# THE DAILY EVENING TELEGRAPH-PHILADELPHIA, FRIDAY, AUGUST 2, 1867.

#### CAMDEN AFFAIRS.

REDUCATIONAL ENTERPRISE IN CAMDEN .- The EDUCATIONAL ENTREPRISE IN CAMDEN.—The Trustees of the Philotechnic University, which was chartered by the Legislature of New Jersey at its last session, have engaged the upper halls of Morgan's building for their schools and lee-ture-rooms, which will afford them greatly enlarged accommodations. The energy ex-hibited by the gentlemen who have undertaken to establish a college in Camden makes its suc-cess no longer a matter of doubt, and the confi-dent tone in which they challenge other insti-tutions to present any better system of instruc-tion than that which they have infroduced, shows that they are earnest in their convictions of its superiority. The scholars at present shows that they are earnest in their convictions of its superiority. The scholars at present number seventy five, showing an increase of over five hundred per cent in the last year. This argues favorably for the popularity of the school among the citizens. The method of in-struction is somewhat peculiar: but as it imparts the necessary knowledge without subjecting the pupil to be continually poring over their books, it deserves to be, and undoubtedly will prove a success. prove, a success.

ARREST OF PICKPOCKETS .- Last evening a ARREST OF PICKPOCKETS.—Last evening a despatch was received from Long Branch by the Mayor of Camden, stating that three pick-pockets had left that place bound for Philadel-phia, and requesting his Honor to detain them, as their presence was required there. Officers Owens and Ayers immediately repaired to the depot at Cooper's Point, and swatted the arrival of the train. When it stopped at the platform they observed three men, one of them answer-ing the description given in the despatch, and they arrested them. They were very reticent, and refused to give their names. Upon being searched only \$2 was found upon them. They were locked up, and as soon as some of the authorities from Long Branch arrive, they will have a hearing. have a hearing.

A SUPPOSED THIEF FIRED AT .- About 2 A BOPPOSED third That A.- RADAU 2 o'clock yesterday morning Officer Mason over-hauled a man at Market street ferry, having under his arm a large bandle. He told him to hold up, when the individual started off on a run. The officer requested him to stop or he would fire. The man kept up his pace, and notwithstanding Mason fired two shots at him, he would not halt, but ran as fast as he was able, and escaped.

THE RAIN .- The rain fell in torrents last evening, and in some of the streets enough water accumulated to float a small-sized yawiwater accumulated to hoat a small-sized yawi-boat. The culverts which have recently been placed in the streets prevented, in a measure, the accumulation of water in those streets, which has heretofore been a great annoyance to the cilizens and a subject of completion to comthe citizens, and a subject of complaint in consequence

A NEW HALL .- The new hall at the corner of Fourth and Plum streets, which has been in the course of erection for three months past, is nearly completed, and will be formally opened in a few days. Mr. George Getz is the owner. It will prove an ornament to the neighbor-hood, from the beauty of its architecture and its handeame appearance. handsome appearance.

DELAWARE STREET .- The work on Delaware street is rapidly approaching completion, and soon this long desired desideratum will con-nect the two ferries, and a long jaunt will be be avoided by those who are so unfortunate as to miss the boat at either ferry.

