A GLADIATORIAL COMBAT-117 ROUNDS IN Hours and is Minures.—The contagion for prize-fighting and fistic honors is becoming widespread, and has already assumed a chronic widespread, and has already assumed as a chronic widespread. widespread, and has already assumed a chronic form in some parts of our own city. Times were when difficulties were at once settled ad aryumentum bacoutinum, with regular knockdown scrimmages. But the morals of these fistic litigants have become more exalted and of a bigher tone. Does trouble ensue from some midnight brawi or bar-room encounter, the parties thereto set immediately about reducing their encumbering flesh, hardening their muscles, and to the gradual extemporizing of their digits into mallets of iron solidity. A course of training under the supervision of some "ironman," or noted "square-head," with twenty mile walks, and a diet on raw meats and stiff brandles, is thereafter instituted, and kept up with amazing perseverance and dogsedness worthy of a better cause.

Resorting to this means of settling their difficulty, two parties named respectively William Eckenbrein and Daniel Kasey commenced some time ago to work down their superfluous flesh, inforcer to assume a fitting gladiatorial aspect. Some words, it is said, in which opprobious epithets were freely mingled, occurred between them, and disclaining any common between them, and disclaining any common

blous epithets were freely mingled, occurred between them, and disdaining any common settlement, they determined to fight it out according to the most approved rules of the P. R., and see who was the better man. Each went into training, and when the time of the meeting occurred, had become "light weights" virtually, weighing only 112 pounds each.

The matter was a profound secret with the The matter was a profound secret with the parties and a few confidential friends, fearing that possibly it might leak out and bring down numerous stalwart tipstaves among them. Night before last they met—Eckenbrein, with his second, "Johnny" Lazarus, Kasey, and his prompter, name: Mullin, with nine others, to see fair play. Where the fight took place has not yet transpired. They one by constant not yet transpired. They oue by one entered a room, locked and barred the door, and with the lookers on stationed around the apartment, and their seconds crouching in the corners, the amateur parties stepped into the centre and commenced the work. For two hours and commenced the work. For two hours and thirteen minutes the tremendons battering was kept up, with intermediate slackings and periodical floorings, until eyes assumed a nideous aspect and prodigious size, and noses lost their shape by being bunged with batter ing-ram force, and faces were bloated by contusions and bloody from cuts. Eckenbrein "fald on" with great power and to a portion of the spectators, with pleasing regularity; but he had a decidedly obstinate opponent in the shape of Kasey, who retaliated in a manner which spoke well for his pugilistic capabilities. One hundred and sixteen rounds had been fought, and signs of exhaustion began

capabilities. One hundred and sixteen rounds had been fought, and signs of exhaustion began to make their appearance on Kasey. During the one hundred and seven; eenth he was bandled roughly, and when time was called for the one hundred and eighteenth Kasey failed to respond, the sponge was elevated, and Eckenbrein declared the successful gladiator. The victor resides in the apper part of the city, and is said to be a member of the Northern Liberties. is said to be a member of the Northern Liberties Fire Company. Kasey resides in Kensington. The full details of the affair will soon be made known, no doubt, with a full elaboration of the

known, no doubt, with a full elaboration of the belligerents, the place of contest, and the parties there attending.

The place where these amateur puglists fought has been lately ascertained, and is upon the Wissahlekon. A large amount of money changed hands, the betting at the outset being greatly in favor of the vanquished gladiator. His tout ensemble was a subject of admiration on the part of his backers, who went two to one upon a victory, then thought so apparently easy. Rumor hath it, that other parties on the ground got into a dispute about the respective merits and demerits of each of the principals, which ended in arrangements for another encounter. encounter.

A MONUMENT TO PATRIOTISM AND VALOR .-Among the many gallant heroes who sacrificed their lives and the endearments of home to battle for the cause of their country during the battle for the cause of their country during the late Rebellion, few can show a brighter record than the late lamented General David B. Birney, of this city. Although untrained to the art of war, his services were of such a nature as to merit the approbation of those educated for the field; and also to assist in overthrowing the greatest Rebellion the world ever saw. In consideration of these facts, a number of his friends have determined to commemorate those friends have determined to commemorate those services, and have associated together for the purpose of erecting a monument over his remains in Woodland Cemetery. It will be of Italian marble, twenty feet high, and four feet six inches at the base. On the front of the die is a raised shield, partly covered by the American flag, the die resting on a moulded base, in which is cut the name "Birney" in large raised letters; above this is an elliptic moulded cap, with a laurel wreath on the front; also moulded base which receives the shaft, on which is cut a sword, sash, and scabbard, the whole surmounted by a drapery urn, finished on the top with a rising star, forming an ex-ceedingly chaste and appropriate memonto. The monument is being built at the establishment of Henry S. Tarr & Son, No. 710 Green street, Philadelphia.

