THE TENTH WARD IN SELECT COUNCIL.—The peceraity for an election of a Select Councilman by this ward is leading to a very active canvass, the certainty that the Republican condidate will be elected being a foregone conclusion.

On Saturday night a very large and highly respectible meeting of citizens favorable to the renomination of Joshus Spering, Esq., the present representative of the ward, and the able President of the Chamber, was held at the Armory of dent of the Chamber, was held at the Armory of the Gray Reserves, Broad and Race streets. Mr. Caleb H. Needles was called to the chair.

Upon taking his seathermade a neat speech, pointing out that the curse of the great Republican party was the perty politicians by whom it is injested. Mr. Spering had proved himself so much to the contrary, and, eschewing all other honors, had so devoted himself to the interests of his ward and Philadelphia, that he felt sure the citizens would renominate and re-elect him to his present

The following other officers were appointed: Vice Presidents—A. R. De Haven, First Divi-sion; Wm. H. Mr. Charles Pryor read the following resolutions, which were unanimously adopted:

Whereas, The time has arrived when, in consequence of the expiration of the term of office of our present worthy and efficient representative in Select Council, Joshua Spering, Esq, it is incumbent on us to nominate a candidate for that post to place before the people of the Tenth ward at the

ensuing election.
And whereas, We feel that unfair means are being used and corrupt practices resorted to for the purpose and to the end that the legitimate choice of the Union Republican voters of the Tenth ward may be overborne and defeated; therefore, Resolved, That we Republican citizens of the Tenth ward, in mass meeting assembled, hereby declare our earnest approbation of the past of-ficial course of Joshua Spering, Esq., Represen-tative in Select Council, and that by his nonorable, straightforward and upright conduct, he has endeared himself to his fellow-citizens, won the confidence and respect of those by whom he was elevated to the post he now so worthily occupies, and is eminently deserving of renomination and re-election at our hands.

Resolved, That we view with feelings of just indignation the attempt of a political clique to prevent the will of the majority being asserted, as is witnessed in the willuly false and malicious charges, the unscrupulous conduct, the non-compliance with the rules governing the party, evidenced by the withholding of the registry lists of the voters of the Union Republican party; and finally, the action of Tuesday evening last, in the attempt to deprive us of our rights and privileges according to both custom and the law, which attempt, in our jadgment, was an outrage upon and a direct defiance of the people—all tending to prove a deliberate determination to stiffs by fraud the voice of a large majority of the Union Republican voters of the Tenth ward.

Resolved, In consequence of the foregoing reasons, we call mon the friends of truth and justice.

sons, we call upon the friends of truth and justice, upon all who are favorable to the recognition of valuable services, rightfully understood and thoroughly appreciated, to come forward and sustain us in our endeavor to rebuke the attempted dictation assumed by the fee, at the sacrifice of the wishes, rights and intents of the many, and that we believe that rebuke can be best administered by the renomination of our present worthy representative in Select Council, Joshua Spering, Esq., and with that belief we hereby

pledge ourselves to give him our hearty and manimous support. George D. Bertram, Charles Pryor, and Thomas J. Worrell, Esgs., followed in handsome speeches and the meeting adjourned to serenade Mr. Spering at his residence, Vine street, above Sixteenth Several airs were performed by the Liberty Cornet Band, and speeches were made by several of the participants in what was a merited and genuine compliment.

THE NEW NAVAL HOSPITAL .- The United States government is now building an United States Naval Hospital, which, when completed, will render it a rival to the celebrated one at Green-

wich, in England.

A year ago the Chief of the Bureau of Medicine and Surgery, Dr. P. J. Hownz, U. S. N., contracted with Mr. Richard J. Dobbins, on behalf of the United States government, to erect upon the present site upon the banks of the Schuylkill selected for the purpose, the immense structure which is already under roof and rapidly in progress toward

The locality is immediately in the rear of the present asylum, at the junction of Shippen street with Gray's Ferry road. The building comprises a centre edifice, with wings and return wings, pre-senting a frontage of imposing and massive ap-pearance. A Mansard roof, with ornamental dormer windows, topped by a bronze railing, surmounts the whole. This roof is "broken up" in a manner which is a lasting tribute to the originality and good taste of Mr. John McArthur, the architect of the affair. The centre building and extreme wings, being higher than the intervening parts the affair is in all represents rich and impress. parts, the effect is in all respects rich and impressive. Viewed from a distance, and the effect of a cluster of buildings is perfectly produced.

