[FOR ADDITIONAL LOCAL ITEMS BRE OUTSIDE PAGES,]

Musican.-Amongst the new musical publi-MUSICAL.—Amongst the new musical publications worthy of note we see an edition, in single numbers, of the "Christmas Gift," by Carl Gaertner, issued by Charles M. Iremaine, No. 481 Broadway, N. Y. Every variety of style is presented by the different songs, all of which are remarkable for poetry of sentiment, and written with accurate correctness. Two alto and barilone songs, complete in one number—"My written with accurate correctness. Two alto and barilone songs, complete in one number—"My Little Heart" and "Good-by"—impressed us forcibly from being farewells of such distinct character, and yet both so heart-breaking. Also, in one number, "Love My Mary" and "Do I Love Thee?" the former a playful Irish melody to Moote's words; the latter, in our opinion, a work of much deeper significance than a song by Frang Abi to the same words. "Do I Think work of much deeper significance than a song by Franz Abt to the same words. "Do I Think of the Days, Jeannie?" is a ballad in the true Scotch style, distinguished for its depth of feel-ing and strikingly characteristic forms of ques-tion and answer. "Leave us Noi" is a plaintive little gem; and "Good Night," in the same num-ber, and also for soprano or tenor, is very beau-tiful and difficult as well. The "Slumber" song may be numbered amongst the finest, although all have abundant merit. all have abundant merit.

AN ADJOURNED MEETING OF THE SOUTH STREET BRIDGE COMMISSION was held yesterday. Mr. John Welsh presided. The Commission is appointed to superintend the construction of a bridge over the schuylkill at South street.

A communication was received from Mr. C. E. Lex. protesting against the proceedings of the Commission at its previous meeting, on the ground that a quorum was not present.

Mr. Dropsie moved that the proceedings of the previous meeting be adopted by the present meeting, which was done by calling the year and navs on each resolution.

and mays on each resolution.

Mr. Baird stated to the body that the Committee on Superintendence had employed the district surveyors to mark the initial line of the centre of the bridge, on the east and west side

centre of the bridge, on the east and west side of the Schuylkill, and that a stone with the letters S, B, had been placed on each side to mark the spots.

The following gentlemen comprise the committees appointed by Mr. Weish:—On Law, Messrs. Findlay, Phillips, Dropsie, Mann, Marcer, Holmes, and Lister; On Plans and Estimates, Messrs. Eastwick, Spering, Ellis, Leigh, Pollock, Miller, and Brown; On Finance, Messrs. Clark, Drexel; Lawson, Boni, Lex, Smyth, and Clark, Drexel; Lawson, Boni, Lex, Smyth, and McCann; On Superintendence, Mesers, Wetherill, Kater, Field, Struthers, Nichols, Baird, and

MEETING OF SCHOOL CONTROLLERS .- Yesterday afternoon the Committee on Property of the Board of Control held a meeting in relation to an unexplainable charge which had been somewhat mysteriously made to a specification for the erection of a new school house, northwest corner of Sixth and Coates streets, and for which \$44,500 has been appropriated by

For this amount the building was to be rected, in general similarity to the new Fifteenth Ward school house, Twentieth and Coates streets, with such changes only as were agreed upon by the Committee. The building being now nearly ready for the third floor, it was discovered that an attempt had been made to virtually the street of the s tually recede from the original specification in some respects, to the great detriment of the section, which attempt, however, will be effectually smothered.

The building, when erected, will be a hand-some one, of the dimensions of 76 by 86 feet, the material being Trenton brown stone. Every precaution has been taken for the proper trans-mission of light and air, and the directors of the section are determined it shall contain all the essential requisites necessary for the healthful comfort of the pupils.

THE COMMENCEMENT EXERCISES of the Zane Street Girls' Grammar School were held yesterday afternoon, in the school building. The large school-room was filled to its capacity by the scholars and their friends. The young ladies were nearly all dressed in white, and the appearance presented was one of rare beauty. The exercises consisted of recitations, singing, addresses, and presentations. Of the latter, two beautiful green Bohemlan glass vases were presented to Miss Webb by a pupil, and a beautiful crayon head of a child, by Miss Helen Lukens, to the same teacher. Addresses were made by Mayor McMichael, Professor Riche, Edward Shippen and Richard Ludlow, Esqs. The latter spoke in feeling terms of the de-parture of Miss Webb for Europe, the sorrow her absence would cause the and great gratifica-tion at her safe return. After the exercises of the atternoon were concluded, the graduating class, with a number of invited guests, passed an evening socially in the school-room.

