AN INTERESTING LETTER. ELLICOTT CITY, Md., April 19, 1867.

COLTON DENTAL ASSOCIATION, 737 Walnut street, Philadelphia, 737 Walnut street, Philadelphia. Gentlemen:-Desiring to do an act of justice to Dr. Colton, the foundar of your association, and the originator of the use of Nitrous Oxide Gas for the painless extraction of teeth, I give you my experience with its use. You extracted four jaw teeth for me without the slightest pain four jaw teeth for me without the slightest pain or unpleasant after-symptoms. I took two doses of the gas at one sitting (without leaving the chair), for the purpose of accertaining if so large a quantity would give rise to unpleasant symptoms. The effect was altogether very agreeable. I felt as if I had enjoyed a refreshing sleep.

Ing sizep. For my wife you extracted two jaw teeth. Sho was at the time in very delicate health, and suffering from great debility and nervous pros-tration. She experienced no pain, and no un-pleasant symptoms followed the administration tration

I have sent over a hundred persons to you, I have sent over a hundred persons to yon, and in ho case has there been pain or unplea-sant results. In one or two instances, where persons have gone to other parties, unpleasant symptoms followed. This was probably attri-butable to inexperience in the manufacture and administration of the gas. During the late war I had large experience in the use of chloro-form, ether, etc. There is always more or less danger attending the use of these agents, and their administration is frequently followed by mausea and nervous prostration. The Nitrons Oxide Gas, as made and admin-tetered by you, is entirely devoid of all danger.

tatered by you, is entirely devoid of all danger, even to the most delicate female, and is plea-sant and efficient. Very respectfully, P. BURNS, M. D.

An orchestra will be in attendance and discourse appropriate music. Everything that will tend to make the exercises interesting has been secured, and those who desire to enjoy a rich intellectual entertainment, as well as hear the sweet strains of music, could not spend as short a time more profitabiy than by gracing the occasion with their presence. Besides, an opportunity will be offered to see the new Hall, which is without doubt one of the finest in the country. The community at large should overflow the Hall at the Commencement of this country. The community at large should over-flow the Hall at the Commencement of this time-honored institution, and show by their presence that they are interested in its weifare.

THE WRECK OF THE NEW IRONSIDES-WHAT TO BE DONE WITH IT .- All that remains of this famous iron-clad-the pride of the "Quaker City"—can be detected only by the blackened bow which rises just above the water in the Delaware, where she sank. Its iron walls, so formidable, sgainst which the guns of Sumter hurled forth their iron storm in vain—have an inglocing watting place in a madde bed The inglorious resting place in a muddy bed. The ruined hull of the New Ironsides—after the fire of last winter, with some remains of its iron masts and iron sides, was an object which could be seen for some distance away from her resting place off League Island; but gradually she has gone down in the mud until the waters of the Delaware have almost bid her from view Delaware have almost bid her from view. A disposition of the iron hull has at last been effected. Mr. Thompson, of New York, having purchased the remains of the Government for 45,000, will soon commence to raise the hull. Fo do this the labors of submarine workmen will be called into requisition, and the iron, as it is raised, will be forwarded to New York and remanipulated by the owner into massive iron targets for the use of the United States.

A BENEFACTOR .- One and all who have been placed under Dr. Colton's treatment express the placed under Dr. Colton's treatment express the ntmost confidence in his skill, and in the prac-ticability of his great srt. That which was ex-cruciating and painful-for all know what twinges, and aches, and hours of misery at-tended the old mode of extracting ivory offenders-has become a pleasant and painless operation. The use of Nitrous Oxide Gas, of which Dr. Colton is the originator, has become which Dr. Colton is the originator, has become one of the most useful and important benefac-tions to the people. More than twenty thousand in this city—an army of people who testify to its refreshing powers—have taken this Gas, and endured in blissful ignorance the extraction of a refractory tooth which has been a constant source of misery. Dr. Colton's rooms are at No. 787 Walnut street.

