at the afternoon services, which commenced at 4 o'clock, a grand chant of Tullis and Parisian; a Cantate Domino, in F. Dr. Tr. Atwood: the magnificent anthem from of Tullis and Parisian; a Cantate Domino, in F, by Dr. Atwood; the magnificent anthem from Handel's Messiah, commencing with the words, "Worthy is the Lamb;" and that beginning with "Hallelnjah to the Father," from Beethoven's Mount of Olives, were given. The two last named were the most attractive features of the day, and were rendered so effectively and so artistically, that the proprieties of the occasion alone prevented a hearty encore.

ST. JAMES THE LESS.

But the services at St. Mark's were entirely outdone at the Church of St. James the Less. This is a picturesque little edifice, situated near the Laurel Hill Cemetery, with all the surroundings of an English parish church which has stood for centuries and been hallowed by changes without number. On the altar stood a crucifix surrounded by tapers, which were lighted at the commencement of the services by a robed figure much resembling an acolyte of the Church of Rome. The entire service was conducted in a manner strictly in accordance with the innovating adornments of the altar. At St. Clement's Church, Twentieth and Cherry streets, the ritualistic spirit appears also to have made considerable headway, the audience, as at St. Mark's, being relieved by the choir of the burden of the responses, while for the hymns ST. JAMES THE LESS. burden of the responses, while for the hymns were substituted chants and anthems. In many of the oldest and most popular churches of the denomination, however, it was impossible to detect the slightest innovation upon the re-honored customs and traditions of the denomination.

SERIOUS CONPLAGRATION NEAR MANAYUNE-SERIOUS CONFLAGRATION NEAR MANAYUNE—PARTIAL DESTRUCTION OF A WOOD AND STRAW PAPER MILL—LOSS NEARLY \$135,000—About half-past 2 O'clock yesterday morning, the extensive wood and straw caper mills and pulp works of Messrs. J. D. Last evening, while the family of Charles Buckius, who resides on Main street, opposite Mili street, Germantows, were at church, their dwelling was entered by burglars, who obtained an entrance by the aid of skeleton keys. They ransacked the house from top to bottom, leaving no room or closet unsearched. It seems their object was the appropriatiom of jewelry, for many valuable articles were overturned in the rumagings. They stole a number of silver the rumagings. They stole a number of silver spoons, silver-plated knives and forks, gold watch and chain, breast-pins, ear and fingerrings, chains, one cameo set, and many other pieces of lewelry. The spoons were marked "A. E. B.," and a locket "C. F." No cine has been obtained to the unwelcome visitors.

AN OUTRAGEOUS ASSAULT AND AN ATTEMPTED ROBBERY.—A lady named Mrs. Kent, Saturday evening started to the Vine street wharf on the river Schuylkill, to learn the whereabouts of her husband, who owned a smack, which he plied up and down the river. When she reached plied up and down the river. When she reached the wharf, she called out to her husband, whom she thought was in the vessel, but received no answer. At this time Andrew Hamilton, who resides at Twenty-fourth and Vine streets, told her that if she would go down into the cabin of the boat, she would observe her liege lord intoxicated upon the floor. She hesitated to do this, believing that her husband was not in the vicinity; but for fear that she should be mistaken she went down into the cabin, searched all around and was coming up the cabin, steps. taken she went down into the cabin, searched all around, and was coming up the cabin steps, when Hamilton said she must go down and hunt more assiduously, and she would surely find him. Not doing this, Hamilton struck her in the face, knocking her down against the side of the halchway, and made a flendish strengt to guitage her person. He was folled attempt to ourrage her person. He was foiled in this, and then attempted to rob her. He fore her garments to tatters, assaulted her vioently, and tried to get hold of her pocket-book; but she fought hard to prevent this, and succeeded. Yesterday Officers Johnson and Meek arrested Hamilton, who was taken before Alderman Luiz, who, after a hearing, com-mitted him as follows:—In default of \$2000 for an assault with outrageous intent, and \$2000 for an assault and attempt to rob.

AN ACCIDENT .- The Delaware Fire Company Was going at a great speed, on Sixth street, near Washington avenue, when, in cutting an angle, the pole would not work with that ease that the pilots desired, and they found themselves in collision with a lamppost, wooden posts, and a row of shade trees. Considerable damage was done to the bodies of the members and the hose

carriage. A Man Smor.-At a late hour last evening, a colored man was brought into the Fifth Dis-trict Station House, Lieutenant Connelly, by a party of citizens. THE PENNSYLVANIA ACADEMY OF FINE ARTS-OPENING OF THE SPRING-EXHIBITION.—On Saturday evening, the various galieries of the Academy of Fine Arts were densely crowded by those who had received the compliment of an invitation to attend the "private view" of the collection which was this morning thrown open to the general public. The waits are en-tirely covered with the productions of native and foreign artists, and among the great number of paintings displayed we noticed many of the very highest artistic conception and execution. It has, indeed, been many years since the Academy has presented to the public as meritorious a c llection as the one now on exhibition. The devotees of art will find the attractions of the galieries unrivalled; and even those who lay no claim to a thorough cultivation in such matters, cannot but be refreshed and refined by frequent loiterings through the Academy.

