A DESTRUCTIVE CONFLAGRATION AT ROCKLAND—PAPER MILLS DESTROYED—LOSS OVER \$200,000—INSURANCE ABOUT \$100,000.—This morning the well-known firm of Jessup & Moore, proprietors of the large wholesale paper warehouse on Sixth, above Market, received a telegram to the effect that their very extensive paper mills at Rockland had been totally destroyed by fire last night. These mills were the largest in that section of the country, being a number of brick and stone buildings, with the usual complement of wooden sheds, etc. They were in full operation when destroyed. A large stock of goods was on hand. Four sets of powerful machinery were used, and from seventy-five to one hundred hands were kept busily engaged at work turning out paper of all kinds at the rate of eight tons per day. The estimated value of the mill property is over \$200,000. The insurance will slightly exceed \$100,000, and represents many companies in our A DESTRUCTIVE CONFLAGRATION AT ROCKLAND \$100,000, and represents many companies in our own city. How the fire originated remains a mystery, and all statements are mere speculation until the cause of the conflagration be investigated. The telegram, which was received about 4 o'clock this morning, states that nothing but the blackened walls remain. Messys. Jessup & Moore, in connection with the mill property burned, have in full running operation large pulp works at Manayunk.

BECAUSE A PERSON HAS A BAD COUGH It should not be inferred that Consumption has set in, although a case of Consumption is rarely met with unaccompanied by a distressing Cough. Where, however, a predisposition to pulmonary disease exists, a cough, if left to itself, strains and racks the lungs and wastes the general strength, and soon establishes an incurable complaint. THE GARDINER WILL CASE.

The protracted family litigation which has been before the Circuit Court of Richmond county, Staten Island, for the past week, and which has been intrusted by the litigants on either side to eminent counsel, was yesterday so far concluded as to be submitted to the jury before whom it was tried.

so far concluded as to be submitted to the jury before whom it was tried.

The opening address to the jury was made by Mr. James T. Brady, who, having reviewed the testimony at great length, and dwelt on all the points favorable to his client, Mr. David Gardiner, the contestant of the will of his mother, made in favor of bis sister and testatrix's daughter, Julia Tyler, the relict of President Tyler, deceased. Counsel submitted that the questions to be decided by the jury were:—Was Juliana Gardiner, when executing the instrument purporting to be her last will and testament, of sound and disposing mind and understanding? had she, in the opinion of the jury derstanding? had she, in the opinion of the jury from all the facts presented to them, the capa-city which the law required to enable her to make a will? was she under no restraint, and was the instrument duly executed, with all the formalities prescribed by the statute, and was she capable of making said will with sense and judgment, with regard to the amount appro-priated, and with due regard to the relative claims of the different parties who were the ob-jects of her bounty? The jury must also be satisfied that in the act of executing the will she satisfied that in the act of executing the will she had intelligence enough to understand clearly each and every of its provisions, and to know when she should assent or dissent, and had strength of will to qualify any statement which she might not approve. If the jury found that Mrs Gardiner did not possess all these qualities at the time of making the instrument, they would find for the plaintiff, the burden of the proof as to these facts being with defendants.

Mr. Evarts followed on behalf of the will, contending that the will had been daly executed in every respect, and with the full knowledge and understanding of the testatrix of the distribution she was making of her property.

Judge Lott charged the jury, submitting to Judge Lott charged the jury, submitting to their consideration the main questions in the case, as propounded by counsel. They must be satisfied first that the testatrix was of sound and disposing memory and competent to devise at the time she made her will; that she was under no restraint or undue influence;

under no restraint or under inducates that the instrument was duly executed, with all the forms required by the law, and was she capable of making said will with sense and judgment in reference to the amount of her property, and the relative claims of the different parties, the recipients of her bounty, and their comparative condition; and that at the time of its execution she had intelligence enough to clearly understand all its provisions and the clearly understand all its provisions and the manner of its disposition. The Judge then reviewed the testimony, commenting on such parts as most clearly affected the points at issue, After a lengthy charge the jury retired, but had not closed their deliberations at a late hour last night .- N.