I went back again: a great many people were standing in front of the building previous to the failing of the wall: I saw Mr. McCusker try to get the crowd back; but no other: I repeatedly cautioned the men to keep back; the front wall was only a nine inch wall; it was strong encugh as long as it was supported by the joists and girders, but the moment they burned away it fell.

it fell, Fire Marshal Blackburn sworn—Have been engaged in making an investigation since the fire; from all I can learn it broke out in the loft; it was confined to the loft for some time; the fire was evidently the work of design; I consider it a clear case of incendiarism; Terrence McCusker sworn—Am Assistant Engineer of the Fire Department; was present at the time; went in the building, but found no fire: I then went out on Samom street, and found the fire to be in the loft; Mr. Shermer advised me the wall wasn't safe; he told me to get the firemen to take the ladder away; I did so: by this time the whole building was on fire; I told the other Engineers to watch certain portions of the building, and went around on Walnut street; I found some members of the Hibernia were pressing their way up stairs; I ordered them ont, and they came out; I then found that the Liberty Hose Company had dragged about fitteen for to the hose in the door: I requested them to come out, which they dki: afterwards I went to the Lafayette Hose, and asked them to lead me the pipe, as I wanted to drive the crowd back, so as if the man enging the streams off the wall beil; I saw liquor there; I knocked the bead out of a barrei; don't know what was in it; at one time there was an ordi-nance requiring ropes to be kept at each Station tho the fire, and stretch it across the street; If the is the firemen could jump out of the Was to take it was to the the streams off the wall tell; I saw liquor there; I knocked the bead out of a barrei; don't know what was in it; at one time there was an ordi-nance requiring ropes to be kept at each Station the tar, and stretch it across the street; if the citizens could be kept back the firemene could work better. Gorge Hensler, Assistant Engineer of the Fire De-pariment, sworn — He simply corroborated Mr. McCusker's testimony, and added that the firemenen tormed a line to drive the crowd back, but it was of no avail. The jury rendered the following verdict;—"That the Fire Marshal Blackburn sworn-Have been engaged avail. The jury rendered the following verdict:--"That the said John W. East, John W. THE RIVERSIDE INSTITUTE FOR BOLDIERS' AND SAILORS' ORPHANS. - The plan of the Washington Library Company for the endowment of the Riverside Institute meets with general approval and encouragement from all quarters. The Commissioner of Internal Revenue, and the hignest legal officials in the State of Pennsylvania and the county of Philadelphia, would certainly have withheld their sanction from it if they had not been satisfied with the honesty and uprightness of those associated with the affair. The Washington Library Company have no concealments, will shelter themselves behind no subterfuges. The enterprise they have undertaken is so noble, so patriotic, and so entwined around the hearts of every American man, woman, and child, that neither fraud nor deception are required to insure its success. Let us examine the proposed plan of operation. Stripped of all the accessories of language necessary to elucidate, the plan is simply this:-Subscriptions of One Dollar are elicited, for which a certificate of stock is given, which entitles the holder to an engraving worth, at retail, at least fifty per cent. more than the money paid in, and a present besides. Every stockholder receives some present. In order that the undertaking may be made more speedily available for the benefit of the soldiers' and sailors' orphans, the Managers have offered \$300,000 worth of presents, one of which you are sure to receive, in addition to the picture.

The principal office of the Company is at No. 1225 Chesnut street, on one of our most public thoroughfares. Any information or explanation will always be cheeriully given by officers in attendance. Everything is fair, honest, and above board. The object is one which appeals to every friend of the Union. The entire net proceeds will be handed over for the endowment of the Institute, and no individuals will be benefited thereby. The funds, as received, are paid over to the Receivers, Messrs. George A. Cooke & Co., bankers, No. 33 S. Third street, and we cannot conceive of any other checks and safeguards which the Trustees could have adopted to insure fairness and success.

