POSTERITY will certainly do honor and bless these who were instrumental in erecting and endowing such an institution as the Riverside Institute of New Jersey promises to be. Intended as a home for the gratuitous education of Soldiers' and Sailors' Orphans in all parts of the country (it being prohibited by the charter that any one section shall be more favored than the other), its claims are equally great upon all. It will be just such an institution as were our Refreshment Saloons during the dark days of the Rebellion. Here were fed thousands of brave fellows from every loyal State, who were hastening forward to their country's call; and now it is proposed to care for the children of many of these same patriotic men, who freely gave up their lives in defense of the old flag. All will be welcomed within the walls of this new National Asylum, as all were welcomed at the Refreshment Saloons. The subscription to the stock now being sold for this benevolent object is increasing daily. The names of the wellknown citizens who have agreed to act as the trustees should be a sufficient guarantee that every pledge and promise made to the stockholders will be carried out to the letter. The principal office, No. 1225 Chesnut street, is open from 7 A. M. to 10 P. M.

TORTURE .- Who would endure the torture arising from Chills and Fever, when it can be easily cured?

Who would endure sleepless nights, burning fevers, and loy chills alternately, when a remedy can be obtained for a trifle?

Who would wander like an uncertain shadow, never knowing what moment they may be

prostrated? Who would be a burden to himself and a bur

den to his friends, who are worn out in administering to his wants?

Who would live this life of agony when the great alterative and tonic,

This long established and justly renowned medicine has never been known to fall in a single case, and none but the foolish and weak would hesitate to procure it at once, and save themselves from intense, life-long torture. Prepared after a long experience and deep study, it has received the encomlums of the most eminent physicians, as well as all classes from every part of the country. UNITED STATES DISTRICT COURT - Judge Cadwalader-Charles Gilpin and John K. Valentine, United States District Attornoys. - The Court met this morning to resume the bushness of the term, which was begun hast week, but, because not quife ready, was broken into by an adjournment from Wednesday last to this morning. The United States vs. One Still, etc., Fenry Miller, claimant. The claimant admitted that there was a sufficient cause of forfeiture, and therefore offered no evidence. Verdict for the United States. The United States vs. Gin, etc., John Bayle and John Blundell, claimants. The United States offered no evidence to resist the claim, and therefore a ver-dict was taken for the claimant. The United States vs. Whisky, etc., George W. Smith, claimant. In this case the District Attorney stated that an examination of the facts had proven that the cause of seizure was but an unintentional omission on the part of the claimants. The United States. Ver-dict was not a case that should be pressed by the United States. He would, therefore, offer no evidence. Ver-dict for the claimant. The United States vs. 99,000 Cigars, etc. Frederick Stahl & Brothers, claimants. This was an informa-tion of the seizure of clgars and other property, chiefly tobacco, by the Collector of the Elighth Dis-trict, at Reading, Pa., for an alleged violation of the sevenue inw. The United States at Reading, in fail-ing to pay the tax on their goods and making faise returns to the authorities, and hor these causes the United States claimed that the property seized should be iorfeited. Diller B. Graff. Assistant Assessor of the Fifth Divi-

