character, and the best of feeling prevailed. RECEPTION OF THE PRESIDENT IN PHILADELPHIA

SUNDAY SCHOOL RECONSTRUCTION .- On Sunday afternoon, while addressing the Sunday Schools of the Tabernsele Baptist Church, west Chesnut atreef, Rev. Dr. Brautly conveyed to those present a message of Christian love, which his own Sunday School, at Atlanta, Georgia, 1 ad autho-Subday School, at Atlanta, Georgia, 'ad authorized him to present. The Tabernacie School, immediately, by a rising vote, authorized Dr. Brantly to convey a similar message of amity and goodwill to his own school on his return to Atlanta. It would be profitable to all sections of our country if such expressions of good feeling were more frequent.

The Tabernacie Schools will hold their annimerator and grand musical festival at the

Borrowing .- Mary Murray, a young negro Borrowing.—Mary surray, a young negro lady, had lived with Dr. Young, at Seventh and Willow streets, for some time. But lately another young girl, as Mary thought, came to usurp her place. Determined on revenge, she gave sly notice to her compear that she was going out for an evening, and desired to borrow going out for an evening, and desired to borrow for that particular occasion sundry things whereby to rightly clothe her form. This was refused, but Mary stole them—a lockey cap, dress, even to the most minute thing known to a woman's apparal, and then made off. Detective Henderson took her in custody yesterday, and she remains in the Central Station House cell for a further hearing.

THE STORM .- A prelude, which almost invariably is an augury foreboding a sudden change, was the great heat that prior to the late storm came over this city. Sudden in itself, its existence was abruptly cut short by the sudden rain on Sunday afternoon, that attained the zenith of its violence at midnight, realizing the quaint saying of "buckets full instead of drops." So quickly did it come that its force and contact destroyed much valuable property which had been left unprotected.

had been left unprotected.

In the northeastern part of the city, where improvements in the shape of brick buildings are fast going up, the damage was great. The plastering, yet green, was washed from the stones, and brick walls in some places, just reared, bore the semblance of having been gnawed by time and wear. Along the Germantown road, all yesterday afternoon, during the short recesses that the drenching element indulged in, the inhabitants were pumping and balling to clear their cellars. The break in the street at Germantown and Girard avenues, which yesterday morning seemed as if but little which yesterday morning seemed as if but little labor would repair it, has extended to twenty feet in length, and from six 10 eight feet in width, reaching the broken culvert in depth. width, reaching the broken culvert in depth.

they were rescued, not hurt but irightened, and in a muddled condition.

The low lands lying at the north of the city and along the borders of the river were effectually deluged; and those which had been ploughed—from which the coreals had made their appearance in an embryo state—were watered, and their crops destroyed.

The Schujikill, determined that it should not be left in tranquility, got its back up, and also its waters, and an addition of two feet of the aconjuded element proped over the dam and de-

It was currently reported that much damage had been done in West Philadelphia. The only disaster of consequence in that locality was the undermining of a portion of the wall enclosing the ground of the Pennsylvania Hospital for the Ireans.

the Insane. A day or two will only be required to repair the damage. In the lower grounds of the southern part of that district the water freely flowed, but did no material damage. It went like a mill-race through the railroad tunuel just west of the Permaneni Bridge, but no damage was done to that subterraces was done to that subterraces was

just west of the Fermaneni Bridge, but no damage was done to that subterranean structure. There happens to be situated near the Schuyl-kill a number of breweries, each having its beer vault beneath the surface of the earth in the vicinity, in order that the beverage may have its proper temperature. The sudden rain soon caused an overflow of the gutters, and the surplus, seeking its lowest level, penetrated these beer vaults, deluging and filling the huge cavity with muddy warm water, and raising the temperature of the vault from four to about thirty degrees, souring vast quantities of the thirty degrees, souring vast quantities of the German's delectable thereby. Messrs, Bergner and Huln & Bonn, we hear, sustain serious age to their establishments and stock by flood.

On South Front street a number of junk shors, and the cellars of some of the ware-houses, were filled, destroying all their contents that were vulnerable to the aqueous element.

CAPE MAY .- There are many considerations CAPE MAY,—There are many considerations that place Cape May foremost on the list, and it is only necessary for the people to be better acquainted with its advantages to properly appreciate it. New Yorkers are lavish in their praise of Long Branch, and even Philadelphians have wheeled into the line, and are freely spending money and influence to build up the "Branch," which, in every sense of the word, is a thorough New York institution; unconsciously, it is true. Our citizens may be consciously, it is true. Our citizens may be aiding a New York institution to the great detriment of their own interests, and we theredetriment of their own interests, and we therefore feel it to be our duty to call attention to it, and at the same time point to the splendid opportunity to render Cape May the most attractive of all the watering places on our Atlantic coast, when considered in the light of a family resor! We would arouse Philadelphia people to reflection on this subject and effort in this direction, that our city may be benefited by the vast influx of visitors to the Island who necessarily must pass through Philadelphia, and whose supples must of course be largely drawn from our city.

and whose supplies must of course be largely drawn from our city.