# CITY INTELLIGENCE.

# [FOR ADDITIONAL LOCAL ITEMS SEE INSIDE PAGES,]

THE COLUMBIA FIRE COMPANY OF PITTSBURG-THE COLUMBIA FIRE COMPANY OF FITTSBURG-THEIR New STEAMER.—For some time past Mr. Robert Frazier, of this city, has been at work upon a splendid new carriage for the Columbia Hose Company, of Pittsburg. That company—which, by-the-way, is the only inde-pendent fire organization in "ye smokie citie" —learning that Philadelphia manufacturers could turn on those carriages that for elegance of pendent fire organization in ye sinulate chile —learning that Philadelphia manufacturers could turn out hose carriages that, for elegance of appearance, and durability in active use, could not be excelled, made arrengements with Mr. Frazier for this carriage, to be built under the supervision of the Columbia Engine Company, of this city. It has just been completed, and will vie with any apparatus of its kind, in all the requisites of a good carriage. The wheels are those known as the "New Haven patent," upon which rest highly polished steel springs and border tipped with gold-leaf. All the wood-work is of finely polished hickory. The orna-mental work upon each side of the reel en-closes tablets upon which are painted the words "Columbia Hose, No 1," and bearing the typi-cal representation of the Hook and Ladder. It will carry 560 feet of hose. The carriage will be shipped this afternoon for its destination, and will be accompanied by a committee of the "Columbia" of this city. "Columbia" of this city. REMEMBER that the Japanese and Arab combination troupe close at the Academy of Music on to-morrow (Saturday) evening. The great cross rope equipoise feat of Toroo-noskee is well worth the price of admission. It is the most graceful and fearful act ever performed in this country, and can only be appreciated by those who witness it. The feats of the other per-formers have been mentioned. Thisevening, and to-morrow afternoon and evening, will be the final entertainments that will be given, and for final entertainments that will be given, and for these the Arabs have arranged an entirely new and attractive programme. Hadj-el-Sidi-Omar will execute his "Leaps with Knives," and Hadj-Saussen will execute his terrific leap on the stone and double summersault over twenty-six muskets at the moment of firing. The flying trapeze act by the Campomanes Brothers will also be given each evening, together with many other leats of balancing, juggling, and councies by the male and female members of many other feats of channeling, jugging, and equipoise by the male and female members of the Japanese Troupe. By special request the act of Tzeua-Yeroo of walking up a ladder of razor-sharp swords with nude pediculars, will be repeated this evening. This is a truly wonderful performance. Seats and tickets can be purchased at Trumpler's, Seventh and Ches-mentations and at the Asademy of Music nut streets, and at the Academy of Music. THE WEATHER is unpleasant; for notwith-THE WEATHER is unpleasant; for notwith-standing the rain, which all anticipated would work miracles of coolness, the thermometer runs up with its accustomed pertinacity; the air is sultry; the people perspire; and lowering clouds are not at all welcome. As might be expected, but few, and only those by urgent necessity, ventured out last night. The streets were descried by all but the indefatigable street cars, that plough along through rain and more allies. The failing drops keept up their street cars, that plough along through rain and snow allke. The falling drops kept up their unabated violence through the night, worrying luckless wights within, trying to go to aleep, and causing energetic and spasmodic eballitions of wrath from those without; for did they look up, a mimic stream would percolate between their shoulder blades, or did they look down, shirt bosoms and collars allke were satu-rated. To the rain we attribute the scantiness of our police reports, observable, no doubt, by all our readers. all our readers. ROBBERY OF BONDS LAST NIGHT-THE COST OF A LITTLE CARELESSNESS.-Some time during last night, when all good persons-patrolmen, too-were under shelter, the office of Messre. John G. Davis & Sons, spokemakers, established at No. 1028 North Front street, was broken into, and the safe robbed of five one hundred-dollar coupon bonds on the Susquehanna Steam Lum-ber and Lath Mills and Lamber Drying Com-pany. Their numbers are from 809 to 813, in-The safe was neither blown open not clusive. The safe was neither blown open hor picked, but the keys, which some person had left openly hanging rear the safe, afforded the means of an easy ingress into the burglar-proof, and the bonds were taken out and appropriated without difficulty. Business men cannot be too careful of their valuables, for by a little negli-gence they may lose their all.

MERTING OF THE MEMBERS OF THE BAR IN REFINENCE TO THE DEATH OF JOSTAH W. HARMAR, ESQ.—A meeting of the members of the Bar was held at haif-past 12 o'clock to-day, in the Law Library, to take action in reference to the recent death of Jostah W. Harmar, Esq., whe was drowned off the coast of Maine on the path of July. George W. Biddle, Esq., was called to the Chair, and James F. Mitchell was ap-pointed Secretary, J. G. Johnson, E.q., offered the following resolutions:—