Graff, Assistant Assessor of the Firth Divi-sion, testified—The claimants' picce of business was in his division, at Reading; on the soth of March last he seized their stock of goods, suid on the last of April ne examined them; he found 60,000 cigars that wers not of their own manufacture, and from some of the boxes containing these the stamps had been torn, and upon others the stamps had been server prior to the seizure, thus using the older and less expensive stamps, upon pretense that the goods were manufactured before the act, under which this seizure was made, went into operation; he also found 20,000 cigars, some stamped and some not stamped; on some of these boxes the stamps were not broken, but the bottoms of the boxes were out. Then being asked as to the pertuency of this testi-mony, the District Attorney stated that he proposed to follow it up by showing that these boxes were used frequently between the claimatis and their cus-toms, and by means of them cigars were repeatedly manufactured and shipped away with the same iden-tical stamp on each lot. The witness then resumedi—That there were also other boxes, with the exception of having no nalls in the bottoms, the bottoms were fastened to the sother boxes, with the exception of having no nalls in the bottoms, the bottoms were fastened to the sother boxes with the each sould be taken out and removed; the boxes the call mericus in the case of havenily-made boxes the call as report inside; some of these boxes have appon them, issued before the manufacture of the eigens, set to the othor hoxes, would be a high estimate. I regret that the article herein mentioned has already gained a wide circulation both in the United States and in Europe, though it was natural it should, as it bore the signature of one of the leading men of this country. How-ever, in order that such a calumny against General Escobedo personally, and against all Mexicans generally, should not go abroad un-contradicted Look the trouble of requestincontradicted, I took the trouble of requesting Governor Gomez, as being the gentleman said to have received this imaginary document, for to have received this imaginary document, for an explanation. It affords me great pleasure to inclose you herewith a transistion of the answer to my inquiries, received from Mr. Gomez on the 6th instant. By the communication of Governor Gomez, you will perceive that the so-called official letter of General Escobedo, as published by the *Ranchero*, is a falsehood, a fabrication, and a libel, invented and published by that paper for the unworthy purpose of calumniating Mexico and the Mexicans in the eyes of the civilized world, by attributing to her most distinguished defenders a narrow-minded and selfish policy which they have minded and selfish policy which they have never for a moment entertained. As long ask a journal antagonistic to republicanism confines itself to the mere fabrication of fictitious news of the country, or to the exaggera-tion of what contains a shadow of trouble, there is no reason to take notice of it; but when a periodical so far forgets its dignity and honesty as to descend to the commission of the crimes of forgery and libel (as has been the case here) orimes indictable and punishable by the laws of all lands-I should say it would be justitable to put a stop to such outrages against the community, public opinion, and common decency. I am aware that the free institutions of the

United States give every reasonable scope and latitude to the press of the country. It is right that it should be so, yet surely it can never be a good thing to permit irresponsible editors to run riot with their neighbors' fair fame, even to the extent of faisifying signatures, without calling them to an account for their reckless conduct

Even the continuance of such an abuse as that Even the continuance of such an abuse as that here spoken of could never create an estrange-ment between our two Governments, but the circulation of such libels tends to impress the people of the United States, whom we look upon as our particular friends and sympathi-zers, with the idea that the Mexicans are averse to foreigners eaching homes in this result. zers, with the idea that the Mexicans are averse to foreigners seeking homes in this republic, Quite the contrary is the case, I assure you, for every intelligent Mexican whose opinion is worth having, fully recognizes the importance of immigration and the advantages of an in-creased population to assist us in developing the immense resources of our virgin soil. We are now more than ever desirous that all indus-tions foreigners who choose should make their trious foreigners who choose should make their homes in our country, identify themselves with its interests as adopted citizens, and share with us the same libertles and free institutions which we have which we have conquered for ourselves. Inde-pondence and liberty. FELIPE B. BERRIOZABAL

CONANDANCIA MILITAR DE LA LINEA DEL COMANCANCIA MILITAR DE LA LINEA DEL BRAVO, Y DISTEITO DEL NORTE DE TAMAULI-PAS.-GOVERNMENT AND MILITARY COMMANDAMENT of the State of New Leon:-In the Piczynne of the 24th of July last, and in other periodicals of the United States, there has been reproduced a letter invented by the Ranchero, a daily pub-lished in Brownsville, and which is supposed to have been written by General Escobedo and directed to the undersigned. The bad faith and barefacedness of that periodical, the Ranchero, in feiering news contrary to the reoublic and barefacedness of task periodical, the Kanchero, in feigning news contrary to the republic and isjurious to her most prominent defenders, are well known to you and to all who are ac-quainted with the events of my country. Not-withstanding now that it is dared to publish as being true a document written by any of these black but to year clearly that the inner is being the but to say clearly that the injury is manifest, and that such document is false and fraudulent, its publishers not being able ever

fraudulent, its publishers not being able ever to prove its existence or origin. Thus, General, the document said to have been written to me by the same General Esco-bedo, and which commences with these words —"The execution of the traitors," and concludes with "God and liberty," all contained in said supposed letter, is nothing more nor less than a continuation of falschoods raised against the
