FROM WASHINGTON THIS AFTERNOON.

WASHINGTON, May 22. [SPECIAL DESPATCHES TO EVENING TELEGRAPS.] The General Land Office.

The following are extracts from letters re-ceived by the Commissioner of the General Land Office:— From Dr. Hayden, recently appointed to make a geological survey of the State of Ne-

make a geological survey of the State of Nebraska:

"It is my purpose to spend every dollar in accumulating materials for my next winter's labors. Mr. Meek left some time ago for Iowa, to trace the coal beds into Nebraska. Mr. Gill is with him. I shall start in a week with my outfit complete for work. I shall send you by express some photographs of Western scenery, which I desire to form part of the archives of the survey. The picture of the Sloux Falls, Dakotah Territory, you can use for your report, if you desire. The rocks are red quartiste, in which the red pipestone is located. The falls form the finest water power in the West, and will, at some future day, be of immense value,"

Dr. Hayden in another letter says;—"I have this day forwarded some photographs of Western scenery, which I hope will be of service to you in forming an idea of the country. If the money will permit, I shall endeavor to have some of the most interesting points in the State photographed, and forwarded to you at once. I have the promise of photographs from portions of the neighboring Territories."

JEFF. DAVIS.

HIS DEPARTURE FOR CANADA. Jefferson Davis left the city very wnietly on Monday night for Montreal. Hardly a dozen persons were aware of his departure at the time. His family followed him yesterday. At the depot of the Hudson River Rallroad, in Thirtieth depot of the Hudson River Railroad, in Thirtieth street, there was quite a gathering of curiosity seekers during the afternoon, who had congregated to see the departure of the ex-Rebel chief, but witnessed only that of his family. At twenty minutes to 3 o'clock the 'bus of the New York Hotel drove up to the depot, loaded with baggage, and with a colored man sitting on the box beside the driver. A spruce, middle-aged gentleman, with greyish hair and mustache, and a ruddy countenance, jumped out first, and assisted a tall, handsome, matronly lady to alight. These contenance, jumped out first, and assisted a tall, handsome, matronly lady to alight. These were followed by two servants, having in charge a little child. These personages were the wife of Jefferson Davis, his brother and child, and two of his servants. They started off on the soo r. a. train. It was reported at the depot that Jefferson Davis would meet his family at Peekskill.—N. Y. Herald.

DISAPPOINTMENT OF THE ALBANIANS.
ALBANY, N. Y., May 21.—Quite a crowd of persons gathered at the Delavan House to-night, expecting to see Jeff. Davis, but they were disappointed, as he passed directly through on his way to Canada.

ARRIVAL OF THE DAVIS FAMILY AT TROY.
TROY, N. Y., May 21,—The following despatch
was received in this city at noon to day:— *
NEW YORK, May 21,—To Conductor James B.
Beldwin. Please reserve two sections for Mrs. Jefferson Davis on three forty-five train here for Mon-treal. F. P. Marsh.

Mrs. Jefferson Davis and party, consisting of five persons, including two colored servants, passed through here for Montreal to-night, on the 10 o'clock train. I learned from them that Mr. Davis himself passed through over the same route last night entirely incognito, not being once recognized or suspected during the same route last night entirely incognito, not being once recognized or suspected during the whole trip from New York to Montreal, where he arrived safely this morning.

The party passing through to-night did so very quietly, though something of a purely extempore crowd gathered about Conductor Baldwin's sleeping car, in hope of catching a glance of the fallen man, in which they were disappointed. The party quietly took to their berths, and the train passed out of the depot on time.

ARRIVAL OF JEFF. DAVIS IN MONTREAL-A VERY QUIET RECEPTION-HIS FRIENDS TO VISIT HIM TO-DAY, ETC.

MONTREAL, May 21.—Jefferson Davis arrived here this morning, accompanied by three or four gentlemen, and looking very well. His reception was very quiet. He drove at once in a covered carriage to Mrs. Howell's house. His arrival was not generally known for some hours. It is supposed that the chivalry will call on him to-morrow,

United States Census for 1860 and 1866. According to the census of 1860, the organized States and Territories contained 31,443,321 in-habitants; of whom 488,070 were free colored, and 3,953,760 were slaves of African descent. addition to the above it is estimated that there were 350,000 Indians retaining their tribal char-

From the tabular view of the progressive population of the United States, from the original census of 1790 to 1900, by William Derby, we find results which have thus far been most singularly verified by the addition of three per cent, per annum from year to year, starting

 With last census:—

The telegraphic statement headed "The Census Bureau of Statistics," is calculated to mislead the public as to our probable rapid increase in population, notwithstanding the late depopu-lating war. The conclusion arrived at is that in 1866 the entire population of the States and Territories was 34,505,882, white and black; increase, 3,662,561.

The above calculation, based on a ratio of

increase showing the population in 1866 to be 36,089,378, is probably much nearer the truth—giving an increase in six years of 4,643,056 It must be remembered that not only Europe

but Asia, is now contributing largely to swell our population.

W OMAN'S WORK IN THE CIVIL WAR."-CM OMAN'S WORK INTHE CIVIL WAR."—

No other work can compare with this in the extent and completeness of its sketches, or the accuracy of its statements. It is prepared under the sanction and approval of the Sanuary and Christian Commissions, and is, therefore, the standard work on the subject. The variety of its sketches gives it a charm that causes every reader to be interested and delighted with it. Our terms are liberal, and the demand for the work is so great that energetic agents easily make from \$150 to \$200 per month. The work is just issued and the field is new.