ARRIVALS AT THE PORT OF PHILADELPHIA .-The following statement shows the number of foreign and coastwise vessels that arrived at this port during the month of May, as compared with the same period in 1866:—

CHEAP DICKENS .- T. B. Peterson & Brothers, Philadelphia, have just made a very large reduction in the price of all their various editions of Dickens' Works, of which they issue twentythree different editions. Their edition known as the "People's Duodecimo Edition," which is printed on large clear type, Long Primer in size, and which has beretofore sold at \$2.50 a volume, has been reduced to \$1.50 a volume and all the other editions have been reduced in about the same ratio. For further particulars in regard to them, we refer our readers to the advertisement of them in another column.

THE CANDIDATES. - The election of Chief Engineer of the Philadelphia Fire Department takes place next September. An exciting contest is anticipated. The most prominent candidates for the position thus far are David M. Lyle, the present incumbent; Terrence McCus-ker, Assistant Engineer of the First Division; and John R. Downing, of the Hibernia Fire Company.

GREAT INDUCEMENTS OFFERED TO THE PUR-CHASERS OF SUMMER CLOTHING .- Messrs. Somers & Son, the popular Clothiers, at No. 809 Chesnut street, have fairly won the reputation of selling the finest and most elegant Clothing for the money, of any similar establishment in Philadelphia. This they are enabled to do by their unbounded facilities both in importing and manufacturing. Their stock of Readymade Clothing is got up in the most fashionable style, and is fully equal in every respect to that which is made to order. They also display a superb assortment of plain and fancy Cassimeres for the convenience of those who prefer to have their garments cut according to mea-

KEY TO THE

BANKRUPT ACT.

THE BANKRUPT ACT.

Printed from the Official Copy, Annotated. Digested, and provided with a copious Index, for the easy and convenient reference of the Legal Profession, and of Business Men. By G. MORGAN ELDRIDGE, of the Philadel phia Bar. Octavo, paper covers, price 50 cents

A most perfect, complete, and comprehensive work, embodying all that it is essential to know on this all engrossing subject. It is well worthy the careful study of every citizen of the United States, and the more so from the fact that in certain cases power is given the creditor to force his debtor into involuntary bankruptcy. Sent to any address, postage paid, on receipt of price, by

JOHN E. POTTER & CO.,

PUBLISHERS,

NOS. 614 AND 617 SANSOM STREET,

W OMAN'S WORK IN THE CIVIL WAR."-"W No other work can compare with this in the extent and completeness of its sketches, or the accu extent and completeness of its sketches, or the accuracy of its statements. It is prepared under the sanction and approval of the Santiary and Christian Commissions, and is, therefore, the standard work on the subject. The variety of its sketches gives it a charm that causes every reader to be interested and delighted with it. Our terms are liberal, and the demand for the work is so great that energetic agents easily make from \$150 to \$250 per month. The work is just issued and the field is new.

FIRE AND BURGLAR PROOF SAFES

MORE ABOUT

LILLIE'S CHILLED-IRON SAFES

IMPORTANT FACTS

WHICH THE PEOPLE SHOULD MAKE A NOTE OF.

FACT I.—LILLIE'S CHILLED-IRON SAFES bave been largely introduced for the last twelve years, and sold to those having the largest amount of vanuables, as the best and most thoroughly Burglar-Proof Sair; and, up to the last three years, it has been as zare to hear of one of Lillie's Safes having been icobed by burglars, as to see or hear of a white blakkbird or a white clephant.

Fact II.—It is notorious that the profession of the burgiar has advanced at a rapid pace within the last eight years, and what was thoroughly burgiar-proof then is not so now, which accounts for the fact that within the last three years very few of Lillie's Saies have been robbed, and the secret anonymous circulars distributed by other safe-makers latterly, showing a very few cases only, is the strongest evidence that b t a very small number have been robbed to this time, notwithstanding the large number in use, and the amount at stake it successful.

FACT III.—There are two, and only two, general and leading princidles upon which all burglar-proof sales are constructed. The one is pouring liquid from between and around bars of wrought free, hardened streel, or any proper combination of metals. This principle is adpted by Little, in the Chilledfrom Exfe, and covered and controlled by his letters patent.

patent.

Tie other is made up of layers of plates, of different metals, held together by boils or rivers, or both. To this principle there are various objections:—The cost is double. The wrought from plates, which are the strength of the safe, are outside, and are operated upon by the whole catalogue of burglars tools. The boils or rivers are easily forced by suitable tools, with or without powder, and cannot be sustained. The former principle, adopted by Little, avoids all these objections, can be made any thickness, and withstand any amount of resistance required; avoids the rivers, bolts, etc.; has no wrought from outside to be operated upon by burglars' implements.