The following resolutions:—
Whereas We, the Bar of Philadeiphia, are desirous of giving some expression to our sense of the loss we have sustained by the sudden semoval from our midst of our late brother. Jostab W. Harmar, Eag, therefore Resolved, That we have received with deep sorrow the and intelligence of his death.
Resolved, That we have received with deep sorrow the and intelligence of his death.
Resolved, That we have received with deep sorrow the and intelligence of his death.
Resolved, That we honored and respected him as one peculiarly and admirably litted for our profession by his thorough collegiate training, by his cureful and elaborate preparatory legal education, by his subsequent energetic application and unremitting study, by his quick, clear apprehension and powers of acute reasoning, by his love for his profession. Its theory and practice, and his high appreliation of its duties and ethics.
Resolved, That his uniform courtery, his unassimilation and ethics.

Resolved. That his uniform courteey, his unassum-ing maners, his unassinable, generous disposition, his large-hearted sympathies, his manily, high-toned character, his unawerving rectitude, his deportment as a Christian geotleman, commanded our admira-tion, and endeared him to us as a man. *Resolved*, That, deeply mourning our loss, we also sympathize with his family in their irreparable be-reavement, and as a sight though inadequate ex-pression of our resard for our departed by ther, direct that these resolutions becommunicated to them through a Committee to be appointed by the Chair-man.

Mr. Johnson then spoke eulogistically of the deceased, stating that he graduated at Yale Col-lege in 1855, and studied law in Connecticut, and practised there for a brief period, and was ad-mitted to the Philadelphia Bar upon a certifi-

Robert N, Wilson, Samuel N. Corson, and the Chairman then made a few remarks relative to the merits of the decased. The resolutions were unanimously adopted. Messre Johnson, Wilson, Sellers, Corson, and Bispham, and the officers of the meeting, were appointed a com-mittee to wait on the family and present to them the resolutions.

VIOLATING THE SUNDAY PROBIBITORY LAW .-

George Thomas, who keeps a saloon and lager beer house, was arrested at the northeast corner of Tweifth and Wood streets, for selling liquor to minors on Sunday, Alderman Bos well held him in \$800 hall to answer at Court.

TRAINS TO ATLANTIC CITY .- Persons intending to visit Atlantic City should bear in mind the 2 o'clock P. M. Express on Saturday, and the 7½ A. M. mail on Sunday for that place, leaving Camden on the Camden and Atlantic Railroad

PETTY LARGENIES .- Ann Tallmage was arrested at Seventh and Bedford streets, and Anna Noble at Third and Shippen streets, for engaging in petty larcenies of clothing and the Alderman Tittermary committed them like. to answer.

#### THE WHARF DISASTER - ANOTHER BODY

FOUND.-This morning at an early hour the body of Charles Edwards, who was drowned by the caving in of the Mead alley wharf, was recovered at Almond street wharf.

LINEN DUSTERS.-Dust-proof, fitting neatly at the heck, No one can travel confortably without one. Setting at reduced prices to close out stock. Hay way between Fifth and Sixth streets. Mo. 518 MARKET STREET, Sixth streets. Mo. 518 MARKET STREET, PHILADELPHIA, And No. 600 BROADWAY, NEW YORK. BE All kinds of Summer Clothing, Men's, Youths', and Boys', closing out at very low prices.

