PROPOSALS. NEW PIERS AT MARCUS HOOK, PENNA.

UNITED STATES ENGINEER OFFICE, No. 209 S. SIXTH STREET, PHILADELPHIA, May 22, 1887.

Sealed Proposals, in duplicate, with a copy of this advertisement attached to each, will be received at this office, until 12 o'clock, M., THURSDAY, June 15, 1887, for furnishing materials and labor for the construction of four new piers at Marcus Hook, Delaware River, Penna.

The superstructure of each pier to be of hard and durable stone.

The facing in six courses, of headers and stretchers dovetailed; the rise of each course 2 feet; the cubic contents of blocks varying from 20 to 25 feet; the faces, each or each hammer work; beds and joints good joint work; lewis and dowel holes to be drilled if required; backing to be of rubble stone.

The top to be paved with stones from one to two feet in thickness, with good natural face, and jointed to lengths of 5 feet and random work.

The stone to be delivered at such points, at or near Marcus Hook, and to such persons as may be designated by the proper officer or agent of the United States and any other material to be deliverable under like conditions.

The crib upon which the piers are to rest are to be sunk in depths varying from 20 to 24 feet, or thereabouts, at ordinary low-water level, and of each at bottom 7 feet by 34 in width; at top 74 by 22. To be of hemlock wharf timber, to work in the crib must be of the following giving:

200 cubic feet of hammered facing Stone, 700 cubic feet of rubble facing Stone, 200 superficial feet of face, and 7800 superficial feet of bed and joint work.

1200 cubic feet of paving stone, giving 1700 feet joint work.

50 perches, of 25 cubic feet each, of rubble facing Stone.

For each crib about 18,000 feet face of crib work.

8000 lbs. of iron bolts, etc.

750 perches of rubble filling to be delivered in crib.

Proposals for putting the stone of superstructure of each pier in place must state the rate of labor per cubic yard of facing and paving stone, and per perch of 25 cubic feet for backing with rubble.

All stones to be laid dry, in the best manner, and in accordance with instructions to be given. The rates to cover every expenditure necessary in receiving, caring for, and putting the stones in position.

Proposals for labor for cribs to state the rate per foot of face, measured in the work, and to include every expense of receiving and caring for materials, framing, putting together, and sinking the cribs in proper positions, etc., in accordance with instructions that may be given.

All materials and labor to be of the best quality, subject to inspection, and rejection if not approved.

A deduction of 20 per centum to be made on any payment made in part for material or labor accepted.

Separate proposals to be made for stone, for lumber, and for iron; also for labor, for masonry, and for other work.

Each bid must be guaranteed by two responsible persons, whose signatures should be appended to the guarantee, and who should be certified to as being good and sufficient security, by the United States District Judge, Attorney, Collector, or other public officer.

Envelopes to be marked, "Proposals for New Piers at Marcus Hook."

Bids to be opened at 12 o'clock M., on Thursday, June 15, 1887.

Bidders desiring further information can obtain the same by calling at the United States Engineer's Office, corner of Second and Main streets, Davenport, Iowa.

Plans, specifications, and a full description of the work will be shown to all who wish to examine them for the purpose of making proposals, at the office of the United States Engineer, U. S. Army.

By order of the United States Engineer, U. S. Army.

523154. C. SEAFORTH STEWART, Lt.-Col. of Engineers.