Let no one miss the rare opportunity thereby afforded for a cuttivation of a taste for the beautiful in art. As a people we are too much given over, body and soul, to the pursuit of the more material pleasures of this life; and not ur til a devotion to art has entered more largely into our national characteristics, can we justly claim a front rank in the great world of true civilization,

WANTED EATABLES .- Henry Martin was ar rested by Officer Danton, of the Twenty-fourth Wald, for a largeny in Norristown, Moutgomery county. It appears, from an investiga-tion thereafter made, that Martin, who was one night in that del'ghtful place, was overpowered with hunger; be had sirength enough, however, to crawl into the back window of a kitchen of a large farm-house, near the outskirts of that place. He, with accuracy, hit the well-filled large farm-house, near the outskirts of that place. He, with accuracy, hit the weil-filled cupboard the first thing; and commenced to waylay the pies and cakes, etc., and caused general havoc among the eatables generally. This could have been endured, had he not taken articles more valuable. Alderman Allen ways him over to the authorities at Norriston. gave him over to the authorities at Norristown.

THE COAL-DUST Row, on Ninth street, below Morris, came into note last evening by the actions of one Patrick, alias "Curly" McMenna. He espied a gentleman coming along, requested him to stop, and commenced the propounding of certain question which the other did not see fit to answer. At this McMenna grew wroth, waxed angry; and immediately assaulted the gentleman, chasing him to his residence on Ninth street. The door was slammed in "Curly's" face, but without any ado he burst it open, and commenced to despoil everything about the place. A policeman opportunely arriving, McMenna was arrested, and held in \$800 ball by Alderman Lutz to appear at Court,

STEALING PICTURES, ETc.-Joseph Beasly, some evenings ago, slipped quietly into the hotel kept by William G. Stackhouse, below the West Chester road, this side of the Darby creek, and while the inmates thereof were sweetly slumbering, he took down several pic-tures which ornamented the walls, and some little articles to embellish his own person, and made off. Lientenant Tolbert learning of this transaction, put Officer Isles on the lookout, who arrested Beasly last evening going through an alley into Lombard street. Alderman Allen remanded him to the authorities of Delaware county.

Latest and Most Important Discoveries

in the Treatment of Chronic Diseases.

DR. S. W. BECKWITH'S ELECTRICAL INSTITUTE, No. 1220 WALNUT Street.

Doring our investigations in the treatment of dis ease in its various forms by the agency of electricity, we have obtained very many valuable and startling facts, which, added to the previous though limited nformation possessed by other and less fortunate operators, place us beyond all previous knowledge of this mysterious agent. During the course of our practice we have treated and cured, through the knowledge thus gained, many thousands, and by means of our new discoveries have established ourselves as the most successful Medical Electricians in this country or Europe.

Electrical investigation has proved that the human body acts on the principle of the galvanic battery. The brain, mucous and serous memoranes, the skin tissnes, and fluids, constitute the negative and positive lorces, and every action, whether mental or physical, is the result of these antagonistic forces. Digestion, respiration, circulation, secretion, and excretion are due solely to electrical influence. There is a polar action established throughout the nervous system which connects with every part of the body establish ng and preserving a proper balance of the electrical element which constitutes health, and a disturbance of which causes disease. There are strictly but two conditions of disease-one of inflammation or posttive; the other, weak, debilitated, negative-and as electricity contains these two conditions in the action of the positive and negative currents, all we have to do is to neutralize the disease and restore proper healthy action.

Among the chronic diseases in which electricity has been and is dally being, by our agency, of the greatest utility, a cure being rapidly effected after the fallure

The report that the French Ambassador at Vienna had been summoned to Paris is denied. The Patrie denies the rumors of the military measures taken by Prussia.

Rumors are current on the Bourse that Marshal McMahon has been telegraphed for from Algeria; that Marshal Cancobert has proceeded on a mission of observation to Strasbourg; that Major Lorsel has been sent in haste to the Rhine, and that a note has been despatched to Berlin, relating to the Fortress of Luxembourg. The speedy outbreak of war is anticipated. The most strenuous efforts are being made to supply the Chassepot breechloader to the French Infantry. One hundred and fifty thousand are ready.

The London Daily News says:—The French Minister of War has given his opinion that Prussia cannot defend the Rhine without the passession of the Fortress of Luxembourg, and that possession she is resolved to maintain against all comers.