EVERY DOLLAR invested in aid of the Riverside Institute not only secures in return more than its value, but also aids in establishing just such a home as is needed for the thousands of poor and distressed orphans of our deceased soldiers and sailors. The Washington Library Company, under whose auspices funds for this purpose are being raised, have, in accordance with the charter granted them by the Legislature, presented a plan, which, upon examination, must meet the approval and hearty indorsement of every one. Stock at one dollar per share is sold, each share or shares being accompanied by a finely executed steel plate engraving, which at retail could not be purchased for less than halt as much again as is paid for the stock. In addition to this, \$300,000 worth of presents are to be distributed among the stockholders. Every share of stock sold. besides being accompanied with the engraving, guarantees one of these presents, a number of which are worth, of themselves, quite fortunes The many well-known and prominent citizens who have allowed their names to be used in connection with this praiseworthy effort of the Washington Library Company, should be a sufficient guarantee to all that every pledge and promise made will be strictly carried out. All are invited to visit the principal office, No. 1225 Chesnut street, and inquire for themselves. ANCIENT FINE ARTS .- To the editor of the New York Herald :- Respecting the relics of porcelain ware found in the late exhumations at Herculaneum, which have been forwarded to the Society of Antiquities in London, whereof your correspondent says the bottle resembling Drake's Plantation Bitters was undoubtedly placed amoung the ruins by the agent of Dr. Drake, we desire to state he is incorrect in every respect. If a bottle was found there bearing our lettering, the language of the Ancient Romans was different from the accepted literature of that day. Our agent has other business than this in Europe, and has not been in Italy at all. No doubt Americans carry Plantation Bitters to Rome; but trying to impose upon a society of Antiquarians in this way seems quite useless. and we do not appreciate the joke. It is unne cessary for us to spend money in Europe while we are unable to supply the demand for these celebrated Bitters here. P. H. DRAKE & Co. Respectfully, BEDDING -Fine Bedding, of all descriptions. Spring Mattresses. Hair Mattresses. Hair Mattresses. Moss and Husk Mattresses. Feather Beds, Bolsters, and Pillows. Made to order by W. HENRY PATTEN, No. 1408 Chesnut street,

WHITMAN'S CHOCOLATE.—The best table Cho-colate for families, hotels, and restaurants is manufactured at the Philadelphia Steam Cho-colate and Cocoa Works, Office and Store No. 1210 Market street. STEPHEN F. WHITMAN.

JONES & THACHEE, Printers, 510 Minor St.

## MARRIED.

DOUGHERTY-WILLIG,-On April 4, 1857, by the Bey, John G. Wilson, V. D. M., Mr. JAMES DOUGH-ERTY to Miss REBECCA WILLIG, both of this city, MORRIS-VOORHIS,-At Nyack, on the Hudson, on the 3d ultimo, by the Rev. Mr. Parsons, assisted by the Rev. Mr. Marvin, Mr. JAMES MORKIS to Mins EVVIE, daughter of William Voorhis, Esq.

# DIED.

BOYLE.-On the 1st instant, MARGARET BOYLE.

BOY LE. - On the 1st instant, all alter a bet a need 23 years. The luneral will take place from the residence of her father, John Boyle, No. 1765 Seybert street, late of Strabane. County Tyrone, Ireland, on Sunday mert-ing, the 4th instant, at is o'clock. Funeral services at St. Malachi's Church. Interment at Cathedral Ceme-tary

EGNER .- On the mat ultimo, CATHARINE, relict EGNER.—On the list ultimo, CATHABINE, relict of the late John Egner, in the 57th year of her age. The relatives and friends of the family ars respect-fully invited to attend the funeral, from her late residence, No, 1016 Richmond street, above Norris, Eighteenth Ward, on Sunday afternoon at 3 o'clock. FAHNESTOCK.—At St. Paul, Minnesota, on Thura' day, July 25, GRACE S. ENSEY, wife of George W-Fahnestock. Her funeral will take place from her late residence, No, 1714 Race street, on Saturday afternoon, the 3d in-stant, at 3 o'clock.

stant, at 3 o'clock. GIBSON, -On the 1st instant, Mrs. MARY A. GIB-SON, wife of William H. Gibson, and daughter of Odelia and the late David Rodgers. aged 31 years. The relatives and rfleuds, Eastern Male and Female Beneficial Society, and Washington Female Native American Association of Southwark, and Ringgold Council, No. 22, O. U. A. M., are respectfully invited to attend her funeral, from the realdance of her hus-band, No. 1916 Otsego street, on Monday afternoon at 3 o'clock. To proceed to the Philanthropie Ground. KELLY-ON the jet instant. In the full home of a

o'clock. To proceed to the Philanthropis Ground, KELLY.-On the ist instant, in the full hope of a glorious resurrection to sternal life. HENRY M. KELLY, aged 62 years. A fond husband and a faithful father. The relatives and riends. Fraternal Division, No. 48 Sons of Temperance: Mount Olivet Temple, No. 14, of Temperance and Honor; and Mount Olive Union, No. 44. Social Temple, and the Southwark Engine Company, are respectfully invited to attend the fune-rai, from his late residence, No. 52 Otsego street, on Sunday afternoon at 4 o'clock. To proceed to St. Paul's M. E. Ground.