The magnificent beach at Cape May, so smooth and even, so safe for bathers, and so pleasant for walks and drives, is beyond quastion unequalled. The nearness to Philadelphia and the convenient arrangement of travel, the short time trains, all should weigh with those who are about deciding where to spend the summer and business men who would like to summer; and business men who would like to locate their families at the Shore, and who need occasionally to come to the city, will specially make a note of the special effort of the Cape May Railroad Company to accommodate in this postlener.

particular.

Many improvements in the streets, drives, Many improvements in the streets, drives, and public houses at the Island have been made since last summer, and no better hotels are found anywhere than Congress Hall, so admirably kept by J. F. Cake, Esq., and ably assisted by Colonel Ware. The Columbia and United States are also first-class. Our sojourn at Congress Hall, and knowledge of its excellent arrang; ments, enable us to speak in its highest braise.

A GENERAL FIGHT OF RAMPANT ROUGHS .- We have in our midst an immutable individual by the name of Tem Holland, short, stout, not particular in his company or language, and hailing from England. Twice has he been reported as dangling between heaven and earth; thrice had it been said that he has succumbed to some stronger foe; twice stabbed, and as many times shot, the last of which is still fresh in the public memory. Yet he exists, as ram-pant as ever, and continues to manage his "habitat" for kindred spirits at Front and

Wainut streets.
About 3 o'clock this morning his house had received its complement of callers—John Roberts, Annie Roberts, John Bigley, Maggie Minston, John Holland, Bridget Dockerty, and Johanna McDermott, among which the cnief in mischief was Tom. Whisky was soon getting the best of them, and about hair-past 3 o'clock a regular row was inaugurated. Such fighting a regular row was inaugurated. Such fighting, and yelling, and throwing of glasses, and gouging, and swearing, amid which Annie Roberts was kicked down stairs, and Maggie Minston knocked into a corner, and Bridget, with eyes closed, and presenting a frightful spectacle, was doing that with her lungs which her hands were unable to do—altogether presenting a spectacle which surpassed anything of a similar nature in preceding years.

The wrath of the parties culminated when Tom Holland, dashing up stairs as fast as his

ARRESTED FOR LARCENY, - Officer Kelley ARRESTED FOR LARCENY. — Officer Kelley arrested a colored man named Jesse Clay, alias James Jones, about 5 o'clock this morning, who had in his posses-ion a lot of harness, garden hose, umbrellas, coats, and ladies' wearing apparel, which he had taken from some place. He said that another man had invited him to go with him to a place about six miles north of the city; he did so, and alleged that the other party stole the goods and gave them into his custody. As this would not go down with the officer Clay was locked up, and Alderman Maule held him to answer.

THE WHEATLEY DRAMATIC ASSOCIATION WILL perform at their new hall, Fifth and Gaskill streets, to-morrow evening to raise funds for the ruspose of still further improving their stage accessories. All of the friends of the Wheatley, as well as those who wish to foster amateur dramatic talent in our city, should attend to-morrow evening.

THE TRIALS OF ALBERT R. SCHOPHELD—HE IS ASSAUTED THIS MORNINS.—Mr. Albert R. Schofield appeared at the Mayors office yesterday morning and entered a complaint against Assemblyman Josephs It is alleged that on Saturday night Josephs and two or three friends got into a carriage and went to the house of Schofield, No. 1522 N. Tweifth street. They reached the house about 10½ o'clock. The bell was rung, and Mr. Schofield opened the door. It is then charged that Josephs struck him on the head and face with a black-jack. A warrant for the arrest of Josephs was issued, and a hearing in the case will take place before Alderman Beitler to-morrow afternoon. THE TRIALS OF ALBERT R. SCHOPHED-HE

will take place before Alderman Beitler tomorrow afternoon.

There was a good deal of excitement in the
Fourth Ward yesterday, and earnest endeavors
are being made towards a pacification of the
trouble. Alderman McMullen, who is balf for
Mr. Josephs, will probably succeed in smoothing the troubled waters.

This morning, however, the tribulations of
Mr. schofield received quite an impetus. He

Mr. Schofield thereupon requested Mr. Conway to go about his own offsirs, as he did not wish to have anything to do with him. Conway then made unmistakable preparations to assault Mr. Schofield, when the latter moved out of his way.

At this moment Lieutenant Fuller appeared upon the field of battle, and at the request of Mr. Schofield his antagonist was forthwith taken into custody. The combative Conway was conducted into the presence of Alderman Beitler, who happened to be on the bench, when the above facts were developed by the testimony of the speciators of the row. The result was that Mr. Conway was required to give ball for his appearance at Court, in the sum of \$600. of his way.