A SUSPICIOUS GERMAN IS KNOCKED DOWN .-Samuel Wardlow, residing at No. 1520 Pearl street, was taken into custody on suspicion of and for knocking down a German. THE RIVERSIDE INSTITUTE.-Hundreds of letters are daily being received from all sections of the country, indorsing in the loudest terms the plan adopted by the Washington Library Company, for the raising of funds in aid of the Riverside Institute. These letters are from ministers, lawyers, merchants, and others, many of whom state that they never before took part in any similar arrangement or plan as that proposed by the Washington Library Company, and are conly induced to encourage this from the fact that after investigation they are convinced of the honesty and good intention of those by whom the affair is being conducted, as well as those designated to receive the funds and disburse the same, for the noble purpose named. The public are determined that this benevolent work shall not drag its weary length along, but be pushed rapidly to a successful completion. The shares are being sold so rapidly that it is quite probable that the great distribution of presents will take place before September 25, the time originally fixed. Our readers should not forget that each share not only secures a handsome steel plate engraving, but also guarantees some present, there being no blanks. The principal office in this city is at No. 1225 Chesnut street.

VERDICT OF THE FACULTY-STIMULANTS IN-DISPENSABLE AS MEDICINES.-The most distinguished physicians in the United States have recently been placed on the witness stand, and have, with one voice, declared that pure stimulants are valuable medicinal agents. This decision of the faculty refers especially to medicated stimulants, of which the purest and the best at present known is Hostetten's Sto-MACH BITTERS. Its basis is the alcoholic principle of the finest rye grown in the United States, and its herbal ingredients comprise the extracts of a large number of plants, backs, and roots produced in various parts of the world, and all noted, in the countries to which they are indigenous, for their powerful samative properties. As an invigorant and tonic, the value of the Bitters can scarcely be overrated. Hence its extraordinary effect in fever and ague, and intermittents and remittents of every type. Its antibilious properties are marvellous. Persons of billious habit, by taking a small quantity once or twice a day, may completely change their constitutional tendency to liver disease, and escape all the unpleasant consequences which arise either from the undue sensitiveness or the unnatural torpidity o the biliary organ. Chronic constipation is eradicated thoroughly, and in a very short space of time, by small doses of this wholesome regulator, taken night and morning; and for all the disorders which are superinduced by exhala-tions from decomposing vegetable and animal matter in the streets of cities, or the missma of swampy districts; it is, when taken as a pro-tective and preventive medicine, the most reliable of all safeguards.

THE SURF HOUSE.—No public resort and temporary home stands in higher repute in the famed "City of the Sea" than does the Surf House, under the management of Mr. William T. Caleb. This house has become the most popular retreat. Everything is pleasant, comfort and case come with the first step within its walls. The building is spaceous, the rooms are large and siry, and the whole structure is deliciously cool. It is nearer the ocean than other hotels—but a step, and one can reveal in the surges as they roll upon the sandy beach. Its accommodations are for six hundred persons, and the rates of board are unusually low for so delightful a sea-side summer home. Twenty deliars per week is the price of board, and for servants and children one-half that smount. We feet confident in stating that those desiring such an arrangement, could obtain board for their families. desiring such an arrangement, could obtain board for their families at still lower rates, with the provision that their stay will be prolonged. None should miss the surf House, with its genial host and pleasant surroundings, with all its home-comforts, when they visit Allantic City. Atlantic City.