LUKENS.-On the alst ultimo, ELIZABETH, widow of Jacob Lukens, and daughter of the late Edward Edwards, Sr., in the sith year of her age. Her relatives and friends are invited to attend her funeral, without further notice, from her late resi-dence, No. 1334 Coates street, on First-day morning at so clock. Interment at Friends; Burying Ground,

STEPHENS, -On the 3ist ultimo, WILLIAM M. STEPHENS, in the 67th year of his age. The friends and relatives are respectfully invited to attend his funeral, without further notice, from his late residence, in Bridgeport, Montgomery county, Pa., on Sunday, August 4, at 2 o'clock P. M. THATCHER. On the morning of the 1st Invest

THATCHER. On the morning of the ist instant, at 10 o'clock, Mrs. ELIZA THATCHER, wife of Jos. B. Thatcher, aged 53 years. The relatives and friends of the family are respect-

fully invited to attend the funeral, from her late resi-dence, No. 1145 S. Sixteenth street, on Monday afternoon at 2 o'clock.

SEVERAL STYLES OF SARDINE OPEN-O ers.-These may also be used for opening Fruit ans. For sale by TRUMAN & SHAW, No. 885 (Eign: inirty-five) Market St., below Ninth.

NEW STYLE EXTRA SAFE NIGHT Latches, with small and convenient keys, and a variety of other styles, for sale at the Hardware Store of No. 835 (Eight Thirty-five) Market St., below Ninth.

LAWN SCYTHES, GRASS HOOKS, SNATHS, Whetatones, Rakes, Plichforks, etc., for sale by TRUMAN & SHAW, No. 835 (Eight Thirty-five) Market St., below Ninth.

JONES, TEMPLE & CO., FASHIONABLE HATTERS, NO. 25 E. NINTH Street, First Store above Chestnut street. [49] I [4 9]

#### Nickel and the Nickel Mines.

Under the above head we find in a late num ber of the Columbia Spy a communication giving an account of a visit to the nicket mines near the Gap, in this county, from which we make the following extracts:-Nickel is a white metal requiring a high temperature of fusion; it magnetic and has a specific gravity of 8'5. It is not an abundant metal, there being but three or four localities of it in the United States, and the only locality where it is profitably worked is in Lancaster county, Pennsylvania, about four miles southwest of the Gap Station, on the Pennsylvania Bailrond. A remurkable fact in regard to this metal is that it forms an important ingredient in most aerolites and in masses of native iron found in various parts of the world, and which are supposed to have had an

about one-half mile north of the mines. The ore is brought here, and roasted in large ovens to expel the sulphur with which it is charged. It is then smelted in a small furnace, somewhat similar to an iron furnace, with a flux of limestone and quartz, the fuel being coke. It is run into "pigs," which are generally porous and friable, and contain a number of impurities, iron, copper, cobalt, etc. The "pigs" are atter-wards broken and crushed, and the metal m this state is shipped to Camden, N. J., to be refined. There are two shafts; the principal or older shaft is one hundred and seventy-five feet in depth, and passes through a heavy deposit of the ore. In order to free the mine from water. a Cornish engine of great power is used, which of itself is an object sufficiently curious to merit

The ore is found imbedded in a hornblende rock of peculiar structure, and is associated with other metals and minerals, some of much interest. We found specimens of carbonate of iron in various forms, sulphate of iron coating the stones all around us, sulphate of copper in places; sulphuret of copper is found in considerable quantities along with the nickel; phuret of iron also shows in some spots. One of the most interesting minerals is the sulphuret of nickel, or Millerite, which is found here and at but two or three other localities in the world. There is a second shaft about two hundred yards from the first, which is about one hundred feet deep, and has been opened but a short time. It intercepts a very fine bed of ore, and

TRIAL OF JOHN H. SURRATT. WASHINGTON, August 2 .- The trial of John H. Surratt was resumed this morning in the Crimi-nal Court, Judge Fisher presiding.