Fact IV.—Mr. Lillie, the Palentes so soon as be

the rivets, bolts, etc.: has no wrought iron outside to be operated upon by burglars' implements.

Fact IV.—Mr. Lillie, the Patentee, so soon as he learned that it was possible with the modern improved tools for burglars to grind through chilled iron or hardened steel, began experimenting to avoid the difficulty, and after much labor and expense he has perfected a system for chilling iron and combining netals that is entirely proof against the burglar's drill, or any other of his tools, even the wedge, warranted to stand the histest test practicable for any burglar to make. As a troof of his success, the following certificate is now offered from the Novelty Works, New York:—

OFFICE NOVELTY IRON WORKS.

Mesers. Lewis Lillie & Son:—

GENTLEMEN:—We have subjected the sample of Childed Iron you furuished us to the most severe tests (as regards drilling through it) that we could bring to bear upon it, and without success.

It is our opinion that it canonly be penetrated by the use of a large number of drills, and the expenditure of much power, with days of time.

And we think it impossible for a burglar, with his time and power, to penetrate it at all.

Yours truly.

Isaac V. Holmes, Superintendent, Lyman G. Hall, Foreman.

And the following extensive Iron manufacturers in Philadelphis, Boston, and Chicago, after the most thorough tests, find the result to be substantially the same.

And their principal Iron Workers so certify:

same. And their principal Iron Workers so certify: Messrs, Merrick & Son, Southwark Foundry, Phila-

Messrs. Merrick & Son, Southwark Foundry, Philadelphia.

The Einkley & Williams Works, Boston, Mass.
The Union Foundry and the Northwestern Foundry, Chicago, Ill.

Fact V.—The proposition made the public heretofore is now renewed: I will furnish Safes or Vault Doors, of same size and capacity of other best makers, and at one-third less price; and the same may be tested when finished, and I will furnish the man to test the work of any other maker, and he shall furnish the man to test the more of the work which stands the most resistance, in any wayer manner practicable for a burgiar to work.

FACT VI.—I would now say to any of the owners of Lille's Safes, that, in view of the preceding facts, if they feel the need of additional security, I will exchange with them, on fair terms, giving them all the late improvements, and the increased security, which is claimed to be beyond the reach of Eurglars, until some new system shall be developed in the working of Iron, which would now seem hardly possible. FACT VII.-It is true that the Sheet-Iron or common Saie, as now made, under ordinary circumstances (and when not crushed by the fall of walls or timbers) usually saves the written matter, but if the fire is severe it has to be copied, for the lok will soon fade out; besides, the safe is twisted up and useless.

It is equally true that the Chilled-iron Safe saves the written matter in a perfect state, that it does not fade out or require copying, and that the safe itself is ready for further use. Any number of trials in fires, certified to, prove these facts, and if any of the safe venders who are distributing secret, anonymous circulars to injure the reputation of Lillile's SAFE, are not satisfied with these statements, they can have the opportunity of testing by fire one of their own Safes with Lillile's, on equal terms, whenever they so decide.

FACT VIII.-In answer to the story circulated by Fact VIII.—In answer to the story circulated by interested parties, that Lillie's Safe had gone up, and had ruined Lillie, etc., I would say that at no time in the last two years could Lillie & Son hair supply the demand for Sifes, and were under the necessity of forming a large stock company, with a very large capital, to meet the demand; and Mr. Lewis Lillie, Sr., is now the president of that company, which is located on the Deinware, in Pennsylvania, near Easton, and is the largest Safe Works probably in existence, and will be able to supply all demands for Safes, Locks, Chilled-Iron Vaulis, etc.

In conclusion, I beg to call the attention of my

Chilled-Iron Vaults, etc.

In conclusion, I beg to call the attention of my patrons and friends, and the public, to the facts here presented, and to say that I am very thankful for past invers, and that I am prepared to furnish LIL-LIE'S BURGLAR AND FIRE AND BURGLAR-PROOF SAFES, VAULT DOORS, CHILLED IRON VAULTS and COMBINATINN LOCKS, all at short notice, warranted to be the best and cheapest in market. I also keep constantly a large assortment of second-hand Fire Proofs, taken in exchange for Lillie's Burglar Proofs, of the best-known makers, all put in good order, and offered at below usual auction prices.

M. C. SADLER, AGENT FOR LILLIE'S SAFE AND IRON COMPANY, No. 639 ARCH Street,