SOMETHING NEW!!!-The PATENT SHUTTER HOOKS for fastening window-shutters together are probably the latest invention that has suddenly come into universal use. They are ornamental, highly economical, saving a multitude of ribbons, etc., and so effectually serve the purpose of their invention, that every house is being supplied with them. They can be attached with or without cord and tassel. These Hooks are warranted to give satisfaction. No housekeeper should be without them; atmple and durable in their construction, they can be attached or detached by a child. They are an ornament to the shutter, being electroplated and highly finished, dispensing with the old fashioned ribbons. Mr. B. F. Paris is the inventor and has them for sale at his establishment, No. 27 S. Third street, for the exceeding small sum of twenty-five cents per pair. lenly come into universal use. They are orna

THAT DREADFUL AFFLICTION, Epilepsy, Convuisions, or Fits, soon becomes firmly fixed by habit, each attack increasing the liability to a return, and adding greatly to the difficulty of arresting the disorder. In the absence of proper treatment, a mere faintness, with slight muscular twitchings, occurring at long intervals, in time becomes violent convulsions of great frequency, and the patient gradually sinks into imbecility. If relief is obtainable at all after the disease is thus firmly seated, it must be from some treatment which is permaneut in its effects, and which not only has a tendency to effects, and which not only has a tendency to suppress the attacks, but which will remove the morbid tendency to relapse. Dr. Jayne's Alterative has happily been found to answer this purpose admirably. It gradually changes the morbid condition of the system, removes the cause of the disease, and when its use is continued for a sufficient length of time, pro-duces a permanent cure. Let the afflicted try it. Prepared only at No. 242 Chesnut street.

I find "Hoofland's German Bitters" is not an intextcating beverage, but is a good Tonic, useful in discases of the digestive organs, and of great benefit in

[From the Rev. E. D. Fendell, Assistant Editor Christian Chronicle, Philadelphia.] I have derived decided benefit from the use of Hoof-land's German Bitters, and feel it my privilege to re-commend them as a most valuable tonic to all who are suffering from general debility, or from diseases arising from derangement of the liver.

Yours truly,

E. D. FENDALL.

[From Rev. D. Merrine, Paster of the Passyunk Bap-tist Church, Philadelphia.] From the many respectable recommendations given to Dr. Hoodand's German Ritters, I was induced to give them a trial. After using several bottles I found them to be a good Jemedy for debility, and a most excellent tonic for the stomach. D. MERRIGE.

[From Rev. William Smith, formerly Paster of the Vincentown and Mi Ivilie (N. J.) Baptist Churches.]

Havirg used in my family a number of vortices of your Hoofland's German Bitters, I have to say that I regard them as an excellent medicine, especially acapted to remove the diseases they are recommended for. They strengthen and invigorate the system when debilitated, and are useful in disorders of the liver, loss of appetits, etc. I have also recommended them to several of my friends, who have tried them and found them greatly beneficial in the restoration of health.

Yours tully.

Yours truly, William Balletphia,

[From A. M. Spangler, Editor of the Culturist, No. 35 North Sixth Street.]

PHILADELPHIA, July 15, 1895.

Some eighteen months since, I was a severe sufferer from dyspens— I was not only unable to take plain food without sub-ring great distress, but had become so debilitated as to be almost unfitted for active business of any kind.

After trying a variety of so-called remedies, all of which proved worthless, I was induced, at the suggestion of a medical triend, to give Hoofland's German Bitters a trial. I accordingly purchased six bottles, which were taken in accordance with your directions.

bottles, which were taken in accordance with your directions.

The result was a complete removal of all distressing symptoms after eating or drinking, and a full restoration of strength, so that I now eat all ordinary kinds of food with impunity, and am able to attend to all the active duties of a large and ardinous business as well as at any period of my life; the good effects of the Bitters were manifested before I had taken the first bottle.

I have also used it in my family with the happiems results, and take great pleasure in adding my testimony to that of the many others who have been benefited by it. I find great benefit from the use of a bottle in the spring and fall. They not only create a vigorors appetite, but give a healthy tone to the stomach by strengthening its digestive powers.

If the above testimony will be the means of inducing any who suffer from Dyspepla to give your Bitters a trial (when it. I feel confident, will give them relief), it is at your service.

Yours truly,

Rev. J. S. Herman, of the German Reformed Church.

Rev. Levi G. Beck, Pastor of the Baptist Church Pemberton, N. J., formerly of the North Baptist Church, Philadelphia, at present Pastor of the Bap-tist Church, Chester, Pa.; These gentlemen express, in the strongest terms, their faverable opinion of this Bitters.