Mr. Bradley, Sr., addressed the jury on behalf of the defense. He hoped he would have been eaved the fatigue of any address upon this CASO. It had been exhausted by the address of his colleague, and for this reason he would be brief in his remarks. The case was a simple brief in his remarks. The case was a simple one. An importance had been given to it which he thought was not warranted. The jury are to try simply the case of a murder of an individual, and are to look only to the charge laid in the indictment. The prosecution have endeavored to enlarge the proportions of the case with a zeal, energy, and, he would as d, vindictiveness that he had never seen encalled. equalled.

It was for the jury to judge why all this ex-traneous matter was introduced. The case, however, needed not extended discussion, for however, needed not extended discussion, for the defense was complete when it was shown the time of Surratt's leaving Montreal, and the time of his arrival in Elmira, and when the cx-plicit account in Booth's diary was read, it should have stopped the mouth of the prosecu-tion, and they should not have called a mana-cled man the most infamous names. This may be a Washington jury, but in a course of forty years' practice, no man has ever before dared to assail a prisoner as this prisoner has been assailed, and any man who would have been guilty of it, could have been frowned upon and put beyond the pale of all respectable lawvers. Has mortal man ever heard such a torrent of abuse as was poured upon the head of this poor man?

Mr. Bradley read from the "Lives of the Chief Justices," to show the opinion held of Lord Coke for his abuse of prisoners, and to show how he had humiliated himself by his conduct.

#### Ship News.

NEW YORK, August 2 .- The steamship Mercedita, having in tow the French monitor Onondaga, which left this port yesterday; also, the French frigate Themis, are all returning. It is supposed that they have been compelled to put back on account of the weather. The wind is moderate from the northeast. The weather is thick and raining outside.

# AN ASTRONOMICAL PHENOMENON.

Jupiter Without His Satellites in August-In the July number of the London Popular Science Review, Mr. Bichard A. Proctor, author of "Saturn and its Systems," directs attention to a phenomenon which is to occur this year. On the 21st of August the planet Jupiter will appear, in telescopes of moderate power, to be unaccompanied for the space of one hour and three-quarters by the satelfites usually seen in attendance upon him. This phenomenon has been so seldom observed that considerable interest is attached to it. Molyneux, on November 12. 1681 (O. S.), Sir W. Herschel, on May 23, 1802, Waltis, on April 15. 1826, and Dawes and Griesbach, on September 27, 1843, are the only observers who have hitnerto seen it.