The interior arrangements are most convenient.

The work of the builder is stately and handsome.

The basement is divided into dining halls and culinary departments, bath rooms, depositories for fuel, and the apparatus for warmth and the circu-lation of fresh air. Upon the first floor are the usual reception rooms, apothecary's and sur-geon's apartments, patients' rooms and kitchens. The frontage is 463 linear feet in extent, and the space afforded is handsomely sufficient. The government has been liberal in its provision for the worn-out or invalid veterans of the forecastle, and the whole work is being performed under the personal supervision of Surgeon W. S. Bishop, U. S. N. To the very smallest details this officer gives his personal attention, and when are taken into consideration the many splendid buildings erected by Mr. Dobbins, it may be taken for granted that the completed structure will be something to reflect credit alike upon the government and upon the gentlemen by whom the eplendid pile is called into existence.

The stairways of the building throughout are all iron, while water is brought into the remotest part of the premises from tanks upon the upper stories. There is a separate building to contain eagine and boilers, and the laundry and engineer's quarters will also be under its roof. Taken as a whole, we cannot see how any improvement upon Mr. McArthur's plan can by any possibility be suggested. The whole marks the progress of the era, and to the mariner, worn out in the service of his country, it must abundantly refuse the idea that this try, it must abundantly refute the idea that this republic is ungrateful.

TROUBLE IN OIL TRANSACTIONS-FUGI-TIVES FROM JUSTICE AGAIN IN CUSTODY .-Detective George H. Smith left the city last evening for Harrisburg, to obtain a requisition from Governor Geary for the return of Augustus H. and William H. Tack, who are now in custody in the Tombs, New York city, to Philadelphia. It seems these parties are brokers and dealers in petroleum, being chiefly engaged in the purchase and sale, on commission, of oil for exportation to Europe. It is alleged that they, acting as confidential agents for Mr. James O'Connor, ex-President of the Fourth National Bank, Pittsburg, secretly combined to deceive him and other parties by mak ing a large number of contracts in oil, to be supplied on what is known as 'buyers' option;" that in place of calling for the oil from time to time, as is usual in the course of trade, they did by preconcert, simultaneously call for the whole of the oil so contracted for at a time whea it was most difficult to supply it, and when, from the condition of the market, the parties bound to supply it were in the expectation of being called upon, thereby causing an apparent scarcity of oil, and consequent advance in its

Mr. O'Connor alleges that in June last, upon the representation of the Tacks that the market was going to be glutled, and consequently a fall in price, helauthorized them to sell at current rates about 16,000 barrels of oil, ou time contracts, deliverable in equal instalments, in July, Angust, September, October, November, and December, and on "buyers' option;" that they placed the contracts with other brokers, and, at a preconcerted time, a simultaneous call was made upon all the "buyers' option" contracts, thus causing a rapid advance in price, and Mr. O'Connor states that, being bound by these contracts to deliver the oil, he was a loser to the extent of \$30,000. He preferred a charge of conspiracy to defraud him against the delendants on Thursday last, and Delectives Smith and Elder proceeded to New York to arrest them. A

writ of habeas corpus was sued out there, and udge Barnard ordered a discharge of the soners, there being no requisision from the Governor of this State. On their release they were rearrested by the above detectives, and being charged with being jugitives from justice, Justice Kelly committed them for an examination on Wednesday next, when the requisition will be

THE HAMILL-MYERS BOAT RACE ON THE DELA-WARE.-Some time since it was stated in THE EVENING TELEGRAPH that a skill race, between Mr. Hamill, the champion carsman of Pennsylvania, and Mr. Myers, the present champion of the Delaware river, was to take place near the city some time in the month of September. The circumstances out of which grew the challenge from Mr. Myers to Mr. Hamilt are well known. Mr. Myers, after his conquest of Mr. William Glenn, in his late race on the Delaware river, sent a challenge to Mr. Hamili to row him a five mile race. The latter was to have the choice of time and place. The boat chosen is a fifteen feet The prize is \$1000.

