"ST. GEORGE AND MERRY ENGLAND"-HOW THE PATRON SAINT WAS HONORED IN THIS CITY.—At 5 o'clock yesterday afternoon about sixty persons sat down to a sumptuous repast at the La Pierre House, the occasion being the anniversary of St. George, the Patron Saint of England. The dining hall was appropriately decorated for the purpose. At one end was hung Sully's full length portrait of "Queen Victoria Ascending the Throne," which Bully's fall length portrait of "Queen Victoria Ascending the Throne," which was tastefully draped with the American and British flags. The "Society of the Sons of St. George" were the hosts, and among the invited guests we noticed Frederick Fairthorne, Esq., President of the "Ablon;" General Robert Patterson, President of the "Hibernian;" David C. McCammon, Esq., President of the "Scotch;" and Horatro Gates Jones, Esq., President of the "Welsh" Societies, James Allen, President of the "Sons of St. George," occupied President of the "Sons of St. George," occupied the chair: Shadwick Hill, Esq., the Vice-President, being scated opposite.

most agreeable manner. Among the toasts given were the "Queen," the "President of the United States," "England—the land of our birth," "The United States of America—the land of our adoption," "The Prince and Princess of Wales," "Our deceased Brethren," "The Armies and Navies of Great Britain and the United States and Navies of Great Britain and the United States against the world," "The Clergy," Our Kindred Societies," "Woman," and "The

Mitchieson, Esq., in answer to "The Prince and Princess of Wales;" Horatio G. Jones to "Our Kindred Societies;" and General Patterson to "The Armies and Navies." Addresses were also made by the Rev. Mr. Borbam, Mr. Thomas Thompson, and Mr. Starkey, and the entertainment was further enlivened by several spirited songs,

A CONFIDENCE GAME-HOW TO GET RID OF SIX HUNDRED DOLLARS,-One of those often recurring games of confidence, wherein one party always plays sharp and wins took, place yesterday. A farmer, who probably understands the management of land much better than financial transactions, by the name of Johnson Clare, was one of the many travellers seated in a railway coach that was speeding to his city from Johnstown. Occupying the same seat with him was a younger person, who, from appearances and actions, had his wits about him. When not far from Philadelphia, the train stopped at a little station. Suddenly this young man jumped up with "There is Mr. Howard on the platform, I owe him \$600, and havn't got a red; would you loan me the amount for a half an hour?" "Yes," replied the farmer, and out came the roll of bills, a number of which, making the required amount, being handed to the stranger, who immediately disappeared, Time elapsed, the train moved on, no stranger appeared, and it finally struck the mind of our farmer that \$600 had gone up, he knew not whither. Information was given to Chief Detec-tive Lamon, who will use his best endeavors to aid in bringing the "confidence" man to justice.

AN ASSAULT WITH A HATCHET .- John Con-An Assault with a Harcher.—John Cohnor was arrested yesterday afternoon, for a terrible assault which he made upon his wife that morning. It appears that John had been out very late the previous night, and returning to his home, at Second and St. John's court, stept off just enough of the stupilitying effects of the liquor to make him irritable. When in this state he took umbrage at some action of his wife and seigner a hatchel, struck her some wife, and seizing a hatchet, struck her some terrible blows about the head, that felled her to the ground. Her screams brought in an officer, who arrested Connor, and brought him before Alderman Hurley, who committed him in de fault of \$1200 bail

OFFICER WILLIAM PRAESON this morning passed successfully through a trial before the Chief of Police and the Lieutenants, on charges made by certain individuals in the vicinity of Second street, between Union and South, who are dissatisfied with the vicilant manner in which that officer discharges his duty. It appears that a number of prominent loungers and hangers-on about that place have from time to time come undor Officer Pearson's notice, and have been arrested. Ba-lieving that his vigilance was not to their personal welfare, they have preferred charges, which have been happily and completely refuted. Throughout the police force of this city there is not an officer who is esteemed more by peace-loving cilizens, or one who discharges his duty more taithfully and arrests disorderly ci araciers more quickly, than Officer Pearson, of Lieutenant Goldy's force, in the Third Dis-trict, whose beat extends from South to Union, on Second street.

GHT FIRE .- About 4 o'clock this the chimney of a dwelling No. 1704 Cox street was discovered on fire. Sergeant Pennington, who was passing that way, managed to awaken the inmates, who were horror-stricken at the sight of such a dreadful conflagration, highly magnified in their excitement. Obtaining a carpet, which was saturated with water, he and Officer Divine put out the fire, and thus saved the building, which was as dry as tinder, espe-cially around the burning chimney.