Mr. Proctor says:-"It cannot be doubted, however, that if the weather be favorable the number of observers who have seen the phenomenon will be very largely increased before midnight, August 23. It will not be wholly as a matter of curiosity that observations will be made on that night. The record of phenomena presented by Jupiter's satellites is a regular part of 'observatory work,' and is very necessary for the improvement of the theory of their motions-an important astronomical subject. A special value is attached to the record of phenomena separated by a small in-terval of time, so that the observations made are fairly comparable, *inter se*, free from the errors arising from variations in clock rates, instrumental degrees and the like instrumental changes, and the like. Now, on the evening of August 21 there will be eight phenomena visible within six bours, viz., the heappearances and reappearances of four satel lites. To observers suitably armed there will indeed, be no less than thirteen phenomena visible within the above-named interval; since of the entrances and exits of the shadows of hree satellites, six phen omena in all, five will be observable with good telescopes." He adds:-"From the relations holding between the motions of the first three satellites, it is impossible that all these bodies should be eclipsed at once but at regular intervals all three are in the same straight line with the planet's centre. If this happen when the sun (and therefore the earth, which, with reference to Jupiter, may always be considered to be close to the sun) is near the same line, these three satellites will be invisible, one or two being eclipsed, two or one (as the case may be) being projected on Jupiter's Such a phenomenon is not unfrequently visible. "That the fourth satellite may be hidden at the same time, it must be nearly in a line with the other three. This relation is not often pre-sented; and, as already stated, the concurrence of this relation with the requisite configuration as respects the snu and earth is an occurrence "A circumstance that tends to render the simultaneous disappearance of the four satellites more uncommon than it otherwise would be, is the fact that the fourth satellite is not necessarily eclipsed or occulted at each con-junction with Jupiter. It may pass above or below his disc or shadow. In fact, this happens on an average in more than one-third of the revolutions of this satellite. This is ascribed by Sir J, Herschel to the greater inclination of his orbit; but this is not the correct explanation. In fact, the inclination of the fourth satellite is at present less than that of any of the others, and the mean value of its inclination is always less than that of the others. The true reason why this satellite so often escapes eclipse is its superior distance from Jupiter. "It is commonly stated that the third satellite cannot possibly escape eclipse or occultation as it passes behind its primary, and must neces-sarily transit Jupiter's disc when passing before the planet. I find, however, that it is just possible for the third satellite to pass clear of Jupiter's disc in the latter case. A conjunction of many favorable circumstances is, however, required, and the phenomenon must be a very uncommon one-much more so, indeed, that that which forms the subject of the present paper, "The following facts will suffice to enable the telescopist satisfactorily to observe the pheno menon of August 21. The planet rises at half past 7, almost at the same moment that the sun sets. At 744 Green wich mean time, the shadow of the third satellite itself passes on to the disc and the satellite itself passes on to the disc at 8.14. The first phenomenon will not be observa-ble, as the sun will not be low enough beneath the horizon nor Jupiter high enough above the horizon. Neither will the second phenomenon nor the entry of the fourth satellite's shadow on the disc, which occurs at 8'17, be easily seen, The other eleven phenomena will be readily seen, however. At 9-19 the second satellite will disappear in the shadow of the planet. At 9-28 the fourth satellite will enter on Jupiter's disc. At 9.57 the shadow of the first satellite will make its appearance, followed in seven minutes by the entry of the satellite itself on Jupiter's disc. At At this time (10.4) Jupiter will be without satellites in telescopes of moderate power, but large tele-scopes will exhibit three satellites on his disc, together with their three shadows. At 11-23 the at 11.49 the satellite itself. At 12.13 the second at 11-49 the satellite itself. At 12-13 the second satellite reappears from behind Jupiter, at 12-16 the shadow of the first satellite passes off the disc, the satellite itself seven minutes later. Lastly, at 12-59 the shadow of the fourth satel-lite, and at 1-04 the fourth satellite itself, passes off lumiter's disc." off Jupiter's disc." MONEY TO ANY AMOUNT LOANED

# Trial of John H. Surratt.

б

[Continued from our Fourth Edition.]

The exhibition in this case, too, Mr. Bradley said, was humiliating and disgraceful to the authors of the abuse. He read from a scene re-ported in the trial of Sir Walter Ralefigh, and compared Lord Coke's abuse, as prosecutor in that case to the abuse localized of Sirverit that case, to the abuse levelled at Surratt by District Attorney Carrington, and contended that there was a decided analogy between the

In that case the Attorney-General dared the Court to grant the prisoner any favor, and in this case the prosecution says to Judge Fisher, if you dare to decide otherwise than as I tell you, I will bring the majesty of the people to Impeach you.

Mr. Bradley protested against any such abuse being heaped upon the prisoner, and hoped this case would be a warning to all future prose-cutors. But the prosecution went further, and said that in a capital case the jury are not to find a general verdict, but are to find a verdict under the direction of the Court. He could not believe his ears when he heard that assertion. The Court is a part of the Government. The Government dictates what the Court shall do, says the gentleman, and the jury must do as the Court/says. He would call the attention of the jury to a Jeffreys and a Scroggs, who hurried men to the scaffold ruthlessly, until a jury was found independent enough to disobey the rulings of the Court, and all England sang with joy.

Mr. Bradley read the history of the latter scene, as depicted in the second volume of "Campbell's Lives of the Chief Justices;" but, said Mr. Bradley, we will come down to our own lives. The jury is bound to receive instruction from the court, but they are to apply that in-struction to the evidence. There is a higher law, as the District Attorney has said, but he did not read that chapter of Romans as the District Attorney had read it, for no mandate could ever make a juror do wrong. Resistance to all oppression was a high duty under all cir-cumstances. He cited from Chancellor Kent to show that the jury must try not only the fact, but also the crime, and that the law and the fact must be passed upon by them. The doctrine promulgated in the case by the prosecution is that of a Justice Jeffreys, who told the jury they must take the law from the court.

