A United States Iron-clad in Post .- Yes A United States Iron-clad in Port.—Yesterday the United States monitor Miantonomah, Commander Beaumoni, and the United States steamer Augusta, Captain Murray, arrived at this port, having been five days and eight hours from Nassau, New Providence, W.I. These vessels sailed from New York on the 6th of May, 1866, and have, therefore, been absent from the United States near fifteen months. They went to accompany the late Assistant Secretary of the Navy, G. V. Fox, Esq., to Russia, he being the bearer of the congratulations of Congress on the Emperor's eneape from assassination.

gratulations of Congress on the Emperor's escape from assassination.

They have visited the following places:—Halifax, Nova Scotia; St. Johns, Newfoundland; Queenstown, Ireland; Porismouth and Sheerness, England; Copenhagen, Denmark; Helsingiors, Finland; Cronstadt, Russia, where the officers visited St. Fetersburg and Moscow by invitation of the Emperor, and being his guests; from their to Stockholm, Sweden; Kiel, Prussia: Hamburg, Germany; Cherbourg and Brest, in the north of France; Lisbon, in Portugal; Cadiz, Malaga, Gibraliar, Carthagens, and Barcelona, in Spain; Marseilles and Toulon, in the south of France; Port Mahon, Island of Minora, Genoa, Leghorn, Spezzia, Rome, and Naples, returning by way of the Canary Islands, Cape de Verde, Barbadoes, and Nassau.

They were visited at Sheerness by the Prince of Wales, the Duke of Edinburgh, and Lords of the Admiralty; at Copenhagen by the King and Royal family of Denmark; at Cronstadt, by the Emperor and Royal family of Russis; at Stockbolm, by the King of Sweden; and Prince Oscar and at Lisbon, by the King of Portugal. Of course, the great cause of attraction was the mountain.

Of course, the great cause of attraction was the

monitor.

The seas-going qualities of this huge monster have been fully and their ughly tested, and no doubt can now exist as to her perfect capability as an occar v-ssel.

During the terrific storm and hurricane that occurred on the southern coast of Europe on the 28th of Feormary, 1866, she rode in perfect safety, and sailed from Toulon the same day as the French tronglant flast. The latter returned the French iron-clar fleet. The latter returned to port with a loss of boats and several lives, while the monitor rode out the gale, clearly demonstrating her superiority over the French iron-clads.

The passage across the Atlantic, from Johns to Queenstown, was accomplished in ten days, and the homeward, from Cape de Verde to Barbadoes, in thirteen days, the average speed being seven nautical miles,

Barbadoes, in thirteen days, the average speed being seven nautical miles.

The following is a list of officers of the Augusta:—Captain and Senior Officer, Alexander Murray; Lieutenant-Commander and Executive Officer, James M. Prickett; Lieutenant-Commander and Navigation Officer, James D. Graham; Paymaster, Judson S. Post; Chief Engineer, James M. Adams; Surgeon, W. K. Schoffeld; Masters, J. D. Weaver, C. H. Davis, and H. W. Dickins; Ensign, R. C. Hooker; Acting First Assistant Engineer, Charles Stick; Acting Second Assistant Engineers, J. E. Hillard, J. Waubens, and G. C. Cartell; Acting Third Assistant Engineers, Hughes and Pennington; Boatswalp, George Smith; Paymuster's Clerk, J. H. Fancher; Captain's Clerk, Joshua Blake.

AN EXCITING INCIDENT .- Last Saturday afternoon, about 4 o'clock, as the steamer Ariel was noon, about 4 o'clook, as the steamer Ariel was ringing the last bell, announcing the starting time for Chester and Wilmington, two ladies dressed in mourning, a little girl of twelve or fourteen years, and a colored nurse and baby, appeared on the south side of Chesnut street, hurrying to get aboard. Befere they reached the end of the wharf the bell had ceased ringing, the gang planks were hauled in, all the lines, except the forward hawser, were cast off, and the wheels had turned in the water. The party however, seemed year anxious to get and the wheels had turned in the water. The party, however, seemed very anxious to get aboard, and many of the passengers rushed to the port side to witness their efforts. The steamer forced ahead a little and the elder lady was gotten aboard without much difficulty. The little girl came next, but by this time the stern of the boat had swung out into the stream, and it seemed next to impossible for the child to make the step. The pilot, however, with the single hawser mentioned, held the boat "by the nose," as sailors call it, as well as he could, and a gentleman lowered himself from the hurria gentleman lowered himself from the hurri-case deck to the outside of the guards, and, holding on to the jack stays with one hand, caught her left hand in the other, a second gentleman, leaning out of the side port, caught her by the right hand, and in a moment she was hurrying over the rushing waters, not less than thirty feet doen with only the tips of her than thirty feet deep, with only the tips of her toes on the narrow ledge of the guards. Slowly and carefully she was drawn to the port, aud, to be great relief of all, was safely embarked.