TRIED TO STRAL .- George Hagan tried to steal a whisky still that was in working opera-tion in a dark cellar in Bedford street, between tion in a dark cellar in Bedford street, between Fifth and Sixth. But in the attempt he made so much racket that the authorities looked in upon, him and forthwith took him into custody. ### MEDICAL ELECTRICITY, Latest and Most Important Discoveries in the Treatment of Chronic

Diseases. DR. S. W. BECKWITH'S

### ELECTRICAL INSTITUTE, No. 1220 WALNUT Street.

During our investigations in the treatment of disease in its various forms by the agency of electricity, we have obtained very many valuable and startling facts, which, added to the previous though limited information possessed by other and less fortunate operators, place us beyond all previous knowledge of this mysterious agent. During the course of our pracdoe we have treated and cured, through the knowledge thus gained, many thousands, and by means of our new discoveries have established ourselves as the nost successful Medical Electricians in this country or Europe.

Electrical investigation has proved that the human body acts on the principle of the galvanic battery. The brain, mucous and serous memoranes, the skin tissues, and fluids, constitute the negative and positive forces, and every action, whether mental or physical, is the result of these antagonistic forces, Digestion, respiration, circulation, secretion, and excretion are due solely to electrical influence. There is a polar action established throughout the nervous system which connects with every part of the body establishng and preserving a proper balance of the electrical element which constitutes health, and a disturbance of which causes disease. There are strictly but two conditions of disease-one of inflammation or positive; the other, weak, debilitated, negative-and as electricity contains these two conditions in the action of the positive and negative currents, all we have to do is to neutralize the disease and restore proper healthy action.

Among the chronic diseases in which electricity has been and is daily being, by our agency, of the greatest ntility, a cure being rapidly effected after the failure

4. Gravel, Diabetes, and Kidney Complaints, 5. Rheumatism, Gout, Lumbago, Stiff Neck, nal Curvature, Hip Diseases, Cancers, Tumors (those last named always cured without pain, or plasters in any form).

form).

6. Userus Complaints, involving a mal-position, a Prolapsus, Autroversion, Retroversion, Inflammation, Ulceration, and various other affections.

For information desired upon other diseases, application may be made at the office, or by letter.

Mrs. BECKWITH has entire charge of the Ladiest Department, and all delicacy will be used toward those who entrust themselves to her care. In female diseases, it is universally successful in her hands. these who entrust themselves to her care. In female diseases, it is universally successful in her hands.

The Effect of the News upon

[SPECIAL DESPATCH TO THE EVENING TELEGRAPH.] New York, April 24 .- Advices from Europe this morning by cable and steamship are of the highest importance. Prussia takes high ground on the question of Luxembourg, and declares now that she not only declines the mediation recently tendered by the great powers in the interest of peace, but that she will not retire from the Duchy. It will be understood that this time this is not mere newspaper rumor, nor some fugitive canard from the Stock Exchange; but a formal announcement from the Government organ at Berlin. It now remains to be

seen in what temper France will receive this declaration. The whole tenor of the advices by the steamer's mails received to-day, is of a character to show that the popular feeling there is impatient for hostilities, and backed up now with the prospect of an alliance with Austria, it is more than probable the feeling will at once acquire fresh strength, and make it difficult for

the Emperor to recede if he would. There is no change to notice in the Money market, and the supply is still largely in excess of the demand. Call loans are 5@6 per cent, on Government and stock collaterals, and prime discounts 61/207 per cent. The Gold market was more animated this morning under the foreign news, and there was an advance of 1 per cent. in the premium. The price opened at 1384 and rose to 1394.

## FROM NEW YORK TO-DAY.

Another Quick Trip from Brest by French Steamship. SPECIAL DESPATOR TO THE EVENING TELEGRAPH. New York, April 24.—The French steamers appear determined to maintain the reputation hey have earned for speed. The Periere arrived at this port this morning after a fine run of ten days from Brest, treading on the heels as

it were of the City of Baltimore, which left Liverpool three days previous. She brings a valuable cargo and a fair complement of passengers. Latest Markets by Telegraph. New York, April 24.—Cotton duit at 245-@25c, for middlings. Flour duil, with little speculative inquiry; 5000 barrels sold—State, \$100018-20; Ohio, \$1170001450; Western, \$1034-40; Southern, \$1480001750, Wheat quiet. Corn active and 102c. higher: \$8,000 bushels sold; mixed Western, \$125001-38. Oats firm; 25,000 bushels seld; State, \$0035c.; Western, 71275c. Provisions quiet but firm. Whisky quiet and unchanged.

HEARINGS AT THE CENTRAL STATION, -Before Alderman Beitler, at 2 c'clock to-day, John H. Crawford was charged with representing that he had shipped a lot of rice and rosin to J. Rinaido Smith, commission merchant, No. 31 North Water street, from Charleston, on board North Water street, from Charleston, on board the schooner Varie, for him to sell on his account. A check for \$4000 was given him as an advance on the goods.

On telegraphing to Charleston the firm received a reply that the Varie was loading with lumber only. The defondant had given the firm bills of lading of the goods. These were pronounced forgeries.

The case was held over until next Tuesday, in order to await the arrival of the vessel.