This style of boat is something new for Mr. Hamill, but after visiting this city, and examining the boats and the river Delaware, he has accepted the challenge, and decided that the race shall come off on the 12th of September, 1867; the starting point to be from Bridesburg; to proceed two and a haif miles down the river and back. It is thought by the sporting com-munity that as Mr. Myers has had such a long experience in this style of boat, that Mr. Hamill will meet more than he will be prepared for. Mr. Myers is now under training, and is stopping at the house of Mr. George W. Simons, in Richmond street, above Paimer. It is under-stood that Mr. Thomas Dickson, at Bridesburg, has kindly offered the hospitalities of his house to Mr. Hamill while remaining in this city.

Previous to this trial of skill and strength with Mr. Myers, Mr. Hamill has a race pending between himself and Mr. Brown, to take place on the Hudson river, on the 6th of September next. After the conclusion of that race, he will visit Philadelphia and prepare himself for the one with Mr. Myers.

A MUTINOUS CREW .- About half-past 1 o'clock on Saturday afternoon, while the ship Lizzic Moses was lying in the Delaware, opposite Gloucester, getting ready to make sail, the crew mutinied. The men had recently entered into an agreement to accompany the vessel to her destination, which was Hamburg, but when just about to start off, they had imbibed too freely of whisky, and were very unruly. They complained of the "grub" not being good, and, at the command of one of the men, the crew assembled on the quarter-deck, armed with pickaxes, spikes, knives, etc. The first mate, Mr. Fields, was badly beaten, and a seaman named J. Hamilton, who took sides with the mate, had his head split open with a capstan bar. The melee was seen from the shore, and word was despatched to the city. A squad of policemen, under the command of Lieutenant Edgar, proceeded down the river and brought up to the city fourteen of the mutineers, secured in irons. They were all locked up in Moyamensing Prison. There are two sides to every story, and these men claim that they were justified in their actions. A hearing before a United States Commissioner will determine whether this be or be not the case. The following are the names of some of the mutineers brought to the city:—William Thompson, Edmund Morey, George Burnett, Edward Eaton, George Gore, Hughey Dou-gherty, John Sleven, John Smith, and Wil-liam Hargoes. The Lizzie Moses is commanded by Captain Cox, and is loaded with coal oil.

In consequence of the total wreck of the steamer Corea, at night, on her passage from Hong Kong to Yokohama, in January last, on a sunken rock supposed to exist about one mile and a half to the southward of Fiat Reef, one of the dangers near Breaker Point, on the east coast of China, and which rock did not appear on the Admiralty charts, the neighborhood of this point has been closely examined and sounded. The following information relative to this examination has been received from Mr. J. W. Reed, Master, R. N., commanding H. M. surveying vessel Rifleman, 1867.—

R. N., commanding H. M. surveying vessel Rifleman, 1867.—
Cohea Rock—A pinnacle, having but fourteen feet water over it at low water spring tides, and six fathoms around, lies two-thirds of a mile SW. ½ S. from Flat Reef, with the apex of the islet westward of Flat Reef bearing N.NW. ½ W. distant a little over a mile: Dome Hill NE. ½ E., a little over two and one-half miles; and Breaker Point NE. by E. ½ E., distant two and one-half miles.

From the three fathoms spot the apex of the left westward of Flat Reef bears N. by W. ½ W., distant a little over a mile; Dome Hill NE. ½ E., two and three-fourths miles.

SUNK Rock has but seven feet water over it at low water aprings; it is the shoalest part of a rocky patch about a cable in extent. From this rock the apex of the islet westward of Flat Reef bears N. ½ E., distant half a mille; Dome Hill NE. by E. ½ E., two and one-quarter miles; and Breaker Point E. by N. ½ N., two and eight-tenths miles.