All that remains must be done by the people themselves. Let them come forward and subscribe for the shares at once. Remember, that the best monument we can raise to the memory of our dead soldiers and sailors, is a nome for their orphan children !

KELLY'S NORTH AMERICAN GIFT CONCERT IS icensed by the United States Government, and is declared legal by the most eminent counsel in the State of New York. It will positively take place Saturday. July 18, 1867, at Cooper Institute, New York city. All who wish to secure tickets in this, the largest and most successful enterprise of the kind ever inaugurated in the world-one that has never fallen under the suspicions which have at last ruined others of the kind-will be obliged to speak and act or write quickly, as the entire number of tickets, half a million, is nearly exhausted. Every ticket receives a gift; the highest one \$30,000, and the amount to be distributed is \$500,000, including \$100,000 in greenbacks.

Single tickets, \$1; five, \$4'50; ten, \$9, and twenty for \$17'50.

A committee to be chosen by ticket-holders at the first concert will distribute the presents at once, and their report will be published in Kelly's Weekly, with portrait and biographical sketch of the persons receiving the thirty largest gifts, and sent to all ticketholders. Tickets are sent everywhere on receipt of price. Persons sending orders should address A. A. Kelly & Co., No. 691 Broadway, New York. Tickets sold for concert to take place at Wabash Avenue Rink, Chicago, Illinois, are good for this con-cert at Cooper Institute, New York city.

went open new viscos stand, i read the disry at that time. By Mr. Pierrepont.—The carbines were loaded, and drew the loads at the War Department. By Mr. Merrick—The diary came into our posses-sion at 6 o'clock; I think I took it from Booth's per-son; I hand it and other articles to the Secretary of War; the carbines were brought up afterwards; no one came up on the boat with me after Booth's death. At 12:30 the Court took a recess of half-an-hour. Amongst the visitors at the Surratt trial to-day are the Hon. N. B. Judd and Robert Lincoln. son of the late President.

The Indian War.

The Indian War. St. Lours, June 25.—Omaha despatches report a general cessation of Indian hostilities along the Platte route. General Angur has reached Fort Laramie from Fort Morgan, all well. Captain Mix's company, after scouting the headw-aters of the Republican river in all direc-tions for eight days, going one hundred miles south, returned to Fort Sedgwick on Saturday, having seen no Indians nor any sign of them. General Potter returned from Pole Creek crossing, after an absence of four days, without seeing any Indians.

General Potter returned from Pole Creek seeing any Indians. Colonel Green, with five companies of in-funtry and cavalry, leftFort Phil Kearney June 4, with supplies for Fort C. F. Smith, nine miles north, with which post communication had been cut off all the winter. The Indians seem to have left the Platte valley, some going North and West, and others South. The latter are un-doubledly those who made the raid on the Smoky Hill route and the Kansas and Pacific Railway on Saturday last. Outrages on the Arkansas, and in the vicinity of Fort Dodge, and along the Santa Fe route are reported, and it is not impossible that the theatre of war will be changed from the Platte and Smoky Hill to the Arkansas and country south of H. A. St. Joseph special says that General Terry for General Sherman have each written letters ponement of the contemplated exploring expe-dition to the Black Hills. They say that that any attempt to occupy it by the whites will be resisted by the Indians, and that in the present of affairs the Government cannot furnish protection. The telegraph line from for Cooper to South Pass, a distance of 175 miles, is now and has been for two weeks in the hands of the Indians.

The President at Boston:

The President at Boston: Boston, June 25.—This morning at 10 o'clock the President, in company with Secretary Seward, Posimaster-General Randall, Surgeon Morris, Colonel William G. Moore, and others, was esserted to the Capitol by several members of the Governor's staff and a committee of the municipal authorities. A military guard had been placed in front of the Capitol, and, as the party passed through, the guard presented arms and the band played "Hall Columbia." Thousands of persons of both severs were ob-servers of the scene. Loud and oft-repeated huzzas by the multitude greeted the Chief Magistrate of the Republic and the Secretary of State. of State.