During all this time the tide continued to increase the distance from the wharf, by cutting the steamer out; and it was now considered absolutely impossible to get any more of the party aboard. The young lady looked very much perplexed at the odd situation of affairs, and the nurse was wondering what she should do with her little charge, when a gallant colored boy jumped out on the guards, and, holding on by his right hand, moved rapidly to the nearest point to the shore, where, by a long and dexte-rous reach, he managed to grasp the bab-around the middle with his left hand, and tear it from the arms of the bewildered nurse a few moments the little thing, envelope red hood and cloak, was suspended in mid air; but a dozen strong arms hurried to the rescue, and the boy and the baby (which was as good as a kitten) were unceremoniously hauled inmide, greatly to the delight of the anxious mother. Such scenes on the river are fortunately rare. Gentlemen frequently jump on to steamers after the planks are in; but bables, we believe, are seldom "shipped" by such sum-mary process. A little reflection must convince all of the danger of such acts, either by young

THE MONTHLY MEETING of the Young Men's Christian Association was held last night in the Hall, No. 1210 Chesnut street, Peter B. Simons, Esq., presiding. After brief religious exercises, the minutes of last meeting were read and ap-proved. Mr. Simons then stated that the meeting would be addressed by delegates from the Montreal Convention. He gave an interesting account of the meetings of the Convention, which, he remarked, commenced on the Hud-son river boat. He also stated that the reports of different ascociations showed them to be in a most prosperous condition. Mr. Tolman spoke of the deep religious feeling that pervaded the meetings, and hoped that the good derived from these meetings would result in greater religious activity at home. He offered the following resolution, which was passed:—

Resolved, That the Devotional Committee be in-structed to hold religious services in the reading room for fitteen minutes before closing every night.

Mr. Culliss spoke of the hearty welcome given to the Convention, and the respect and honor paid them by the Christian people of Montreal, not only because they were Christian delegates, but because they were Americans. He related several incidents showing the respect for and deep historical in our paid only a proposity only several incidents showing the respect for and deep interest in our national prosperity entertained by the best of her Majesty's subjects. He stated that, as a result of the Convention, new life was imparted to many associations; while new organizations were springing up everywhere. Mr. Thissell spoke of the power of printed truth distributed among the people, and offered to donate as much as the Association could use. The offer was accepted, and the matter referred to the proper committee. After the election of seventeen new members the exercises, which were deeply interesting throughout, closed with singing.

PLEASANT EXCURSIONS .- This summer the

Phrasant Excussions.—This summer the ratiroad running from Camden, N. J., to Cape May has become exceedingly popular as an excursion route, the different bodies which have gone over it having been well pleased with the experiment they had made. It is certainly a delightful summer trip, and Cape Island, the point of destination, is unrivalled in its attractions as a summer resort.

On the West Jersey Railroad, at a distance of twenty-one miles only from Philadelphia, a charming place known as "Union Grove" has been opened, and is now largely patronized by churches and Sunday Schools who desire to go on short excursions, so as to have almost the entire day to themselves in the woods, For such purposes "Union Grove" is one of the most attractive within reach of Philadelphia.

Engogging The Law.—Vesterday Dennis

ENFORCING THE LAW. Yesterday, Dennis Considine, who is the proprietor of the saloon at Second and Wainut atreets, where Mr. Blunden was stabbed on Sunday evening, was arrested for selling liquors contrary to law, thereby endangering the peace of the community. Recorder Enen held him in \$1000 ball to answer at Court.

AN IRREPRESSIBLE AGAIN IN LIMBO .- William An Interpression to the party of three who so violently assaulted Mr. Pollock at Tenth and Filbert streets a night or two since, was again taken in custody last evening, for engaging in a street fight. Officer Moullie conveyed him to the lock-up, and Alderman Swift held him in the lock-up, and Aluraball to answer at Court.

AN EXPLOSION—Two MEN SEVERENT INJURED, AND A STREET PRACAS.—Last night about it o'clock an explosion o'ccurred in the whisky distillery owned by Owen Kavanagh, and located on Warnock sireet, below Jefferson. It spears that two men, Edward McShay and John Dorsey, were drawing off spirits from a tub into barrels, when the former, thinking that it did not run last enough, started for a light, in order to make an examination. He came too near to where the spirits were flowing, which, being ignited by the flame of the candle, biew up with great force, scattering drops of the up with great force, scattering drops of the fishing liquid all around. Meshay and Dorsey were severely burned about their faces. The former was taken to St. Joseph s Hospital, and he latter to his home, on Prospect street, below