#### From South Carolina.

CHABLESTON, August 2 .- General Sickles has removed the police of the town of Sumter, for alleged maltreatment of blacks, and inefficiency, and has appointed two colored and one white policeman to succeed the late incumbents.

United States Marshal Epping was arrested last night on a charge of intending to fight a duel with C. C. Bowen, owing to an abusive letter about Epping published by Bowen. The difficulty grew out of rivalry for the leadership of the Republican party organization here.

here.

Several of the freedmen who emigrated hence to Liberia last year, have just returned, bring-ing very discouraging accounts, and letters from those who remained in Liberia, advising the Southern treedmen against further emigration

#### The Richmond Convention.

RICHMOND, Va., August 2 .- The Convention cassembled on the square at 10 A. M., about 2000 persons being present. Dr. Bayne (colored), of Norfolk, moved that

as the work of the Convention was finished, it now adjourn sine die. Mr. Hunnicutt opposed the motion, but it was

carried.

The Convention then resolved itself into a mass meeting, and was addressed by John M. Botts, who also read an address to the people and a platform, which being submitted to the meeting for its endorsement, was withdrawn, the opposition being violent.

Senator in place of Patterson.

CINCINNATI, August 2 .-- A fire on Bace street this morning damaged a lock factory and paint mill to the extent of \$5000. A Knoxville despatch to the Commercial says

that Governor Brownlow estimates his majority at 30,000. All the eight Congressmen will be radical, and there will be a radical United States

aerial origin. The furnace for reducing the nickel ore is

EMBEZZLEMEST .- William Sparks was before EMBEZZLEMENT. — William Sparks was before Alderman Hurley this morning, charged with embezzling money, the proceeds of one hun-dred and eighty pounds of pork, which had been consigned to him by William Ridgeway, Sparks received the pork at Greenwich, and brought it to this city in the steambost Star, and sold it at the wharf. When called on by Mr. Ridgeway and requested to hand over the amount realized from the sale, after deducting the commission, it is alleged that Sparks said he had no money to give him, and that he did not intend to give him any. The defendant was committed in default of \$609 ball to answer at Court. at Court.

HOTEL PROPERTY FOR SALE AT CAFE MAY .-HOTEL PROFEST FOR SALE AT CAPE MAY.-Attention is called to an advertisement in another column, of the proposed sale of the American House Hotel Property, at Cape Island, New Jersey, on Saturday, Angust 3, 1867, at 4 o'clock P. M. This house is in excel-lent condition, with a large custom, and would make a profitable investment.

Government securities taken at the full market price in exchange for them. Full particulars and pamphlets on application to DE HAVEN & BRO... 7 30 im 59 No. 40 South THIRD Street.

is paying very handsomely. In regard to the yield of ore, we could not make very accurate estimates. We were told that the furnace yields about four thousand pounds of metal each twenty-four hours. The mines were discovered many years ago, and about the time of the Revolutionary war were worked for copper, but were soon abandoned. the crude machinery of that period being ill adapted to working them profitably.

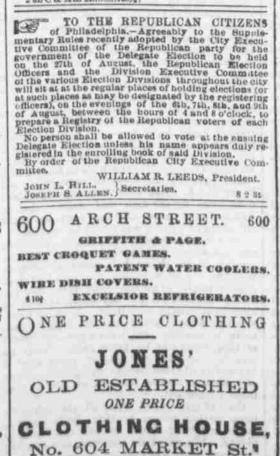

Two generations had passed away, and the circumstance had been forgoiten, when about fifteen years ago the mines were reopened by a company of capitalists from Philadelphia, since which they have been steadily worked. They were reopened with the view of obtaining copper, but the ore was soon discovered to be richer in nickel, a more valuable mineral; and since then they have been worked for that metal exclusively. The introduction of nickel cents by the Government, and the war, which rendered small change so scarce, gave great impetus to these works.
