From present indications, the appeal of the Vashington Library Company is behalf of the tiverside Institute, chartered for the gratuitous education of Soldiers' and Sailors' Orphans, will be more liberally responded to than was anticipated, even by the most sanguine. The plan adopted by the Company is the result of mature consideration and consultation with the highest legal authority of the country. Every purchaser of stock receives not only a fine sleel-plate to graving, worth more at re-tall than what he pays, but is also insured one of a collection of presents valued in the aggregate at \$500,000. These presents consist of several in cash, ranging from \$2500 to \$40,000; also, valuable real estate, building lots \$40,000; also, valuable real estate, building lots, horses and carriages, planos, melodeons, sewing machines, handsome oil paintings, shawls, silk dress patterns, jewelry, silverware, and a host of other articles of ornament and use. Every one gets something, and all stand an equal chance in securing one or more of the highly valuable articles. As the price of the highly valuable articles, As the price of the stock has been placed at one dollar per share, and as for this sum the purchaser receives a steel-plate engraving which at retail could not be bought at that figure, besides having one chance in the distribution of the presents, for which something certainly will be received, there being, as stated, no exceptions whatever, the plan is certainly fair and honorable, as there being, as sisted, no exceptions whatever, the plan is certainly fair and honorable, as every one actually receives more than the worth of his money, with the privilege, if good fortune favors him, of being awarded something very valuable. The Company can act thus liberally, from the simple fact that, ordering their engravings, and having a binding contract for an immense quantity, the price per single copy is so much reduced that they can be sold at a reduction of nearly fifty percent, on the regular retail price, with good can be sold at a reduction of nearly fifty per cent, on the regular retail price, with good margin left for profit, which accrues to the Riverside Fund. Besides this, all the real estate and other valuable presents have been deeded to the Washington Library Company at their lowest market value, and in a few cases far below their real value, or what they could be disposed of at public sale. The Company have received encouragement on every hand, and their appeal is already meeting with the most hearty response from all sections

IMPURITY OF THE BLOOD is the primary cause of most Skin Diseases, although there are cases where very repulsive forms of this complaint arise from obstruction of the pores of the skin, checking perspiration, causing an intolerable itching, and terminating in an eruption of Fimples, Pustules, Ringworm, Tetter, Sail Rheum, etc. For all these affections Dr. Jayne's Al-terative is an efficient remedy, cleansing the blood of all impurities, and absorbing the gross particles which obstruct the small perspiratory ducts. By its action on the circulation, it drives all Scrofulous diseases from the system, assists the skin in performing its proper func-tions, and imparts a healthy glow to the com-plexion, Prepared only at No. 242 Chesnut