The alarm of fire, of course, brought the fire The alarm of fire, of churse, brought in the excitement common to a scene where everybody hunts for a fire when such a thing has ceased to exist, the members or attaches of the R nggold Hose and the Humane Hose got into a squabble, wherein one William Hurly was struck over the head by a freman's trumpet, and knocked down, with a large gash extending across his forchead, from which the blood flowed profusely. He got up and walked to Kuntz's tavern, at Eleventh and Master streets, and from thence to Dr. Roberts' office, where he become the control of the contro came insensible, and remained so until this morning. The wound is a severe one, though not considered dangerous. The building wherein the fire occurred was not damaged to any very great extent, the woodwork only receiving a

THE FIRE LAST NIGHT about 12 o'clock originated in Whithelmer's shoe store, No. 203 N. Second street. The stock, fixtures, etc., of the Second street. The stock, fixtures, etc., of the store were greatly damaged, and the loss will probably reach \$1000, fully covered by insurance. The fire is supposed to have been caused by the throwing of the stumps of lighted cigars into a spittoon filled with sawdust. The firemen arrived on the spot and soon extinguished the flames. The family were asleep in the upper part of the building when the fire broke out and it was with great difficulty they broke out, and it was with great difficulty they

FILTRY STREETS .- The citizens in the vicinity of Perth street, between Parrish and Poplar, call the attention of our municipal authorities -those who are supposed to have law in the matter-to the fifthy condition of that thor-oughfare; made so, as alleged, by the nightly cleaning of about thirty horses on the pave-ment and walk, and shaking the straw from quantities of manure in the street. Can't something be done to stop it?

FATAL RAILROAD ACCIDENT .- About 11:30 last evening an unknown man was instantly killed by falling off of the bumper of one of Adams & Co.'s Express freight cars, and being run over, at Twenty-third and Market streets. The body was taken to the Station House, and has not since been recognized.

Assaulting an Officer was the charge upon which John Deitz was held in \$800 ball to answer at Court. He was drunk, and when being taken along Cadwalader street, near Thompson, stabbed the officer in the back with a pocket-knife.

A FEMALE PURLOINER named Margaret McGinnis was arrested at her residence, No. 624 North Twelfth street, for the theft of some wearing apparel and a floger ring. Alderman Hurley held her in \$500 bail to answer at Court.

UNITED STATES STEAMER JUNIATA .- The steam corvette Junista, recently from the Brazil station, was claced on the Naval Dry Dock at high water on Saturday. She will probably be prepared for a new cruise.

A BRUTAL BROTHER, named Joseph Jackaway, was yesterday arrested on Vienna street, for an alleged brutal assault on his sister some days before. Alderman Sinex held him in \$1000 ball to answer at Court.

SLIGHT FIRE .- A slight fire occurred at No. 617 Swanson street, last evening.

THE REASON WHY .- Many inquirles have been made as to how the Washington Library Company can afford to act so liberally in the plan which they have adopted for the raising of funds in aid of the Riverside Institute for soliers' and satlors' orphans. It will be remem pered that every purchaser of stock not only receives a handsome steel-plate engraving, worth fifty per cent. more than the price of the stock, but is also guaranteed some present in the great distribution to take place hereafter. The company are enabled to act thus liberally from the simple fact that they have made a binding contract with the publisher of these engravings for many thousand copies. Taking a large number in this way the price per single copy is, of course, greatly reduced, and consequently the same engraving which is retailed at many stores in this city for eight dollars, the Washington Library Company can present to the purchaser of five shares of stock, costing five dollars, with a good profit left, which accrues to the Institute. The \$300,000 worth of presents to be awarded have also been obtained in the same manner. Having purchased everything in the largest possible quantities, the cost is of course much reduced, while to buy one of the same articles at retail would require fifty per cent. more cash than is necessary to invest with the Washington Library Company.

HOLLOWAY'S PILLS.-DIARRHIEA,-A sudden suppression of the evacuations frequently ends in collapse. The action of Holloway's mediclines are based on a more rational principle; by combining with the deprayed humors they neutralize and expel them through the natural channels. They purify the fluids, cleanse the bowels, invigorate the stomach, and by regulating the various functions restore the body to its normal state of health. Sold by all Druggists.

SACRAMENTAL WINE.—A pure and unintoxicating wine, prepared from the finest native grown Port Grapes, especially for the use of Christian churches, and guaranteed to retain its grateful flavor and essential qualities unimpaired for any period, by A. TRIAL OF JOHN H. SURRATT.

WASSINGTON, July 23,-The trial of John H. Surratt was resumed this morning in the crimiaval court, Judge Fisher presiding.

Yer. Pierrepont said at this stage of the case he w, anted to offer in evidence the paper spoken of the other day by General Eckert. The paper was not in Booth's handwriting, but from the inquiries that had been made about it, he thought if proper that it should be offered in evidence.