—About 11 o'clock this morning, a man named Edward Burton, workman in a cooper establishment No. 562 Penn street, was found by his brother workmen lying in the shop, terribly benten and senseless. The affair is somewhat benier and senseless. The affair is somewhat mysterious. Mr. Burton was taken to the hos-pital in an insensible condition. Inquiry into the case has led to no clue as to

who committed the deed. Two little boys, going into the shop for shavings, upon feeling around in the piles of silck and timber, discovered the wounded man lying near his bench. Calling some workmen, aid was procured, and he was carried to the hospital. An examination by the surgeon resulted in finding two marks on the forepart of the head, abrasures of the scalp and bone of the skull, as if done with the sharp end of a club. It is said that the deed was committed with a heavy stave, which was found in the vicinity of where the man lay, covered with

Burton's face is terribly lacerated, as if struck with some pronged instrument; the flesh is torn, and wounds appear all over him. A large contusion was found near the onter edge of the left eye, seemingly caused by being struck with a sharp stake. It is believed by the medical gen-tlemen in attendance that the wounded man cannot survive long, and that his death, should it occur, will result from the wound near the eye. Burton resides at No. 114 Carpenter street,

eye. Burton resides at No. 114 Carpenter street, and has been but lately married.

The affair is involved in deepest mystery, no evidence of the perpetrator being obtained. It could not have been for money, for Burton had but six pennies and an old memorandum-book in his pocket. He worked alone in the shop, which accounts for the discovery just at 11 o'clock, when the congealed blood and thick clots about were palpable evidence that the deed had been committed some time before, The young wife of Burton is at the hospital. The young wife of Burton is at the hospital, almost distracted with sorrow.

"STOP THIEF!"-Yesterday the attention of Day Sergeant Johnson was called to the cry of "Stop thief!" as he was proceeding up Eighth street, near Race. He overhauled the man and found in his possession five dozen handker-chiefs. He had a hearing before Alderman Beitler this morning and gave the name of Isaac Wise. He is a German, and arrived in this country on Friday last, when some of his fellow-countrymen of the Jewish persuasion took him in land, and started him out with the handker-chiefs to sell, he not being familiar with the law

The Israelite who gave him the goods to sell,

A SAD ACCIDENT RESULTS FROM THE CARE-LESS HANDLING OF A PISTOL.—Mr. John Gra-ham, residing at No. 1930 Howell street, was last evening, about 7 o'clock, carelessly hand-ling a pistol. He thought it anloaded, tait in drawing back the hammer it slipped, and fired off the pistol, its contents taking effect on the left side of the head of his wife, making a very serious wound. Mrs. Graham fully exonerates her husband from any evil intent. The couple have been married but a short time. As soon as the accident had occurred and the wounded lady had been properly cared for, Mr. Graham gave himself into the custody of an officer of the Sixth District, and was placed in the Station House cell, to await the result of his wife's

A LAWYER ON THE MUSCLE.- Early yesterday morning a rather amusing scene occurred in the neighborhood of Eighth and Jefferson streets. Hezekiah C. Ulliman, a member of a Fifth street law firm, indulged in the use of his field to such an extent as to bring blood from the nose of a liquor merchant named James E The affair arose out of an interference on the

part of the said merchant with a business transaction of the lawyer in Allentown. One of the belligerents was taken off the field by a policeman, and the other was left to adjust his disordered wardrobe.

AN ASSAULT WITH INTENT TO KILL .- Henrietta Waters, a colored woman of 65 years, got into a difficulty with a female compeer of size and age alike, at Sixth and Bedford streets, last night. An affray ensued, in which Henriet-ta snatched a large case knile from a table near at hand, and stabbed her opponent in the left breast, making a frightful wound. The latter was taken to the hospital, and the former was conveyed to the lock-up. This morning Alder-man Tittermary committed her to prison.

STOLE A VALISE .- Alderman Allen committed John Thompson yesterday for stealing a value filled with clothing from the Pennsylvania depot.

TREASURY DEPARTMENT, OFFICE OF INTERNAL REVENUE, WASHINGTON, June I, 1867.—Sir:—I reply to yours of the 23d ult., that a brewer not operating, and not liable as such during May, June, July, and Angust (as you state), should be assessed for paly the balance of the special tax year as brewer.

If the party, on the expiration of his special tax receipt as brewer, transacts business as liquor dealer. The manufacturer of fermented liquor may thus elect to pay as brewer for the whole year, or pay in the two capacities of brewer and liquor dealer.

Brewers paying special tax at the rate of \$50 only, under the provise of paragraph 17, section 18, should be assessed "for a ratable proportion of the amount to be brewer, as well as for a ratable proportion of the tax to be assessed."

For example, a brewer of this class, liable from the lat of September (as stated), pays \$33.33 (the two-thirds of \$50 with liberty to manufacture any quantity less than the two-thirds of 500 barreis. If, in one or two months, or one or two weeks, etc., he reaches this limit, his special tax receipt is exhausted, and thenceforth he should be assessed at the rate of \$100 per annum, as a brewer manufacturing at a greater rate than 500 barreis per year, as per said provise and decision 17, still in force.