The letter refer red to is the one purporting to have been written by Booth to Dr. Stewart, enclosing an amount of money. The offer was accepted, the defense of 'alring to show that the two letters had been offered as originals, they being in different hand-writ 'ing, both purporting to have been written on leave, a torn from Booth's

Westfall sworn, and examined by Mr. Pierrepont-In April, 1865, I was train may ter on the Philadelphia and Eric Railroad; on Apr. 1 13, 1865, I was at the ferry at Williamsport; the depot for the train south was three-quarters of a mile from the ferry; that day, April 13, two trains arrived at Williamsport from Elmira; the train leaving Elmira at 8 o'clock arrived between 12 and 2 o'clock, and the extra train arrived later; a man came in the extra train, and was anxious to get through; I took him to be a Rebel spy or a Gov. ernment detective, and I gave him but little satisfaction about the moving of the trains, as I thought it was none of his business how the trains ran; I know the ferryman at Williamsport; it was between 12 and 2 o'clock when the man came on the extra train; I had a conversation with the ferryman at 6 o'clock that evening; it is my impression that the prisoner is the man who questioned me about the trains, but I cannot say so positively; I did not see the man after that conversation that day; on April 13, 1865, two construction trains and one switching train was running to Sunbury, one train was running between Watsontown and Sunbury, and the switch train between Sunbury and the ferry; the construction trains were running fast at the time, as the work was urgent; they made about the same time as the passenger trains; I have known extra fare to be charged for extra speed. on April 13 no train left Williamsport; it left the

By Mr. Bradley-My knowledge of the latter fact is from persons telling me; there was a connection, or could be a connection between the construction train and the regular trains; ferry-a train left the ferry at 6 o'clock from Montoursville, another train left at 8:30, and the other train at 9.30 P. M.; these were the only regular trains; the irregular gravel train left Montoursville: the switch engine ran from the ferry to Montoursville, and on April 13 they were running at intervals all days; the gravel trains are allowed to run at the rate of twenty miles per hour; I can't say what speed they made on April 13, 1854; I know trains were running between the ferry and Montoursville; I am sure the trains went to Watsontown; the trains laid over night at Montoursville; it is twenty miles from Montoursville to Watsontown; trains that day started from Montoursville to work; I can't say that a construction train left Montoursville at two o'clock; I have no actual knowledge of the fact they went to Watsonsown, but I know they were working between those points; the trains went to Watsontown for water; there was at that time no water between Montoursville and Watsontown; there has been a water tank erected and supplied since; I know of times when the construction would run from Mon. toursville to Watsontown and back before two o'clook, and return in the afternoon; I can't fix any date when that was done, however; I first saw the prisoner in Court sitting where he is now; I can't remember who pointed him out to me: I was summoned here by Mr. Montgomery, who testified at the assassination trial; I was summoned last Saturday a week; Mr. Montgomery asked me what I remembered about April 13; he told me about a man passing through on the 13th of April: he told me at what time the man was supposed to have reached Williamsport; he described the man's clothing: I do not know that Montgomery said anything about the man crossing the ferry at the first interview he may have done so at the second interview; I have summoned two witnesses for the prose

EXTRACT OF BUCHU

At the Cape of Good Hope the Hottentots have long used BUCHU for a variety of diseases; it was borrowed from those rude practitioners by the English and Dutch physicians, on whose recommendation it was employed in Europe, and has now come into general use. It is given chiefly in

GRAVEL, CHRONIC CATARRH OF THE BLADDER, FOR FEMALE WEAKNESS AND DEBILITY, FOR PROLAPSUS UTERI, DISEASES OF THE PROSTATE GLAND, RETEN-TION OR INCONTI-NENCE OF URINE,

And all diseases requiring the aid of a diuretic, arising from a loss of tone in the parts concerned in its evacuation. It is also recommended in case of

DYSPEPSIA, CHRONIC RHEUMATISM, CU-TANEOUS AFFECTIONS AND DROPSY.

To cure these diseases we must bring into action the muscles which are engaged in their various functions. To neglect them, however slight may be the attack, is sure to affect the bodily health and mental powers. Our FLBSH and BLOOD are supported from these sources. Persons at every period of life, from.

[SPECIAL DESPATCH TO THE EVENING TRLEGEAFH.] Washington, July 23 .- The President has had a gold watch purchased, at a cost of four hundred dollars, to be sent by the ram Stonewall as a present to the Tycoon of Japan. It bears the inscription, "To his Majesty the Tycoon of Japan. From the President of the United States, 1867."

General Sheridan has been summoned to appear before the Special Committee of the House to investigate the alleged frauds in the Paymaster-General's office. Peter Blow, a Government agent, who was sent down South to investigate these frauds, testified to-day before this Committee in regard to the Lowenthal frauds. It is alleged that parties connected with the Paymaster-General's office received two and a half per cent. on all business transacted by Lowenthal as claim agent with that department.
